  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

### Items to Note

- PSA video sent out to Flint citizens on resources available.
- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount

- 2,500 – PUR Horizontal mount
  - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR replacement filters (3 pack)
    - 10,000 – PUR replacement filters (single pack)
  - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
    - 10,700 – PUR combo packs
- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter
- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week
- Second warehouse – Located in Flint
  - 100,000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13
- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.
- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions

- 112 Filters
- 3 Pitchers
- 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.
- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

---

### Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

### Attached Documents:

- SitRep 6

### Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

### Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff will be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

### Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.

- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

#### Update 1/10/16

#### Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engaged in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.
  - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
  - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
  - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
  - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property...."***
  - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***

- Direct federal assistance= *what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.*

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
  1. Ensure all households within impacted community have required resources.
  2. Ensure accurate tracking and accounting of all commodities.
  3. Improve and maintain public information strategy.
  4. Develop a long term public health and services plan.
  5. Ensure adequate staffing to support operational requirements.
  6. Identify possible assistance programs.
  7. Develop an approved GIS strategy.
  8. Maintain coordination between partner agencies and organizations.
  9. Enhance situational awareness and common operating picture of all activities.
  10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
  - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
  - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
  - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.

- Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
- We have ordered an additional (expedited delivery with ETAs tomorrow)
  - 40,000 Brita Filters
  - 40,000 Brita Replacement Filters
  - 1000 Zero 8-Cup Pitchers
  - 1000 Zero 8-Cup Pitchers
  - 2000 PUR Replacement Filters
  - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

### Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the following occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

### Fire Station Inventory Levels:

#### Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

#### Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

#### Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

#### Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

#### Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

#### Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

#### Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

#### Signage:

- Provided information to SEOC on signage requirements at the fire stations.

#### Storage:

- Researched storage spaces; established temporary site at GCCARD.

#### Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

---

#### Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our *filter distribution map*. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

#### Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.

- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
  - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the “who can get water and filters out first” when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor apprised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
  - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
    - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
  - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
  - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
  - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

#### MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

#### Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

---

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR’S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

#### Items to Note

- Two FEMA LNO’s arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver

the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
  - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
  - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
  - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvassing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.
- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

---

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

**Items to note:**

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.

- The website, [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

#### EMHSD GIS:

##### Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

##### Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

#### UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

#### Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
  - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
  - MDHHS – Elevated Blood Lead Levels
    - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
  - MDEQ – Water Testing Protocols

- Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

#### EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups

- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

**From:** Kelenske, Chris (MSP)  
**Sent:** Tuesday, January 05, 2016 6:06 PM  
**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3<sup>rd</sup> District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

# Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

## Operational Period

Operational Period Begin: 01/19/2016 08:00:00  
Operational Period End: 01/26/2016 08:00:00  
Situation Report No. 13  
SEOC Status: Full  
SEOC Hours of Operation Begin: 01/18/2016 08:00:00  
SEOC Hours of Operation End: 01/18/2016 20:00:00

## Executive Summary

SEOC Update:

Accomplished today (January 18):

The SEOC continues to provide:

- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

• Logistics:

- o Secured email and phone booster for warehouse.
- o Worked with FEMA to order water and filter cartridges.
- o Worked with DHHS to order filter pitchers for distribution.
- o Meetings with FEMA and ARC
- o *Coordinated resources and needs with donations management.*
- o Working with Red Cross to provide relief teams for warehouse manager.
- o Continuing inventory monitoring and hot shots tracking.
- o Projecting future orders of water resources and commodities.

• JIC:

- o ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- o Media availability conducted today at 3pm at the VRC.
- o News release with daily numbers released this evening.
- o Social media covered state and local volunteers in the field today.
- o FEMA external affairs in JIC today.

• Recovery Branch:

- o Sent out 12 type 3 and 10 type 5 teams to canvass today.
- o Data is for 1/18/16 as of 5:00 pm:
- o Total homes visited
  - 11,841 (total)
  - 5,040 (today)
- o Door Hangers
  - 8,452 (total)
  - 2,083 (today)
- o Water Cases
  - 5,008 (total)
  - 1,411 (today)
- o Replacement Cartridges
  - 3,468 (total)
  - 529 (today)
- o Faucet Filters
  - 8,441 (total)
  - 1,866 (today)

• Planning Section:

- o Lead morning and afternoon state agency conference call.
- o Coordinated logistics of resource tracking.
- o Developed projections based off of reporting and trend analysis.
- o Published Sit Rep # 13.
- o Published IAP #6
- o Participated in distribution process meetings.
- o Participated and facilitated tactics meeting.

• Operations Section:

- o Resource request sent for MIANG assistance to deliver water, filters, test kits, and replacement filters to residents.
- o Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- o Arabic version of the palm card was reviewed and approved by command.
- o 62 American Red Cross Volunteer active across incident today.

- o Warehouse Numbers:
  - Clio St Warehouse (6pm inventory)
- Replacement Cartridges,
  - o 60,636
- Filters (faucet)
  - o 70,855
- Water (cases)
  - o 149,760
- Testing Kits
  - o 800
- o Point of Distribution (as of 6 pm)
  - Contacts
    - 1249
  - Water (cases)
    - 8355
  - Filters (faucet)
    - 1388
  - Replacement Cartridges
    - 378
  - Filters (pitcher)
    - 53
  - Test kits
    - 1773

• Finance Section:

- o Assisting MIANG with hotel logistics for possible deployment to Flint.
- o Continue developing spend plans.
- o Work with FEMA to determine costs for possible reimbursement for Flint emergency.
- o Meet with FEMA IMAT about Public Assistance.

• GIS Branch Updates:

- o Continued producing maps of lead service lines (40% complete with primary effected area)
- o Developed a map of comparative activity for the JIC from pre-response to post-response.
- o Established metrics to measure percent completion of resource distribution. The following two are from today:
  - o Active Water Subscribers confirmed as Having a Filter: 13164 of 29994 total subscribers (44% coverage)
  - o Total parcels confirmed as having a filter: 15364.
- o Multi-tenant home status: Cannot be completed now, planned to be researched and established tomorrow.
- o Fixed data from apps and paper copies of field team reports and PODS.

DTMB:

- Additional 30 iPads will be sent to the teams for tomorrow.
- 2 cell phones procured for DHHS donations management.
- Working to secure space in Flint for FEMA staff.
- 2 port-a-johns procured for warehouse staff.

DHHS-CH:

- The CDC Agency for Toxic Substances and Disease Registry (ATSDR) will deploy to Michigan.
- Continue to work on items for procurement of DBH.

DEQ:

- 7200 sample bottles scheduled for delivery tomorrow.
- Pushed up delivery of 20,000 bottles to meet demands.

Local EOC Update:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

### Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

**Damage Assessment Summary**

**Agency Summaries**

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 8 p.m. on Jan. 18.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks Completed:

- Updated internal talking points to include updated information and activity.
- Arranged a media availability event at the Volunteer Reception Center located at the American Red Cross office on Grand Traverse St. Event. The event was staffed by the United Way of Genesee County, the Michigan Community Service Commission and the American Red Cross of East Central Bay-Michigan.
- Sent out a news release for the American Red Cross about volunteer efforts.
- Arranged to have a section for a photo gallery on the Flint water website.
- Updated the ICS204 form.
- Sent an email to the State PIOs for staffing the JIC for this weekend through next week.
- Planning to send out nightly news release with updated information about today's activity. The release will also include the flint water response team activity map.

#### **Agriculture and Rural Development (MDARD)**

Monday Jan 18th update: monitoring mode; planning for field activities this coming week.

#### **American Red Cross (ARC)**

The assembly of water test kits at ARC headquarters was postponed until product is available. We deployed and supported 10 teams for neighborhood canvassing (Water Response). 10-14 teams are planned for tomorrow. We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow. The volunteer reception center (VRC) was in full operation today. The VRC will be in operation on Tuesday. We continued warehouse and inventory management efforts.

#### **Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities. Also monitoring media and coverage of rallies and events.

#### **Community Health (MDCH)**

Communications have been maintained between the SEOC and the CHECC, which remains activated at a level 2.

The CHECC was notified that the CDC Agency for Toxic Substances & Disease Registry will have a team of 3-5 people in MI as early as Wednesday this week. This team is coming to MI to provide technical assistance as part of their regular mission. Details are still being worked out with the MDHHS Division of Environmental Health. FEMA and SEOC Incident Command have been made aware.

The CHECC provided an update from the Midwest Kidney Network (ERSD Network 11. "At this time, no dialysis related ramifications have been identified or reported to Network 11" for this at-risk population. The information was shared with LARA as the licensing agency for dialysis centers.

EMpower data has been received which identifies individuals who are dependent on electrical medical equipment in the home. The data is being cleaned for redundancies and will be able to be compared with other data sets to ensure that those at-risk individuals are not missed by the Flint Water Resource Teams that are distributing resources door to door.

The CHECC continues to work with the Behavioral Health and Developmental Disabilities Administration (BHDDA) to address behavioral health needs associated with this incident in collaboration with CMH and SAMHSA.

#### **Corrections (MDOC)**

Brent Travelbee and Todd Bechler on duty SEOC today. All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution; additional request's today for re-allocation of hand jacks, a replacement electric jack, an additional box truck and 2 more transportation vans have either been filled or are in progress set for Monday morning delivery. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested.

**MDOC RESOURCES PENDING DEPLOYMENT: Monday, January 18, 2016**

**Vehicles with Drivers**

- (2) – 18' Box Trucks
- (4) – 20' Box Trucks
- (2) – 24' Box Trucks
- (1) – 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

**Box Trucks have power lift gates**

- (1) – F250 Pick Up Quad Cab with Cap
- (1) – 5 Passenger Handicapped Capable Van
- (1) – 15 Passenger Van with 10' Enclosed Trailer
- (1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

#### Staffing

There will be 24 staff members on site 23 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

#### Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

#### Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Another 21,600 bottles for test kits ordered. This totals 50,400 bottles expected to ship in variable allotment beginning tomorrow.
- Participated in SEOC activities to include the daily state agency briefing and the Distribution Process meetings.
- Responded to 211 calls regarding ZeroWater, TDS Meter testing of canned water and facilitated pick up of cans and resupply of bottle water to concerned parties.

#### Human Services (MDHS)

Looking for availability of Zero Water pitchers per resource request.

Received two cell phones for MCSC to assist with their donation management processes.

Looking to provide a conference room at MDHHS Clio Rd for MDARD inspector training on Wednesday.

CHECC continues to maintain a Level 2 Activation

#### Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

DTMB reordered two additional bubbler for the Freeman Elementary faucet replacement pilot project. These bubblers are expected to arrive tomorrow (Tuesday, Jan. 19). LARA will then coordinate with Freeman Elementary to finish the construction work. After that work is complete, LARA will coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA communicated with the DEQ LARA's resource availability to assist with water testing.

#### Military and Veterans Affairs (DMVA)

Last 24 hours:

Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. Outer Drive, Tipton, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:  
at Genesee County EOC

at Joint Information Center  
? at PODS  
: Soldiers in-processing

**Next 48 hours:**

Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of 67 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook  
CPT IN USA

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

**Natural Resources (MDNR)**

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:

Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles  
President, CEO  
Valley Area Agency on Aging  
225 E. Fifth Street, Suite 200  
Flint, MI 48502  
(810) 239-7671  
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

**State Police (MSP)**

Teams have been distributing water all day. 5075 homes have been visited today.

12:43 p.m. - The SEOC may be requesting additional Troopers/County or Local Officers along with marked patrol vehicles to assist with the Door to Door Operations with the National Guard starting tomorrow (1-19-16). The SEOC is still waiting for the Governor to approve the use of National Guard personnel.

5:13 p.m.- The Governor has approved the use of the National Guard for the Door to Door Operations in Flint. The Local EOC was advised to proceed with the planning process for obtaining the additional Troopers/County and or Local Officers with marked patrol vehicles to assist the National Guard. As stated below, they plan on deploying 20 teams on Wednesday 1-20-16.

There will be National Guard personnel arriving on Wednesday (1-20-16). If the National Guard personnel will be boots on the ground assisting with the Door to Door Operations and I will be National Guard Command Officers. Upon arrival the National Guard personnel will report to the local EOC for briefing and will be deployed into the field using Michigan Department of Corrections transport vehicles.

The ICS 208 was created for 1-19-16 thru 1-26-16 to include updated weather information provided by the National Weather Service.

We had 12 Teams that were deployed today, utilizing 16 trucks (four were utilized for replenishing the team trucks) 110 volunteers, of which 103 were confirmed to be State Agency volunteers.

#### **Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

#### **Technology, Management and Budget (MTMB)**

Provided management briefing and information on emergency declaration.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.  
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.  
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.  
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.  
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.  
Providing printing needs for agencies for volunteers to distribute to city residents.  
Provided armed security for Clio Rd. warehouse.  
Providing server monitoring of MiCIMS servers.  
Provided wireless router and printer for FEMA staff at SEOC.  
Acquired a Verizon Wireless booster for the Clio Road warehouse.  
Procured hand warmers for Water Response Teams.  
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.  
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.  
Provided 2 portable bathrooms for use at the Clio warehouse.

#### **Transportation (MDOT)**

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

**Subject:** RE: Flint proposal  
**Attachments:** FWATF proposal 12-3-15.docx

Col

Given our uncertainty with respect to the use of EMPG funds, if EMPG funds are still the direction they want to go then we recommend submittal of the proposed project with additional clarifying detail which establishes an emergency management link to FEMA for 1) determination of eligibility under the EMPG and 2) modification of the FY 2015 EMPG Program Work Plan.

Below is our analysis on the use of EMPG funds for the proposed Flint communications project. We conducted an informal discussion with FEMA Region V to gain their perspective as this does fit into any existing EMPG projects so we will have to submit to FEMA for approval. They advised the following:

- Further detail is needed to make a firm decision. What type of messaging will be taking place? Is there a clear link to emergency management.
- The project does not appear to be within the mission of the grant program.
- FEMA is unaware of funds being used similarly in the past.

In order to qualify for funding under the Emergency Management Performance Grant (EMPG), this project requires submittal of a request to the Federal Emergency Management Agency (FEMA) for an amendment to the current Scope of Work. The Fiscal Year (FY) 2015 EMGP Notice of Funding Opportunity Announcement and 2 CFR 200.308 require that only activities and projects included in the FY 2015 EMPG program Work Plan previously submitted and approved by FEMA may be funded without prior written consent. activities and projects unrelated to the completion and implementation of the EMPG Program are not allowable.

To be eligible under the EMPG, activities must support the mission and intent of the grant program. The EMPG is designed to provide Federal funds to states to assist state, local, territorial, and tribal governments in preparing for all-hazards, as authorized by Section 662 of the *Post Katrina Emergency Management Reform Act* (6 U.S.C. § 762) and the *Robert T. Stafford Disaster Relief and Emergency Assistance Act* (42 U.S.C. §§ 5121 et seq.) EMPG funds may be used for all-hazards emergency operations, staffing, and other day-to-day activities in support of emergency management. To be eligible, this project must be able to establish a direct link to emergency management activities for the 25 percent of the position that would be EMPG funded.

# De Witt Communications

December 3, 2015

TO: Rich Baird

FR: Chris De Witt

RE: Flint Water Advisory Task Force

Thank you for requesting a proposal from De Witt Communications to provide communication consulting services for the Flint Water Advisory Task Force (FWATF).

De Witt Communications will provide services outlined below in the "Scope of Work". Consultant will devote such business efforts and time as is reasonably required to fulfill the outlined services. It is anticipated that the Consultant will devote a minimum of 60 hours per month to this project.

## Scope of Work

De Witt Communications proposes to assist the FWATF in the following:

1. Development and coordinating of overall strategic messaging
2. Serve as media contact and spokesperson
3. Assist in the writing and distribution of documents such as reports and press releases
4. Attend meetings, conferences and interviews
5. Coordinate media information distribution
6. Media Training as needed
7. Editorial Board meeting coordination
8. Assist with Community Forums
9. Develop and maintain media contact information
10. Press conference preparation and implementation

Other items may be added to the "Scope of Work" if all parties agree.

Retainer information:

Project time frame: December 2015 – February 15, 2016

Project retainer: \$25,000

Payment Schedule: To be determined

Mailing address: De Witt Communications, P.O. Box 4952 East Lansing, MI 48826

Email address: [chris@dewitt-communications.com](mailto:chris@dewitt-communications.com)

Phone: 517-339-1700 (office)

If you have any questions on any of the above items, please contact me.

Again, thank you for this opportunity to assist the Flint Water Advisory Task Force.

All:

For your situational awareness. An email has been posted publically purporting to show that Harvey Hollins, a principal advisor to Governor Snyder, was aware of an uptick in Legionnaires disease in Genesee County and that a county health official was attributing the cases directly to the Flint River as the source of drinking water in Flint.

**Importance:** High

OK D-

This is the second issue I mentioned earlier today.

In December, our staff became peripherally aware that the hospitals in Genesee were seeing an uptick in Legionnaires cases.

Legionnaires is a water-borne illness. It essentially is a type of pneumonia caused by a bacteria. It is treated with antibiotics. Untreated, it can be deadly. It most often manifests in nursing homes and assisted living facilities, because the transmission is through water vapor getting into lungs – via air conditioners, vaporizers or low-flow shower heads that produce a lot of misting. You can drink water with this bacteria in it and not get sick – it has to enter the lungs in vapor.

I don't have any details on the cases, but here is what I understand to this point:

- More than 40 cases reported since last April. That's a significant uptick – more than all the cases in the last five years or more combined.
- April / May is usually the start of Legionnaires season – it proliferates in warmer months – but April also is the point at which the city switched to the Flint River as a source.
- County Health Departments are supposed to perform epidemiological tracebacks on all confirmed cases of this disease, to locate the source and address it. Genesee County Health had not done this work as of November. At a January meeting with area hospitals, MDCH, DEQ and others, Nick Lyon reportedly directed the county health folks, in terms not uncertain, to get this done as a priority. As I'm sitting here today, it still is not done to my knowledge.
- My counterparts at MDCH informed me today that they cannot step in unless they are invited or unless the outbreak is multi-county. They've not been invited until, I believe, today. That may be in part because of the email string and letter I've enclosed here, which was unknown to MDCH until I shared it over to them.

The email thread below is best read bottom-to-top, and read prior to reading the enclosed FOIA to the city.

Essentially, Jim Henry with Genesee County Health is putting up the flare. He's made the leap formally in his email that the uptick in cases is directly attributable to the river as a drinking water source – this is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced, and it also flies in the face of the very thing a drinking water system is designed to do.

DEQ did not receive this FOIA, which appears designed to buttress his position in the email -- that sections of the water delivery system may be harboring this bacteria. We think it would be highly unlikely that anything would be found around the plant, where the water is treated. Most often, this bacteria forms at the building / residential point in the system. Legionnaires is NOT among the 90 water contaminants screened in the Safe Drinking Water Act, but in the absence of action by county health, our staff are now considering taking samples from various points in the system and working with DCH's lab to test for it, if for no other reason than to rule it out.

Regardless, the accusation is serious and the nature of the communication leaves me thinking we would be advantaged to bring together all the agencies asap to share what information we have and develop a response / screening strategy before the weather gets warm again.

I realize these are long emails. Thanks for your patience.

**Subject:** FW: Information Request and Documentation  
**Importance:** High

The district received this late Tuesday.

Steve Busch has indicated that the district has not received a meeting request from Jim Henry or the Genesee County Health Department as indicated in his email below.

The FOIA is specifically directed to the City of Flint not the DEQ.

While the change in source may have created water quality conditions that could provide additional organic nutrient source to support legionella growth, there is no evidence or confirmation of legionella coming directly from the Water Treatment Plant or in the community water supply distribution system at this time.

Seems like the next step is to communicate with DCH and possibly develop a joint strategy/response. Not sure who in Exec wants to take the lead on this. Steve Busch and Mike Prysby will continue to be lead for us on this. They have been in contact with DCH recently but only to learn that little progress has been made in identifying a source or sources for the illnesses.

**EMAIL FROM DEQ TO HENRY SENT THIS AFTERNOON:**

Mr. Henry,

The January 27, 2015, FOIA request you provided was directed to the City of Flint, not the DEQ. The DEQ has no record of a FOIA request from your office for such information. It is our understanding that the City has responded to your FOIA request, has helped you adequately redefine your request within the City's scope of public record to address such ambiguities as "any additional areas of concern", and provided you with additional information beyond the scope of your request.

The DEQ fully recognizes the public health threat posed to individuals that contract Legionnaires' Disease with the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act. Your email below claims that you have explicitly explained the situation to our Department. However, since contacting our office early last October to indicate a rise in cases, we have not received any further information regarding your epidemiological investigation into this matter.

Further, conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end.

It is highly unlikely that legionella would be present in treated water coming from the City of Flint water treatment plant given the treatment plant's use of ozone along with complete treatment and chlorine disinfect contact time to comply with federal surface water treatment rules for potable water. Detections of total coliform or heterotrophic bacteria in the City's public water distribution system indicate an environment where bacterial growth may be supported. However, there is no direct correlation that can be made to the presence of legionella. While total organic carbon levels in potable water may serve as a food source for bacteria growth in private plumbing system, water temperatures in the City's distribution system are below legionella growth range, and chlorine residual levels would also limit such growth.

Our office agrees that water main breaks, water leaks, and system repairs are possible vectors for legionella to enter the public water system. These should be investigated as part of your epidemiology. DEQ staff can be made available to assist GCHD and the City regarding such matters, but to date no request by GCHD for any such meeting has been received, let alone declined as alleged in your email.

If GCHD is seeking assistance to complete its epidemiological investigation regarding this matter, such resource requests should be directed to the Michigan Department of Community Health. Our Office agrees that a multi-agency partnership would be beneficial to move forward and develop a unified response. In that respect, if our Office can be of any further assistance you may contact me directly.

Stephen Busch, P.E.  
Lansing and Jackson District Supervisor  
Office of Drinking Water and Municipal Assistance  
MDEQ

Subject: Information Request and Documentation

Hello everyone,

The Genesee County Health Department has made several written and verbal requests for specific information since October, 2014, including a Freedom of Information Act Request on January 27, 2015. The information still has not been received and the city's lack of cooperation continues to prevent my office from performing our responsibilities.

The Genesee County Health Department has the responsibility to conduct illness investigations and consider all potential sources, this is not optional. In 2014, Genesee County experienced a significant increase of confirmed Legionella illnesses relative to previous years. Legionella can be a deadly, waterborne disease that typically affects the respiratory system.

The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water. The majority of the cases reside or have an association with the city. Also, McLaren Hospital identified and mitigated Legionella in their water system. This is rather glaring information and it needs to be looked into now, prior to the warmer summer months when Legionella is at its peak and we are potentially faced with a crisis.

This situation has been explicitly explained to MDEQ and many of the city's officials. I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The Trihalomethane issues "pale in comparison" to the potential public health risks of Legionella.

I am submitting the attached FOIA request again and requesting that the legal obligations of the request are met. If the information is not available, please let me know. In the past, I have requested to meet with the water plant staff and MDEQ regarding Legionella concerns. I did not receive a response from the water plant staff and MDEQ declined. I think it is in the best interest for all stakeholders that we meet and discuss the issues.

Respectfully,

Jim

**RE: Flint Water Plant Information Request**

Dear FOIA Coordinator,

Under provisions of the Michigan Freedom of Information Act (MCLA 15.231 et seq; MSA 4.1801 (1) et seq) please provide copies of the following:

Provide specific water testing locations and laboratory results within the City of Flint public water system for Coliform, E-coli, Heterotrophic Bacteria and Trihalomethanes from January 1, 2010 to January 27, 2015. Provide any additional water testing that has been conducted for identifying potential public health risks. Include any available mapping of the water testing areas.

Provide a map delineating the boundaries of the City of Flint water distribution system. Include any changes to the boundaries, along with corresponding dates from January 1, 2014 to January 27, 2015.

Provide a map or list of locations, detailing dead ends, pooling, low pressure and any additional areas of concern within the City of Flint water distribution system. Include any modifications to the water distribution system addressing concerns, along with corresponding dates from January 1, 2014 to January 27, 2015.

If you determine that any of the requested information is exempt from disclosure, please detail what is being withheld and cite the exemption under FOIA. I anticipate the request being filled within five working days of receipt of this letter, as provided under FOIA. Please contact me at (810) 257-3618 if there are fees associated to comply with this request.

Sincerely,

I see where you plan to submit a budget projection to SBO today.

I want to ensure the Department's budget needs (involving this specific emergency) is inclusive throughout the agency (not just EMHSD). I want to review before it goes to SBO.

Thanks

**Subject:** SEOC Update 1/13/16 - Flint Water - Limited Distribution

**INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE**

### Update 1/13/16 – 9<sup>th</sup> Day (8<sup>th</sup> Full Day) After Governor's Declaration of an Emergency

*Mission focus for the day:*

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

### Attached Documents:

- SitRep 8

### Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:

- First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
- State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
- Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
- Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

#### Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

#### Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

#### Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version

of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
<b>Occupied Homes</b>	533	242	291
<b>Vacant Homes</b>	238	152	86
<b>Total Homes</b>	<b>771</b>	<b>394</b>	<b>377</b>
<b>Resources</b>			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
<b>Total Resources Dispersed</b>	<b>1167</b>		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
  - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
  - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
    - Mission – A filter in every home ASAP.
    - 4 Distribution Methods
      - PODs (5)
      - Water Response Teams (20 effective tomorrow and this will increase)
      - Local EOC “Hot Shots” (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
      - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources
- Supplies – Daily Numbers
  - Replacement Cartridges - 30,700 delivered.
  - Water (cases) - 19,152 cases delivered
- Budget projection completed and will be submitted to SBO for review.
- Notes from Water Response Team Command (MSP)
  - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
  - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
  - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

**All personnel continue to be fully committed to fixing this as quickly as possible.**

Chris

---

## Update 1/12/16 – 8<sup>th</sup> Day (7<sup>th</sup> Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

### Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

### Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

### Items to Note

- PSA video sent out to Flint citizens on resources available.
- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount

- 2,500 – PUR Horizontal mount
  - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR replacement filters (3 pack)
    - 10,000 – PUR replacement filters (single pack)
  - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
    - 10,700 – PUR combo packs
- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter
- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week
- Second warehouse – Located in Flint
  - 100,000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13
- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.
- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fix.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions

- 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.
- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

---

### Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

### Attached Documents:

- SitRep 6

### Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

### Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff will be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

### Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.

- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

## Update 1/10/16

### Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.
  - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
  - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
  - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
  - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property...."***
  - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***

- Direct federal assistance= *what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.*

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
  1. Ensure all households within impacted community have required resources.
  2. Ensure accurate tracking and accounting of all commodities.
  3. Improve and maintain public information strategy.
  4. Develop a long term public health and services plan.
  5. Ensure adequate staffing to support operational requirements.
  6. Identify possible assistance programs.
  7. Develop an approved GIS strategy.
  8. Maintain coordination between partner agencies and organizations.
  9. Enhance situational awareness and common operating picture of all activities.
  10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
  - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
  - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
  - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.

#### Execution:

#### Key Locations

Team	Assembly Area	Hours of Operation
OGCS/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

**Critical Task:** Assemble, coordinate, and monitor WRTs

#### OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in

3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS\_MSP WRT Volunteer Assembly Information V2.0\_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

**Sample Script for Team Members:**

*We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.*

**Execution Support:**

**Product Replenishment Process:**

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	<ol style="list-style-type: none"> <li>1. Contact warehouse to request replenishment truck</li> <li>2. Coordinate replenishment location with warehouse</li> <li>3. Exchange replenishment truck with empty truck</li> </ol>
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

**Warehouse**

**Tactics:**

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

**Lunch**

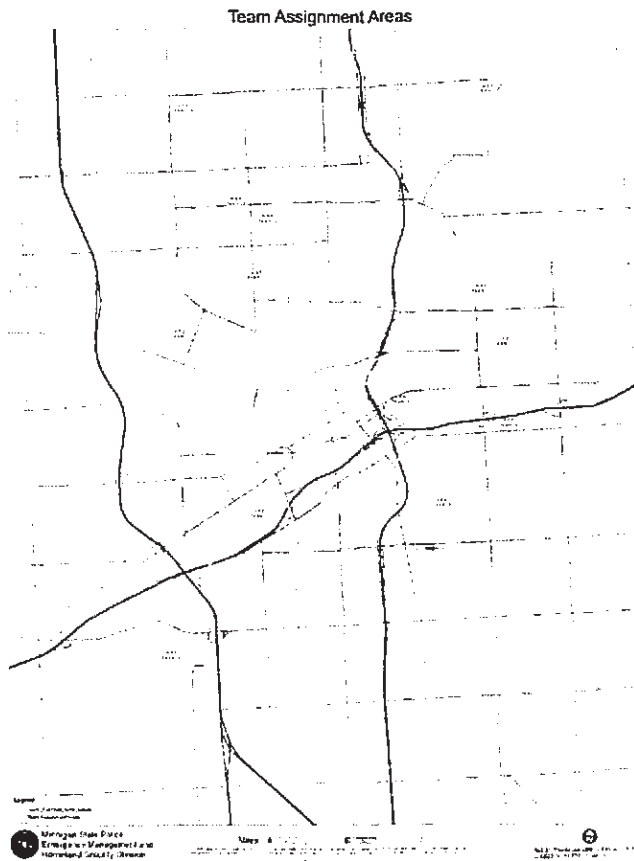

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

### Reporting:

**Tactics:**

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

### Priority Distribution Areas

**RETAIN THIS IMAGE**

**RETAIN THIS IMAGE**

# Water Response Team: Concept of Operations and Support V2.0\_011816

**Mission:** Distribute filters and additional resources to all households within the impacted area

## Concept of Operations and Support

1. Planning & Prioritization
  - a. Plan Components
    - i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
    - ii. Priority: Priority locations for distribution within the impact area
      1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
  - b. Accountable: SEOC Recovery Branch Director
  - c. Approval: State EM Director
2. Resource Support
  - a. Resource Components
    - i. Vehicles
    - ii. Product
    - iii. Personnel
    - iv. Team Support (example: lunch, rain ponchos)
  - b. Accountable: SEOC Logistics Section Chief
  - c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
  - a. Water Resource Team Daily Distribution
  - b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
  - c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross (ARC) OIC
4. Execution Support
  - a. Team Replenishment
  - b. Accountable: SEOC Logistics Section Chief
  - c. Responsible: SEOC Warehouse
5. Reporting
  - a. Distribution Reporting
  - b. Accountable: Water Response Team OIC
  - c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

#### Team Typing

Type	Mission	Truck	Team Leader	Team Member	Team Transport Vehicle	Team Transport Driver	Patrol Car	iPad	Distribution Kit
Type I	500 HH	1 – 26' - 24' Box	1	10-20	1+	1+		1-2	500
Type II	400 HH	1 - 20' 18' Box	1	8-16	1+	1+		1-2	400
Type III	300 HH	1 16' Box	1	6-9	1+	1+		1-2	300
Type IV	200 HH	1 14' Box	1	4-8	1+	1+		1-2	200
Type V	100 HH	1 ARC ERV*	1	3-6	1+	1+		1-2	85**

\* American Red Cross Emergency Response Vehicle

\*\*Replenishment required to achieve mission

#### Distribution Kit per Household

Door Hanger	1
Water, case	1
Filter*	1
Test Kit	1
Replacement Filters	1

\*If filter doesn't fit then distribute

Pitcher*	1

Good Morning,

The first "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis" was held last night in front of Governor Snyder's residence at \_\_\_\_\_ it is reported that over 80 individuals turned out for the demonstration. Participants loudly chanted, carried posters, and wrote messages on the sidewalk in front of the residence.

The next protest will be held on Wednesday, February 10 between 5:30 p.m. – 6:30 p.m. also in front of Governor Snyder's residence in Ann Arbor.

This is for situational awareness only.

Thanks,

Sue

# Protesters: 'Arrest Rick Snyder! Make him drink the water!'

It's hard out here for a governor.

Facing continued pressure to resign over the Flint water crisis, Michigan Gov. Rick Snyder has been **publicly heckled** while trying to dine out in Ann Arbor, he's been the subject of *criticisms written in chalk on downtown sidewalks, his face is on wanted posters plastered* around multiple cities, and then there's the protests.

Dozens of protesters demonstrated once again Wednesday night outside the embattled governor's personal condo in downtown Ann Arbor.

Protest organizer Jan BenDor of Michigan Rising said they're planning to continue holding weekly protests outside the Main Street loft condo the governor and his wife moved into this past year. The Snyders had been living in a gated community just outside the city before deciding to make the move downtown.

"We're just hoping to keep this situation in the public eye," BenDor said of the Flint water crisis. "Often even the worst tragedies just disappear after a week or so of concern, and this is a *long-term horrible thing that has happened in our state. So, we want to make sure everybody keeps helping with this.*"

The condo's window blinds were closed Wednesday night, and it wasn't clear that anybody was home, but protesters still chanted loudly.

"Arrest Rick Snyder! Make him drink the water!" they yelled as they marched along Main Street.

"Jail the nerd!" they chanted in unison multiple times.

"No more procrastination! We want incarceration!"

The protesters didn't channel all of their energy into anger and frustration toward the governor, though.

They also handed out fliers informing passersby how they can help the residents of Flint, with suggested charities to support.

## FLINT WATER

Protesters: 'Arrest Rick Snyder! Make him drink the water!'

MDHHS begins investigation into rash reports in Flint's water crisis

Free iPhone app shows Flint residents water distribution sites in city

UM-Flint's enrollment dropped 3 percent after water crisis went national

**All Stories**

"We're encouraging people to donate to the [FlintKids.com](http://FlintKids.com) website for the long-term health care of the poisoned children," BenDor said. "And we are also encouraging donations to some other agencies that are doing uniquely good work."

The flier also directs people to a CrowdRise page for a charity for Flint residents called [Crossing Water](#).

Ann Arbor resident Susan Fecteau was among those protesting. She's also behind the anti-Snyder sidewalk chalk messages seen around downtown.

"You enjoying your clean water up there, Rick?" read one of the messages written on the sidewalk right outside the governor's window Wednesday night.

Fecteau said she's been out chalking just about every day for weeks now and she's been watched and photographed. She's not sure who's doing it, but somebody has been wiping away her messages after she leaves, but she keeps going back.

She said Wednesday's protest was about making sure people are fully aware of what has happened in Flint.

She said people need to take back their government.

"People need to to get educated about it, and understand that when we vote guys in like this, this is what happens, this is the result," she said.

"And I've been stunned as I've been talking to people. I'm surprised people still don't know what has happened. People don't understand about the emergency manager law. They don't understand about FOIA and that he's FOIA-proof."

Not everyone was happy with the protest, though.

Paula Porter, an employee of the Four Directions store on the ground level under the governor's condo, came out and confronted the protesters. She questioned whether what they were doing was constructive or effective.

"I'm on their side, but I'd prefer they go to Flint," she said. "I've lived in Flint. Go spend time in Flint, get things done."

Porter said she doesn't think the governor is going to care much about what protesters outside his condo have to say.

A city police officer was on the scene at one point responding to complaints that people were stuffing fliers into one or more mail slots.

Dave Murray, a spokesman for the governor, said in response to the protest that Snyder is focused on the people of Flint, not politics.

"He's making sure Flint residents are getting the assistance they need as we move forward, addressing issues related to health, education and infrastructure," he said.

"Today the governor discussed his \$30 million proposal to bring relief to Flint residents who have been paying for water they cannot use to drink or cook with. This is on top of the \$28 million our partners in the Legislature approved last week to provide immediate relief and the \$9 million approved in October.

"People across our state, from both sides of the aisle, are coming together to help the people of Flint."

- Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
- We have ordered an additional (expedited delivery with ETAs tomorrow)
  - 40,000 Brita Filters
  - 40,000 Brita Replacement Filters
  - 1000 Zero 8-Cup Pitchers
  - 1000 Zero 8-Cup Pitchers
  - 2000 PUR Replacement Filters
  - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

### Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the following occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

### Fire Station Inventory Levels:

#### Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

#### Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

#### Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

#### Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

---

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.

- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
  - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the “who can get water and filters out first” when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
  - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
    - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
  - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
  - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
  - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

#### MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

#### Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

---

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR’S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

#### Items to Note

- Two FEMA LNO’s arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver

the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
  - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
  - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
  - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvassing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.
- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

**Items to note:**

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.

- The website, [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

#### EMHSD GIS:

##### Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

##### Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

---

#### UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

#### Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
  - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
  - MDHHS – Elevated Blood Lead Levels
    - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
  - MDEQ – Water Testing Protocols

- Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the *federal Lead Pipe Replacement Program*.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

#### **EMHSD GIS Accomplishments:**

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - *Demographics*
  - Block Groups

- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

**From:** Kelenske, Chris (MSP)  
**Sent:** Tuesday, January 05, 2016 6:13 PM  
**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

---

**From:** Kelenske, Chris (MSP)  
**Sent:** Tuesday, January 05, 2016 6:06 PM  
**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3<sup>rd</sup> District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

# Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

## Operational Period

Operational Period Begin: 01/13/2016 08:00:00  
Operational Period End: 01/15/2016 08:00:00  
Situation Report No. 8  
SEOC Status: Full  
SEOC Hours of Operation Begin: 01/13/2016 08:00:00  
SEOC Hours of Operation End: 01/13/2016 20:00:00

## Executive Summary

SEOC Update:

Accomplished today (January 13):

The SEOC continues to provide:

- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

• Logistics

- o Working with DTMB and MDOC to secure vehicles and/or trailers for door-to-door campaign beginning Thursday morning.
- o Work with MSP Ops Chief to build a mission ready package for a volunteer team in the case other cities offer volunteer assistance for door-to-door.
- o Work with DTMB to secure 80,000 square foot warehouse to store water resource supplies.

• JIC

- o PIO from 2-1-1 and Genesee County Sheriff's office were in JIC today.
- o We held a media avail at Fire Station #3 and the event was well attended by media.
- o Managed and corrected misinformation from media about National Guard Presence.
- o City buses adding water resource centers to route.

• Recovery Branch

- o Coordinating with Red Cross on volunteers for weekend
- o Ordered 15 passenger vans to transport teams 1/14-1/15
- o Contacted Comcast to coordinate volunteer opportunities- awaiting response of number of potential volunteers.
- o Coordinated trucks and drivers with Corrections to deploy on 1/14-1/15
- o Coordinated tracking numbers with GIS:

Overall Numbers: 1/12 1/13

Occupied Homes 533 291

Vacant Homes 238 86

Total Homes 771 377

Resources

Door Hangars 473 256

Water 265 148

Filters 235 123

Pitchers 9 6

Water test kits 92 44

Replacement Filter 93 93

Total Resources Dispersed 1167

Future sample test site 62 34

• Planning Section

- o Developed real time tracking system for local resources.
- o Working with GIS to include local POD numbers in live GIS distribution map.
- o Developed and published Situation Report #8.

• Operations Section

- o Fire stations up and running today and providing resources to the citizens.
- o Coordinated trucks and drivers with Corrections to deploy on 1/14-1/15.
- o SEOC chiefs along with American Red Cross Logistics liaison deployed to local EOC and warehouse to further develop distribution plan and coordination between all entities.

o Daily Numbers:

□ Replacement Cartridges.

• 30,700 delivered.

□ Water (cases).

• 19,152 cases delivered.

• Finance Section.

- o Gather related costs to date to build projection to submit to SBO.

- GIS Branch Updates.
  - Map products have been updated with new information. Created a franchise water customer map for MDARD.
  - Continued with mapping of lead service line locations, 20% completed at this time.
  - Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and procured 30 additional tablets for tomorrow's field teams.
  - Updating EOC dashboards to track more detailed metrics and track team locations.
  - Implementing a POD tracker for tomorrow that can be used to monitor distributions in real time.
- Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies.

#### DTMB:

- Secured warehouse today for storage of bulk supplies.
- Secured 30 tablets for field data entry.

#### DHHS-CH

- The Community Health Emergency Coordination Center (CHECC) is working on a nutrition plan.
  - o They are working with local, regional, and state agencies.
  - o Looking at short term and long term benefits.
- Working with local health department to provide additional support.
- Working on developing a community assessment for disaster behavioral health services.

#### DEQ

- Additional staff reported to the GCCARD today to supervise assembly of the water testing kits.
- Field observer working to get inventory of kits returning.

#### Local EOC Update:

- Evaluation of need to engage further public health/medical professionals.
- Continuing to identify appropriate agencies that need to be represented in EOC, and discuss strategies to engage them.
- Addressed lack of distribution of supplies to undocumented populations.
- Worked to enhance coordination of financial control to educate county finance staff.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Secured adequate warehouse space for incoming supplies.

### Incident Response/Recovery Priorities/Objectives

**Damage Assessment Summary**

**Agency Summaries**

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 5 p.m. on Jan. 12. State agencies at the JIC included the Governor's Office, Health and Human Services, Michigan Department of Agriculture and Rural Development, and Department of Technology and Management and Budget, Natural Resources, and Michigan State Police.

Tasks accomplished during the operational period included:

- Held an 8:15 a.m. media event where media members had an opportunity to get footage and photos of the water resource teams as they go door-to-door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout Flint. A photographer/videographer was embedded with the team.
- Collaborated on a Governor's news release about a Public Service Announcement featuring Capt. Chris Kelenske from the Michigan State Police. The PSA provided information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.
- Issued Web and social media content about the water resource teams.
- Reached out to local and nonprofit PIOs to become active participants in the JIC.
- Finalized MDARD letter and fact sheets to food establishments.
- Sent water filtration video to Comcast. Working to get a Dish Network contact.
- Arranged for an interview with the New York Times, including directors from DEQ and MDHHS.
- Began preparing a news release to include numbers, including teams, sites, local and American Red Cross.
- Monitored traditional and social media.
- Received 17 calls from the news media on the JIC media hotline.
- Expanded JIC staffing and roles.
- Confirmed digital billboard to encourage residents to call 211 for water resources and information.

**Agriculture and Rural Development (MDARD)**

Jan 13th - 1/13/16 - MDARD Activities: Food Safety: The updated guidance document for water in retail food and restaurants/food service is done and is going out via US Mail, and attached here. MDARD Food staff will start scheduling water sampling and inspections for next week. Verified that the warehouses storing water do not need MDARD Food Licenses.

MDARD's Agriculture Development Division provided background on historical grants to the Flint Farmers' Market and Food Bank of Eastern Michigan and will be contacting those organizations to ask about barriers and potential opportunities to help strengthen the food system.

**American Red Cross (ARC)**

The American Red Cross staffed the points of distribution (POD) at the 5 fire stations today, and will do so again tomorrow. The assembly of water test kits continued, today we moved the operation from G-CARD to ARC headquarters. Although the acquisition of warehouse space has been an issue, delivery trucks have been off-loaded throughout the day.

The ARC did stand up a volunteer reception center (VRC) today. It will be in operation daily (including weekends) from 9am to 7pm.

#### **Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities. Conducted background on swimming pool water/licensing and researched best practices in community engagement.

#### **Community Health (MDCH)**

Communications have been maintained between the CHECC and the SEOC throughout this operational period. MDHHS, MDE, LARA and MDARD have collaborated on the beginnings of a nutritional plan that includes educational components, consistent messaging across agencies, short term and longer term goals to address the "food desert" that exists in Flint. Information obtained was provided to the CHECC and a lead has been assigned to further develop this multi agency the nutritional plan .

The CHECC began to assess needs and resources to address disaster behavioral health needs for citizens and responders associated with this response. Contact was initiated with the Substance Abuse and Mental Health Services Administration Disaster Technical Assistance team. Discussed disaster behavioral health resources with FEMA V Disaster Recovery Coordinator.

CHECC Continued communication with LHD EPC to determine additional support that may be required.

The CHECC continues to track responses to volunteer availability through the MI Volunteer Registry.

#### **Corrections (MDOC)**

Brent Travelbee and Mike Farmer reported to the SEOC at 0750 hours on 1/13/2016. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner.

Currently we have 25 staff and 18 vehicles dedicated (on site) to the response for Thursday, January 14, 2016, additionally we have 4 pallet jacks, one refrigerated semi-trailer and two MDOC staff assigned to the SEOC location.

Information is as follows:

- (4) Large Box trucks
- (4) 15 passenger vans
- (4) Ford F-250 trucks
- (3) enclosed trailers
- (1) Handicap Van
- (1) 20 passenger Van

The MDOC continues to monitor the situation and its affect on our staff as well as our clients in the community.

#### **Education (MDE)**

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

#### **Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities:

- DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
- Coordination of DEQ and LARA personnel for Freeman School Faucet Replacement plan and school testing over the weekend

#### **Human Services (MDHS)**

On the Human Services side, two representatives worked the SEOC during our operation hours of 0800 to 2000 today.

Updated resource requests with water filtration products delivered today.

Participated in numerous briefs and conference calls, related to the response.

Genesee Co. MDHHS staff participated in the Flint Water Resource Teams again today. Genesee MDHHS staff have been identified for Thursday, and Friday.

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled. Review and provide regular 211 updates to SEOC Ops.

CHECC continues to maintain a Level 2 Activation

#### **Licensing and Regulatory Affairs (LARA)**

LARA has offered to assist with lab testing utilizing the MIOASHA Lab and Scientists as appropriate in coordination with DEQ. We have 3 scientists and the lab manage available. LARA staff are also available for assisting with collection of testing materials or as needed..

LARA Bureau of Community and Health Services is in contact with licensed facilities to ensure they are receiving appropriate assistance if needed. *The Center for Medicaid and Medicare Services has contacted us regarding any potential issues.*

#### **National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

#### **Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.

Department POC's include:

Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

#### **Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles  
President, CEO  
Valley Area Agency on Aging  
225 E. Fifth Street, Suite 200  
Flint, MI 48502  
(810) 239-7671  
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

#### **State Police (MSP)**

Teams have been distributing water all day. 771 homes have been visited as of the end of this operational period.

Logistically, we can support 15 teams consisting of 60-75 MSP volunteers beginning on Thursday, 1/14. We will fold these personnel into multi agency teams with local volunteers, other state agencies, the county, etc.

To run this operation, we will need a minimum of enlisted uniform troopers and sergeants (to lead the teams) in marked vehicles, plus any need command and control staff.

Muster location is the Local EOC, 1101 Beach St., Flint. Parking is Available at the Trinity Church, located at the intersection of Beach and 8th St. Operational period is 0900-1600 on Thursday and Friday. (with 0800-0900 and 1600-1700 being travel to and from)

## Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

## Technology, Management and Budget (MDTMB)

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams.

DTMB Real Estate assisted in procuring 80,000 feet of warehouse space and writing the rental agreement.

Eight trucks carrying 12,768 cases of water will be delivered Thursday, along with two trucks carrying 117,000 water filters and 39,000 faucet mounts.

Filled resource request for 20 tablets to send out with the Flint Water Response Teams to record supplies being delivered in the field.

Sir

Hopefully this helps you with what we have in place for logistics. The key is for everyone to follow it. We know adjustments will be made. The ARC logistics and Wendy Galbreath will also be in flint to ensure things run as smooth as possible.

# Water Resource Team: Concept of Operations and Support

---

**Goal:** Increase the number of households served per day by the Water Resource Teams through scalable resource optimization

**How:** Standardize and Support

1. Standardize the team composition and resource requirements
2. Provide end to end support to the Water Resource Teams

## Concept of Operations and Support

1. Planning & Prioritization
  - a. Plan Components
    - i. Team Type: Mission, Resources (Vehicles, Members) Product
    - ii. Priority: Wards/Precincts
  - b. Accountable: SEOC Recovery Branch Director
  - c. Approval: State EM Director
2. Resource Support
  - a. Resource Components
    - i. Vehicles
    - ii. Product
    - iii. Personnel
    - iv. Lunch
  - b. Accountable: SEOC Logistics Section Chief
  - c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
  - a. Water Resource Team Daily Distribution
  - b. Accountable: MSP
  - c. Responsible: MSP Water Resource Commander, American Red Cross OIC
4. Execution Support
  - a. Team Replenishment
  - b. Accountable: SEOC Logistics Section Chief
  - c. Responsible: SEOC Warehouse
5. Reporting
  - a. Distribution Reporting
  - b. Accountable: MSP Water Resource Commander
  - c. Responsible: All Water Resource Teams

### Team Typing

# Water Resource Team Plan for Saturday, 01.16.16\_V2.0\_FINAL

Water Resource Team Commander	Lt. Paul Pummil	517.614.3752
Red Cross OIC	Robert Gaskill-Clemons	419.905.1122
Warehouse	Shawn Scott-Fitzgerald	563.663.2672

## Plan

Agency	Team Types	Mission	Wards
MSP	10 Type III	3000 HH	Refer to Target Area Prioritization Map
Red Cross	10 Type V	1000 HH	Refer to Target Area Prioritization Map

## Resource Status

Team Type & Quantity	Type: Type III Quantity: 10				
Resource	Required	Confirmed	Notes	Date	Time
16ft trucks	10	10		01.15.16	2330
Truck Drivers	10	10		01.15.16	2330
Volunteers	60-90	70		01.15.16	2330
Chase Vehicle for 6-9 people	10	10		01.15.16	2330
Chase Vehicle Drivers (volunteers)	10	10		01.15.16	2330
iPads (2 per team)	20	20		01.15.16	2330
Product Each	3000			01.15.16	2330

Team Type & Quantity	Type: Type V Quantity: 10				
Resource	Required	Confirmed	Notes	Date	Time
ERV	10	10		01.15.16	2330
Truck Drivers	10	10		01.15.16	2330
Volunteers	20-40	20		01.15.16	2330
Chase Vehicle for 2-4 people	10	10		01.15.16	2330
Chase Vehicle Drivers (volunteers)	10	10		01.15.16	2330
iPads (2 per team)	20	20		01.15.16	2330
Product Each	1000			01.15.16	2330

**Execution:**

Team	Assembly Area	Hours of Operation	
MSP	LEOC 1101 Beach St, Flint	0900-1700	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-Dusk	
Warehouse	4315 North Clio Road, Flint	0700-1900	

**Critical Task:** Assemble, coordinate, and monitor Water Resource Teams (WRT)

**Tactics:**

1. Assign team leaders, team members, and routes to teams
2. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings
3. Issue boxed lunch if available
4. Issue vest and badge to team members
5. Provide training to new team members
6. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

**Sample Script for Team Members:**

*We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.*

**Execution Support:****Product Replenishment Process:**

Team	Replenishment Trigger	Replenishment Location	Process
MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	<ol style="list-style-type: none"> <li>1. Contact warehouse to request replenishment truck</li> <li>2. Coordinate replenishment location with warehouse</li> <li>3. Exchange replenishment truck with empty truck</li> </ol>
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

### Warehouse

#### Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

### Lunch

MSP WRTs will be issued lunch prior to team departure if available. If not, WRTs will return to LEOC to receive lunch

### Reporting:

#### Tactics:

1. All WRTs will utilize ipads as primary reporting method and paper tracking as secondary method if ipads fail

### Target Area Prioritization Map

#### Key

MSP	Black 1-7
ARC	Blue 1-6

## Higgins, Lori (MSP)

---

**From:** Kelenske, Chris (MSP)

**Attachments:** Pub\_204\_Local\_Support\_Plan\_Guide\_366759\_7.docx

**Importance:** High

Rich

I have located \$25,000 to assist in paying for the FWATF communications needs. I would like added to the scope of work for them to update the Local Emergency Operations Support Plan (Pub 204) and train and exercise the plan with appropriate personnel. I attached the template we provide locals to use in developing the plan. Flint has a plan in place but with everything going on and based on interactions recently I am not convinced it is followed or if they even know about it. I am certain the new Mayor is not aware of the Local Support Plan.

Please let me know if you need additional on this or have questions.

Chris

Capt. Chris A. Kelenske  
Deputy State Director/Commander

## City of Flint – Water Contamination/Shortage

### Assumptions

- Replacement Cartridges one every two weeks per household
- Average Daily need for Drinking and Cooking is two gallons per person
- Household and Business Count is based on those connected to City Water Utility
- Average number of person per household is 3
- Average number of persons per business/non-profit is estimated
- Replacement Cartridge Life is 100 gallons which is 16 days for household or 2 per month

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

## Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

## The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

## Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents. Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

## Enhancing Understanding:

### Information Collection

Essential Elements of Information (EEl)s can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

## **Information Analysis**

The City has sought partners to assist in the analysis and attenuation of complex data. Wayne State University's center for Urban Studies has agreed to assist the City in its efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for easily updateable, digestible information to be presented to officials.

## **Assessment of Impacts**

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

## **Continuous Situational Awareness**

It is important that the Emergency Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of this information is currently available on the City's website ([cityofflint.com](http://cityofflint.com)) and more is added each week by the PIO team.

## **Actions taken in Response to the Emergency**

### **Activation of the Incident Management Team**

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP). Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

### **Emergency Operations Center**

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

## **Communication**

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IS department.

## **Public Awareness and Education**

### **1. Emergency Alerts and Updates:**

The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents.

### **2. Joint Information Center:**

The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

### 3. Education:

Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

### Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

### Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

### Fixed Distribution Points

There are several locations throughout the city where residents may acquire a water filter. These locations are:

***Flint City Hall***

*1101 South Saginaw, Flint MI 48502*

***Genesee County Community Action Resource Department (GCCARD)***

*601 North Saginaw, Flint MI 48502*

*and*

*2727 Lippencott Blvd, Flint MI 48507*

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

*Michigan Department of Health and Human Services  
4809 Clio Road, Flint MI 48504  
and  
125 E. Union Street, Flint, MI 48502*

## Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

### Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12 <sup>th</sup> Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

## Mobile Distribution Centers

With the help of transportation agencies, like the Metro Transit Authority (MTA), meals on wheels, and GCCARD, the city can help establish mobile distribution centers and delivery systems that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
  - o Estimated Costs: \$25 per hour to deliver water and filters to homes throughout the City.

### Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected.

Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

## **Immediate Relief for Public Health:**

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department

## **Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure**

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
  - a. Pre-emptive referral to mental health/ toxic stress screenings.
  - b. Support capacity building and or incentivize recruitment to allow Genesee health system (CMH) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (CMH) services.
  - a. Infant mental health (30 day capacity)
  - b. Child case management
  - c. Home based services
  - d. Trauma informed care- trauma focused CBT

## **Problem 2. Lead Contamination in the Water**

### **Immediate Relief:**

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

## **Distribution of Bottled Water:**

At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

## **Distribution of Test Bottles:**

Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

## **Long term Solutions: Capital Improvements Needs**

The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships, Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. **COMPLETE Transition to a Temporary Safe Water Source until the Completion of KWA:**  
This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay \$2 million out of its general fund to make this switch.
2. **IN PROGRESS Additional Corrosion Control added to the Water System:**

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

**3. Faucet Replacement:**

Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

**4. Water Line Replacement:**

*Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.*

- Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars (\$3,000) per line. Total costs forty-five million dollars (\$45,000,000). This project is estimated to be one of the most cost-intensive endeavors related to ameliorating water contaminants.

**5. Reimbursement of Critical Expenditures:**

Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

- 6. KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

**KWA Capital Improvements:**

**Estimated Costs:**

a. Transfer Station to Dort Reservoir	\$4,500,000
b. Raw water line to pump station #4	\$636,000
c. Phosphoric acid feed system	\$186,000
d. Alum Feed system	\$40,000
e. Post filtration system	\$387,289

## CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

f. SCADA Upgrades	\$424,000
g. Sewer Relining	\$100,000
<b>Total</b>	<b>\$6,273,289</b>

### Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises.

### Implementation:

#### Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

##### The Mott Foundation

The Mott Foundation has provided financial assistance, especially in their generous contribution of \$4 million. In addition, the Mott Foundation has recently pledged an additional

##### United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the public health emergency began on October 1<sup>st</sup>, 2015.

##### Genesee County Community Action Resources Department (GCCARD)

# CITY OF FLINT

DR. KAREN WEAVER  
MAYOR

NATASHA L. HENDERSON  
CITY ADMINISTRATOR

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

## **Genesee County Health Department**

Has provided educational information to Flint Water customers

## **Genesee County Board of Commissioners**

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public.

## **Assistance from Wayne State University**

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts.

## **The US Environmental Protection Agency**

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

## **Outside Help is still needed...**

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.
- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

MICIMS Incident for monitoring: 2015-10-01-City of Flint-Water Contamination / Shortage

---

### **Subject:** URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration.

EMHSD will activate the SEOC tomorrow at 0800 and will conduct a briefing at 0900 on the event. All state agencies are to send a representative to the 0900 briefing. MDHHS and MDEQ have been directed to brief on the situation. Following initial SEOC briefings, each state agency, in consultation with the State Director, must determine if they need to play a role in ongoing SEOC operations to contribute to addressing the problem. At minimum, MDEQ, MDHHS, Education, DTED, DTMB, and MDARD should maintain a presence in the SEOC. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
EXECUTIVE OFFICE  
LANSING

BRIAN CALLEY  
LT. GOVERNOR

## PROCLAMATION

### DECLARATION OF EMERGENCY

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, on April 25, 2014 the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source, the harmful effects of untreated water struck the city's water infrastructure, causing leaching of lead into the water which caused damage to the water system and potential negative health impacts to the citizens; and

WHEREAS, the area affected includes parts of the City of Flint, within the County of Genesee; and

WHEREAS, the damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling

and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of emergency exists in the aforementioned county and municipality; and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the emergency area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this emergency will occur at such time as the threats to public health, safety, and property caused by the emergency no longer exist and appropriate programs have been implemented to recover from the effects of this emergency, but in no case longer than February 1, 2016, unless extended as provided by Act No. 390.

Given under my hand and the  
Great Seal of the State of Michigan this  
5th day of January in the Year of Our  
Lord, Two Thousand and Sixteen.

A handwritten signature in cursive script, reading "Richard D. Snyder".

RICHARD D. SNYDER  
GOVERNOR

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY."

## **Flint Water Emergency Response Congressional/Legislative Call Remarks for Capt. Chris Kelenske**

**NOT INTENDED TO BE DISSEMINATED  
TO THE MEDIA OR PUBLIC IN THIS FORMAT**

### **Background**

- Yesterday, President Obama approved the Governor's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.
  - Under the Stafford Act, resources totaling \$5 million can be used for federal emergencies, with a required state match of 25 percent. It's important to note that we shouldn't view this as a \$5 million cap on federal assistance, because if the \$5 million is exhausted, Congress has the option to approve additional funding.
  - Governor Snyder had also requested a major disaster declaration, which the President denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions. The state is reviewing the process for appealing the disaster declaration denial.
  - Mr. David Samaniego, our Federal Coordinating Officer (FCO) from FEMA is on the call and will give an update next.

### **Current Status/Update**

- Today, which is our 12<sup>th</sup> day of coordinating this emergency response, we are continuing to bring all state resources to bear to protect public health and safety.
- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.

- The one-stop shop for finding all these resources is by visiting [www.michigan.gov/FlintWater](http://www.michigan.gov/FlintWater) or calling 2-1-1.
- Including today's activity, water response teams, who are going door-to-door, have distributed resources to nearly 7,000 Flint homes providing residents with free bottled water, filters, replacement cartridges, and water testing kits.
- More than 12,000 homes have been visited by the water response teams, which are a collaborative effort comprised of local and state personnel, American Red Cross personnel, and volunteers.
- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city. Starting tomorrow, the number of National Guard members will be further increased to approximately 70 National Guard members handing out resources at the fire stations in the city.
- From January 9 - 16, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:
  - Nearly 20,900 cases of water
  - Nearly 48,000 water filters
  - More than 3,300 water testing kits
- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.
- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:
  - Fire Station #1  
310 East 5th St.  
Flint, MI 48502
  - Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503
  - Fire Station #5  
3402 Western Road  
Flint, MI 48506
  - Fire Station #6  
716 West Pierson Road  
Flint, MI 48505

Fire Station #8  
202 East Atherton Road  
Flint, MI 48507

## **Filters**

- When used properly water filters remove 99% of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.
- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.
- The filters do have a five-year, non-replaceable battery that operates the indicator light.
- There is a detailed video posted on [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater) that explains how to properly install a water filter cartridge. We are also working to develop an instruction sheet for 211 to walk through with those individuals without internet access.
- Small business owners seeking water filters at the water resource sites should not be turned away.

## **Resources for homebound individuals**

- 2-1-1 is collecting a list of individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.
- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

## **Outside Support Efforts – Volunteers and Donations**

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.
- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- Volunteers and donations are being coordinated through 2-1-1, in cooperation with the American Red Cross.
- Persons/organizations wishing to donate 100 cases of water or less can be taken to the American Red Cross located at 1401 S. Grand Traverse in Flint.
- Volunteers can also report to the American Red Cross for processing.

### **National Guard Mobilization**

- Governor Snyder issued an Executive Order on January 12, 2016, to activate Michigan National Guard.
  - Currently they are being used to staff water resource sites to support the distribution of bottled water, water filters, replacement cartridges, and water testing kits
  - National Guard personnel will not be going door to door with the water resource teams, at this time.
  - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
  - First group of National Guard personnel arrived in Flint on Wednesday, January 13 to conduct assessment and get acclimated.
  - 30 more personnel arrived Friday; expansion to approximately 70 personnel by Monday.
  - This is the second time the Governor has activated the National Guard.
    - Last time was for the Duck Lake Fire in Luce County in May 2012.
  - Per Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
  - Activation of the Michigan National Guard allows the volunteers from the American Red Cross, who have been staffing the water resource sites, to join the water distribution teams.

### **Water Bills**

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.
- Water payment inquiries should be referred to the City of Flint.

## **Attorney General Investigation**

- The Michigan Attorney General announced Friday he is investigating whether any Michigan laws were violated in the process that led to this emergency.

## **Other/Misc.**

- Water is being distributed primarily in bottles rather than jugs. The reason for this is that the donations received are largely comprised of bottled water. Requests for water in jugs have been made when donors have inquired about our needs.
- The state recognizes that offering recycling options for empty water bottles is a priority. Measures are being put in place soon.
- Legionnaires disease- related inquiries should be directed to MDHHS and Genesee County Health Department.
- Governor has asked the Receivership Transition Advisory Board to transfer the powers and authority currently vested in the city administrator to the mayor. Any inquiries related to this should be referred to the Governor's office.

## **State Emergency Operations Center**

- The State Emergency Operations Center has been activated since January 5 and continues to be staffed seven days a week by members of state agencies and other partners.

## **Flint Water Emergency Response Talking Points for Capt. Chris Kelenske Meeting with Republican Caucus**

**NOT INTENDED TO BE DISSEMINATED  
TO THE MEDIA OR PUBLIC IN THIS FORMAT**

### **Chronology**

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
  - In a separate document, Genesee County requested a Governor's Declaration of Emergency
- January 5, 2015: Governor declared State of Emergency
  - State Emergency Operations Center activated in Lansing to coordinate state response
  - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations
- January 12, 2016: Water resource teams began going door-to-door
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
  - Denied request for major disaster

### **Federal Support**

- President Obama's approval of a federal emergency in Flint provides emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.

- In addition, the state is working with the Federal Emergency Management Agency (FEMA) to coordinate an interagency recovery plan with other federal agencies to provide resources to Flint.
  - Coordination will include identifying federal agencies that have programs, authorities and/or technical expertise that could be utilized in the ongoing response and recovery efforts in Flint to be made available. Such federal agencies may include the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development, and Army Corps of Engineers.

### **Current Status/Update**

- We are continuing to bring all state resources to bear to protect public health and safety.
- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.
- The one-stop shop for finding all these resources is by visiting [www.michigan.gov/FlintWater](http://www.michigan.gov/FlintWater) or calling 2-1-1.
- To date, more than 21,300 homes have been visited by water response teams who are going door-to-door to distribute free bottled water, filters, replacement cartridges, and water testing kits.
  - Water response teams are a collaborative effort comprised of city, county, state personnel, American Red Cross personnel, and volunteers.
- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
  - There are approximately 70 National Guard members handing out water resources at the fire stations in the city.
- Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:
  - More than 37,300 cases of water
  - More than 53,700 water filters
  - More than 7,300 water testing kits
- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only

be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Road  
Flint, MI 48506

Fire Station #6  
716 West Pierson Road  
Flint, MI 48505

Fire Station #8  
202 East Atherton Road  
Flint, MI 48507

## **Filters**

- When used properly water filters remove 99% of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.
- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.
- The filters have a five-year, non-replaceable battery that operates the indicator light.
- There is a detailed video posted on [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater) that explains how to properly install a water filter cartridge. An instruction sheet also has been provided to 2-1-1 to share with those individuals without internet access.

## **Resources for homebound individuals**

- 2-1-1 is collecting a list of limited mobility or homebound individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.
- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is also being coordinated through 2-1-1.

## **Outside Support Efforts – Volunteers and Donations**

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.
- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.
- The American Red Cross has established a volunteer reception center for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits.
  - The Volunteer Reception Center is located at the Red Cross office at 1401 S. Grand Traverse St. in Flint.
  - This week, the Volunteer Reception Center hours are:
    - Monday - Friday, 9 a.m. to 7 p.m.
    - Saturday, 9 a.m. to 2 p.m.
    - Sunday, 12 p.m. to 5 p.m.

## **National Guard Mobilization**

- Governor Snyder issued an Executive Order on January 12, 2016, to activate the Michigan National Guard.
  - Currently they are being used to staff water resource sites to support the distribution of bottled water, water filters, replacement cartridges, and water testing kits.
  - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
  - The first group of National Guard personnel arrived in Flint on January 13 to conduct assessment and get acclimated.
  - 30 more personnel arrived on January 15 and additional soldiers were added on January 18, bringing the current commitment to approximately 70 soldiers.

- This is the second time the Governor has activated the National Guard.
  - Last time was for the Duck Lake Fire in Luce County in May 2012.
- Per the Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
- Activation of the Michigan National Guard allows the volunteers from the American Red Cross, who have been staffing the water resource sites, to join the water distribution teams.

### **Water Bills**

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.
- Water payment inquiries should be referred to the City of Flint.

### INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR’S OFFICE

#### Update 1/12/16 ~ 8<sup>th</sup> Day (7<sup>th</sup> Full Day) After Governor’s Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

#### Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff’s Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff’s Department)

#### Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

#### Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

#### Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs
- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter
- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week
- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13
- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fix.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.
- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

### Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was *working on logistics for the water and other supplies.*

### Attached Documents:

- SitRep 6

### Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow *but I see potential use at distribution sites.*
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

### Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff will be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

#### Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

#### Update 1/10/16

##### Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engaged in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
  - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property...."***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
  - Debris Removal = *self-explanatory and we do not have this*
  - Emergency Protective measures = *water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)*
  - Direct federal assistance= *what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.*

Back to the update...

#### Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
  1. Ensure all households within impacted community have required resources.
  2. Ensure accurate tracking and accounting of all commodities.
  3. Improve and maintain public information strategy.
  4. Develop a long term public health and services plan.
  5. Ensure adequate staffing to support operational requirements.
  6. Identify possible assistance programs.
  7. Develop an approved GIS strategy.
  8. Maintain coordination between partner agencies and organizations.
  9. Enhance situational awareness and common operating picture of all activities.
  10. Develop a comprehensive Recovery Plan.

#### Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.

- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
  - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
  - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
  - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

### Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the following occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

### Fire Station Inventory Levels:

#### Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

#### Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

#### Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

#### Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

#### Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

#### Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

#### Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

#### Signage:

- Provided information to SEOC on signage requirements at the fire stations.

#### Storage:

- Researched storage spaces; established temporary site at GCCARD.

#### Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

---

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

#### Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
  - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor apprised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter

systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.

- Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
  - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
- Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

#### MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

#### Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

---

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR’S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

### Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.
- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
  - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
  - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
  - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvassing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and *obtain awareness of the situation there.*
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

---

#### UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

#### **Items to note:**

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502

- Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
- Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
- Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- *Published the Incident Action Plan and continued assignment of objectives/tasks.*
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

#### EMHSD GIS:

##### Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

##### Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

---

#### UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

## Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
  - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
  - **MDHHS – Elevated Blood Lead Levels**
    - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
  - **MDEQ – Water Testing Protocols**
    - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. *Obtain and maintain situational awareness and common operating picture of all activities.*
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. *Establish and disseminate cost center information for the incident.*
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.

- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

#### EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

**From:** Kelenske, Chris (MSP)  
**Sent:** Tuesday, January 05, 2016 6:06 PM  
**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3<sup>rd</sup> District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - *Some subject matter experts will provide us an update to establish a common operating picture.*
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.

- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

# Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

## Operational Period

Operational Period Begin: 01/13/2016 08:00:00  
Operational Period End: 01/15/2016 08:00:00  
Situation Report No. 7  
SEOC Status: Full  
SEOC Hours of Operation Begin: 01/12/2016 08:00:00  
SEOC Hours of Operation End: 01/12/2016 20:00:00

## Executive Summary

SEOC Update:

Accomplished today (January 12):

The SEOC continues to provide:

- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

• Logistics

- o Worked on maintaining supplies and track resources at each of the local PODs.
- o Worked to establish a Red Cross warehousing team to assist at two new warehouse locations.
- o 50,000 sq. ft. warehouse facility established and will begin accepting resources Wednesday January 13, 2016.
- o Working with DTMB to locate vehicles needed for Water Resource Canvassing on Thursday, January 14, 2016.

• JIC

- o Media was imbedded with a canvassing team today.
- o Media coverage on the canvassing was very positive.
- o Approved a MDARD fact sheet for distribution.
- o The Governor's office has pushed out a video PSA lead by Capt. Chris Kelenske.

• Recovery Branch

- o Working with MSP SEMC to expand door to door teams this week. Expanded canvassing scheduled for Thursday January 14, 2016.
- o Canvassing today was successful and put 4 teams of 6 in the field.
- o Totals resources distributed in canvassing operation for 1/12/16:
  - 217 Door hangars.
  - 117 Water (cases).
  - 112 Faucet filters.
  - 3 Pitchers.
  - 48 Water test kits.

• Planning Section

- o Developed real time tracking system for local resources.
- o Working with GIS to include local POD numbers in live GIS distribution map.
- o Completed IAP for the next operational period and the Situation Report for daily activities.

• Operations Section

- o Fire stations up and running today and providing resources to the citizens.
- o Water resources have been scheduled to fill the designated warehouses.
- o Filter resources have been procured and will be delivered over the week to fill the warehouse.
- o Second warehouse 100,000 sq. ft. has been procured.
- o American Red Cross warehouse management team on site at GCCARD.

o Daily Numbers:

- Filters.
  - 2,000 delivered.
  - 64,700 ordered.
- Replacement Cartridges.
  - 10,400 delivered.
  - 184,300 ordered.
- Water (cases).
  - 7,824 delivered.
  - 19,152 ordered.
- Test Kits.
  - 6,601 kits delivered.
  - 1,000 ordered.

• Finance Section.

- o Continuing to monitor SEOC staffing and costs incurred on a daily basis.
- o Develop projection of anticipated costs for response and short-term recovery.

• GIS Branch Updates.

- o Today we began migrating content to ArcGIS Online to streamline resource management operations.
- o Deployed ArcGIS Online Collector App to field teams and tracked resources and site visits. Building a similar tracker for PODs to track the status of resources distributed.
- o We continued to work on updating old mapping products to include newer infrastructure. Lead analysis is ongoing and is at 10% of the city lines.
- o We have coordinated with local partners to develop a draft map of lead service lines to prioritize resources deployment. Finalized map will be developed by U of M Flint in mid-February.

DTMB:

- Procured additional filters/cartridges to maintain field supply and build supply in warehouse.
- DTMB real estate is finalizing lease of 100,000 sq. ft. warehouse for supplies.
- Incoming supplies by end of week.
- o 39,500 faucet filters.
- o 41,600 replacement filters.

DHHS-CH

- The Community Health Emergency Coordination Center (CHECC) has officially elevated its level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary.
- Coordinating with MDE and MDARD on nutritional planning communications.
- Coordinating with the CHECC to determine status of Environmental Testing and Consulting Lead Investigator(s) request.

DEQ

- 10,000 additional water testing kits have been ordered.
- Arranged for DEQ staff to deploy to GCCARD to supervise water kit assembly.
- Arranged for DEQ staff to deploy as a field observer to assist in tracking water kit supplies and samples.

Local EOC Update:

- Requested Red Cross warehouse teams for both warehouses.
- Working to establish a warehouse for local resource storage.
- Worked with SEOC to better track resource distribution and levels.
- Secured assistance for inventory management at GCCARD warehouse.
- 2-1-1 is rerouting calls for homebound seniors to Sheriff's office, resulting in approximately 100 home deliveries.
- Red Cross warehouse team on site at GCCARD today.

**Incident Response/Recovery Priorities/Objectives**

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

**Emergency Declarations**

Local Declarations

Jurisdiction(s): Date/Time:

Genesee County, Public Health Emergency, 10/01/2015  
City of Flint, Declaration of State of Emergency, 12/15/2015  
Genesee County, Declaration of State of Emergency, 01/04/2016  
Genesee County, Request for Governor's Emergency/Disaster Declaration, 01/04/2016

State Declarations

Jurisdiction(s): Date/Time:

Federal Declarations

Jurisdiction: Date/Time:

**Weather Conditions**

Watches/Warnings

Upcoming Forecast

Forecast Update for Flint, MI Area: Posted 1030 am January 12, 2016

- Snow and blowing snow to continue off and on into Wednesday night (January 13). Hazardous travel expected at times.
- Very cold through Wednesday night (January 13). The cold could limit ability to remove ice from road surfaces.
- Time to frostbite from exposed skin will be 15 to 30 minutes through Wednesday (January 13)
- Bottled water stored outside or not in temperature controlled locations will freeze due to temperatures well below freezing through the week

Through Tuesday Night (Jan 12)

- Snow and blowing snow will create hazardous driving conditions in very low visibility and icy road surfaces. Up to an additional 2 inches of accumulation possible in the Flint area. Could see long periods without snow, or a long period of continuous snow.
- Snow will blow back on to treated roads. Rapid changes in visibility and road conditions are likely. This type of weather is typical of the weather that occurs when Michigan has some road closures and larger multi-car accidents.

Wednesday through Wednesday night (January 13)

- On and off snow showers. Less snow expected than Tuesday. Could see an additional inch of accumulation. Gusty winds continue through

Wednesday evening. Very cold air will remain in the area.

Thursday (January 14) through Saturday (January 16):

- Slight warming of temperatures to near 30 degrees during the day. Temperatures in the teens still expected at night. Off and on snow showers to continue into the weekend. Best chance for additional accumulating snow looks to be Friday afternoon (January 15) through Saturday night (January 16).

##### Damage Assessment Summary

#### Agency Summaries

##### Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 5 p.m. on Jan. 12. State agencies at the JIC included the Governor's Office, Health and Human Services, Michigan Department of Agriculture and Rural Development, and Department of Technology and Management and Budget, Natural Resources, and Michigan State Police.

Tasks accomplished during the operational period included:

- Held an 8:15 a.m. media event where media members had an opportunity to get footage and photos of the water resource teams as they go door-to-door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout Flint. A photographer/videographer was embedded with the team.
- Collaborated on a Governor's news release about a Public Service Announcement featuring Capt. Chris Kelenske from the Michigan State Police. The PSA provided information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.
- Issued Web and social media content about the water resource teams.
- Reached out to local and nonprofit PIOs to become active participants in the JIC.
- Finalized MDARD letter and fact sheets to food establishments.
- Sent water filtration video to Comcast. Working to get a Dish Network contact.
- Arranged for an interview with the New York Times, including directors from DEQ and MDHHS.
- Began preparing a news release to include numbers, including teams, sites, local and American Red Cross.
- Monitored traditional and social media.
- Received 17 calls from the news media on the JIC media hotline.
- Expanded JIC staffing and roles.
- Confirmed digital billboard to encourage residents to call 211 for water resources and information.

#### **Agriculture and Rural Development (MDARD)**

Jan 12th - 1/12/16 - MDARD Activities: Food Safety: The updated guidance document for water in retail food and restaurants/food service is done and awaiting final ok in the JIC/SEOC; could go out in US Mail as early as Wed. MDARD Food staff will start scheduling water sampling and inspections for next week. MDARD has requested a map overlaying food facilities with the known areas most impacted to help prioritize follow up.

Animal health update: notifications to potentially impacted facilities are nearly complete. After further coordination with Genesee County Animal Control, the three animal shelters in the Flint area are not on City water. The Michigan Veterinary Medical Association notified all veterinarians in the region last week; MDARD will be individually following up with the two clinics. There are no kennels or pet grooming facilities in the City. Genesee Animal Control will be contacting pet stores and the known households that serve as animal rescue operations and does not need MDARD assistance.

MDARD is also looking at opportunities for assistance/guidance related to nutrition, including possible support through donations management.

#### **American Red Cross (ARC)**

Again today the American Red Cross provided volunteers to operate the distribution sites at the 5 fire stations. We added staff to this effort to be better able to manage inventory at those sites. We also brought in a warehousing team to manage inventory at the G-CARD site. Additionally ARC put together a team to work on assembling water test kits at the G-CARD site before the kits go out to the distribution sites. A logistics planner has now been deployed from the ARC national headquarters to assist the SEOC logistics Group Chief.

Tomorrow we expect to continue staffing the 5 fire station distribution sites, and will be standing up a volunteer reception center to process event-based volunteers. Assembly of the water testing kits will continue as needed.

#### **Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

#### **Community Health (MDCH)**

Provided lead health impact information requested to planning section for presidential letter.

Tasked CHECC with coordinating with Sue Kangas and Farrah Hanley to track financial expenditures.

CHECC is working to ensure that contact lists are current in the MI-Volunteer Registry, should volunteers from the registry be needed. Tracking responses from MI-Volunteer Registry query.

Received confirmation from MDHHS Environmental Health regarding NSF certification requirement for filtering lead from water.

CHECC is coordinating with HHS to obtain EMPower data regarding medically dependent individuals in Flint.

Requested that the CHECC contact Lowes regarding the ability to purchase Brita faucet filters.

Confirmed that +100,000 sq. ft. is available in Lansing through MDHHS MOU with private sector partner. On standby if these resources are necessary.

"Enhanced Lead Testing Guidelines Recommended for Children in Flint, MI," developed by Dr. Wells, was sent to healthcare providers via Medscape - WebMD at 0700 today.

Community Health Emergency Coordination Center (CHECC) is activated at a Level 2 - Partial Activation, consisting of BETP leadership staff and CHECC Section Chiefs.

#### **Corrections (MDOC)**

The MDOC continues to monitor the situation and our staff as well as our clients in the community. Water will remain available at the office for both staff and clients to use while at the Parole and Probation offices in the area. EM staff from the MDOC will continue to monitor MiCIMS and attend briefings. We remain available to assist in addressing this situation.

#### **Education (MDE)**

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

#### **Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities:

- Delivery of 6101 water test kits to GCCARD
- Verification of NSF/ANSI 53 certified filters for future ordering
- Arranged for DEQ staff deployment to supervise volunteers assembling water kits at GCCARD
- Arranged for DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
- Established additional vendors for supply of water test bottles

#### **Human Services (MDHS)**

Participated in AM & PM State Agency briefings,

Updated resource requests.

Confirmed delivery to GCCARD versus Home Depot to complete the delivery of 2000 filters, 18,400 replacement cartridges. Arranged for DTMB to pick up around 700 (23) cup pitchers from schools surplus. Plan is to split these up between the FDs. Made contact with Menards to identify filters and replacement cartridges and relayed that information to DTMB for procuring options.

Had conference call with MDHHS finance. They have concerns of the accountability of our purchases and who's driving the ordering. I explained the urgency and the process. They understand now and said carry on.

Identified 16 MDHHS staff volunteers who will be assisting in the door to door distribution operation for Wednesday, Thursday, and Friday.

16 local MDHHS staff participated in the mission of the Water Resource Teams today.

CHECC continues to maintain a Level 2 Activation

#### **Licensing and Regulatory Affairs (LARA)**

LARA Executive Staff met and was updated on the situation in Flint. This will be a weekly meeting.

Spoke with the Flint Superintendent of Schools, Mr. Tawwab regarding the faucet pilot program. He has approved us to move forward with this program.

Joe Madziar, LARA's Plumbing Division Chief, has provided a material list for Freeman Elementary. The list was provided to DTMB for procurement. We are awaiting an ETA from DTMB on the materials.

We are working with Tony Sitko, building manager for Flint, to coordinate a schedule for the Plumbing Division to be able to get into the school to complete the work.

I am communicating with the DEQ to schedule re-testing for Freeman Elementary pilot project.

#### **National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

#### **Natural Resources (MDNR)**

January 8, 2016

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.

Department POC's include:

Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

#### **Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles  
President, CEO  
Valley Area Agency on Aging  
225 E. Fifth Street, Suite 200  
Flint, MI 48502  
(810) 239-7671  
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water, VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concerned about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

#### **State Police (MSP)**

Lt. Pummill, local EOC, has requested 3 additional box trucks for neighborhood delivery. Request has been sent to logistics, Request # SEOC - 1378446.

Resource request received for additional MSP personnel to assist with distribution on Wednesday 1/13/16. Request has been forwarded to Lt. Pummill at the Local EOC. Staff has been identified and the personnel list has been provided to Recovery.

Task assignment has been submitted to Logistics to determine how many person distribution teams can be supported on Thursday and Friday. Support would need to include filters, replacement filters, water, test kits, pamphlets, and trucks to transport.

MSP is in the process of identifying available staff to support this effort with the plan to staff up to the level that can be supported by logistics.

A request has been submitted to SEOC Logistics, DTMB, for approximately 20 smart devices that are network enabled that we can install the GIS application onto so that they activity can be tracked real time. These devices do not need to be connected to the state network.

#### **Technology, Management and Budget (MDTMB)**

DTMB Mail Services provided three additional drivers and trucks to assist with door-to-door supplies, this is in addition to the four drivers and trucks already working in the city. Also picked up additional water test kits in Lansing and delivered to Flint this afternoon to ensure kits were available at the distribution sites.

DTMB Real Estate assisted in procuring 100,000 feet of warehouse space and writing the rental agreement. Procurement office acquired additional water filters and refill cartridges that will be delivered on Thursday to the warehouse for distribution.

Twelve trucks of water will be delivered tomorrow and water filters and replacement cartridges will be delivered on Thursday.

Working on resource request to acquire 20 tablets to send out with MSP personnel to help record supplies being delivered in the field.

STATE OF MICHIGAN  
EXECUTIVE OFFICE  
LANSING

RICK SNYDER  
GOVERNOR

BRIAN CALLEY  
LT. GOVERNOR

**EXECUTIVE ORDER  
No. 2016 – 02**

**ACTIVATION OF THE NATIONAL GUARD  
TO ASSIST IN RESPONDING TO THE EMERGENCY RELATING TO  
THE CITY OF FLINT'S WATER SYSTEM**

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor; and

WHEREAS, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

WHEREAS, Section 151 of the Michigan Military Act, MCL 32.551, authorizes the Governor to order any members of the organized militia to active state service in the aid of the civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the State; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint changed its water source from the Detroit water system to its own treatment plant drawing from the Flint River; and

WHEREAS, by Executive Proclamation issued on January 5, 2016, the Governor declared a State of Emergency in the City of Flint and Genesee County; and

WHEREAS, lead can be introduced to humans through water, and elevated lead levels can result in significant health impacts, particularly for children, pregnant women, and the elderly; and

WHEREAS, the State's first priority in addressing this emergency is to limit potential exposure to lead in drinking and cooking water by limiting potential exposure to lead in the City's water system; and

WHEREAS, other priorities include: (1) directly informing as many Flint residents as possible that filters, bottled water, information on lead, water testing kits, and other resources are available; and (2) directly providing resources to Flint residents and following up with those residents to ensure that they have access to safe water, are fully informed, and have their water supply tested. These tasks will require that personnel go door-to-door in large areas of the City of Flint; and

WHEREAS, due to the significant level of human and other resources required for these tasks, additional assistance is needed to supplement existing personnel and equipment; and

WHEREAS, by the Executive Proclamation of Emergency issued on January 5, 2016, the Governor directed that the Emergency Management and Homeland Security Division of the Department of State Police, coordinate and maximize all state efforts, and call upon all state departments and agencies to utilize available resources to assist the City of Flint and Genesee County pursuant to the Michigan Emergency Management Plan;

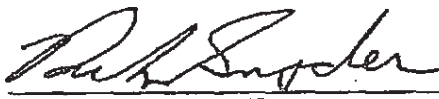

NOW, THEREFORE, in consequence of the above, I, Richard D. Snyder, Governor of the State of Michigan, pursuant to the Michigan Constitution of 1963, the Michigan Military Act, 1967 PA 150, MCL 32.501 et seq., and the Emergency Management Act, 1976 PA 390, MCL 30.401 et seq., order the following:

1. The Adjutant General of the Michigan National Guard is directed to order to active state service units and individuals of the Michigan National Guard that, in his discretion, he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee.
2. The Director of the Department of State Police, or her designee, shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National Guard that may be activated to state service to assist the City of Flint and Genesee County in accordance with the Michigan Emergency Management Plan.
3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of Department of State Police, or her designee.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 12th day of January, in the year of our Lord, Two Thousand Sixteen

Captain Kapp,

The attached information is being disseminated and shared with the Karegnondi Water Authority (KWA) is holding a public meeting on Wednesday, February 17, 2016 at 2 p.m. in the Lapeer County Council Chambers, 255 Clay Street, Lapeer, Michigan. The KWA notice indicates all citizens wishing to express opinions or make comments during the meeting are invited to attend. It appears there could be a large presence of Flint Citizens at the meeting.

This information is being shared for situational awareness.

Thanks,

Sue

**Subject: MSP Resource Request - Flint Water Response Teams**

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB *coordinate and manage* the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- *Coordinate and manage* Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

F/Lt. Mike Johnson

Yes, I'm concerned about draining the commanders at the Flint Post (Tom, Paul and Amy) to staff the EOC. We still have a major policing operation that's a priority- and our commanders are neck deep in this. Can EMHSD provide staffing for the ops center?

**Subject:** MSP Water Distribution Operation - AAR

I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:

Mission:

\ teams \ DHHS employees), supported by \ marked MSP, and \ marked Sheriff units, and (2) 24' UHaul trucks, conducted water filter delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

### **Recommend to Sustain on 1-13-16:**

-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck, DHHS personnel, and marked police units per street, and we covered streets at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to volunteers per truck, but lower than that would slow down progress, more than would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

**Recommend to consider changing on 1-13-16:**

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each person team.

**Subject: Rally Today at Capitol - Flint Water Crisis**

Good Morning,

This morning the organizer indicated he has a head count of about 150 people coming from Flint, there are two groups caravanning to the Capitol. One group leaving around 9:30 and another around 10:00. He did not indicate how many, if any were coming from Detroit, Benton Harbor, Ecorse, or Allen Park. They do mention that "other brethren from across the state are meeting us!"

It appears this group wants to have a peaceful protest to express their opinions on the water crisis in Flint.

**RETAIN THIS IMAGE**  
**RETAIN THIS IMAGE**

**Subject:** Fwd: U of M Flint Campus Detail Update - Water Filter Distribution

5pm Update:

- \* This will be the final update as U of M Chief Hall has cleared all MSP Units from the detail.
- \* The organizers have approximately 100 people left in line and will finish the line before closing.
- \* There will be approximately 1,000 filters remaining.
- \* There are no protestors at the scene.
- \* No reported issues or concerns.
- \* Again, all MSP units are clear the scene and enroute back to their respective posts.

4pm Update:

- \* 2,100 filters remain.
- \* Approximately 80 people in line to receive a filter.
- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* Organizers are stating they will shut down at 5pm as planned.

3pm Update:

- \* Activity has increased slightly. There are 200 people in line to receive a filter
- \* There are 3,000 filters remaining.
- \* No protestors at the scene.
- \* No reported issues or concerns.

1pm Update:

- \* 600 filters have been handed out.
- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* Approximately 20 people in line to receive a filter.
- \* Next update will be at 3pm unless there is a significant change or operational need to report sooner.

Noon Update:

- \* Restrictions on the order in which filters are being handed out have been lifted. Anyone living in a zip code that is affected, and showing proof, will be given a filter as they arrive.
- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* Approximately 20 people in line to receive a filter.

11am Update:

- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* 30 people in line to receive filters.

10am Update:

- \* Doors are open for filter distribution with everything running smoothly.
- \* No protestors at the scene.
- \* Approximately 200 people in line.
- \* No reported issues or concerns.
- \* Media is on scene; Channels 12 and 5

The water filter distribution to affected city of Flint residents is expected to start at 10am this morning on the University of Michigan, Flint Campus. No additional filters arrived throughout the night and there are only approximately 5000 filters to hand out.

9am:

\* MSP personnel are on scene to assist and currently in a briefing with U of M Chief Ray Hall

\* There are no protesters on scene.

\* There are 5 people in line to receive a filter.

\* There are no reported issues or concerns.

Thank you,

Ryan

**From:** Colonel Etue <MichStatePolice@govsubscriptions.michigan.gov>  
**Sent:** Tuesday, January 12, 2016 4:39 PM  
**To:** Kapp, Gene (MSP)  
**Subject:** Revised: Volunteers needed for water resource teams in Flint

**Note:** Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

- \* No reported issues or concerns.
- \* Again, all MSP units are clear the scene and enroute back to their respective posts.

### 4pm Update:

- \* 2,100 filters remain.
- \* Approximately 80 people in line to receive a filter.
- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* Organizers are stating they will shut down at 5pm as planned.

### 3pm Update:

- \* Activity has increased slightly. There are 200 people in line to receive a filter
- \* There are 3,000 filters remaining.
- \* No protestors at the scene.
- \* No reported issues or concerns.

### 1pm Update:

- \* 600 filters have been handed out.
- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* Approximately 20 people in line to receive a filter.
- \* Next update will be at 3pm unless there is a significant change or operational need to report sooner.

### Noon Update:

- \* Restrictions on the order in which filters are being handed out have been lifted. Anyone living in a zip code that is affected, and showing proof, will be given a filter as they arrive.
- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* Approximately 20 people in line to receive a filter.

11am Update:

- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* 30 people in line to receive filters.

10am Update:

- \* Doors are open for filter distribution with everything running smoothly.
- \* No protestors at the scene.
- \* Approximately 200 people in line.
- \* No reported issues or concerns.
- \* Media is on scene; Channels 12 and 5

The water filter distribution to affected city of Flint residents is expected to start at 10am this morning on the University of Michigan, Flint Campus. No additional filters arrived throughout the night and there are only approximately 5000 filters to hand out.

9am:

- \* MSP personnel are on scene to assist and currently in a briefing with U of M Chief Ray Hall
- \* There are no protesters on scene.
- \* There are 5 people in line to receive a filter.
- \* There are no reported issues or concerns.

Thank you,

Ryan

**Subject:** Trooper Staffing for Flint Water Emergency Situation

**Importance:** High

Commanders;

Re: the state of emergency response to the Flint water crisis – additional MSP resources are being requested. Currently the Flint Post is supplying a squad of troopers for security and traffic control for the water/filter distribution trucks that have been deployed in the neighborhood.

Effective Saturday, January 16<sup>th</sup> and continuing through Friday January 22- additional Third District troopers will be utilized to supplement the Flint post for this operation.

I am requesting \_\_\_\_\_ each from Lapeer, Caro and Tri-City to augment a squad from Flint consisting of a \_\_\_\_\_

The time frame of this request is January 16<sup>th</sup> and tentatively through January 22. (may end sooner or may go longer)

This will require a \_\_\_\_\_ am arrival at the Flint operations center and curtail around \_\_\_\_\_ on the above listed dates.

Lt. Amy Dehner is the POC for this project and she can be reached at cell \_\_\_\_\_ She can provide you with further reporting details and requirements of this assignment.

Note: Please staff with ON-DUTY personnel. If overtime is needed for staffing or end of shift hold overs, this will come from YOUR POST overtime line – with reimbursement down the road (hopefully!)- so do your best to staff with personnel working already.

SCP (Flint and Saginaw) overtime CAN NOT BE USED for this operation.

Lt. Dehner has PCA/INDEX for tracking purpose (not overtime) of those assigned – she can provide you with further on time accounting.

By noon on Thursday, January 14, please send the name of your \_\_\_\_\_ r to Lt. Dehner with a cc to me.

Thanks.

Steve

**Sent:** Tuesday, January 12, 2016 4:25 PM  
**To:** Kapp, Gene (MSP)  
**Subject:** Volunteers needed for water resource teams in Flint

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. *Overtime or compensatory time is not authorized for this assignment.*

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

**Cc:** Kapp, Gene (MSP); Kanicki, Bonnie (MSP); Katarsky, Anthony (MSP)  
**Subject:** 10/13/2015 Flint Water Update

FYSA - The below is from the 3 p.m. Conference Call yesterday with MDHHS and Genesee County Health Department on the Flint Water issue.

### GCHD Update:

#### Central Point of Communication/Coordination

- The United Way held a meeting with community partners today and the GCHD announced it would be acting as the communication hub.
- GCHD is working with the United Way to create a dissemination list for updates.
- The School Board President has been joining the meetings at the United Way and discussions with contacts at private and charter schools are occurring to supply them with filters.
- GCHD advised that they will proceed with a daily briefing at 4:00PM.

#### Filter Tracking System

- GCHD and Kris Schoenow (MDHHS) are working to expand the cloud-based database to include all needed information so that one database can be used to track filter distribution.
- It is important that the database track the types of filters provided since replacement filters need to be distributed to these families in a couple of months.
- The database will be used to cross reference the list of kids with elevated blood levels to ensure these households receive filters.

### MDHHS Update:

#### Protocol for Identifying and Prioritizing Children that Require Testing and Case Management

- 151 children from all Flint zip codes have been identified with previous blood lead levels of 5 or over since April, 2014.
- 85% of the children are Hurley patients. 92% of the children receive Medicaid.
- 75 of the children need venous draws; 76 need venous retesting.
- Eden Wells, Rashmi Travis, Nancy Peeler, Toni LaRocco (GCHD) and Dr. Gary Johnson (GCHD) will work together to develop the testing and case management protocols.
- Possible completion date of protocol by October 14<sup>th</sup>.
- U of M Flint, and McLaren Health are interested in assisting with capillary lead testing. Public health students can also assist as needed.
- Training may be needed on the protocols and data reporting.
- There was discussion about parental requests to test older children. The risk based protocol will be customized given the situation.
- The environmental assessment protocol is currently available on the MDHHS website.

#### Funding

- Still awaiting approval of the supplemental funding request.

#### Communication

- There was discussion about communication/engagement with providers.

- Geralyn is working on a list of providers and partners list.
- She will work with Hilda on the dissemination of information to the appropriate groups and the community.
- The new lead toolkit has been completed and was sent to Mark today via links.
- An FAQ document has been created and is awaiting approval. An infographic also is in development.
  - Once approved, both the infographic and FAQ will be sent to Mark and posted to the site.

#### **NEXT STEPS/ACTION ITEMS**

- Completion of the testing and case management protocol
- Continue daily state-local update calls
- Send FAQ to Mark Valacak once it has been approved by MDHHS Communications

Completion of changes to the filter distribution database.

Chris

**Subject:** Flint Water - EOC Activation

Inspector,

Just a heads up on activities downtown. The EOC is located in the basement of the county building. They are generally running administrative type hours from 8:00 am until 7:00 pm. The 14's and myself will begin a rotation for MSP downtown starting tomorrow with Lt. Pummill and myself on Wednesday. Lt. Young will also be assigned in a uniform capacity in the coming days. We are tracking OT hours for any personnel downtown.

I've been in touch with Lt. Draves a few times this morning reference the Governor's visit. As of now there are no protesters, and the likelihood of having any is unlikely given the parking and weather conditions today. I will be down at the EOC starting at noon. We will keep you updated.

**Attachments:** How to UNZIP.html; SecureZIP Attachments.zip  
**Importance:** High

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those under your command have been notified about their report time and location. Below is operational assembly information that is critical for you to read as this is very short notice :

### **MISSION:**

Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

### **TIME:**

0730 HRS Briefing  
1700 HRS Release to home post assignment

### **LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall)  
Emergency Operations Center (EOC)  
1105 Beach Street  
Basement Level

### **PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

### **NOTABLE EQUIPMENT REQUIREMENTS:**

High visibility vest (in vehicle)  
Garrison cap and/or department issued cold weather headgear

### **RADIO CHANNELS:**

**MEALS:**

Lunch will be provided at noon at the EOC

**GROUND OPERATION OIC(s):**

Tpr. Rick Jones – Security Group One  
Sgt. Duane Zook

**EOC SITE SAFETY OFFICER:**

Lt. Amy Dehner

**OTHER INFORMATION:**

This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

**SECURITY GROUP ONE:**

Tpr. Gooch  
Tpr. Poyhonen  
Tpr. Lutz  
Tpr. Easlick  
Tpr. Cairnduff  
Tpr. Stickel  
Tpr. Kramer  
Tpr. Brown

**SECURITY GROUP TWO:**

Tpr. Martin  
Tpr. Hessling  
Tpr. Dhooge  
Tpr. Hutchinson  
Tpr. Swales  
Tpr. Richter  
Tpr. Faucette

Begin forwarded message:

**Subject: "Gathering" of Militia in Flint at 2 p.m. Sunday, January 24 "Standing with Flint"**

----- . This one is hosted by '-----  
The location is 1099 Saginaw  
Street, Flint. I tried to Google that location to determine the significance of the address but couldn't  
identify it as a commercial or city facility or park, etc.

The description of the event is as follows:

We the People of the County of Genesee and of the State of Michigan, stand united to say to this government "ENOUGH IS ENOUGH", there have been lives lost and, along with families being ruined from illnesses. We demand that those responsible are held accountable.

To help our effort, The are requesting a show of support on Sunday, January 24, 2016 from

Patriots and Patriot groups across the land as a united front, standing with all citizens of the City of Flint, MI. We ask \_\_\_\_\_, and all other like groups to wear your uniforms and insignia to this event. All others are welcome to join us as well! We ask that you only wear side arms and not long rifles, this is not about our 2nd Amendment, this is about the infringement on the good people of Flint. . God Bless the Republic,

On behalf of the \_\_\_\_\_

They are asking participants to bring water for the citizens of Flint. \_\_\_\_\_ plans to have two U-Hauls of water to distribute.

*I'll continue to monitor the event and provide updates.*

Thanks,

Sue

**Subject:** "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis"

Good Morning,

The first "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis" was held last night in front of Governor Snyder's residence at ' . . . . . , it is reported that over 80 individuals turned out for the demonstration. Participants loudly chanted, carried posters, and wrote messages on the sidewalk in front of the residence. The event description indicates the group will continue to protest on Wednesdays between 5:30 p.m. - 6:30 p.m. in front of Governor Snyder's residence in Ann Arbor.

The next protest will be held on Wednesday, February 10 between 5:30 p.m. – 6:30 p.m. also in front of Governor Snyder's residence in Ann Arbor. Currently 45 individuals have RSVP'd they plan to attend.

This is for situational awareness only.

Thanks,

Sue

It's hard out here for a governor.

Facing continued pressure to resign over the Flint water crisis, Michigan Gov. Rick Snyder has been **publicly heckled** while trying to dine out in Ann Arbor, he's been the subject of criticisms written in chalk on downtown sidewalks, his face is on wanted posters plastered around multiple cities, and then there's the protests.

Dozens of protesters demonstrated once again Wednesday night outside the embattled governor's personal condo in downtown Ann Arbor.

Protest organizer Jan BenDor of Michigan Rising said they're planning to continue holding weekly protests outside the Main Street loft condo the governor and his wife moved into this past year. The Snyders had been living in a gated community just outside the city before deciding to make the move downtown.

"We're just hoping to keep this situation in the public eye," BenDor said of the Flint water crisis. "Often even the worst tragedies just disappear after a week or so of concern, and this is a long-term horrible thing that has happened in our state. So, we want to make sure everybody keeps helping with this."

The condo's window blinds were closed Wednesday night, and it wasn't clear that anybody was home, but protesters still chanted loudly.

"Arrest Rick Snyder! Make him drink the water!" they yelled as they marched along Main Street.

"Jail the nerd!" they chanted in unison multiple times.

"No more procrastination! We want incarceration!"

The protesters didn't channel all of their energy into anger and frustration toward the governor, though.

They also handed out fliers informing passersby how they can help the residents of Flint, with suggested charities to support.

## FLINT WATER

[UM-Flint's enrollment dropped 3 percent after water crisis went national](#)

[All Stories](#)

"We're encouraging people to donate to the [FlintKids.com](http://FlintKids.com) website for the long-term health care of the poisoned children," BenDor said. "And we are also encouraging donations to some other agencies that are doing uniquely good work."

The flier also directs people to a CrowdRise page for a charity for Flint residents called **Crossing Water**.

Ann Arbor resident Susan Fecteau was among those protesting. She's also behind the anti-Snyder sidewalk chalk messages seen around downtown.

"You enjoying your clean water up there, Rick?" read one of the messages written on the sidewalk right outside the governor's window Wednesday night.

Fecteau said she's been out chalking just about every day for weeks now and she's been watched and photographed. She's not sure who's doing it, but somebody has been wiping away her messages after she leaves, but she keeps going back.

She said Wednesday's protest was about making sure people are fully aware of what has happened in Flint.

She said people need to take back their government.

"People need to to get educated about it, and understand that when we vote guys in like this, this is what happens, this is the result," she said.

"And I've been stunned as I've been talking to people. I'm surprised people still don't know what has happened. People don't understand about the emergency manager law. They don't understand about FOIA and that he's FOIA-proof."

Not everyone was happy with the protest, though.

Paula Porter, an employee of the Four Directions store on the ground level under the governor's condo, came out and confronted the protesters. She questioned whether what they were doing was constructive or effective.

"I'm on their side, but I'd prefer they go to Flint," she said. "I've lived in Flint. Go spend time in Flint, get things done."

Porter said she doesn't think the governor is going to care much about what protesters outside his condo have to say.

A city police officer was on the scene at one point responding to complaints that people were stuffing fliers into one or more mail slots.

Dave Murray, a spokesman for the governor, said in response to the protest that Snyder is focused on the people of Flint, not politics.

"He's making sure Flint residents are getting the assistance they need as we move forward, addressing issues related to health, education and infrastructure," he said.

"Today the governor discussed his \$30 million proposal to bring relief to Flint residents who have been paying for water they cannot use to drink or cook with. This is on top of the \$28 million our partners in the Legislature approved last week to provide immediate relief and the \$9 million approved in October.

"People across our state, from both sides of the aisle, are coming together to help the people of Flint."

**Subject:** 10/13/2015 Flint Water Update

FYSA - The below is from the 3 p.m. Conference Call yesterday with MDHHS and Genesee County Health Department on the Flint Water issue.

### **GCHD Update:**

#### **Central Point of Communication/Coordination**

- The United Way held a meeting with community partners today and the GCHD announced it would be acting as the communication hub.
- GCHD is working with the United Way to create a dissemination list for updates.
- The School Board President has been joining the meetings at the United Way and discussions with contacts at private and charter schools are occurring to supply them with filters.
- GCHD advised that they will proceed with a daily briefing at 4:00PM.

#### **Filter Tracking System**

- GCHD and Kris Schoenow (MDHHS) are working to expand the cloud-based database to include all needed information so that one database can be used to track filter distribution.
- It is important that the database track the types of filters provided since replacement filters need to be distributed to these families in a couple of months.
- The database will be used to cross reference the list of kids with elevated blood levels to ensure these households receive filters.

### **MDHHS Update:**

#### **Protocol for Identifying and Prioritizing Children that Require Testing and Case Management**

- 151 children from all Flint zip codes have been identified with previous blood lead levels of 5 or over since April, 2014.
- 85% of the children are Hurley patients. 92% of the children receive Medicaid.
- 75 of the children need venous draws; 76 need venous retesting.
- Eden Wells, Rashmi Travis, Nancy Peeler, Toni LaRocco (GCHD) and Dr. Gary Johnson (GCHD) will work together to develop the testing and case management protocols.
- Possible completion date of protocol by October 14<sup>th</sup>.
- U of M Flint, and McLaren Health are interested in assisting with capillary lead testing. Public health students can also assist as needed.
- Training may be needed on the protocols and data reporting.
- There was discussion about parental requests to test older children. The risk based protocol will be customized given the situation.
- The environmental assessment protocol is currently available on the MDHHS website.

## **Funding**

- Still awaiting approval of the supplemental funding request.

## **Communication**

- There was discussion about communication/engagement with providers.
- Geralyn is working on a list of providers and partners list.
- She will work with Hilda on the dissemination of information to the appropriate groups and the community.
- The new lead toolkit has been completed and was sent to Mark today via links.
- An FAQ document has been created and is awaiting approval. An infographic also is in development.
  - Once approved, both the infographic and FAQ will be sent to Mark and posted to the site.

## **NEXT STEPS/ACTION ITEMS**

- *Completion of the testing and case management protocol*
- Continue daily state-local update calls
- Send FAQ to Mark Valacak once it has been approved by MDHHS Communications

Completion of changes to the filter distribution database.

Chris

**Attachments:**

Good Morning,

In reviewing

The MIOC has prepared the below information for situational awareness and public safety concerns.

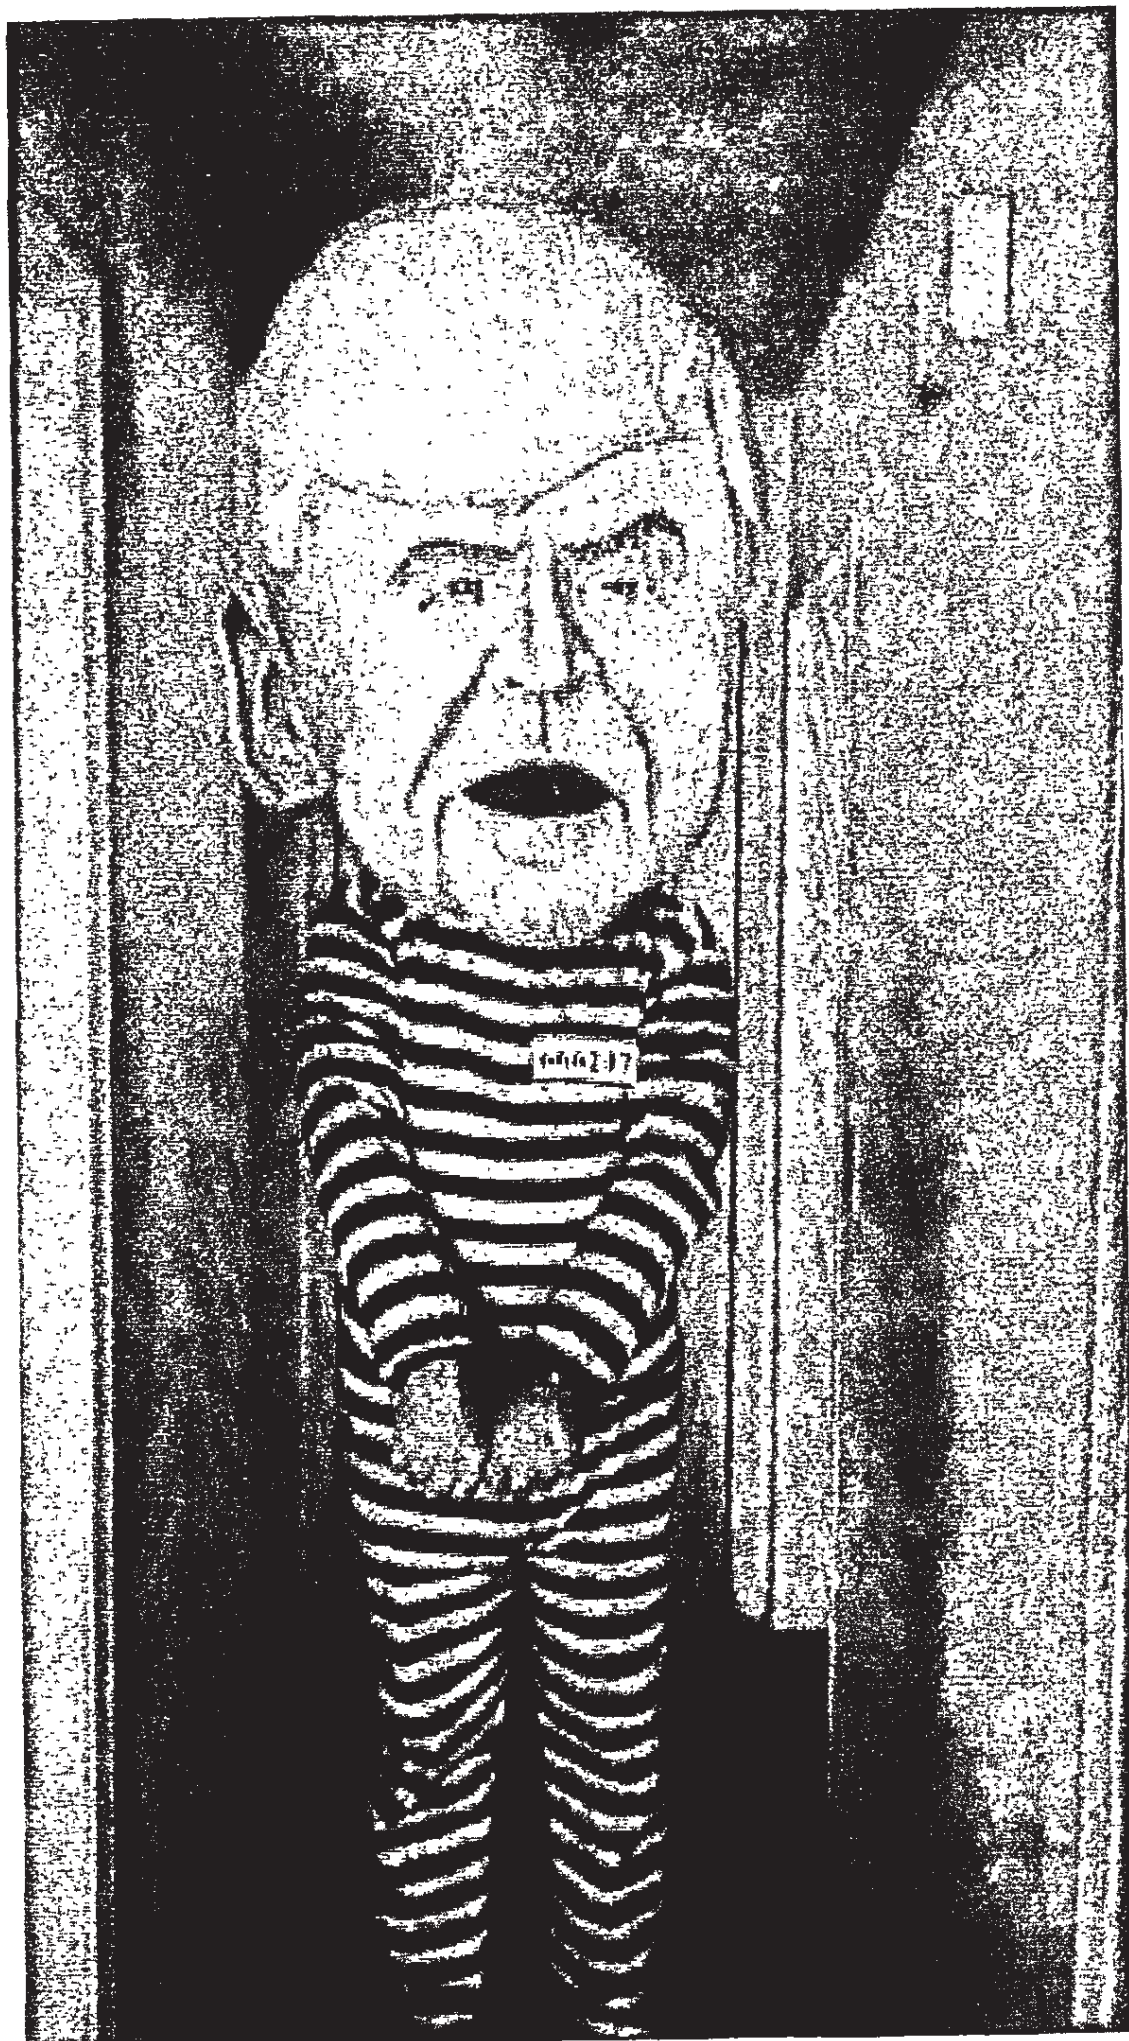

Participants of this rally will meet up at Flint City Hall to discuss why arresting the Governor is "the only action that is appropriate." The group plans to move from Flint City Hall to a nearby overpass and display light boards with the message "Flint Arrest Snyder." One individual will be dressed as Snyder in a black/white stripe prison jumpsuit with the number 66247 (see attached photo). The number is significant to them as it is meant to signify Snyder is "the Devil 24/7."

This rally is described as a nonviolent action intended to support the community affected by the tainted water. No guns or weapons are welcome. No drugs or alcohol are welcome. This is to be a family friendly event working toward the health of the community.

At this time there are no known credible threats. Unfortunately, this issue has received a large amount of negative media exposure. Cher has "tweeted" the Governor should be executed over the Flint water issue and filmmaker Michael Moore has started a petition asking the U.S. Attorney General to prosecute and arrest Snyder and called for a thorough FBI investigation over his handling of the Flint water crisis. Rachel Maddow, MSNBC, reported the responsibility for the tragedy falls to Governor Snyder. They have emailed Maddow inviting her to attend the rally. All of this media exposure creates the potential for attendance by groups with divergent views or lone wolf individuals who seek to engage in destruction of property, assault, or other types of crimes which may potentially result in incidents at, or associated with the event.

The MIOC will continue to monitor open source today for any threats and provide updates as any new information or suspicious activity connected to the event is located.

Good Afternoon:

For any overtime hours spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

**Index 28900 with PCA 28670**

Any non-payroll costs (travel, SEOC meals during activation, etc.) should be coded to:

**Index 28900 with PCA 28671.**

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,  
Penny

Attached is a list containing the names of those approved to participate in the Flint Water detail. In order to minimize travel time, location of the volunteers was considered.

Attire: Appropriate attire for the weather conditions. Jeans are allowable. MSP uniforms including fatigue uniforms are prohibited. Military Surplus attire or attire that could be mistaken as that of the National Guard shall not be worn.

All individuals assigned to work as the Water Response Team in Flint shall report to the Genesee County EOC by 9 am on Thursday and/or Friday.

Location:

Genesee County Administration Building

1101 Beach St

Flint, MI 48502

In the basement or level "G" if someone used the elevator

Parking is available at Trinity Church, on the corner of Beach and Eighth. It is two blocks southeast of the Admin Building.

Lunch will be served at the EOC, Genesee County Admin. Building.

Each enforcement member should bring their assigned radio.

o. I'm wondering if the information is accurate? \_\_\_\_\_

### Quincy Murphy

I hear  
*Governor Rick Snyder will be in Flint today at 10:00 a.m. located at fire station #1 on fifth st next to the police station with the concern pastors to announce forgiveness of citizens paying there water bills.*

Quincy Murphy has appeared before the Board of Canvassers with petitions to recall Governor Snyder. During his first appearance last week the language was rejected. Murphy plans to appear again at the meeting February 8, 2016, with new recall petition language. In the meantime, Murphy has suffered two incidents where an older white male has shot at his home twice in one day. He did report these incidents to the police.

I don't view Murphy as a threat but he may be a target. I do expect Murphy to attend the 10 a.m. announcement.

This information is being shared with you for situational awareness. If you have any questions please don't hesitate to contact me.

Hello All, just wanted to keep you in the loop. Will advise as I learn more. Thanks, BJ

---

### **Subject:** Flint Water

Hello, I attended meetings today at Genesee Co DHHS and Genesee Co Untied Way ref the continuing problem with Flint's water. The first meeting consisted of DHHS, GCCARD, Dept. of Human Services, Genesee CO Health Dept., Commission on Aging, EM Jen Boyer, and a few other county depts. The distribution of filters was the main topic of conversation. I learned that so far 20,000 Britta filters were purchased from Home Depot with the million dollars the state provided. The filters are in Flint and will be housed at the GCCARD warehouse awaiting distribution. Genesee Co Public Health Dept is taking the lead on public messaging/press releases. Overall, a fairly productive meeting. Everyone from this meeting headed over to the next meeting at the United Way in Flint. Reps from the United Way ran the meeting which also included reps from the school district, public housing, and one rep, Sean Kammer, Asst to the City Administrator at the City of Flint. Unfortunately, Sean left early and requested he be emailed the information. Once again, a fairly productive meeting with distribution being the main topic of conversation, the use of volunteer groups to help install filters for elderly clients, school distribution, and public education/messaging. Much was worked out for distribution with it starting with priority groups. Attached is a summary of the meeting. Today, 1800 filters were being distributed to Flint Public Housing incl Section 8 housing with the agreement their building maintenance will install the filters for those who can not. Other priority groups should start in the morning. It was also requested the UPC codes be blacked out so returns could not be made to Home Depot. Zero Water is providing filtered cups for after school activities and athletes. All classrooms will get filtering units with a 24 cup capacity. There are talks of filters for all drinking fountains. For those who can not attach a regular filter to their faucet, ZeroWater filtered pitchers are going to be supplied. United Way ordered some today and may be in this week. Under sink filters will not be purchased due to cost and potential installment issues. Britta pitchers do not meet lead standards so they will not be used.

Jen Boyer has reached out to volunteer groups (CERT, VDF) for help with installments of filters for elderly or special needs people. There are also talks by the City fo Flint water dept. of connecting outdoor spickets so people can go fill jugs for free. This may be decided by the end of the week. This water is good being it isn't going through any distribution pipes. There were talks of paying UAW plumbers ,etc to help with installs but I voiced my concerns ref that so hopefully that does not happen. Talks of military trucks (Camels) were brought up for water distribution for possibly the next week while the city works on getting their outdoor spickets figured out but I believe that has to be authorized by the Governor.

Genesee Co Public Health Dept is taking the PIO lead with help from the PIO from the United Way, Tom Wickersham. Tom is a PIO for Gm and volunteers for the United Way. 211 will be used as well as some websites to advise of distribution points and as well as education. Right now 4 points will be used :2 DHHS offices, and 2 GCCARD locations. The Genesee County Community Action Resource Department (**GCCARD**) is an organization of individuals whose overall goal is to eliminate barriers and level the playing field for the poor, seniors, children and the hard to serve population of Flint and Genesee County. These opportunities may include pre-school training through our Head Start department for the young; receiving additional and/or job training in order to find a permanent job; seeking and finding

of adequate housing if displaced; receiving of nutritional meals delivered on a daily basis, or receiving home improvement repairs when necessary.

## Water Filter Distribution

### Funding Availability

\$100,000 - CS Mott Foundation

\$225,000 - private funding and grant requests to UWGC

\$1,000,000 - from DHHS for filter purchase

\$250,000 - from Community Foundation (not public yet)

### Filters

- 1,500 were distributed through Concerned Pastors - Harvey has list
- 4,000 given to Health Department will be distributing to special populations, started Saturday. There are 1,000 left. Working with Hurley to distribute through Healthy Start programs. IT will be taking spreadsheet to see who has already received this.
- Do not get Brita pitchers - they are not lead compliant
- 2,500 pitchers will be purchased by UWGC today

Public Housing is automatically going to get filters dropped today. Call Frank Woods to ask questions.

- Howard - 96 units
- Aldridge - 93 units
- River Park - 188 units
- Atherton - 192 units
- Scattered Sites - 68 units
- Garland - 40 units
- Forrest Park - 19 units
- Richert Manor - 132 units
- KMS - 159 units
- Centerview - 90 units
- Mince - 110 units

### 20,000 units through DHHS - housed at GCCARD

- Can be given to all residents
- 1,800 will be sent to Housing commission (section 8) today
- Veterans - there is a community department for veterans, these filters would secure through GCCARD.
- Health Dept needs some for their WIC department and wellness clinic and kidney dialysis centers. DHHS will supply filters to health dept to fill this need.
- Senior Citizens - Meals on Wheels - 653 households, will be distributed through GCCARD filters
- Family Service agency - 800 seniors are helped through this program, GCCARD will reach out and make sure there is not a duplication with Meals on Wheels. This group of residents a special plan will be put together for install through seniors homes.

- Senior Resident Communities - can we give filters to these housing facilities and can their maintenance person install. Health Dept will get those contacts to GCCARD.
- 20,000 vouchers will be distributed through case workers - vouchers will be received at DHHS today.
- DHHS clients will be able to receive their filters from either office as early as tomorrow. GCCARD will be available in those lobbies as well for non clients.
- Home Depot can deliver for FREE water filters to site

5,000 donated to UWGC from Zero Filter for after school and UWGC is purchasing one picture for every classroom at cost from Zero Filter to Flint Community Schools - we are also looking at purchasing one filter for every faucet, those filters are \$250 each. UWGC will order today and they should be delivered by Wednesday.

City of Flint Water Dept - we have asked city to allow residents to come to the City of Flint Water plant and fill jugs of water. City of Flint plans to have a plan put together by week end.

UWGC has requested the state to appoint a full time emergency person to convene these meetings.

#### **October 3, 2015 Distribution**

Lead Agency - Genesee County Health Department

Distribution Site - University of Michigan-Flint Recreation Center

#### **Requirements**

- Live within zip codes 48501-48507
- Currently pregnant, breastfeeding or formula feeding an infant
- Have a child between the ages of 0-5

One filter will be given per household

Filter name and model being given - Pur Ult Vert Mount Water Filter System

Quantity of filters being given - 4,000

Contact - Tamara Brickey

2-1-1 will be phone number for residents to call

Site can be setup within 24 hours.

#### **Distributions Points**

Information that can be shared to public

Eligibility for filters - open distribution within zip codes

Questions - health specific (ex. can my child take a bath, how do I install filter, filter type or intake type, (filters will be faucet and pitchers only)

Central Website -

**Subject:** RE: MSP Resource Request - Flint Water Response Teams

I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have      teams (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

Chris

**Subject: MSP Resource Request - Flint Water Response Teams**

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

F/Lt. Mike Johnson

Tuesday, January 19, 2016, 03:17 PM

### **\$28M Flint Supplemental Expected In House Approps Wednesday**

A \$28 million supplemental to fund various Flint needs as it continues to work through its ongoing water crisis is expected to be taken up in the House Appropriations Committee on Wednesday.

Budget Director John Roberts formally submitted today the requested supplemental to the chairs of the House and Senate Appropriations committees.

The supplemental would provide funding for various initiatives, according to information obtained by Gongwer News Service. In total, the supplemental is \$28.03 million with \$22.63 million from the General Fund.

It would provide:

- \$935,000 in General Fund dollars for hiring nine additional school nurses and two Early On service coordinators, a psychologist and a health professional to coordinate the provision of wrap around services. The funds would also provide fresh fruit and vegetables to the Genesee Intermediate School District;
- \$5.79 million from the General Fund for an infrastructure integrity study to assess the status of the Flint water system and additional lab and testing costs in the Department of Environmental Quality. The funds would also assist the city in paying for corrosion control procedures for one year and potentially help with utility issues and water system needs;
- \$17.2 million (\$2.85 million in federal, \$2.55 million in state restricted revenues and \$11.8 million in General Fund revenues) to help with purchasing of bottled water, water filters and replacement cartridges; Department of Health and Human Services field operations costs; epidemiological analysts and case management of those with elevated lead blood levels; nutrition support; support for child and adolescent health centers; assessment of potential links to other diseases; food inspections and crisis counseling;

- \$2 million in General Fund for emergency efforts related to the water system, specifically purchasing and replacing plumbing fixtures in schools, child care and adult foster care centers, nursing homes, dialysis centers and surgery centers in the city;
- \$2 million in General Fund dollars to address immediate needs, including paying for the National Guard's role in providing support for three months; and
- \$100,000 in General Fund dollars for the Flint Water Interagency Coordinating Committee.

It was also indicated this would be the first of multiple supplemental appropriations to address the ongoing crisis in Flint.

Gongwer News Service will have more on this story in Tuesday's Michigan Report.

**Attachments:** Wurfel-to-Hollins-Email-Legionnaires\_Published\_2-4-2016.pdf

All:

For your situational awareness. An email has been posted publically purporting to show that Harvey Hollins, a principal advisor to Governor Snyder, was aware of an uptick in Legionnaires disease in Genesee County and that a county health official was attributing the cases directly to the Flint River as the source of drinking water in Flint.

<http://www.progressmichigan.org/2016/02/38933/>

**To:** Hollins, Harvey (GOV)  
**Cc:** Wyant, Dan (DEQ)  
**Subject:** Part II  
**Attachments:** FOIA Request Flint Water.doc  
**Importance:** High

OK D-

This is the second issue I mentioned earlier today.

In December, our staff became peripherally aware that the hospitals in Genesee were seeing an uptick in Legionnaires cases.

Legionnaires is a water-borne illness. It essentially is a type of pneumonia caused by a bacteria. It is treated with antibiotics. Untreated, it can be deadly. It most often manifests in nursing homes and assisted living facilities, because the transmission is through water vapor getting into lungs – via air conditioners, vaporizers or low-flow shower heads that produce a lot of misting. You can drink water with this bacteria in it and not get sick – it has to enter the lungs in vapor.

I don't have any details on the cases, but here is what I understand to this point:

- More than 40 cases reported since last April. That's a significant uptick – more than all the cases in the last five years or more combined.
- April / May is usually the start of Legionnaires season – it proliferates in warmer months – but April also is the point at which the city switched to the Flint River as a source.
- County Health Departments are supposed to perform epidemiological tracebacks on all confirmed cases of this disease, to locate the source and address it. Genesee County Health had not done this work as of November. At a January meeting with area hospitals, MDCH, DEQ and others, Nick Lyon reportedly directed the county health folks, in terms not uncertain, to get this done as a priority. As I'm sitting here today, it still is not done to my knowledge.
- My counterparts at MDCH informed me today that they cannot step in unless they are invited or unless the outbreak is multi-county. They've not been invited until, I believe, today. That may be in part because of the email string and letter I've enclosed here, which was unknown to MDCH until I shared it over to them.

The email thread below is best read bottom-to-top, and read prior to reading the enclosed FOIA to the city.

Essentially, Jim Henry with Genesee County Health is putting up the flare. He's made the leap formally in his email that the uptick in cases is directly attributable to the river as a drinking water source – this is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced, and it also flies in the face of the very thing a drinking water system is designed to do.

DEQ did not receive this FOIA, which appears designed to buttress his position in the email -- that sections of the water delivery system may be harboring this bacteria. We think it would be highly unlikely that anything would be found around the plant, where the water is treated. Most often, this bacteria forms at the building / residential point in the system. Legionnaires is NOT among the 90 water contaminants screened in the Safe Drinking Water Act, but in the absence of action by county health, our staff are now considering taking samples from various points in the system and working with DCH's lab to test for it, if for no other reason than to rule it out.

Regardless, the accusation is serious and the nature of the communication leaves me thinking we would be advantaged to bring together all the agencies asap to share what information we have and develop a response / screening strategy before the weather gets warm again.

I realize these are long emails. Thanks for your patience.

**Subject:** FW: Information Request and Documentation  
**Importance:** High

The district received this late Tuesday.

Steve Busch has indicated that the district has not received a meeting request from Jim Henry or the Genesee County Health Department as indicated in his email below.

The FOIA is specifically directed to the City of Flint not the DEQ.

While the change in source may have created water quality conditions that could provide additional organic nutrient source to support legionella growth, there is no evidence or confirmation of legionella coming directly from the Water Treatment Plant or in the community water supply distribution system at this time.

Seems like the next step is to communicate with DCH and possibly develop a joint strategy/response. Not sure who in Exec wants to take the lead on this. Steve Busch and Mike Prysby will continue to be lead for us on this. They have been in contact with DCH recently but only to learn that little progress has been made in identifying a source or sources for the illnesses.

**EMAIL FROM DEQ TO HENRY SENT THIS AFTERNOON:**

Mr. Henry,

The January 27, 2015, FOIA request you provided was directed to the City of Flint, not the DEQ. The DEQ has no record of a FOIA request from your office for such information. It is our understanding that the City has responded to your FOIA request, has helped you adequately redefine your request within the City's scope of public record to address such ambiguities as "any additional areas of concern", and provided you with additional information beyond the scope of your request.

The DEQ fully recognizes the public health threat posed to individuals that contract Legionnaires' Disease with the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act. Your email below claims that you have explicitly explained the situation to our Department. However, since contacting our office early last October to indicate a rise in cases, we have not received any further information regarding your epidemiological investigation into this matter.

Further, conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end.

It is highly unlikely that legionella would be present in treated water coming from the City of Flint water treatment plant given the treatment plant's use of ozone along with complete treatment and chlorine disinfect contact time to comply with federal surface water treatment rules for potable water. Detections of total coliform or heterotrophic bacteria in the City's public water distribution system indicate an environment where bacterial growth may be supported. However, there is no direct correlation that can be made to the presence of legionella. While total organic carbon levels in potable water may serve as a food source for bacteria growth in private plumbing system, water temperatures in the City's distribution system are below legionella growth range, and chlorine residual levels would also limit such growth.

Our office agrees that water main breaks, water leaks, and system repairs are possible vectors for legionella to enter the public water system. These should be investigated as part of your epidemiology. DEQ staff can be made available to assist GCHD and the City regarding such matters, but to date no request by GCHD for any such meeting has been received, let alone declined as alleged in your email.

If GCHD is seeking assistance to complete its epidemiological investigation regarding this matter, such resource requests should be directed to the Michigan Department of Community Health. Our Office agrees that a multi-agency partnership would be beneficial to move forward and develop a unified response. In that respect, if our Office can be of any further assistance you may contact me directly.

Subject: Information Request and Documentation

Hello everyone,

The Genesee County Health Department has made several written and verbal requests for specific information since October, 2014, including a Freedom of Information Act Request on January 27, 2015. The information still has not been received and the city's lack of cooperation continues to prevent my office from performing our responsibilities.

The Genesee County Health Department has the responsibility to conduct illness investigations and consider all potential sources, this is not optional. In 2014, Genesee County experienced a significant increase of confirmed Legionella illnesses relative to previous years. Legionella can be a deadly, waterborne disease that typically affects the respiratory system.

The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water. The majority of the cases reside or have an association with the city. Also, McLaren Hospital identified and mitigated Legionella in their water system. This is rather glaring information and it needs to be looked into now, prior to the warmer summer months when Legionella is at its peak and we are potentially faced with a crisis.

This situation has been explicitly explained to MDEQ and many of the city's officials. I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The Trihalomethane issues "pale in comparison" to the potential public health risks of Legionella.

I am submitting the attached FOIA request again and requesting that the legal obligations of the request are met. If the information is not available, please let me know. In the past, I have requested to meet with the water plant staff and MDEQ regarding Legionella concerns. I did not receive a response from the water plant staff and MDEQ declined. I think it is in the best interest for all stakeholders that we meet and discuss the issues.

Respectfully,

Jim

Jim Henry

RE: Flint Water Plant Information Request

Dear FOIA Coordinator,

Under provisions of the Michigan Freedom of Information Act (MCLA 15.231 et seq; MSA 4.1801 (1) et seq) please provide copies of the following:

Provide specific water testing locations and laboratory results within the City of Flint public water system for Coliform, E-coli, Heterotrophic Bacteria and Trihalomethanes from January 1, 2010 to January 27, 2015. Provide any additional water testing that has been conducted for identifying potential public health risks. Include any available mapping of the water testing areas.

Provide a map delineating the boundaries of the City of Flint water distribution system. Include any changes to the boundaries, along with corresponding dates from January 1, 2014 to January 27, 2015.

Provide a map or list of locations, detailing dead ends, pooling, low pressure and any additional areas of concern within the City of Flint water distribution system. Include any modifications to the water distribution system addressing concerns, along with corresponding dates from January 1, 2014 to January 27, 2015.

If you determine that any of the requested information is exempt from disclosure, please detail what is being withheld and cite the exemption under FOIA. I anticipate the request being filled within five working days of receipt of this letter, as provided under FOIA. Please contact me at (810) 257-3618 if there are fees associated to comply with this request.

Sincerely,

**Jim Henry**

**Subject: Rally Today at Capitol - Flint Water Crisis**

This morning the organizer indicated he has a head count of about 150 people coming from Flint, there are two groups caravanning to the Capitol. One group leaving around 9:30 and another around 10:00. He did not indicate how many, if any were coming from Detroit, Benton Harbor, Ecorse, or Allen Park. They do mention that "other brethren from across the state are meeting us!"

It appears this group wants to have a peaceful protest to express their opinions on the water crisis in Flint.

An another note, as I mentioned yesterday '

Also there is plenty of negative response to the Governor's comment yesterday at the Auto Show: "'Why the delay in calling FEMA?" for help with the Flint water crisis was the first question for Snyder before he began his journey around the auto show floor. "I'm here at the auto show today," he replied. "It's great to be at the North American International Auto Show. What a great way to showcase Detroit and Michigan." People are posting photographs of an envelope with Attorney Jeffrey Feiger's address as their response.

I will continue to monitor open source for any threats or suspicious postings. So far I haven't seen any evidence of counter protestors or any groups with a counter-view.

Thanks,

**Subject:** Fwd: U of M Flint Campus Detail Update - Water Filter Distribution

### 5pm Update:

- \* This will be the final update as U of M Chief Hall has cleared all MSP Units from the detail.
- \* The organizers have approximately 100 people left in line and will finish the line before closing.
- \* There will be approximately 1,000 filters remaining.
- \* There are no protestors at the scene.
- \* No reported issues or concerns.
- \* Again, all MSP units are clear the scene and enroute back to their respective posts.

### 4pm Update:

- \* 2,100 filters remain.
- \* Approximately 80 people in line to receive a filter.
- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* Organizers are stating they will shut down at 5pm as planned.

### 3pm Update:

- \* Activity has increased slightly. There are 200 people in line to receive a filter
- \* There are 3,000 filters remaining.
- \* No protestors at the scene.
- \* No reported issues or concerns.

### 1pm Update:

- \* 600 filters have been handed out.
- \* No protestors at the scene.

- \* No reported issues or concerns.
- \* Approximately 20 people in line to receive a filter.
- \* Next update will be at 3pm unless there is a significant change or operational need to report sooner.

Noon Update:

- \* Restrictions on the order in which filters are being handed out have been lifted. Anyone living in a zip code that is affected, and showing proof, will be given a filter as they arrive.
- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* Approximately 20 people in line to receive a filter.

11am Update:

- \* No protestors at the scene.
- \* No reported issues or concerns.
- \* 30 people in line to receive filters.

10am Update:

- \* Doors are open for filter distribution with everything running smoothly.
- \* No protestors at the scene.
- \* Approximately 200 people in line.
- \* No reported issues or concerns.
- \* Media is on scene; Channels 12 and 5

The water filter distribution to affected city of Flint residents is expected to start at 10am this morning on the University of Michigan, Flint Campus. No additional filters arrived throughout the night and there are only approximately 5000 filters to hand out.

9am:

\* MSP personnel are on scene to assist and currently in a briefing with U of M Chief Ray Hall

\* There are no protesters on scene.

\* There are 5 people in line to receive a filter.

\* There are no reported issues or concerns.

Thank you,

Ryan

**Subject:** MSP Water Distribution Operation - AAR

I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:

**Mission:**

1 teams (40 DHHS employees), supported by 1 marked MSP, and 1 marked Sheriff units, and (2) 24' UHaul trucks, conducted water meter delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

**Recommend to Sustain on 1-13-16:**

-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck, 20 DHHS personnel, and (2) marked police units per street, and we covered 2 streets at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to 10 volunteers per truck, but lower than that would slow down progress, more than 20 would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

**Recommend to consider changing on 1-13-16:**

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each 4 person team.

**Subject:** Coding for City of Flint Water Contamination incident

Good Afternoon:

For any overtime hours spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

**Index 28900 with PCA 28670**

Any non-payroll costs (travel, SEOC meals during activation, etc.) should be coded to:

**Index 28900 with PCA 28671.**

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,  
Penny

Inspector,

Just a heads up on activities downtown. The EOC is located in the basement of the county building. They are generally running administrative type hours from 8:00 am until 7:00 pm. The 14's and myself will begin a rotation for MSP downtown starting tomorrow with Lt. Pummill and myself on Wednesday. Lt. Young will also be assigned in a uniform capacity in the coming days. We are tracking OT hours for any personnel downtown.

I've been in touch with Lt. Draves a few times this morning reference the Governor's visit. As of now there are no protesters, and the likelihood of having any is unlikely given the parking and weather conditions today. I will be down at the EOC starting at noon. We will keep you updated.

**Subject:** Flint Water Informational e-mail

Good Morning

I am sending this as an informational e-mail.

Currently, the Flint Post and 3<sup>rd</sup> HST are fulfilling the SEOC - requests for personnel and coordination command to the Flint Water Situation. With over 125 volunteers scheduled today and tomorrow, troopers are providing security to volunteer teams handing out water and filters, street-by-street and house-by-house.

Today we have the following enlisted numbers in place:

F/Lt. assigned to the Joint Information Center (JIC) has and continues to work with local and national media, for MSP, and other agencies.  
. F/Lt. as the Water Response Team Commander.

1. as the logistics – Distribution Coordinator.  
Sgt as the EOC – Safety Officer.  
1st. As Ground Operation Coordinators.  
Troopers providing security to the teams.

There are many assignments that fall under this portion of the overall operation and the Response Commander reports to command within the EOC.

I will send these out periodically as there may be a request to up our commitment based on the number of volunteers and supply of filters over the next weeks.

Thank you  
Gene

## Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). "A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

**Genesee County EOC – MSP State Security Officer SITREP**

**DATE/TIME:**

01/20/16 at 1230 HRS

Prepared by Lt. Amy Dehner

**AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, National Guard, Michigan Public Service Commission

**ACTIVITY SUMMARY:**

- National Guard personnel, MSP troopers, GCSO deputies, and 25 MDOC personnel on ground for distribution teams, briefed at 0830 today on ops plan for ) teams that begin water/filter dissemination on 01/20/16. Teams will have MSP and GCSO marked unit as security escort during operations.
- National Guard personnel are providing drivers for U-Haul distribution vehicles, and 15 passenger vans (to transport distribution teams).
- 20 U-Haul vehicles are in use to sustain mobile re-supply concept.
- Anticipating the arrival of another National Guard personnel this evening, which will result in the formation of another distribution teams to be sustained through Sunday 1/20/16, operating 1000HRS through 1800HRS.
- It is anticipated that contact will have either been made or attempted at all 45,000 residences in the City by mid-afternoon today.
- MSP and GCSO met with Red Cross coordinator Lauren Twohig this morning to review coordination issues that continue to be problematic in refining efficiency processes for distribution. A follow-up meeting will be held this afternoon to coordinate with National Guard personnel in an effort to address these issues prior to tomorrow's deployment.

**SAFETY ASSESSMENT:**

National Guard personnel were briefed for the purposes of situational awareness in the City of Flint. The safety threat assessment remains low, with cold weather as the only operational deterrent at this time.

**MSP RESOURCES REQUESTED THIS DATE/STATUS:**

additional troopers were requested to augment current trooper staffing, beginning tomorrow 1/20/2016 from 0830 to 1800HRS

**NEXT SITREP PUBLISH TIME / SECURITY OFFICER for 01/20/2016:**

1800 HRS 01/20/2016

**Subject:** Assistance to the City of Flint

**Importance:** High

Good afternoon all,

PCA 28670 has been established to track the OT worked assisting with the City of Flint with the water contamination. Please continue to use Project # FLTWAT and Phase 16 to track non-OT hours to that are spent assisting with this issue, as this will help us when asked the overall impact of assisting the City of Flint.

If for some reason you run into an issue where meals, lodging, supplies, etc. are necessary for this assistance, please contact me so that I can make a decision on how to handle that cost.

Please let me know if you have any questions.

Thanks,  
Dave

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

01/22/16 at 1400 HRS

Prepared by Lt. Amy Dehner

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, National Guard, Michigan Public Service Commission

ACTIVITY SUMMARY:

- 180 National Guard personnel, MSP troopers, GCSO deputies, and 25 MDOC personnel on ground for distribution teams, briefed at 0930 today on ops plan for (15) for WRT. Teams will have MSP and the GCSO marked unit as security escort during operations. In addition the American Red Cross is fielding 15 teams (apx 150 personnel) within the City. At their request, the Red Cross continues to operate without law enforcement support, and has consistently stated that law enforcement escorts go against their service model, with their agency assuming liability for the safety of their volunteers.
- The National Guard will sustain the soldiers they have on ground through COB Sunday January 24<sup>th</sup>.
- MSP, GCSO and National Guard met with Red Cross coordinator Lauren Twohig this morning to review coordination issues that continue to be problematic in refining efficiency processes for distribution, in particular at the Red Cross staffed warehouse.
- At time of publish, all involved ground teams have made or attempted contact at apx. 20,000 residences as part of Phase II of water distribution operations.

SAFETY ASSESSMENT:

National Guard personnel were briefed for the purposes of situational awareness in the City of Flint. The safety threat assessment remains low, with cold weather as the only operational deterrent at this time.

Based on information provided by National Guard personnel staffing water pods at fire stations #3 and #6 with regards to

MSP RESOURCES REQUESTED THIS DATE/STATUS:

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

**Genesee County EOC – MSP State Security Officer SITREP**

**DATE/TIME:**

01/23/16 at 1300 HRS

Prepared by Lt. Amy Dehner

**AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, National Guard, Michigan Public Service Commission, Genesee County Health Department, DTMB, United Way

**ACTIVITY SUMMARY:**

- National Guard personnel, ~ MSP troopers, GCSO deputies, and 25 MDOC personnel on ground for (15) water distribution teams. In addition, the American Red Cross is fielding (40) teams, with apx. 200 personnel acting as water distribution teams.
- As of 1200HRS today teams had completed contacting residences in their assigned operational areas (meeting the end phase of having either attempted or made contact in the estimated 45,000 residences in the City), and were beginning a 3<sup>rd</sup> pass in some neighborhoods..
- Per the SEOC, the operational plan as of COB today is to stand down the law enforcement/National Guard street water distribution teams, and allow the Red Cross to continue to address and complete their assigned operational areas through Tuesday.
- The National Guard will continue to staff the (5) water distribution pods at local fire stations. Current plans are underway to move those pods to locations that maintain accessibility, without putting pressure on fire station operations.
- MSP personnel on ground have been coordinating with local EMHSD personnel for the return of 20 Penske trucks, and 15 MDOC vans – all of which will be empty and staged at the Clio Road warehouse for transport back to Lansing and/or rental stations in Flint tomorrow.
- Combined team activity for the last three days has averaged apx. 13,000 residences contacted per day. As of 1300HRS, it is anticipated that teams will reach another 12-13,000 residences again today by 1800HRS

**SAFETY ASSESSMENT:**

(2) National Guard soldiers were taken to McClaren Hospital this morning for minor issues, unrelated to water distribution efforts. As of publish time, both had returned to normal duty status.

**MSP RESOURCES REQUESTED THIS DATE/STATUS:**

-NO ADDITIONAL MSP RESOURCES HAVE BEEN REQUESTED AT THIS TIME-

**Subject:** Flint Water - EOC Activation

Inspector,

Just a heads up on activities downtown. The EOC is located in the basement of the county building. They are generally running administrative type hours from 8:00 am until 7:00 pm. The 14's and myself will begin a rotation for MSP downtown starting tomorrow with Lt. Pummill and myself on Wednesday. Lt. Young will also be assigned in a uniform capacity in the coming days. We are tracking OT hours for any personnel downtown.

I've been in touch with Lt. Draves a few times this morning reference the Governor's visit. As of now there are no protesters, and the likelihood of having any is unlikely given the parking and weather conditions today. I will be down at the EOC starting at noon. We will keep you updated.

**Attachments:** How to UNZIP.html; SecureZIP Attachments.zip  
**Importance:** High

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those *under your command* have been notified about their report time and location. Below is operational assembly information that is critical for you to read as this is very short notice :

### **MISSION:**

Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

### **TIME:**

0730 HRS Briefing

1700 HRS Release to home post assignment

### **LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall)

Emergency Operations Center (EOC)

1105 Beach Street

Basement Level

### **PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

### **NOTABLE EQUIPMENT REQUIREMENTS:**

High visibility vest (in vehicle)

Garrison cap and/or department issued cold weather headgear

### **RADIO CHANNELS:**

**MEALS:**

Lunch will be provided at noon at the EOC

**GROUND OPERATION OIC(s):**

Tpr. Rick Jones –

Sgt. Duane Zook

**EOC SITE SAFETY OFFICER:**

Lt. Amy Dehner (3504) 989-225-3487

**OTHER INFORMATION:**

*This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.*

**SECURITY GROUP ONE:**

Tpr. Gooch

Tpr. Poyhonen

Tpr. Lutz

Tpr. Easlick

Tpr. Cairnduff

Tpr. Stickel

Tpr. Kramer

Tpr. Brown

**SECURITY GROUP TWO:**

Tpr. Martin

Tpr. Hessling

Tpr. Dhooge

Tpr. Hutchinson

Tpr. Swales

Tpr. Richter

Tpr. Faucette

Any questions regarding the information contained in this email can be directed to me via cellphone at 989-225-3487.

### **Third District Commanders**

As a heads up I ask you to review this information, make a phone call to F/Lt. Kish or Lt. Dehner, and make arraignments (You and/or a Sgt.) to visit the EOC – Flint. As this effort continues and possibly ramps up, you, your staff, and your troops will be called on for support. The request and direction for troopers will come as soon as we have information they will be needed, and will include details such as DCDS codes and reporting plans.

As a F/Lt. or Lt. you may be specifically assigned as the Water Response Team Commander for all team operations. To prepare, please make every effort to visit the EOC during operation hours 730am-9pm, and discuss duties with the on-site commander.

It is my plan to keep Lt. Dehner as a consistent presence / commander in the EOC, but you can be assigned to be part of that team. The following information is for your review and I will keep you advised as information is available.

### **Current Duties:**

- EOC Safety Officer – Sgt.
- Water Response Team Commander for all team operations – F/Lt – Lt. and or assistant.
  - Coordinate and manage Water Response Team structure. This includes Street Sgts.
  - Coordinate and manage Water Response Team resources.
  - Coordinate walking routes with concentration in the most hazardous lead level areas.
  - Coordinate logistics for Water Response Teams.
  - Coordinate iPad distribution and tracking.
  - Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
  - Coordinate and manage team security with MSP and County personnel.
  - Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
  - Coordinate with Sheriff's department resources.
  - Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
  - Provide a daily report of all activities to include best practices and issues or concerns.

In addition there is a 9:30 am and 4:30 pm SEOC briefing via conference call as well as any other conference calls necessary to complete the above mission.

**TROOPER MISSION:**

Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of operations will be conducted from patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

**TIME:**

0730 HRS Briefing

1700 HRS Release to home post assignment Troopers only

**LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall)

Emergency Operations Center (EOC)

1105 Beach Street

Basement Level

**PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

**RADIO CHANNELS:**

**MEALS:**

Lunch will be provided at noon at the EOC

Please call with any questions and advise me by e-mail if you were able to make a site visit.

**MSP Flint City Water Detail**

**Genesee County EOC – MSP State Security Officer SITREP**

**DATE/TIME:**

1/17/2016 1900 HRS

Prepared by Lt. Patrick Young

**AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, and the Michigan Army National Guard.

**ACTIVITY SUMMARY:**

- Distribution teams totaling roughly 104 volunteers have returned to the EOC and or left for the evening. This does not include personnel from the MSP, MDOC, GCSO, or truck drivers.
- We are currently coordinating loading procedures for 15 trucks.
- 22 iPad have been turned back in, secured in the EOC and are charging for tomorrow's mission.
- Gas cards have been obtained to resolve local level re-fuel issues of distribution vehicles.
- It has been reported that the 10 ARC teams have returned and are clear.
- The ARC is reporting 1732 residential contacts for the day.
- The numbers for this day's residential contacts for MSP/GCSO have yet to be determined.

**SAFETY ASSESSMENT:**

Local access shows 13 Degrees Fahrenheit with a light wind. The streets are icy in spots. The National Weather Service reports are being monitored.

**NEXT ANTICIPATED SITREP PUBLISH TIME:**

1000 HRS 01/18/2016 from Lt. Patrick Young.

## **MSP Flint City Water Detail**

### **Genesee County EOC – MSP State Security Officer SITREP**

#### **DATE/TIME:**

**1/18/2016 1025 HRS**

**Prepared by Lt. Patrick Young**

#### **AGENCIES PRESENT:**

**MSP EMHSD/Flint Post Personnel, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, Michigan Army National Guard.**

#### **ACTIVITY SUMMARY:**

- **MSP/DHHS/GCSO/all other/Distribution teams totaling roughly 172 are in operation. This includes team leaders. At present, we have sufficient trooper and deputy staffing to effectively run this days operation. The expected hard numbers of volunteers will be passed down by the SEOC this evening. We have fielded 12 teams with 12 vehicles. 4 additional vehicles (box trucks) are being utilized as resupply vehicles. Distribution operations are taking place on the West and North ends of Flint per local intelligence and the latest distribution map provided by the SEOC.**
- **20 + iPads are in use today.**
- **The ARC reported 12 ARC teams deployed at approximately 9am.**

#### **SAFETY ASSESSMENT:**

**Local access shows 16 Degrees Fahrenheit. Wind chill factor feels like -3 degrees. The streets have icy spots in the distribution areas. National weather service reports are being monitored.**

#### **NEXT ANTICIPATED SITREP PUBLISH TIME:**

**1800 HRS 01/18/2016**

**Subject:** Flint Water Emergency-Genesee County EOC

Lts.,

The address for the Flint Emergency Operations Center is 1105 Beach St. This is a county owned building. It is directly across the street from Flint City Hall and the EOC is located in the basement, or level "G" if you use the elevator. Once you exit the elevator, you will see an old cafeteria to the left. Walk past the cafeteria and the EOC is down the hall on the right. The door is labeled Emergency Operations Center. BJ Roach is the EMHSD coordinator for the incident. Her cell phone number is ( ) Please include Sgt. Keith Sparks at our post as to whom you will be sending. We are putting together paper squads for this response.

Parking is available behind the sheriff department which is one building north of the county building or there is a parking ramp available off 7<sup>th</sup> street.

We appreciate all the assistance.

**Subject:** Flint Water Informational e-mail

Good Morning

I am sending this as an informational e-mail.

Currently, the Flint Post and 3<sup>rd</sup> HST are fulfilling the SEOC - requests for personnel and coordination command to the Flint Water Situation. With over 125 volunteers scheduled today and tomorrow, troopers are providing security to volunteer teams handing out water and filters, street-by-street and house-by-house.

Today we have the following enlisted numbers in place:

-/Lt. assigned to the Joint Information Center (JIC) has and continues to work with local and national media, for MSP, and other agencies.

F/Lt. as the Water Response Team Commander.

1. as the logistics – Distribution Coordinator.

1gt. as the EOC – Safety Officer.

Sgts. As Ground Operation Coordinators.

Troopers providing security to the teams.

There are many assignments that fall under this portion of the overall operation and the Response Commander reports to command within the EOC.

I will send these out periodically as there may be a request to up our commitment based on the number of volunteers and supply of filters over the next weeks.

Thank you  
Gene

**Subject: "Gathering" of Militia in Flint at 2 p.m. Sunday, January 24 "Standing with Flint"**

The location is 1099 Saginaw Street, Flint. I tried to Google that location to determine the significance of the address but couldn't identify it as a commercial or city facility or park, etc.

The description of the event is as follows:

We the People of the County of Genesee and of the State of Michigan, stand united to say to this government "ENOUGH IS ENOUGH", there have been lives lost and, along with families being ruined from illnesses. We demand that those responsible are held accountable.

To help our effort, The are requesting a show of support on Sunday, January 24, 2016 from

Patriots and Patriot groups across the land as a united front, standing with all citizens of the City of Flint, MI. We ask \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, and all other like groups to wear your uniforms and insignia to this event. All others are welcome to join us as well! We ask that you only wear side arms and not long rifles, this is not about our 2nd Amendment, this is about the infringement on the good people of Flint. . God Bless the Republic,

On behalf of the \_\_\_\_\_

They are asking participants to bring water for the citizens of Flint. \_\_\_\_\_

plans to have two U-Hauls of water to distribute.

I'll continue to monitor the event and provide updates.

Thanks,

Sue

**Subject:** "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis"

Good Morning,

The first "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis" was held last night in front of Governor Snyder's residence at \_\_\_\_\_, it is reported that over 80 individuals turned out for the demonstration. Participants loudly chanted, carried posters, and wrote messages on the sidewalk in front of the residence. The event description indicates the group will continue to protest on Wednesdays between 5:30 p.m. - 6:30 p.m. in front of Governor Snyder's residence in Ann Arbor.

The next protest will be held on Wednesday, February 10 between 5:30 p.m. – 6:30 p.m. also in front of Governor Snyder's residence in Ann Arbor. Currently 45 individuals have RSVP'd they plan to attend.

This is for situational awareness only.

Thanks,

Sue

# Protesters: 'Arrest Rick Snyder! Make him drink the water!'

It's hard out here for a governor.

Facing continued pressure to resign over the Flint water crisis, Michigan Gov. Rick Snyder has been **publicly heckled** while trying to dine out in Ann Arbor, he's been the subject of criticisms written in chalk on downtown sidewalks, his face is on wanted posters plastered around multiple cities, and then there's the protests.

Dozens of protesters demonstrated once again Wednesday night outside the embattled governor's personal condo in downtown Ann Arbor.

Protest organizer Jan BenDor of Michigan Rising said they're planning to continue holding weekly protests outside the Main Street loft condo the governor and his wife moved into this past year. The Snyders had been living in a gated community just outside the city before deciding to make the move downtown.

"We're just hoping to keep this situation in the public eye," BenDor said of the Flint water crisis. "Often even the worst tragedies just disappear after a week or so of concern, and this is a long-term horrible thing that has happened in our state. So, we want to make sure everybody keeps helping with this."

The condo's window blinds were closed Wednesday night, and it wasn't clear that anybody was home, but protesters still chanted loudly.

"Arrest Rick Snyder! Make him drink the water!" they yelled as they marched along Main Street.

"Jail the nerd!" they chanted in unison multiple times.

"No more procrastination! We want incarceration!"

The protesters didn't channel all of their energy into anger and frustration toward the governor, though.

They also handed out fliers informing passersby how they can help the residents of Flint, with suggested charities to support.

## All Stories

"We're encouraging people to donate to the [FlintKids.com](http://FlintKids.com) website for the long-term health care of the poisoned children," BenDor said. "And we are also encouraging donations to some other agencies that are doing uniquely good work."

The flier also directs people to a CrowdRise page for a charity for Flint residents called [Crossing Water](#).

Ann Arbor resident Susan Fecteau was among those protesting. She's also behind the anti-Snyder sidewalk chalk messages seen around downtown.

"You enjoying your clean water up there, Rick?" read one of the messages written on the sidewalk right outside the governor's window Wednesday night.

Fecteau said she's been out chalking just about every day for weeks now and she's been watched and photographed. She's not sure who's doing it, but somebody has been wiping away her messages after she leaves, but she keeps going back.

She said Wednesday's protest was about making sure people are fully aware of what has happened in Flint.

She said people need to take back their government.

"People need to to get educated about it, and understand that when we vote guys in like this, this is what happens, this is the result," she said.

"And I've been stunned as I've been talking to people. I'm surprised people still don't know what has happened. People don't understand about the emergency manager law. They don't understand about FOIA and that he's FOIA-proof."

Not everyone was happy with the protest, though.

Paula Porter, an employee of the Four Directions store on the ground level under the governor's condo, came out and confronted the protesters. She questioned whether what they were doing was constructive or effective.

"I'm on their side, but I'd prefer they go to Flint," she said. "I've lived in Flint. Go spend time in Flint, get things done."

Porter said she doesn't think the governor is going to care much about what protesters outside his condo have to say.

A city police officer was on the scene at one point responding to complaints that people were stuffing fliers into one or more mail slots.

Dave Murray, a spokesman for the governor, said in response to the protest that Snyder is focused on the people of Flint, not politics.

"He's making sure Flint residents are getting the assistance they need as we move forward, addressing issues related to health, education and infrastructure," he said.

"Today the governor discussed his \$30 million proposal to bring relief to Flint residents who have been paying for water they cannot use to drink or cook with. This is on top of the \$28 million our partners in the Legislature approved last week to provide immediate relief and the \$9 million approved in October.

"People across our state, from both sides of the aisle, are coming together to help the people of Flint."

*"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"*

**Genesee County EOC – MSP State Security Officer SITREP**

**DATE/TIME:**

01/20/16 at 1230 HRS

Prepared by Lt. Amy Dehner

**AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, National Guard, Michigan Public Service Commission

**ACTIVITY SUMMARY:**

- 95 National Guard personnel, MSP troopers, GCSO deputies, and 25 MDOC personnel on ground for distribution teams, briefed at 0830 today on ops plan for (10) teams that begin water/filter dissemination on 01/20/16. Teams will have one MSP and one GCSO marked unit as security escort during operations.
- National Guard personnel are providing drivers for U-Haul distribution vehicles, and 15 passenger vans (to transport distribution teams).
- 20 U-Haul vehicles are in use to sustain mobile re-supply concept.
- Anticipating the arrival of another 90 National Guard personnel this evening, which will result in the formation of another 10 distribution teams to be sustained through Sunday 1/20/16, operating 1000HRS through 1800HRS.
- It is anticipated that contact will have either been made or attempted at all 45,000 residences in the City by mid-afternoon today.
- MSP and GCSO met with Red Cross coordinator Lauren Twohig this morning to review coordination issues that continue to be problematic in refining efficiency processes for distribution. A follow-up meeting will be held this afternoon to coordinate with National Guard personnel in an effort to address these issues prior to tomorrow's deployment.

**SAFETY ASSESSMENT:**

National Guard personnel were briefed for the purposes of situational awareness in the City of Flint. The safety threat assessment remains low, with cold weather as the only operational deterrent at this time.

**MSP RESOURCES REQUESTED THIS DATE/STATUS:**

additional troopers were requested to augment current trooper staffing, beginning tomorrow 1/20/2016 from 0830 to 1800HRS

**NEXT SITREP PUBLISH TIME / SECURITY OFFICER for 01/20/2016:**

1800 HRS 01/20/2016

**Subject:** FW: Arrest Snyder Event Today at 4:40 p.m., Flint City Hall UPDATE

Good Morning,

The MIOC has prepared the below information for situational awareness and public safety concerns.

Participants of this rally will meet up at Flint City Hall to discuss why arresting the Governor is "the only action that is appropriate." The group plans to move from Flint City Hall to a nearby overpass and display light boards with the message "Flint Arrest Snyder." One individual will be dressed as Snyder in a black/white stripe prison jumpsuit with the number 66247 (see attached photo). The number is significant to them as it is meant to signify Snyder is "the Devil 24/7."

This rally is described as a nonviolent action intended to support the community affected by the tainted water. No guns or weapons are welcome. No drugs or alcohol are welcome. This is to be a family friendly event working toward the health of the community.

At this time there are no known credible threats. Unfortunately, this issue has received a large amount of negative media exposure. Cher has "tweeted" the Governor should be executed over the Flint water issue and filmmaker Michael Moore has started a petition asking the U.S. Attorney General to prosecute and arrest Snyder and called for a thorough FBI investigation over his handling of the Flint water crisis. Rachel Maddow, MSNBC, reported the responsibility for the tragedy falls to Governor Snyder. They have emailed Maddow inviting her to attend the rally. All of this media exposure creates the potential for attendance by groups with divergent views or lone wolf individuals who seek to engage in destruction of property, assault, or other types of crimes which may potentially result in incidents at, or associated with the event.

The MIOC will continue to monitor open source today for any threats and provide updates as any new information or suspicious activity connected to the event is located.

*Good morning Ladies,*

We received unconfirmed information via the local EOC that a water rally is being planned for this morning at First Trinity church in Flint, where both Jesse Jackson and Russell Simmons are scheduled to attend. In addition, the information provided indicated that this may also be linked to the movement and that individuals in attendance may purposefully engage in civil unrest in an attempt to be arrested by law enforcement.

## **MSP Flint City Water Detail**

### **Genesee County EOC – MSP State Security Officer SITREP**

#### **DATE/TIME:**

**1/17/2016 1900 HRS**

**Prepared by Lt. Patrick Young**

#### **AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, and the Michigan Army National Guard.

#### **ACTIVITY SUMMARY:**

- Distribution teams totaling roughly 104 volunteers have returned to the EOC and or left for the evening. This does not include personnel from the MSP, MDOC, GCSO, or truck drivers.
- We are currently coordinating loading procedures for 15 trucks.
- 22 iPad have been turned back in, secured in the EOC and are charging for tomorrow's mission.
- Gas cards have been obtained to resolve local level re-fuel issues of distribution vehicles.
- It has been reported that the 10 ARC teams have returned and are clear.
- The ARC is reporting 1732 residential contacts for the day.
- The numbers for this day's residential contacts for MSP/GCSO have yet to be determined.

#### **SAFETY ASSESSMENT:**

Local access shows 13 Degrees Fahrenheit with a light wind. The streets are icy in spots. The National Weather Service reports are being monitored.

#### **NEXT ANTICIPATED SITREP PUBLISH TIME:**

**1000 HRS 01/18/2016 from Lt. Patrick Young.**

**To:** Kish, Thomas (MSP); Dehner, Amy (MSP); Young, Patrick (MSP)  
**Cc:** Furnish, Nicole (MSP)  
**Subject:** Flint Water March

I just saw this:

### Details on water crisis march with Jesse Jackson, Greg Mathis in Flint

FLINT, MI -- Several organizations are expected to come together Friday, Jan. 19 for a mile-long national march organized in part by Rev. Jesse Jackson to highlight the push for clean water in Flint.

Pastor Alfred Harris, president of the Concerned Pastors for Social Action Group, said the march will begin at 11 a.m.

Friday, Feb. 19 at the Metropolitan Baptist Tabernacle, 930 E. Myrtle Ave.

The roughly one-mile march will run from Myrtle, up Industrial Avenue, east on Stewart Avenue, and end at the Flint Water Plant, 4500 N. Dort Highway.

Jackson announced during a Feb. 2 press conference on a class-action lawsuit seeking \$150 million to help refund water bills and repair infrastructure that a "major national march" was in the works.

Organizations involved in the planned march include Jackson's Rainbow PUSH Coalition, the Michigan Legislative Black Caucus, and the Concerned Pastors group.

Jackson has appeared at several recent events in Flint, including a Jan. 17 rally during which he called a "disaster zone" and a "crime scene."

He said he's been in contact with Doctors Without Borders to have every home in the city tested and is working on a "broad-based coalition" for action that includes the concerned pastors and Water You Fighting For? groups.

Jackson is expected to be in attendance at the march, along with Judge Greg Mathis who made a Jan. 30 stop at Quinn Baptist AME Church to chat with resident about their legal rights concerning the water crisis.

Harris previously said the group is partnering up with Jackson who will be with them "shoulder to shoulder" in the days ahead.

"What we want to do, we want to go from bottled water to pipes to restoration," he said. "We want the citizens of Flint to be restored in all aspects of their lives."

I just checked the websites and social media of the three main groups (RPC, MLBC and CPSA) and none of them have put anything up about the march yet. I will continue to monitor this and forward any pertinent information.

**Subject:** RE: Flint Water OIC for Friday 1/22

Clear on those responses –

Our ground and mapping personnel are asking if it is possible to have the NG assemble at the EOC, instead of the warehouse, tomorrow morning? Operationally, it is easier for our mapping personnel, the team leaders, and tech section, to stage the delivery trucks here in the morning, and push out from the EOC. We seem to run into last minute logistic issues that require iPad fixes, and/or map route re-draws, and it is more helpful to be able to address those issues here, rather than going to another facility where we can't have direct access to all of our personnel in the morning.

Also, if we anticipate going past Friday, we made need to have another request for personnel generated by the SEOC as our current plan is only projected through Friday the 22<sup>nd</sup>.

Answers are starred below

- Will this require us to supply dinner to the volunteers/distribution teams? Currently, we are supplying only lunch.

\*\*We will need to feed our personnel and Logistics can add meals to the Local EOC dinner plan. The guard is eating on the economy.

- The GCSO advised that they are at minimum staffing with our current distribution model. If we push to delivery after 1700HRS, they CANNOT assist us outside of supplying . This includes personnel that staff the mapping operations, which has been critical to our success to this point.

\*\*We are discussing having the Guard shift be strictly 1300-2100 with ARC covering the normal day shift. If we switch to this model, we will need to provide staff for 18 teams, 1300-2100. Day shift teams will continue for the Red Cross as current (no MSP or GCSD staff).

- Is the number of National Guard soldiers anticipated to be TOTAL for the day, or soldiers per shift? We have enough projected staffing through the Flint Post to support up to soldiers, (1 marked unit per team) working

12 hour shifts through Friday January 22nd. We don't have resources in place past that point. Anything past 150 bodies will require that we seek staffing outside of Post resources.

\*\* Beginning on Thursday, the Guard will be providing soldiers for WRT detail and command staff. 3 teams of

- Will the data for residences that show as "no answer" be produced by the SEOC, prior to Thursday so that we have an opportunity to pre-plan distribution routes?

\*\*I am submitting a MiCIMS resource request to GIS for this right now. The resource request number is SEOC – 8951057

Resource request is for the following:

Please prepare a GIS Map for Water Response Team use with the following layers:

Ward/Precinct

"Homes Visited" Resource delivered

Homes Visited, but "No Answer"

**Subject:** RE: Flint Water OIC for Friday 1/22

Okay.

We will adjust our schedule here.

Can I get contact #s for Julin and Mapes?

I have the following for Sims and Luty, please advise if they are incorrect:

Sims .

Luty :

Finally, FYSA: we are working on modifying the hours of operation starting on Thursday. Right now, we are considering a two shifts, the normal shift we have been running (0800-1700) and an afternoon shift of 1300-2100. Please advise if we will be able to support the guard for this shift. We still need to figure out the number of teams on each shift.

I'm open to suggestions.

Lt. Colonel Sands,

In follow-up to your discussion with Colonel Etue regarding resources/explanation for Flint Post troopers, the attached memo was posted on Official Correspondence late today. In addition to explaining the department's role in this emergency, there is a link to a flyer that is being distributed to Flint residents, as well as the state website that contains all resources and updates for this emergency.

Please let me know if you need anything else.

## STATE OF MICHIGAN DEPARTMENT OF STATE POLICE

**DATE:** January 11, 2016  
**TO:** Department Members  
**FROM:** Col. Kriste Kibbey Etue, Director  
**SUBJECT:** Activation of State Emergency Operations Center

On January 5, Gov. Rick Snyder declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. By declaring a state of emergency, Governor Snyder has made available all state resources in cooperation with local response and recovery operations.

The declaration authorizes the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) to coordinate state efforts. In addition, Governor Snyder activated the State Emergency Operations Center (SEOC) to coordinate the actions of state departments in the state's response and recovery efforts.

The SEOC is the emergency operations center for the state of Michigan and is overseen by the MSP/EMHSD. The SEOC is supported by staff from MSP/EMHSD and staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in the state of Michigan.

On January 6, a State of Michigan Joint Information Center (JIC) was also established to lead the state's messaging and information response in support of the SEOC and in coordination with the Genesee County Emergency Operations Center and the City of Flint.

Going forward, to better coordinate the health and safety of the residents of Flint and to ensure they are aware of and have access to the resources available within their community, the SEOC will serve as a central point of coordination between the local and state response efforts.

The state of Michigan is working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, to find both short-term and long-term solutions to ensure the health and safety of Flint residents.

As a resource, an informational flyer can be found [here](#). For updates and additional information, visit [www.mi.gov/flintwater](http://www.mi.gov/flintwater).

## **MSP Flint City Water Detail**

### **Genesee County EOC – MSP State Security Officer SITREP**

#### **DATE/TIME:**

1/15/2015 1400 HRS

Prepared by Lt. Amy Dehner

#### **AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Public Service Commission, Michigan Army National Guard

#### **ACTIVITY SUMMARY:**

- MSP/DHHS/GCSO Distribution teams ) continue to conduct operations in 5th and 7th Wards; this is an increase in 2 teams from Thursday's model and was a decision made on the ground this morning due to an unanticipated increase in personnel and distribution vehicles
- Supply issues continue to remain a challenge with maintaining water on distribution vehicles due to a supply conflict with firehouses.
- iPad issues related to a technology upgrade prevented the real time capture of data for the first 2 hours of operation. This information was captured by hand, and will need to be manually uploaded.
- Gas cards have been obtained to resolve local level re-fuel issues of distribution vehicles.
- Volunteer (state employees) numbers are at apx. 50-75 personnel for Saturday, Sunday and Monday. The expected hard numbers will be passed down by the SEOC this evening. At present, we have sufficient trooper and deputy staffing to meet these anticipated numbers.

#### **SAFETY ASSESSMENT:**

MCU reported a non-fatal shooting in the area of Tuxedo and Alvord Streets in the City of Flint at around 10am. This was passed to distribution teams, who advised they were all working a significant distance from this south part of the City.

NEXT ANTICIPATED SITREP PUBLISH TIME 01/15/2016:

1700 HRS 01/15/2016 / by Relief Officer, Lt. Pat Young

**Subject:** RE: MSP Resource Request - Flint Water Response Teams

I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have s (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

**Subject: MSP Resource Request - Flint Water Response Teams**

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

F/Lt. Mike Johnson

**Subject:** MSP Troopers for Water Emergency

Inspector,

With the (proposed) deployment schedule moving to an afternoon shift, this will have significant impacts upon trooper availability for the water emergency from our post. Is this a necessary change? Is it possible to spot check residences on an "as needed" basis on an afternoon shift? We could probably make that accommodation. At this point, I'm not sure that completely changing the schedule that has been so effective up to this point is really necessary.

**Cc:** Pummill, Paul (MSP); Kish, Thomas (MSP); Sparks, Keith (MSP); Young, Patrick (MSP)  
**Subject:** MSP Water Distribution Operation - AAR

I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:

### **Mission:**

teams (40 DHHS employees), supported by \_\_\_\_\_ and \_\_\_\_\_ marked Sheriff units, and (2) 24' UHaul trucks, conducted water filter delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

### **Recommend to Sustain on 1-13-16:**

-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck, 20 DHHS personnel, and \_\_\_\_\_ per street, and we covered 2 streets at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to 10 volunteers per truck, but lower than that would slow down progress, more than 20 would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with

transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

**Recommend to consider changing on 1-13-16:**

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each 4 person team.

Tuesday, January 19, 2016, 03:17 PM

### **\$28M Flint Supplemental Expected In House Approps Wednesday**

A \$28 million supplemental to fund various Flint needs as it continues to work through its ongoing water crisis is expected to be taken up in the House Appropriations Committee on Wednesday.

Budget Director John Roberts formally submitted today the requested supplemental to the chairs of the House and Senate Appropriations committees.

The supplemental would provide funding for various initiatives, according to information obtained by Gongwer News Service. In total, the supplemental is \$28.03 million with \$22.63 million from the General Fund.

It would provide:

- \$935,000 in General Fund dollars for hiring nine additional school nurses and two Early On service coordinators, a psychologist and a health professional to coordinate the provision of wrap around services. The funds would also provide fresh fruit and vegetables to the Genesee Intermediate School District;
- \$5.79 million from the General Fund for an infrastructure integrity study to assess the status of the Flint water system and additional lab and testing costs in the Department of Environmental Quality. The funds would also assist the city in paying for corrosion control procedures for one year and potentially help with utility issues and water system needs;
- \$17.2 million (\$2.85 million in federal, \$2.55 million in state restricted revenues and \$11.8 million in General Fund revenues) to help with purchasing of bottled water, water filters and replacement cartridges; Department of Health and Human Services field operations costs; epidemiological analysts and case management of those with elevated lead blood levels; nutrition support; support for child and adolescent health centers; assessment of potential links to other diseases; food inspections and crisis counseling;

- \$2 million in General Fund for emergency efforts related to the water system, specifically purchasing and replacing plumbing fixtures in schools, child care and adult foster care centers, nursing homes, dialysis centers and surgery centers in the city;
- \$2 million in General Fund dollars to address immediate needs, including paying for the National Guard's role in providing support for three months; and
- \$100,000 in General Fund dollars for the Flint Water Interagency Coordinating Committee.

It was also indicated this would be the first of multiple supplemental appropriations to address the ongoing crisis in Flint.

Gongwer News Service will have more on this story in Tuesday's Michigan Report.

**Attachments:** Wurfel-to-Hollins-Email-Legionnaires\_Published\_2-4-2016.pdf

All:

For your situational awareness. An email has been posted publically purporting to show that Harvey Hollins, a principal advisor to Governor Snyder, was aware of an uptick in Legionnaires disease in Genesee County and that a county health official was attributing the cases directly to the Flint River as the source of drinking water in Flint.

**Thelen, Mary Beth (DEQ)**

---

**From:** Wurfel, Brad (DEQ)  
**Sent:** Friday, March 13, 2015 6:49 PM  
**To:** Hollins, Harvey (GOV)  
**Cc:** Wyant, Dan (DEQ)  
**Subject:** Part II  
**Attachments:** FOIA Request Flint Water.doc  
**Importance:** High

OK D~

This is the second issue I mentioned earlier today.

In December, our staff became peripherally aware that the hospitals in Genesee were seeing an uptick in Legionnaires cases.

Legionnaires is a water-borne illness. It essentially is a type of pneumonia caused by a bacteria. It is treated with antibiotics. Untreated, it can be deadly. It most often manifests in nursing homes and assisted living facilities, because the transmission is through water vapor getting into lungs – via air conditioners, vaporizers or low-flow shower heads that produce a lot of misting. You can drink water with this bacteria in it and not get sick – it has to enter the lungs in vapor.

I don't have any details on the cases, but here is what I understand to this point:

- More than 40 cases reported since last April. That's a significant uptick – more than all the cases in the last five years or more combined.
- April / May is usually the start of Legionnaires season – it proliferates in warmer months – but April also is the point at which the city switched to the Flint River as a source.
- County Health Departments are supposed to perform epidemiological tracebacks on all confirmed cases of this disease, to locate the source and address it. Genesee County Health had not done this work as of November. At a January meeting with area hospitals, MDCH, DEQ and others, Nick Lyon reportedly directed the county health folks, in terms not uncertain, to get this done as a priority. As I'm sitting here today, it still is not done to my knowledge.
- My counterparts at MDCH informed me today that they cannot step in unless they are invited or unless the outbreak is multi-county. They've not been invited until, I believe, today. That may be in part because of the email string and letter I've enclosed here, which was unknown to MDCH until I shared it over to them.

The email thread below is best read bottom-to-top, and read prior to reading the enclosed FOIA to the city.

Essentially, Jim Henry with Genesee County Health is putting up the flare. He's made the leap formally in his email that the uptick in cases is directly attributable to the river as a drinking water source – this is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced, and it also flies in the face of the very thing a drinking water system is designed to do.

DEQ did not receive this FOIA, which appears designed to buttress his position in the email -- that sections of the water delivery system may be harboring this bacteria. We think it would be highly unlikely that anything would be found around the plant, where the water is treated. Most often, this bacteria forms at the building / residential point in the system. Legionnaires is NOT among the 90 water contaminants screened in the Safe Drinking Water Act, but in the absence of action by county health, our staff are now considering taking samples from various points in the system and working with DCH's lab to test for it, if for no other reason than to rule it out.

Regardless, the accusation is serious and the nature of the communication leaves me thinking we would be advantaged to bring together all the agencies asap to share what information we have and develop a response / screening strategy before the weather gets warm again.

I realize these are long emails. Thanks for your patience.

**Subject:** FW: Information Request and Documentation  
**Importance:** High

The district received this late Tuesday.

Steve Busch has indicated that the district has not received a meeting request from Jim Henry or the Genesee County Health Department as indicated in his email below.

The FOIA is specifically directed to the City of Flint not the DEQ.

While the change in source may have created water quality conditions that could provide additional organic nutrient source to support legionella growth, there is no evidence or confirmation of legionella coming directly from the Water Treatment Plant or in the community water supply distribution system at this time.

Seems like the next step is to communicate with DCH and possibly develop a joint strategy/response. Not sure who in Exec wants to take the lead on this. Steve Busch and Mike Prysby will continue to be lead for us on this. They have been in contact with DCH recently but only to learn that little progress has been made in identifying a source or sources for the illnesses.

**EMAIL FROM DEQ TO HENRY SENT THIS AFTERNOON:**

Mr. Henry,

The January 27, 2015, FOIA request you provided was directed to the City of Flint, not the DEQ. The DEQ has no record of a FOIA request from your office for such information. It is our understanding that the City has responded to your FOIA request, has helped you adequately redefine your request within the City's scope of public record to address such ambiguities as "any additional areas of concern", and provided you with additional information beyond the scope of your request.

The DEQ fully recognizes the public health threat posed to individuals that contract Legionnaires' Disease with the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act. Your email below claims that you have explicitly explained the situation to our Department. However, since contacting our office early last October to indicate a rise in cases, we have not received any further information regarding your epidemiological investigation into this matter.

Further, conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end.

It is highly unlikely that legionella would be present in treated water coming from the City of Flint water treatment plant given the treatment plant's use of ozone along with complete treatment and chlorine disinfect contact time to comply with federal surface water treatment rules for potable water. Detections of total coliform or heterotrophic bacteria in the City's public water distribution system indicate an environment where bacterial growth may be supported. However, there is no direct correlation that can be made to the presence of legionella. While total organic carbon levels in potable water may serve as a food source for bacteria growth in private plumbing system, water temperatures in the City's distribution system are below legionella growth range, and chlorine residual levels would also limit such growth.

Our office agrees that water main breaks, water leaks, and system repairs are possible vectors for legionella to enter the public water system. These should be investigated as part of your epidemiology. DEQ staff can be made available to assist GCHD and the City regarding such matters, but to date no request by GCHD for any such meeting has been received, let alone declined as alleged in your email.

If GCHD is seeking assistance to complete its epidemiological investigation regarding this matter, such resource requests should be directed to the Michigan Department of Community Health. Our Office agrees that a multi-agency partnership would be beneficial to move forward and develop a unified response. In that respect, if our Office can be of any further assistance you may contact me directly.

Stephen Busch, P.E.  
Lansing and Jackson District Supervisor  
Office of Drinking Water and Municipal Assistance

Subject: Information Request and Documentation

Hello everyone,

The Genesee County Health Department has made several written and verbal requests for specific information since October, 2014, including a Freedom of Information Act Request on January 27, 2015. The information still has not been received and the city's lack of cooperation continues to prevent my office from performing our responsibilities.

The Genesee County Health Department has the responsibility to conduct illness investigations and consider all potential sources, this is not optional. In 2014, Genesee County experienced a significant increase of confirmed Legionella illnesses relative to previous years. Legionella can be a deadly, waterborne disease that typically affects the respiratory system.

The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water. The majority of the cases reside or have an association with the city. Also, McLaren Hospital identified and mitigated Legionella in their water system. This is rather glaring information and it needs to be looked into now, prior to the warmer summer months when Legionella is at its peak and we are potentially faced with a crisis.

This situation has been explicitly explained to MDEQ and many of the city's officials. I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The Trihalomethane issues "pale in comparison" to the potential public health risks of Legionella.

I am submitting the attached FOIA request again and requesting that the legal obligations of the request are met. If the information is not available, please let me know. In the past, I have requested to meet with the water plant staff and MDEQ regarding Legionella concerns. I did not receive a response from the water plant staff and MDEQ declined. I think it is in the best interest for all stakeholders that we meet and discuss the issues.

Respectfully,

Jim

RE: Flint Water Plant Information Request

Dear FOIA Coordinator,

Under provisions of the Michigan Freedom of Information Act (MCLA 15.231 et seq; MSA 4.1801 (1) et seq) please provide copies of the following:

Provide specific water testing locations and laboratory results within the City of Flint public water system for Coliform, E-coli, Heterotrophic Bacteria and Trihalomethanes from January 1, 2010 to January 27, 2015. Provide any additional water testing that has been conducted for identifying potential public health risks. Include any available mapping of the water testing areas.

Provide a map delineating the boundaries of the City of Flint water distribution system. Include any changes to the boundaries, along with corresponding dates from January 1, 2014 to January 27, 2015.

Provide a map or list of locations, detailing dead ends, pooling, low pressure and any additional areas of concern within the City of Flint water distribution system. Include any modifications to the water distribution system addressing concerns, along with corresponding dates from January 1, 2014 to January 27, 2015.

If you determine that any of the requested information is exempt from disclosure, please detail what is being withheld and cite the exemption under FOIA. I anticipate the request being filled within five working days of receipt of this letter, as provided under FOIA. Please contact me at (810) 257-3618 if there are fees associated to comply with this request.

Sincerely,

Jim Henry

Good Afternoon,

Tomorrow evening Rachel Maddow of MSNBC will host her show from Holmes School, 6602 Oxley Drive, Flint, Michigan. Guests of Maddow include Flint Mayor Karen Weaver, U.S. Senator Debbie Stabenow, Dr. Mona Hanna-Alisha of Hurley medical Center, and more. Two other events are scheduled in correlation to this show.

(I'm not aware how people have been selected to attend the show or if there will be an audience.)

I will continue to monitor open sources for new information.

Thanks,

Sue

Nicole and koko

For your FYSA. MSP command already has been notified. Not for distribution nor media release.

**Subject: Rally Today at Capitol - Flint Water Crisis**

Good Morning,

This morning the organizer indicated he has a head count of about 150 people coming from Flint, there are two groups caravanning to the Capitol. One group leaving around 9:30 and another around 10:00. He did not indicate how many, if any were coming from Detroit, Benton Harbor, Ecorse, or Allen Park. They do mention that "other brethren from across the state are meeting us!"

It appears this group wants to have a peaceful protest to express their opinions on the water crisis in Flint.

Also there is plenty of negative response to the Governor's comment yesterday at the Auto Show: *"Why the delay in calling FEMA?"* for help with the Flint water crisis was the first question for Snyder before he began his journey around the auto show floor. *"I'm here at the auto show today,"* he replied. *"It's great to be at the North American International Auto Show. What a great way to showcase Detroit and Michigan."* People are posting photographs of an envelope with Attorney Jeffrey Feiger's address as their response.

I will continue to monitor open source for any threats or suspicious postings. So far I haven't seen any evidence of counter protestors or any groups with a counter-view.

Thanks,

Sue

**To:** Mapes, Todd (MSP)  
**Subject:** Revised: Volunteers needed for water resource teams in Flint

**Note:** Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

**Subject:** Trooper Staffing for Flint Water Emergency Situation

Commanders;

Ref the state of emergency response to the Flint water crisis – additional MSP resources are being requested. Currently the Flint Post is supplying a squad of troopers for security and traffic control for the water/filter distribution trucks that have been deployed in the neighborhood.

Effective Saturday, January 16<sup>th</sup> and continuing through Friday January 22- additional Third District troopers will be utilized to supplement the Flint post for this operation.

I am requesting /

The time frame of this request is January 16<sup>th</sup> and tentatively through January 22. (may end sooner or may go longer)

This will require a 7:30am arrival at the Flint operations center and curtail around 5p on the above listed dates.

Lt. Amy Dehner is the POC for this project and she can be reached at cell ' ' She can provide you with further reporting details and requirements of this assignment.

Note: Please staff with ON-DUTY personnel. If overtime is needed for staffing or end of shift hold overs, this will come from YOUR POST overtime line – with reimbursement down the road (hopefully!)- so do your best to staff with personnel working already.

SCP (Flint and Saginaw) overtime CAN NOT BE USED for this operation.

Lt. Dehner has PCA/INDEX for tracking purpose (not overtime) of those assigned – she can provide you with further on time accounting.

By noon on Thursday, January 14, please send the name of your assigned trooper to Lt. Dehner with a cc to me.

Thanks.

Steve

## **MSP Flint City Water Detail**

### **Genesee County EOC – MSP State Security Officer SITREP**

#### **DATE/TIME:**

1/18/2016 1800 HRS

Prepared by Lt. Patrick Young

#### **AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, and the Michigan Army National Guard.

#### **ACTIVITY SUMMARY:**

- Distribution of 12 teams totaling roughly 110 volunteers have returned to the EOC and or left for the evening. This does not include personnel from the MSP and the GCSO.
- We are currently coordinating loading procedures for 16 trucks.
- 22 iPad have been turned back in, secured in the EOC and are charging for tomorrow's mission.
- It has been reported that the 10 ARC teams have returned and are clear.
- The ARC did not report residential contacts for the day.
- The numbers for this day's residential contacts for MSP/GCSO have yet to be determined.
- Working on deployment operations for tomorrow along with support vehicles and personnel.

#### **SAFETY ASSESSMENT:**

Local weather access shows 17 Degrees Fahrenheit with a wind chill of 0 degrees. The streets are icy in spots. The National Weather Service reports are being monitored.

#### **NEXT ANTICIPATED SITREP PUBLISH TIME:**

1000 HRS 01/19/2016 from Lt. Amy Dehner or Lt. Julin.

**Subject:** Flint Water Emergency-Genesee County EOC

Lts.,

The address for the Flint Emergency Operations Center is 1105 Beach St. This is a county owned building. It is directly across the street from Flint City Hall and the EOC is located in the basement, or level "G" if you use the elevator. Once you exit the elevator, you will see an old cafeteria to the left. Walk past the cafeteria and the EOC is down the hall on the right. The door is labeled Emergency Operations Center. BJ Roach is the EMHSD coordinator for the incident. Her cell phone number is (517)819-0841. Please include Sgt. Keith Sparks at our post as to whom you will be sending. We are putting together paper squads for this response.

Parking is available behind the sheriff department which is one building north of the county building or there is a parking ramp available off 7<sup>th</sup> street.

We appreciate all the assistance.

Tom,

Just t/t the City Administrator and Finance Director, there are no overtime funds available to dedicate FPD personnel to escort water deliveries. I can use personnel from our Inside/Out detail which is once a month, (next I/O is February). Additionally, can we set up a process that if a water location calls for assistance (unruly people) and we cannot response FPD can contact an MSP supervisor to respond?

**Subject:** MSP Water Distribution Operation - AAR

I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:

**Mission:**

teams (40 DHHS employees), supported by \_\_\_\_\_, and \_\_\_\_\_, and (2) 24' UHaul trucks, conducted water filter delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

**Recommend to Sustain on 1-13-16:**

-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck, 20 DHHS personnel, and \_\_\_\_\_ per street, and we covered 2 streets at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to 10 volunteers per truck, but lower than that would slow down progress, more than 20 would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

**Recommend to consider changing on 1-13-16:**

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each 4 person team.

**Genesee County EOC – MSP State Security Officer SITREP**

**DATE/TIME:**

01/12/16 at 1410 HRS

Prepared by Lt. Paul Pummill

**AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff

**ACTIVITY SUMMARY:**

- MSP/DHHS Distribution teams continue the water/filter dissemination.
- GIS maps have been printed and a target area of Precinct 43 (intersection of Dupont and Chevrolet) has been identified as the distribution operation. These maps have been pushed via email to troopers' in car mobile computers.
- City iPads have been delivered and are be tied into real-time system DHHS portal to track addresses where filters are delivered.

**SAFETY ASSESSMENT:**

The National Weather Service has issued a Winter Weather Advisory affecting Tuesday morning commutes.

Streets and major expressways in Flint remain ice covered, with freezing temperatures further complicating clearing operations and travel in the area. Most city streets have not yet been cleared, which could negatively impact distribution operations. National weather service reports are monitored hourly.

**MSP RESOURCES REQUESTED THIS DATE/STATUS:**

BJ

This should really be a Flint PD responsibility per the Captain. Where is the DEQ person starting from? How long will this detail last? Is this a one-time thing or will this be an ongoing DEQ effort? These are important questions we want to know the answers to *before a precedent is set*.

We need to begin to shift this security responsibility to FPD. I would be willing to contact Tolbert in the morning to offer a trooper to handle calls for service if he can break a car away for this security issue.

Let me know.

Tom

Inspector,

Just a heads up on activities downtown. The EOC is located in the basement of the county building. They are generally running administrative type hours from 8:00 am until 7:00 pm. The 14's and myself will begin a rotation for MSP downtown starting tomorrow with Lt. Pummill and myself on Wednesday. Lt. Young will also be assigned in a uniform capacity in the coming days. We are tracking OT hours for any personnel downtown.

I've been in touch with Lt. Draves a few times this morning reference the Governor's visit. As of now there are no protesters, and the likelihood of having any is unlikely given the parking and weather conditions today. I will be down at the EOC starting at noon. We will keep you updated.

### Third District Commanders

As a heads up I ask you to review this information, make a phone call to F/Lt. Kish or Lt. Dehner, and make arraignments (You and/or a Sgt.) to visit the EOC – Flint. As this effort continues and possibly ramps up, you, your staff, and your troops will be called on for support. The request and direction for troopers will come as soon as we have information they will be needed, and will include details such as DCDS codes and reporting plans.

As a F/Lt. or Lt. you may be specifically assigned as the Water Response Team Commander for all team operations. To prepare, please make every effort to visit the EOC during operation hours 730am-9pm, and discuss duties with the on-site commander.

It is my plan to keep Lt. Dehner as a consistent presence / commander in the EOC, but you can be assigned to be part of that team. The following information is for your review and I will keep you advised as information is available.

Current Duties:

- EOC Safety Officer – Sgt.
- Water Response Team Commander for all team operations – F/Lt – Lt. and or assistant.
  - Coordinate and manage Water Response Team structure. *This includes Street Sgts.*
  - Coordinate and manage Water Response Team resources.
  - Coordinate walking routes with concentration in the most hazardous lead level areas.
  - Coordinate logistics for Water Response Teams.
  - Coordinate iPad distribution and tracking.
  - Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
  - Coordinate and manage team security with MSP and County personnel.
  - *Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.*
  - Coordinate with Sheriff's department resources.
  - Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
  - Provide a daily report of all activities to include best practices and issues or concerns.

In addition there is a 9:30 am and 4:30 pm SEOC briefing via conference call as well as any other conference calls necessary to complete the above mission.

#### **TROOPER MISSION:**

Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of operations will be conducted from patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

#### **TIME:**

0730 HRS Briefing

1700 HRS Release to home post assignment Troopers only

#### **LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall)

Emergency Operations Center (EOC)

1105 Beach Street

Basement Level

#### **PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

#### **RADIO CHANNELS:**

#### **MEALS:**

Lunch will be provided at noon at the EOC

Please call with any questions and advise me by e-mail if you were able to make a site visit.

  - Coordinate with Sheriff's department resources.
  - Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
  - Provide a daily report of all activities to include best practices and issues or concerns.

In addition there is a 9:30 am and 4:30 pm SEOC briefing via conference call as well as any other conference calls necessary to complete the above mission.

#### **TROOPER MISSION:**

Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of operations will be conducted from patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

#### **TIME:**

0730 HRS Briefing

1700 HRS Release to home post assignment Troopers only

#### **LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall)

Emergency Operations Center (EOC)

1105 Beach Street

Basement Level

#### **PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

#### **RADIO CHANNELS:**

#### **MEALS:**

Lunch will be provided at noon at the EOC

Please call with any questions and advise me by e-mail if you were able to make a site visit.

Lts.,

The address for the Flint Emergency Operations Center is 1105 Beach St. This is a county owned building. It is directly across the street from Flint City Hall and the EOC is located in the basement, or level "G" if you use the elevator. Once you exit the elevator, you will see an old cafeteria to the left. Walk past the cafeteria and the EOC is

down the hall on the right. The door is labeled Emergency Operations Center. BJ Roach is the EMHSD coordinator for the incident. Her cell phone number is .

. Please include Sgt. Keith Sparks at our post as to whom you will be sending. We are putting together paper squads for this response.

Parking is available behind the sheriff department which is one building north of the county building or there is a parking ramp available off 7<sup>th</sup> street.

We appreciate all the assistance.

Heads up on the latest.. it appears as though we may need to pull some outside troops if they push the guard troop total to on Thursday, unless we want to use "floating" security going between a WRT or two... we are only looking at or more uniforms with the added ANG troops.

**Subject:** RE: Flint Water OIC for Friday 1/22

Clear on those responses –

Our ground and mapping personnel are asking if it is possible to have the NG assemble at the EOC, instead of the warehouse, tomorrow morning? Operationally, it is easier for our mapping personnel, the team leaders, and tech section, to stage the delivery trucks here in the morning, and push out from the EOC. We seem to run into last minute logistic issues that require iPad fixes, and/or map route re-draws, and it is more helpful to be able to address those issues here, rather than going to another facility where we can't have direct access to all of our personnel in the morning.

Also, if we anticipate going past Friday, we made need to have another request for personnel generated by the SEOC as our current plan is only projected through Friday the 22<sup>nd</sup>.

**Subject:** RE: Flint Water OIC for Friday 1/22

Answers are starred below

- Will this require us to supply dinner to the volunteers/distribution teams? Currently, we are supplying only lunch.  
 \*\*We will need to feed our personnel and Logistics can add meals to the Local EOC dinner plan. The guard is eating on the economy.
  
- The GCSO advised that they are at minimum staffing with our current distribution model. If we push to delivery after 1700HRS, they CANNOT assist us outside of supplying \_\_\_\_\_ this includes personnel that staff the mapping operations, which has been critical to our success to this point.  
 \*\*We are discussing having the Guard shift be strictly 1300-2100 with ARC covering the normal day shift. If we switch to this model, we will need to provide staff for \_\_\_\_\_ teams, 1300-2100. Day shift teams will continue for the Red Cross as current (no MSP or GCSD staff).
  
- Is the number of National Guard soldiers anticipated to be \_\_\_\_\_ TOTAL for the day, or \_\_\_\_\_ soldiers per shift? We have enough projected staffing through the Flint Post to support up to \_\_\_\_\_ soldiers, ( \_\_\_\_\_ ) working 12 hour shifts through Friday January 22nd. We don't have resources in place past that point. Anything past \_\_\_\_\_ bodies will require that we seek staffing outside of Post resources.  
 \*\* Beginning on Thursday, the Guard will be providing \_\_\_\_\_ soldiers for WRT detail and \_\_\_\_\_ command staff \_\_\_\_\_ teams of 10.
  
- Will the data for residences that show as "no answer" be produced by the SEOC, prior to Thursday so that we have an opportunity to pre-plan distribution routes?  
 \*\*I am submitting a MiCIMS resource request to GIS for this right now. The resource request number is SEOC – 8951057  
 Resource request is for the following:  
 Please prepare a GIS Map for Water Response Team use with the following layers:  
 Ward/Precinct  
 "Homes Visited" Resource delivered  
 Homes Visited, but "No Answer"

**Subject:** RE: Flint Water OIC for Friday 1/22

One more thing, sorry:

- Will the data for residences that show as "no answer" be produced by the SEOC, prior to Thursday so that we have an opportunity to pre-plan distribution routes?

---

**From:** MSP-EOC-MDSP  
**Sent:** Tuesday, January 19, 2016 11:39 AM  
**To:** Dehner, Amy (MSP); Kish, Thomas (MSP)  
**Subject:** RE: Flint Water OIC for Friday 1/22

I will begin working on answers to the bullets and advise.

---

**From:** Dehner, Amy (MSP)  
**Sent:** Tuesday, January 19, 2016 11:37 AM  
**To:** MSP-EOC-MDSP; Kish, Thomas (MSP)  
**Subject:** RE: Flint Water OIC for Friday 1/22

Julian is \_\_\_\_\_ Mapes is \_\_\_\_\_

A couple of things worth mentioning for planning to move to a \_\_\_\_\_ shift concept on Thursday:

- Will this require us to supply dinner to the volunteers/distribution teams? Currently, we are supplying only lunch.
- The GCSO advised that they are at minimum staffing with our current distribution model. If we push to delivery after 1700HRS, they CANNOT assist us outside of supplying marked units. This includes personnel that staff the mapping operations, which has been critical to our success to this point.
- Is the number of National Guard soldiers anticipated to be for the day, or .t? We have enough projected staffing through the Flint Post to support up to : (1 marked unit per team) working 12 hour shifts through Friday January 22<sup>nd</sup>. We don't have resources in place past that point. Anything past bodies will require that we seek staffing outside of Post resources.

**Subject:** RE: Flint Water OIC for Friday 1/22

Okay.

We will adjust our schedule here.

Can I get contact #s for Julin and Mapes?

I have the following for Sims and Luty, please advise if they are incorrect:

Sims :

Luty :

Finally, FYSA: we are working on modifying the hours of operation starting on Thursday. Right now, we are considering a two shifts, the normal shift we have been running (0800-1700) and an afternoon shift of 1300-2100. Please advise if we will be able to support the guard for this shift. We still need to figure out the number of teams on each shift.

I'm open to suggestions.

**Attachments:** How to UNZIP.html; SecureZIP Attachments.zip

Sir,

I spoke with LTC. Stemitz and his POD commander reference the below. On 1/21/16, there were 2 total incidents in which individuals threatened to bring members of their gangs back (one verbally identified his gang as the "Pierson" gang) at both the #8, and #6 fire stations, because they felt they weren't being given enough water. No weapons were displayed in these incidents, and nothing has occurred since that date that could be construed as a continuation of those events.

As a side note, we were made aware following our 6pm distribution conference call by a member of the National Guard that one of their soldiers was spit on earlier today by an unruly female citizen. MSP and GSCO law enforcement in the meeting reviewed the contact procedures with POD soldiers by which they can notify by both agencies via radio at the EOC for response should this happen again in the future.

I hope this helps to clarify the issue you outlined in the original email. Please let me know if you have further questions.

Can we confirm the information on gangs and guns. I spoke with the NG at the PODs and they advised they have seen guns but when people are reaching for water and their shirts go up exposing a side arm. Are there other specific cases we need to be made aware? We are getting a different story on this. Thanks,

**Subject:** - City of Flint, Flint City Hall,- Sunday January 24, 2016, 2 p.m.

Good Afternoon,

MIOC Analyst Koko Bempong disseminated information earlier this afternoon indicating there have been problems with gang members at some of the fire stations distributing water in Flint. There are individuals coming to get water who are flashing gang signs and showing weapons they have on their persons. There is a potential for rival members from neighborhood gangs to come in contact with each other. With the current animosity toward law enforcement, the gang members could also have a negative view of the uniformed militia members. A copy of Koko's email is attached.

I will continue to monitor this event for public safety and situational awareness. I will send an update if new information is posted in the event page. Please let me know if you have any questions.

Thanks,

Sue

For your situational awareness –

Lt. Cronkright of the Genesee County Sheriff's Office (working in the EOC) advised that a member of the Michigan Militia (MM) showed up to volunteer a short time ago at the local EOC in Flint. He was provided information for the American Red Cross's Volunteer Reception Center, at which point he notified the Lieutenant that the MM was planning a peaceful March on Flint City Hall on Friday January 22, 2016, beginning at approximately 10am. He stated that he was expecting approximately 1,000 militia members, and that they had informed local public officials, however he was unsure if anyone had notified personnel in the local EOC.

Captain Kapp,

The Karegnondi

Water Authority (KWA) is holding a public meeting on Wednesday, February 17, 2016 at 2 p.m. in the Lapeer County Council Chambers, 255 Clay Street, Lapeer, Michigan. The KWA notice indicates all citizens wishing to express opinions or make comments during the meeting are invited to attend. It appears there could be a large presence of Flint Citizens at the meeting.

**Subject:** Standing with Flint Event at Flint City Hall Today, 2 p.m.

Good Morning,

This is expected to be a peaceful show of support to collect water for the citizens of Flint.

I will continue to monitor this event for public safety and situational awareness. I will send an update if new information is posted in the event page. Please let me know if you have any questions.

Thanks,

Sue

I discussed with Matt Boiger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have teams (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

**Subject:** MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

Inspector,

With the (proposed) deployment schedule moving to an afternoon shift, this will have significant impacts upon trooper availability for the water emergency from our post. Is this a necessary change? Is it possible to spot check residences on an "as needed" basis on an afternoon shift? We could probably make that accommodation. At this point, I'm not sure that completely changing the schedule that has been so effective up to this point is really necessary.

**Subject:** MSP Water Distribution Operation - AAR

I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:

Mission:

teams ( employees), supported by and  
and (2) 24' UHaul trucks, conducted water delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

**Recommend to Sustain on 1-13-16:**

-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck. DHHS personnel, and \_\_\_\_\_, per street, and we covered \_\_\_\_\_ at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to 10 volunteers per truck, but lower than that would slow down progress, more than 20 would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

**Recommend to consider changing on 1-13-16:**

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each 4 person team.

From The Desk Of

*Col. Kriste Kibbey Etne*  
Providing Service With A Purpose

**Note: Dates are January 14 and January 15.**

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered *their scheduled work day*. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

This email was sent to [mapest@michigan.gov](mailto:mapest@michigan.gov) using GovDelivery, on behalf of: Michigan State Police - 333 S Grand Ave P.O. Box 30634 - Lansing, MI 48933

**Subject:** Troopers Assigned to Flint City Water Detail - Friday January 15, 2016

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those under your command have been notified about their report time and location, as there are resources being utilized outside that of the Flint Post. Below is operational assembly information that is critical for you to read as this is very short notice:

### **MISSION:**

Providing water filter escort/traffic control/security for 120 MSP and DHHS volunteers (broken into 10 distribution teams) who will be distributing water and filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

### **TIME:**

0730 HRS Briefing

1700 HRS Release to home post assignment

### **LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall)

Emergency Operations Center (EOC)  
1105 Beach Street  
Basement Level

**PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

**NOTABLE EQUIPMENT REQUIREMENTS:**

High visibility vest (in vehicle)  
Garrison cap and/or department issued cold weather headgear

**RADIO CHANNELS:**

**MEALS:**

Lunch will be provided at noon at the EOC

**GROUND OPERATION OIC(s):**

Tpr. Rick Jones -

**EOC COMMANDERS FOR FRIDAY JANUARY 14, 2016:**

Lt. Amy Dehner  
(Relief Officer) Lt. Pat Young !  
F/Lt. Tom Kish

**OTHER INFORMATION:**

This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

If there are any questions about this assignment, please contact any of the above EOC Commanders for Friday, January 14, 2016.

**Subject:** RE: Troopers for water delivery in Flint

All,

We need to sustain (and slightly add) to our current trooper strength now through Sunday 1/24. Some end-game discussions have already begun. I am requesting the continued use of troopers from Lapeer, Tri-City and Caro. You'll see that I am asking for one additional from Lapeer and Tri-City to support the expected National Guard soldiers arriving. Again, our mission is one of security to the water team deliveries. The hours have changed and will be 1000-1800 each day. Reporting location remains the same at the EOC in Genesee County.

Thank you for your contributions to this critical MSP effort. Call myself or Lt. Dehner with questions.

Tom

**Note: Dates are January 14 and January 15.**

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

**Genesee County EOC – MSP State Security Officer SITREP**

**DATE/TIME:**

01/13/16 at 1300 HRS

Prepared by F/Lt. Thomas Kish, Flint Post

**AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff

**ACTIVITY SUMMARY:**

- Distributions into hotspot #2 are accelerating ahead of schedule as we gain efficiency
- National Guard water distributions are ongoing and proceed with no incidents reported
- Currently water supply is considered adequate, with filter inventory low. Additional filters expected by 1330 HRS today.
- Ongoing discussion about how many additional volunteers may be needed. The availability of an additional 75 civilian and informed may be unnecessary for Thursday and Friday. Additional information to follow as supply chain and logistical issues continue to be worked out.

**SAFETY ASSESSMENT:**

Streets and major expressways in Flint remain ice covered and slippery. City streets are more easily navigated today. National weather service reports are monitored hourly. Temperatures inspected to rise this afternoon.

**MSP RESOURCES REQUESTED THIS DATE/STATUS:**

-NO ADDITIONAL RESOURCES REQUESTED AS OF THIS PUBLISH TIME

**NEXT SITREP PUBLISH TIME / SECURITY OFFICER for 01/12/2016:**

1600 Sgt. Keith Sparks, Flint Post

**To:** Sims, Shannon (MSP); Sims, Shannon (MSP); Mapes, Todd (MSP)  
**Cc:** Kapp, Gene (MSP); Kanicki, Bonnie (MSP); Sipes, Stephen (MSP)  
**Subject:** Trooper Staffing for Flint Water Emergency Situation

**Importance:** High

Commanders;

Ref the state of emergency response to the Flint water crisis – additional MSP resources are being requested. Currently the Flint Post is supplying a squad of troopers for security and traffic control for the water/filter distribution trucks that have been deployed in the neighborhood.

Effective Saturday, January 16<sup>th</sup> and continuing through Friday January 22- additional Third District troopers will be utilized to supplement the Flint post for this operation.

I am requesting . . . . . each from Lapeer, Caro and Tri-City to augment a squad from Flint consisting of . . . . . Sgt . . . . .  
and . . . . .

The time frame of this request is January 16<sup>th</sup> and tentatively through January 22. (may end sooner or may go longer)

This will require a 7:30am arrival at the Flint operations center and curtail around 5p on the above listed dates.

Lt. Amy Dehner is the POC for this project and she can be reached at cell . . . . . She can provide you with further reporting details and requirements of this assignment.

Note: Please staff with ON-DUTY personnel. If overtime is needed for staffing or end of shift hold overs, this will come from YOUR POST overtime line – with reimbursement down the road (hopefully!)- so do your best to staff with personnel working already.

SCP (Flint and Saginaw) overtime CAN NOT BE USED for this operation.

Lt. Dehner has PCA/INDEX for tracking purpose (not overtime) of those assigned – she can provide you with further on time accounting.

By noon on Thursday, January 14, please send the name of your assigned trooper to Lt. Dehner with a cc to me.

Thanks.

Steve

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those under your command have been notified about their report time and location, as there are resources being utilized outside that of the Flint Post. Below is operational assembly information that is critical for you to read as this is very short notice:

### **MISSION:**

Providing water filter escort/traffic control/security for 120 MSP and DHHS volunteers (broken into 10 distribution teams) who will be distributing water and filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

### **TIME:**

0730 HRS Briefing  
1700 HRS Release to home post assignment

### **LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall)  
Emergency Operations Center (EOC)  
1105 Beach Street  
Basement Level

### **PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

### **NOTABLE EQUIPMENT REQUIREMENTS:**

High visibility vest (in vehicle)  
Garrison cap and/or department issued cold weather headgear

### **RADIO CHANNELS:**

**MEALS:**

Lunch will be provided at noon at the EOC

**GROUND OPERATION OIC(s):**

Tpr. Rick Jones -

**EOC COMMANDERS FOR FRIDAY JANUARY 14, 2016:**

Lt. Amy Dehner '

(Relief Officer) Lt. Pat Young

F/Lt. Tom Kish .

**OTHER INFORMATION:**

This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

If there are any questions about this assignment, please contact any of the above EOC Commanders for Friday, January 14, 2016.

Lt. Amy Dehner

Assistant Post Commander

Michigan State Police - Flint Post

G-4481 Corunna Road

Flint, MI 48532

**Subject:** Troopers for water delivery in Flint

Commanders,

I'm trying to gauge our ability to increase trooper strength by another      'his is already in addition to the troopers you are supplying now.

How many additional off duty troopers could you muster for 12 hour shifts in Flint? Pass along what you think you might realistically be able to send - starting Wednesday morning.

NOT PUBLIC KNOWLEDGE.

Send me a response by noon tomorrow

**Sent:** Thursday, January 14, 2016 5:30 PM  
**To:** Sipes, Stephen (MSP)  
**Subject:** Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJKK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

## STATE OF MICHIGAN JOINT INFORMATION CENTER

### NEWS RELEASE

**FOR IMMEDIATE RELEASE**  
**January 20, 2016**  
**Release #: 11**

**For more information contact:**  
**Joint Information Center**  
**888-EMD-TODAY (888-363-8632)**

#### **29,317 Homes Visited To Date by Water Resource Teams**

FLINT, Mich. –Water response teams, bolstered by 95 Michigan National Guard Soldiers and Airmen, distributed water resources to 3,395 Flint homes today. They provided residents with free bottled water, filters, water replacement cartridges and water testing kits.

By tomorrow, additional National Guard Soldiers and Airmen will arrive bringing the total number of National Guard service members to approximately 180 going door-to-door along with water response teams comprised of city, county and state personnel, American Red Cross and volunteers.

To date, 29,317 homes in the City of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 90,300 cases of water
- More than 73,200 water filters
- More than 19,800 water testing kits

There is a coordinated effort to ensure that each Flint home is provided with a water filter and other water supplies. This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 111,630 cases of water
- 115,700 water filters
- 61,161 water testing kits

**MORE**

Today, Gov. Rick Snyder submitted an appeal to President Barack Obama following the denial of the major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

In the appeal to President Obama, Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation program in order to facilitate recovery.

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit [www.helpforflint.com](http://www.helpforflint.com) for more information. Please note the American Red Cross is no longer able to accept material donations at this time.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Road  
Flint, MI 48506

Fire Station #6  
716 West Pierson Road  
Flint, MI 48505

Fire Station #8  
202 East Atherton Road  
Flint, MI 48507

To enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), by calling 211 or visiting [www.helpforflint.com](http://www.helpforflint.com).

# Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

## Operational Period

Operational Period Begin: 01/19/2016 08 00:00  
Operational Period End: 01/26/2016 08:00:00  
Situation Report No. 16  
SEOC Status: Full  
SEOC Hours of Operation Begin: 01/21/2016 08 00 00  
SEOC Hours of Operation End: 01/21/2016 20 00 00

## Executive Summary

SEOC Update:  
Accomplished today (January 21).

The SEOC continues to provide:

- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures
- Resources.
- Public Information Control.

### • Logistics

- o Worked with FEMA/DHHS on warehouse tracking status/strategy
- o Coordinated resources and needs with donations management
- o Coordinated additional resources and tasks for new weekend volunteers (500 each day)
- o Working with Red Cross to provide food bank delivery resources.
- o Ordering and projecting future orders of water resources and commodities.
- o Working on local business commodity supply plan.
- o Coordinated filter/cartridge donation list.
- o Worked with MDTMB for more iPads, more vests, and more door hangers for weekend volunteer surge.
- o Worked with the JIC and GOV to establish a business resource submission tab on [www.helpforflint.com](http://www.helpforflint.com)
- o Worked with MDOT to resolve safety issues at PODs

### • JIC

- o Media requests today concerning where the state is with its mission to provide water filters and resources to citizens
- o JIC messaging will be that we have geographically covered the entire city once and are working to double back and make contact with all missed residents.

### • Recovery Branch

- o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday
- o Confirmed team typing for Flint Water Resource Teams

### o Data is for 1/21/16 as of 5 00 pm:

- o Total homes visited
  - 36,179 (total).
  - 5,409 (today).
- o Water Cases.
  - 105,091 (total)
  - 10,403 (today)
- o Replacement Cartridges.
  - 189,428 (total).
  - 1,039 (today).
- o Faucet Filters.
  - 79,571 (total).
  - 2,356 (today).

### • Planning Section.

- o Published Sit Rep # 16.
- o Worked with GIS to roll out updated map, created coordinated revised script for field teams.
- o Participated in daily SEOC briefings and distribution process conference call
- o Participated in development of phase strategy roll out.

### • Operations Section.

- o Facilitated daily SEOC briefing and local EOC call
- o Continued to develop phased canvassing roll out.
- o Request put in for MDOT to address traffic issues at POD Fire Station's #6 and #3

### o Warehouse Numbers as of 1800:

- Water (cases).
  - 94,500.
- Filters (faucet).

- 34,284.
- ☐ Replacement cartridges.
- 141,562.
- ☐ Filters (pitcher).
- 0.
- ☐ Test Kits.
- 0.

o PODs (1700 1/20 – 1600 1/21)

- ☐ Water (cases).
- 10,978.
- ☐ Filters (faucet).
- 1,153.
- ☐ Replacement Cartridges.
- 445.
- ☐ Filters (pitcher).
- 0.
- ☐ Test kits.
- 801.

• Finance Section.

- o Working with state agencies and local EM to obtain category B costs incurred since April 25, 2014.
- o Continuing to compile costs incurred by state agencies for all activities related to event since activation.
- o Meet with FEMA Public Assistance staff to discuss current status.
- o Work on reference document for state agency financial staff for reporting of related incident costs.

• GIS Branch Updates.

- Updated the Field Team Support maps to develop grid system.
- Provided updated map of vulnerable populations for the MDCH.
- Provided list of vulnerable individuals to local EOC through local EOC situation unit leader.
- Released V3 of the field data collection app with new form data for second round of home visits
- Updated Flint Water Response Team activity map for distribution by the JIC.
- Provided data for the Recovery Branch on the Field Teams Activity.
- Cross referenced health facilities and adult foster care to identify facilities in the affected area.
- Provided list of franchise customers beyond City of Flint limits to Public Safety Branch
- MSHDA was provided a map of active water subscribers in the area.
- Provided updated lead data to U of M Flint and coordinated with FEMA GIS to complete lead service line mapping
- Updated operational dashboard for field team activity (still need to provide updated dashboard for PODS).
- FEMA Logistics recommended inventory management be integrated into the dashboards and GIS web-developers are actively researching a strategy to accomplish this.

DTMB

- Process additional resource requests for warehouse commodities, supplies for volunteer teams for the weekend, and space for water samples.
- Provided FEMA staff with access cards, office space, and parking for Flint office building.
- Additional vehicles being delivered to support the canvassing effort

DHHS-CH

- Dr. Nicole Lune from HHS was at the CHECC and SEOC today to explain the US DHHS transition.
- Disaster distress helpline is up and running this afternoon, messaging will be going out through JIC
- Worked with GIS to map the medically dependent persons
- Conference call held with the CHECC, SAMHSA, and local HD on DBH.

DEQ

- Working to increase staffing levels at the DEQ testing lab to process samples more efficiently.
- Working on increasing resources for testing kits.

Local EOC Update

- Attended ARC meeting with VOADs to discuss volunteer management and strategies.
- Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
- Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016)
- Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
- Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal)
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify recycling plans and potential volunteer utilization.
- Developed SitRep #10.
- Coordinated and verified deliveries of supplies to apartment complexes
- Identified potential locations for recycling stations.

**Incident Response/Recovery Priorities/Objectives**

1. Ensure all households within impacted community have required resources
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan
5. Ensure adequate staffing to support operational requirements
6. Identify possible assistance programs.
7. Maintain GIS strategy
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities
10. Develop a comprehensive Recovery Plan.

### Damage Assessment Summary

## Agency Summaries

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 21.

State agencies at the JIC included the Governor's Office, Michigan State Police, Michigan Economic Development Corporation, Michigan Community Service Commission and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Licensing and Regulatory Affairs, Military and Veterans Affairs, and Treasury. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

**Tasks accomplished:**

- Finalized an Official Statement about testing bottled water for lead. Recently, there were concerns raised about the possibility of lead being in the bottled water that is being given to residents of Flint. The statement was provided to ABC12 who contacted the JIC and also to 211 to use when asked.
- Created a media monitoring report and looked for misinformation. Called to request a correction to a Detroit Free Press headline that included WRTs were completing their work; headline was amended to indicate the mission is ongoing. Several media calls on this topic were received and answered today.
- Added the following content to [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater): link to [www.helpforflint.com](http://www.helpforflint.com), water donation drive guidelines; Disaster Distress Helpline; and photos from National Guard door-to-door teams.
- Media hotline staff answered over 30 emails and phone calls.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, and MDHHS.
- JIC is planning to issue the nightly activity news release with water activity map around 6 p.m.
- MSP F/Lt. Dave Kaiser is scheduled for in-studio interview with ABC 12 tonight to share tonight's activity news release. It is expected to air during 11 p.m. newscast and again during tomorrow's morning newscast.
- MSP Sgt. Bruce Payne assisted the Detroit Free Press and Fox 2 Detroit in obtaining B-roll of the water response teams. F/Lt Kaiser did a standup with WXYZ about water response team progress.

**Agriculture and Rural Development (MDARD)**

Thursday, Jan 21 - MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and we have scheduled 28 appointments to collect water samples.

Additional activities today: 1) completed Resource Request for MDARD to send two laboratory personnel to help out at the MDEQ Laboratory. 2) working on inquiry that came through OPS regarding messages for what to do if you have pets. Existing documents on the flintwater website contain guidance, we are evaluating need for a stand alone document.

**American Red Cross (ARC)**

The American Red Cross continued assembly of water test kits today at ARC headquarters. More than 10,000 water test kits were assembled over the last 2 days.

We deployed and supported 11 teams for neighborhood canvassing (Water Response). We expect to field 15 teams on Friday.

We supplied lunches for all of the event-based volunteers.

The volunteer reception center (VRC) was in full operation Thursday. 59 volunteers were processed today. The VRC will be in operation on Friday from 9am to 4pm.

We continued to provide warehouse and inventory management.

A total of 93 Red Cross volunteers were active on this operation today.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events. Have briefed senior leadership and are working to assist JIC with messaging/engagement in underserved communities.

**Community Health (MDCH)**

The CHECC remains activated at Level 2, and communications have been maintained between the SEOC and CHECC.

RADM Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

Held a conference call this morning with SAMHSA and the local Community Mental Health agency to discuss coordination.

Technical assistance from SAMSHA was offered to CMH if requested. The National Disaster Distress Hotline is operational and listed on the Flint Water website.

Addresses for medically dependent individuals was provided to GIS and maps were produced indicating whether or not they have been reached by the Water Response Teams. Additional information from logistics is necessary to determine whether these individuals were contacted by the "hot shot" operations for special requests to receive assets.

Contacted the GCHD regarding the status of reaching-out to restaurants in the affected area. Coordination was discussed with MDARD as to the plan or process for ensuring that restaurants receive the resources that they may potentially need (i.e. filters, filter cartridges, etc.). Additional coordination and planning is necessary. GCHD Emergency Preparedness Coordinator provided a point of contact from their Environmental Health Division for MDARD to reach out to.

**Corrections (MDOC)**

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016.

(26) - MDOC employees  
(6) - MDOC SAI prisoners  
(3) - 15 passenger vans  
(2) - 12 passenger vans  
(4) – 10 passenger vans  
(1) – 8 passenger van  
(2) – 6 passenger vans  
(1)- Regular Cab Pickup  
(1) – F-250 Pickup  
(5) – Box Trucks  
(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)  
(1) - 53' Refrigerated Semi-Trailer  
(3) - Electric Pallet Jacks  
(7) – Hand Pallet Jacks  
All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Friday, January 22, 2016:

(25) - MDOC employees  
(6) - MDOC SAI prisoners  
(3) - 15 passenger vans  
(2) - 12 passenger vans  
(4) – 10 passenger vans  
(1) – 8 passenger van  
(2) – 6 passenger vans  
(1)- Regular Cab Pickup  
(1) – F-250 Pickup  
(5) – Box Trucks  
(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)  
(1) - 53' Refrigerated Semi-Trailer  
(3) - Electric Pallet Jacks  
(7) – Hand Pallet Jacks  
All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

You will be receiving updated information as we progress with the operation

Please feel free to contact Brent Travelbee, Mike Farmer or Todd Bechler with specific questions or concerns regarding SEOC operations.

#### **Education (MDE)**

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.

The State Superintendent sent notice to school districts, public school academies, and non-public schools on donation and volunteer opportunities related to the Flint water crises

### **Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities today:

- Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.
- Commercial drinking water samples related to the total dissolved solids meter concern were analyzed with a non-detect result for Lead and Copper. We transmitted results to Joint Information Center and Genesee County Emergency Operations Center.
- Conducted conference call with MDEQ, Department of Technology, Management and Budget, and Emergency Management and Homeland Security Division (EMHSD) finance and discussed documentation needed, and develop more efficient ordering process for laboratory supplies.
- Coordinated plan for pickup of samples by the Department of Corrections at Points of Distribution, City Hall and Water Treatment Plant and delivery to the DEQ Lab. This plan will commence tomorrow, January 21.
- Requested updated sample results from DEQ lab for plotting on map by EMHSD Geographic Information System staff.

### **Human Services (MDHS)**

Completed a request that was transferred to us from DTMB to secure a conference room on 2nd floor of Flint State Office building to be used by the JIC on Friday, January 22nd from 13:00-15:00. Point of Contact will be Ms. Mel Brown from the JIC.

Made contact with the MDHHS Points of Distribution sites for status on their inventory of supplies. Confirmed their plan to replenish their supplies.

CHECC continues to maintain a Level 2 Activation

### **Licensing and Regulatory Affairs (LARA)**

LARA has provided 2 MIOSHA employee's to help DEQ with laboratory analysis of incoming water samples

Freeman School testing will occur this weekend with DEQ and LARA staff. Additional mapping at schools has continued with scheduling of facilities.

LARA Bureau of Community and Health Services has completed surveys for Child Care, Adult Foster Care, and Health facilities. Verification of responses by GIS has been completed. Assessment of needs will begin.

LARA Executive Team has been updated.

### **Military and Veterans Affairs (DMVA)**

Last 24 hours:

Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at 1800 S. Outer Drive, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of 67 Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of 67 Soldiers on State Active Duty:

1 at Genesee County EOC  
1 at Joint Information Center  
32 at PODS  
33 Soldiers In-processing

Next 48 hours:

Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of 67 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18 JAN 16.

Micheal Shook  
CPT, IN, USA  
989-763-4256

### **National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Contacted Penske Truck Rental and acquired 30 donated trucks for use through Friday for water response teams  
Provided 2 portable bathrooms for use at the Clio warehouse.  
Coordinated Installation of DirectTV in the Flint State Office Building for the Joint Information Center.  
Working to set up 3 rooms in the Flint State Office Building for FEMA to use.  
Provided 13 passenger vans to assist with transporting of Water Response Teams.  
Procured 200 safety vests for water response teams.  
Provided office space and parking to FEMA staff on the Flint State Office Building 5th Floor.  
Provided 10 contractor access cards for FEMA staff.

#### **Transportation (MDOT)**

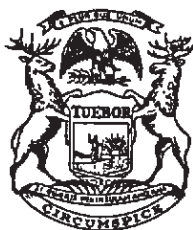

MDOT is providing traffic measures at Pierson Rd. Fire Station 6:  
-2 portable changeable message boards on eastbound and westbound Pierson Rd.  
-50 grabbers traffic cones (narrow reflective cones)

#### **Incident Related Images**

#### **Water Response Teams Continue Door-to-Door Canvass in Flint**

FLINT, Mich. – By the end of the day today, water response teams had canvassed all areas of the city providing Flint residents with free bottled water, filters, water replacement cartridges and water testing kits.

To date, 30,770 homes in the city of Flint were either visited by a water response team, or the resident has visited a water resource site to pick up supplies. Water response teams are composed of city, county and state personnel, American Red Cross and volunteers, as well as National Guard Soldiers and Airmen.

"While we have visited every part of the city, we know we have not yet reached every home, so our work is not done," stated Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "Water response teams will continue door-to-door visits until we are sure every Flint resident has the safe water resources they need."

As part of the distribution process, members of the water response teams ask a series of questions, such as what type of filter they have and whether the resident needs assistance installing a water filter. The questions help in ensuring the team is distributing an accurate amount of supplies and also allows for the collection of information necessary for long-term recovery. While answering the questions is beneficial to operational efficiency, the questions are voluntary and residents will still receive water resources if they refuse to answer questions.

As previously announced, all members of water response teams wear official credentialed badges with a State of Michigan seal hologram so they can be easily identified. At no time will they enter a resident's home or request payment for services or supplies.

To date, the following resources have been distributed at the water resource sites and by water response teams:

- More than 105,091 cases of water
- More than 79,571 water filters
- More than 21,625 water testing kits

**MORE**

Since January 5, the State of Michigan has purchased the following resources:

- 124,398 cases of water
- 115,700 water filters
- 61,161 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Road  
Flint, MI 48506

Fire Station #6  
716 West Pierson Road  
Flint, MI 48505

Fire Station #8  
202 East Atherton Road  
Flint, MI 48507

Water samples can be dropped off at the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. Visit <https://www.youtube.com/watch?v=KMazA1c3oA> to watch a video on how to properly take a water sample.

Persons wishing to volunteer or provide material, in-kind or financial donations can visit [www.helpforflint.com](http://www.helpforflint.com) for more information. Note that guidelines have been developed for those wishing to organize water donation drives.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information is available at [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), by calling 211 or visiting [www.helpforflint.com](http://www.helpforflint.com).

### NEWS RELEASE

#### **Response Efforts Increased to Distribute Water Resources to Flint Residents** *Thousands of water resources have been distributed due to collaborative effort*

**FOR IMMEDIATE RELEASE**  
**January 15, 2016**  
**Release # 5**

**For more information contact:**  
**Joint Information Center**  
**888-EMD-TODAY (888-363-8632)**

LANSING, Mich. – Beginning on Saturday, January 16, water distribution efforts will expand with more than 20 water response teams going door to door to distribute safe water resources to the homes of Flint residents. These teams will consist of state personnel and American Red Cross volunteers, including approximately 250 State of Michigan employees and their family members who will volunteer Saturday through Monday.

Since January 12, the water resource teams have provided nearly 7,500 Flint homes with bottled water, filters, replacement cartridges and water testing kits.

All members of the water response teams will be wearing official credentialed badges with a State of Michigan seal hologram so they can be easily identified.

"With more teams going door to door, we are confident we will double our efforts to ensure residents receive these much needed resources as soon as possible," said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division.

Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

- More than 18,500 cases of water
- Nearly 46,000 filters
- More than 3,200 water testing kits

In addition to donated supplies, the State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- Nearly 45,000 cases of water
- Nearly 79,000 filters
- Nearly 19,000 water testing kits

**MORE**

Flint residents can continue to visit the water resource sites to receive free bottled water, filters, replacement cartridges and water testing kits. The sites are open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Road  
Flint, MI 48506

Fire Station #6  
716 West Pierson Road  
Flint, MI 48505

Fire Station #8  
202 East Atherton Road  
Flint, MI 48507

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

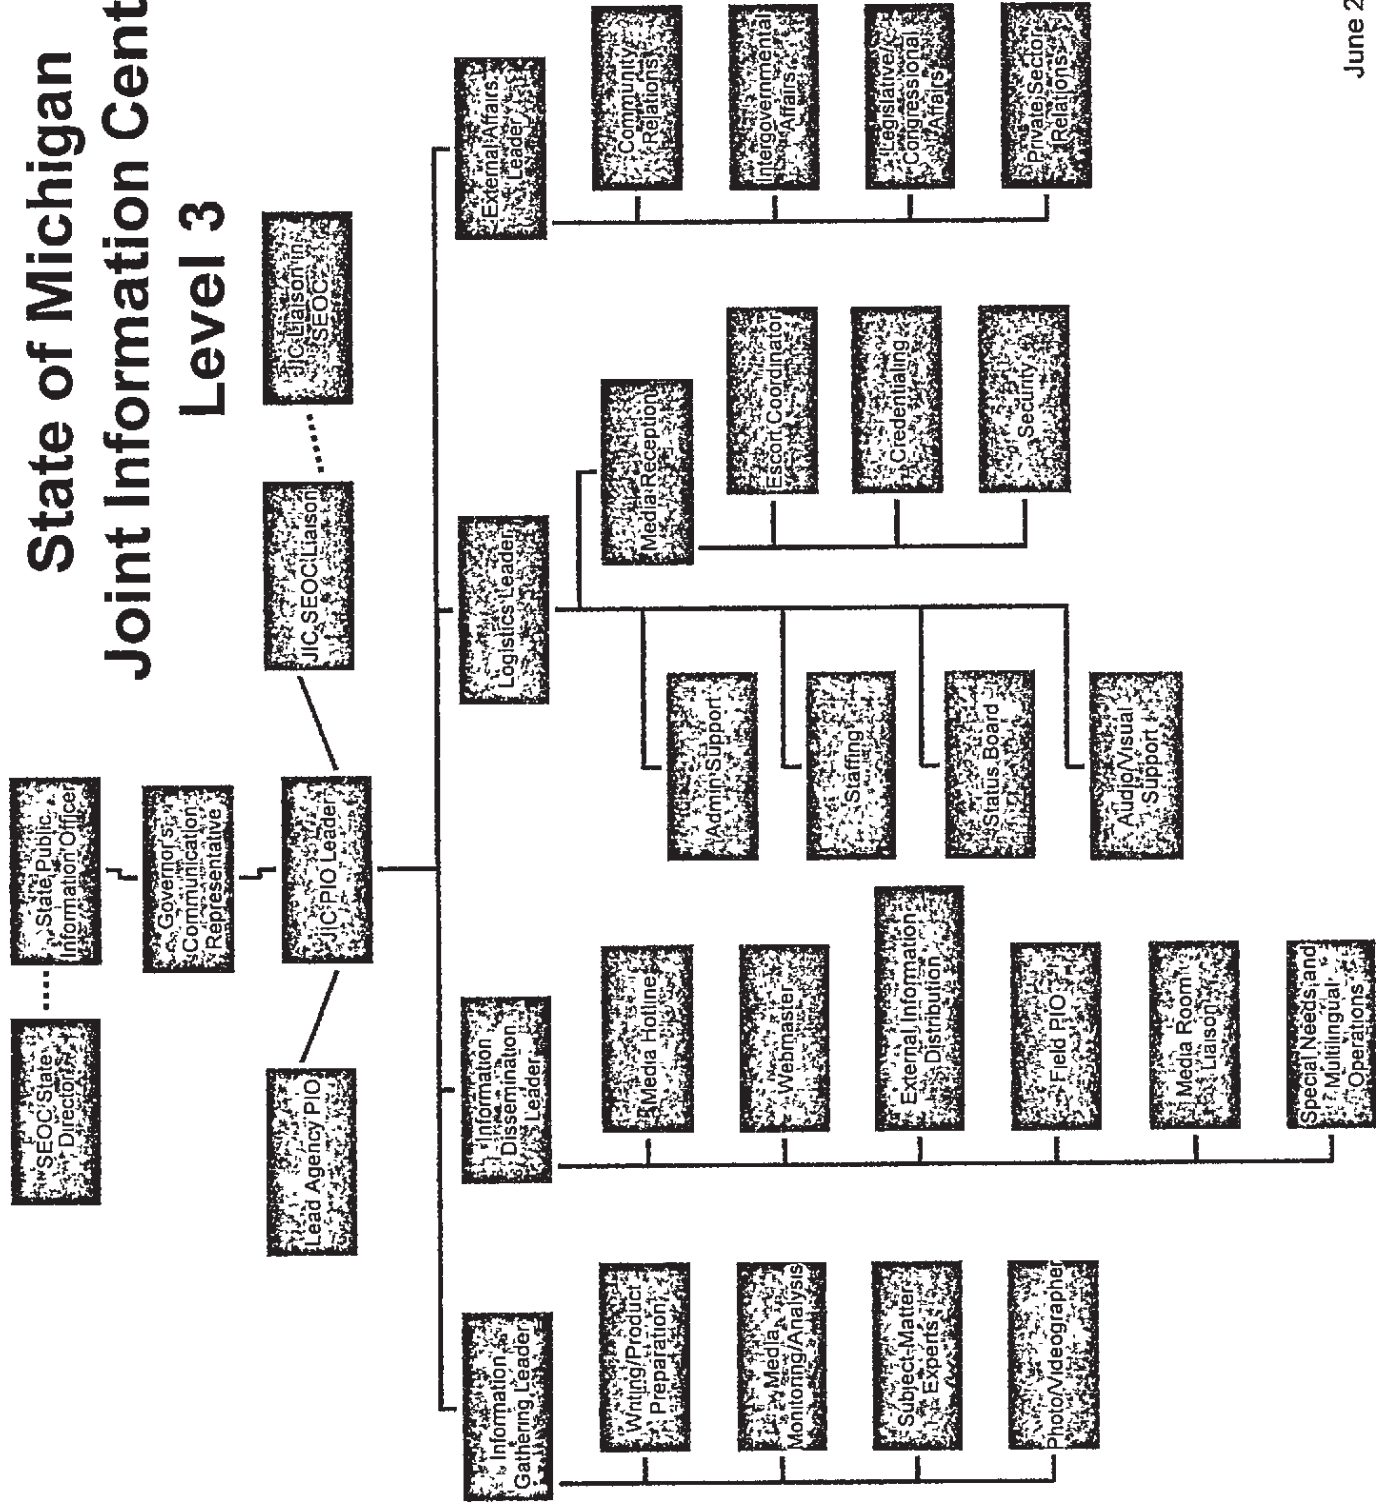

Additional information is available at [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater) or by calling 211.

### **2,715 More Homes Visited on Tuesday by Water Response Teams**

**FLINT, Mich.** - As noted in Governor Snyder's State of the State address last night, significant progress has been made in distributing water resources to residents in Flint.

As of this morning, 22,129 homes in the City of Flint were either visited by a water response team, comprised of city, county and state personnel, American Red Cross and volunteers, or the resident has visited a water resource site to pick up these resources.

The following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:

- More than 77,700 cases of water
- More than 69,700 water filters
- More than 16,600 water testing kits

There is a coordinated effort to ensure that each Flint home is provided with a water filter and other water supplies. This data is being collected and mapped in real-time, so water response teams know where to focus their door-to-door efforts.

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- 95,760 cases of water
- 115,700 water filters
- 61,161 water testing kits

Persons wishing to volunteer or provide material, in-kind, or financial donations can visit [www.helpforflint.com](http://www.helpforflint.com) for more information.

**MORE**

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Road  
Flint, MI 48506

Fire Station #6  
716 West Pierson Road  
Flint, MI 48505

Fire Station #8  
202 East Atherton Road  
Flint, MI 48507

To enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), by calling 211 or visiting [www.helpforflint.com](http://www.helpforflint.com).

STATE OF MICHIGAN  
EXECUTIVE OFFICE  
LANSING

RICK SNYDER  
GOVERNOR

BRIAN CALLEY  
LT. GOVERNOR

## PROCLAMATION

### DECLARATION OF EMERGENCY

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, on April 25, 2014 the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source, the harmful effects of untreated water struck the city's water infrastructure, causing leaching of lead into the water which caused damage to the water system and potential negative health impacts to the citizens; and

WHEREAS, the area affected includes parts of the City of Flint, within the County of Genesee; and

WHEREAS, the damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling

and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of emergency exists in the aforementioned county and municipality; and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the emergency area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this emergency will occur at such time as the threats to public health, safety, and property caused by the emergency no longer exist and appropriate programs have been implemented to recover from the effects of this emergency, but in no case longer than February 1, 2016, unless extended as provided by Act No. 390.

Given under my hand and the  
Great Seal of the State of Michigan this  
5th day of January in the Year of Our  
Lord, Two Thousand and Sixteen.

A handwritten signature in cursive script, reading "Richard D. Snyder".

---

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

**Subject:** RE: Companies offering to help with infrastructure

I just spoke with Capt. We need to separate the donations information from the business contracted services on any email account. I would suggest that DHHS would then monitor the donations account and the other account would be setup with an autoreply → we will review the information and contact them only if we have assessed the need for their services. We can then periodically review and retain this information in this account as a reference for possible contract use if needed.

Any feedback on this?

Carol

Hi Team,

Do you have a place you want us to forward companies offering their product to help with the flint situation. We have been getting an influx of offers on filter systems, construction companies.....

Or maybe we could add a tab at <http://www.helpforflint.com/> ?

Please advise:

Thank you,

**Subject:** RE: Companies offering to help with infrastructure

I just spoke with Capt. We need to separate the donations information from the business contracted services on any email account. I would suggest that DHHS would then monitor the donations account and the other account would be setup with an autoreply → we will review the information and contact them only if we have assessed the need for their services. We can then periodically review and retain this information in this account as a reference for possible contract use if needed.

Any feedback on this?

**Subject:** RE: Companies offering to help with infrastructure

MSP is working on potentially creating an email account to route those types of offers/recommendations to, which we could then include in releases and the website.

**Subject:** Companies offering to help with infrastructure

Hi Team,

Do you have a place you want us to forward companies offering their product to help with the flint situation. We have been getting an influx of offers on filter systems, construction companies.....

Or maybe we could add a tab at <http://www.helpforflint.com/> ?

Please advise:

Thank you,

**To:** Christensen, Chris (DTMB); McKee, Ryan (DTMB)  
**Cc:** MSP-EOC-MDTMB  
**Subject:** Morning Update

- DEQ has additional bottles arriving today for testing kits that ARC volunteers will assemble
- DHHS is reporting there are not any Brita filters available at this point, PUR only
- National Guard has 10 teams with 10 personnel water response teams today and will bring in an additional 8 teams on Thursday
- Red Cross has 8 water response teams today
- DTMB has 6 drivers with trucks assisting in distribution of supplies to distribution sites

DTMB resource requests currently assisting with:

- Warehouse space close by State Laboratory for DEQ to house testing kits that may be needed due to litigation
- FEMA work space within the Flint State Office Building

Jeanette

**Cc:** Doxie, William (DTMB); MSP-EOC-MDTMB  
**Subject:** Leased

Hi Maureen --

This email is in response to the voicemail I left on your desk phone this morning.  
DEQ is requesting the following:

Temperature controlled warehouse space near 3350 N. MLK (State Lab)  
1500 square feet (estimate or slightly larger)  
Space will need to allow for double stacking of pallets  
Duration – at least a year, samples will need to be held due to litigation

Let me know if you need additional information.

Thanks for your help!

leanette

Subject: HDPE Bottle update

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

Do you know if they are maintaining the same make/model for the water filters, replacement cartridges, and water testing kits? Yes

Should DEQ cancel pending orders for water testing materials? Do you need a briefing on pending orders for your FEMA contact? (Melissa and Tara can provide.) I forwarded an email from Tara Premoe, please review.  
Thank you.

Rebecca –

I had a chance to sit down with the FEMA Logistics Chief and was able to obtain some information. Right now, FEMA is in the transition of taking over the purchasing of water, filters, cartridges and water testing kits. However, they stated this is just for the next few months and then it will transition back to the state. They will work with the state before walking away, but said to definitely maintain awareness of what product is available (water, filters, cartridges, bottles).

Great questions!

Jeanette

**Subject:** FEMA - Genesee County

Chris

I have a few questions about FEMA's involvement:

- Is there a time frame as to how long they are providing bottled water? If needed, should State be prepared to take back over in several months for example? Yes – although FEMA will provide contract information along with transferring contract over to the state
- Are you the contact providing FEMA usage estimates for bottled water? MSP, Red Cross, DHHS and FEMA are determining this
- Will FEMA be stepping in for other items like water filters and replacement cartridges? (If so, see above questions. Steve and Home Depot will have a few more.) Yes
- What about collection bottles for water testing? FEMA

Steve was going to reach out to Jeanette on some of this. Apologies for any duplication but Jeff Brownlee asked me to send you a note.

Please let me know if you have questions.

Thank you.

**Subject:** Flint Parking - Priority Request  
**Importance:** High

Michelle and Tammy –

Please create an account in AIMS for the Flint Water Emergency and assign 25 reserved parking spaces to it (according to the numbers I have, we should have enough vacancies to accommodate this). I will also need parking maps with each of the assigned parking spaces highlighted (one set of maps with all spaces highlighted). I need this electronically...if you are unsure how to do this, please ask Rick for assistance.

I will need to know who completed this request and how much time it took...this is required for overall SEOC emergency cost tracking.

I would like to have this complete today.

Thank you!

Hi Sierra

As mentioned here is the Chinese translated palm care. Trevor Hawks sent the first copy (4pgs) I tried to edit to 2 pages. Neither of them look like print quality.

Trever did not think he would be able to format the Chinese version to put onto the palm card format.

It is your decision how you would like to proceed tomorrow

**Subject:** Resource Request  
**Importance:** High

I need someone with Crystal Report expertise to spend a couple of hours with me at the lab so that I can make a modification to the report that is going out to Flint residents.

Basically what I need to know is how to set up a string within the report that will take a field value and multiply it by 1000 so that results can be converted from ppm to ppb. The logic will need to take into account the fact that the field in question is a text field and not a numerical field. Logic will also need to be built into the string to accommodate for values such as "Not Detected"

This must be done at the Lab and I need to work with this individual. There is a lot of custom interfacing that is going on and it is not as straight forward as giving someone a Crystal Reports file and asking them to incorporate the requested logic.

Thank you  
George

**Subject:** FW: SEOC Request - Add State Email to iPhones

Linda,

I have a request to add email on to Phone's that are in Flint. My idea would be to have someone from the Smart Device team give them a call and MAKE SURE MaaS360 is on the phone. That way there is some security measures in place, and we can help if they need.

Is that something someone on your team can take care of today? Below are the names and emails of the individuals that need this set up.

Please let me know.

Thanks,

Chris Christensen

You're welcome. If for any reason restarting Outlook doesn't work they may have to repair their Outlook profile or re-add the account, usually for a 2007 mailbox move restarting Outlook is enough.

My cell is                      if you need to call.

Subject: RE: Request from the SEOC

I have moved the MSP-SEOCGIS and MSPSEOCGIS2 mailboxes to an MSP unlimited store. As long as they don't use more than 200 GB, the server should be able to handle it.

Users will have to restart Outlook and/or OWA for this to take effect.

The mailboxes are linked user mailboxes and not true shared mailboxes. They do not appear to have any ActiveSync traffic.

**Subject:** Re: Server Monitoring Resource Request

Chris, is your team receiving the email alerts that was set up to monitor the utilization? I'm asking because the SMC should be receiving those and we have not seen any alerts. We'll need to contact EM to see why they're not reaching us. As for what's on the server, the CMDB shows only MiCIMS on the server but I can't confirm as only the business owner would be able to tell us that.

If we're able to see the utilization increasing, we can contact the server team to restart the IIS again but I don't know if we can do anything to ensure it won't max out again. If you'd like we can open a ticket and ask the server team to investigate.

Please let me know about the alerts, and we'll contact EM. Thanks,

Jamie,

I understand that yesterday at 11:26 MSP experienced performance issues with MICIMS. The MSP IT staff at the SEOC contacted the server team and they restarted IIS service and it appears to be working better. Currently they are hovering at 80%-85% utilization when it reaches 100% they are having issues. What can we do to ensure the program will not have any issues?

Thanks,

Jamie,

I wanted to reach out and make sure they have coverage for the weekend on the MICIMS server? Apparently it reached capacity today and was down for like 10 minutes. Will you please let me know if we will have support over the weekend

Thanks Chris

Thanks Chris

On Jan 17, 2016, at 8:26 PM, Bennett, Jamie (DTMB) <[BennettJ1@michigan.gov](mailto:BennettJ1@michigan.gov)> wrote:

Ok, with the assistance of TS, MCS, and Telecom, the firewall rules are in place and EM has set up the alerts to the following specifications from EM:

I dropped the CPU threshold down as low as I could (1%) and none of the CPUs went above that for more than 5 minutes. So, no test

messages were sent. I've reset the threshold to 75% for 5 minutes, and a reset value of 70%. The alarm will stay in place until the threshold drops back to 70%. The standard polling interval is 5 minutes. We can modify the threshold to require more than 5 minutes before an alarm if we need to.

The list of recipients for the notifications are:

[moores3@michigan.gov](mailto:moores3@michigan.gov)

[christensenc4@michigan.gov](mailto:christensenc4@michigan.gov)

[mckeer1@michigan.gov](mailto:mckeer1@michigan.gov)

[dtmb-smc@michigan.gov](mailto:dtmb-smc@michigan.gov)

The message will indicate that there is high CPU usage on the server. I've been watching both machines in Spectrum, and the CPU utilization is staying way down now. LAN551CIMSROW001 is almost 0% for CPU utilization. LAN551CIMSROW001 is the same. A few CPUs are running at 1% and the rest are at 0. Both machines should send email to the above list if any of the CPUs go above 75% for more than 5 minutes. A cleared message should be sent when that value drops back below 70%. Let us know if that needs to be adjusted.

Thanks

Steve Moore

Going forward if SMC receives any alerts, do you need us to respond in any way? Contact the server team, contact the seoc, etc? At this time, we are set to just receive them. (Excluding if we receive a ping alarm, we would follow normal procedure.)

David we've contacted EM. They're heading into the office. What we need to know is the specific servers. Does anyone have that info, we're having trouble locating by the app name in the CMDB. Also once we have the servers, who would like to get the notifications? Ryan McKee and the SMC is who I have thus far. EM will be able to turn on notifications for high cpu, memory, etc. thanks for your assistance.

**Subject:** RE: Fwd: Request from the SEOC

Matt was covering on call this afternoon but I don't think he's moved mailboxes yet. My out of town plans fell through last minute so I can move these in about 45 minutes.

**Subject:** Request from the SEOC

John,

I am getting a request from the SEOC to have an increase due to the number of maps and data size of the mapping function, it is necessary to increase the mailbox size of

[misp-seocgis@michigan.gov](mailto:misp-seocgis@michigan.gov) and  
[misp-seocgis2@michigan.gov](mailto:misp-seocgis2@michigan.gov) to unlimited.

Who on your team should I contact to get this taken care of?

Chris Christensen  
Director of Infrastructure Protection  
Office: (517) 241-2188  
Cell:

**From:** MSP-EOC-MDTMB  
**Sent:** Saturday, January 23, 2016 1:46 PM  
**To:** Christensen, Chris (DTMB) <[christensenc4@michigan.gov](mailto:christensenc4@michigan.gov)>  
**Cc:** Rakowski, Rock (DTMB) <[RakowskiJ@michigan.gov](mailto:RakowskiJ@michigan.gov)>  
**Subject:** Expanded Email Storage Needs

Chris,  
Here are the mailboxes they need expanded.  
Let me know ETA.

Thanks  
Rock

Due to the number of maps and data size of the mapping function, it is necessary to increase the mailbox size of [misp-seocgis@michigan.gov](mailto:misp-seocgis@michigan.gov) and [misp-seocgis2@michigan.gov](mailto:misp-seocgis2@michigan.gov) to unlimited.

**Subject:** Notes from 1/23/2016 9:30AM Conf Call

Note: If i missed someone or if I omitted important information please let me know and I will update.

Attendees:

Chris Christensen  
Rich Cruz  
Capt Kelly  
Rod Davenport  
John Thompson  
Jim Ellis  
Christian Kopacsi  
James McFarlane  
Jim F - IBM  
Caleb Buhs  
Brom Stibitz  
Matt Bolger  
Bill Smith - IBM  
Danny Cook  
Matt Sweeney  
David Behen  
Eric Swanson  
Suzanne Pauley

Notes:

- Discussed Mi.gov outage - attack vector was TCP with 150mb+ traffic. Attacks withdrawn after 1AM, mitigation has been adjusted to block those attempts. IBM team will continue to monitor and react as necessary. Suzanne to alert MIOC immediately of any future attacks. Twitter handle [@S0BL1N](#) claimed credit for the attack.
- There are now two YouTube videos threatening the State of Michigan and Gov, they can be found on the TruthSec channel and the AnonIntelGroup channel.
- State teams will continue to monitor our SOM infrastructure very closely
- There is a podcast scheduled for Monday at 3:15PM that will be hosted by Dan Lohrmann. He has invited members of anonymous to call in.
- Caleb will be sending an email to State Agency directors and PIO's regarding the DDoS events and cyber hygiene best practices. An additional email will be sent to State staff on Monday with the reminder on cyber hygiene best practices. Remind staff to not let anyone in the building without a badge.
- Additional information related to the Kerr family will be sent to David.
- A discussion was had around providing additional resources to assist CTO Paul Knific in Flint. He will be contacted (810-252-3120) to see what resources he needs.
- Physical security has been enhanced in several buildings including Con Hall.
- Matt Sweeney will determine what information will be sent to the Legislature.
- The issues yesterday for the server is at 11:26 MSP experienced performance issues with MICIMS. The MSP IT staff at the SEOC contacted the server team and they restarted IIS service and it appears to be working better. I am trying to get a solution in place to make sure it doesn't have issues in the future.
- 
- Beginning Monday, Suzanne will send daily updates at 5PM. Team will send any pertinent information to her to be included in the message.

Hi Mardella,

This below intell document was sent by Ops, and is a cyber attack targeting Flint. Is it possible for you to push this out to the other MSP SEOC entities and the JIC? I don't have all of those email addresses.

At 11:28PM this evening we were notified that michigan.gov was inaccessible. Our IBM team responded with mitigation and at 11:56PM access to michigan.gov was restored. The type of attack was different than last weekend, this was TCP based with with 150mb+ of malicious traffic.

The twitter handle that posted the initial #offline was @SOBLIN. At this time the we're still seeing attempts to attack the michigan.gov environment but are able to block them. If attack vector changes we'll need to adjust the mitigation strategy.

I will send additional updates if the situation changes.

Thanks,  
Suzanne

## Anonymous Relaunches #OpFlint against the Government of Michigan and City of Flint

### MANAGED ADVERSARY AND THREAT INTELLIGENCE

DEEPSIGHT™ INTELLIGENCE, INTELLIGENCE SUMMARY, SYMC – 300383,  
PUBLISHED 22 JANUARY 2016, V.1 2  
Information Cut-Off Date: 22 January 2016 3

# **ANONYMOUS LAUNCHES #OPFLINT AGAINST THE GOVERNMENT OF MICHIGAN AND CITY OF FLINT**

*DeepSight™ Intelligence, Intelligence Summary, SYMC-300383, published 22 January 2016, V.1*

## **KEY FINDINGS**

- On 16 January 2016, Anonymous relaunched #OpFlint in response to the recent health crisis surrounding contaminated water in Flint, Michigan.
- The operation targets officials that the Anonymous group recognizes as having ignored the water crisis, such as Gov. Rick Snyder and Flint city personnel.
- The operation activities have included distributed denial-of-service (DDoS) attacks and doxing.

## **EXECUTIVE SUMMARY**

Members of the international Anonymous hacktivist collective have relaunched #OpFlint to target those entities that the operation perceives as responsible for the contaminated water crisis in Flint, Michigan. Originally organized in 2015, #OpFlint was relaunched on 16 January 2016 and is ongoing against city officials and the governor of Michigan, Rick Snyder. Several hacking groups are supporting the malicious activities, which include DDoS attacks and doxing. The first DDoS attacks on 16 January took the [Michigan.gov](http://Michigan.gov) and [cityofflint.com](http://cityofflint.com) websites temporarily offline. DeepSight Intelligence judges #OpFlint will not shut down the state or city's infrastructure; however, access to the Michigan government and city websites will likely be disrupted. 4

## DETAILS

The Anonymous collective's operation #OpFlint originally launched in 2015 but never gained momentum. #OpFlint was relaunched on 16 January 2016 to draw attention to the toxicity levels of the contaminated water supply in the city of Flint, Michigan. Leaders of the current effort include the US-based New World Hacking group and the Anonymous Intelligence Group (a.k.a. Anon Intel Group). The New World Hacking group launched the recent #OpFlint activity on 16 and 17 January 2016 with DDoS attacks that shut down the [Michigan.gov](http://Michigan.gov) and [cityofflint.com](http://cityofflint.com) websites (see Figure 1). The operation has an official video on Youtube (<https://www.youtube.com/watch?v=zXQfsURnE0w>) and on several Anonymous-affiliated websites.

See the DeepSight Intelligence report *Profile: New World Hacking (NWH)*, (SYMC – 300376), 9 June 2016. New World Hacking uses their own stressor service, BangStressor, to conduct DDoS attacks including an attack against the BBC in early 2016.

Figure 1. New World Hacking Twitter post publicizing the DDoS attacks against [Michigan.gov](http://Michigan.gov) and [cityofflint.com](http://cityofflint.com)

On 20 January 2016, the Anon Intel Group's website contained a link to a "doxing" for Michigan Gov. Snyder (<https://ghostbin.com/paste/zn236>, see Figure 2). The dox did not include social security numbers, but rather revealed his mailing address, social media accounts, and phone numbers, and information for his family relatives that is easily obtained through several Google searches.

Captain,

Just an FYI- this does not apply to us. Per DTMB, we got our water from Wisconsin; this applies to water from Pennsylvania. DTMB is confirming, comparing our lot numbers with the ones listed.

On Niagara's website, they do not show Michigan as an impacted state.

Delante,

Below is the statement I was given from our Legal Dept. Please let me know if it will suffice.

I have also attached a document we gave to customers that were affected immediately after the recall happened. That being said, Home Depot was not affected as you buy purified drinking water, not spring.

“Niagara bottled water being sold and distributed in Flint, MI and throughout the country is safe to drink. Niagara issued a voluntary recall of spring water produced at our two (2) Pennsylvania plants from **June 10-18th, 2015**. As of **September 7, 2015** Niagara found no contamination of any kind in their finished products or in the spring water that was delivered to their bottling

facility. For additional information, please visit <http://www.niagarawater.com/consumer-notice/> or contact Niagara's Consumer Affairs Department at (888) 943-4894."

Thank you,

**Subject:** VWR contact for 1/24 - 1/27 and updates

Hello Everyone,

I wanted to send a general update out to everyone because next week I will be at a National Sales Conference and booked in meetings for 3 days. I do not want any of you not to have access to support when I am away. I have been working closely with the VWR government support team and they understand the importance of your needs. Please let us know of any new order that could be needed so we can make certain the order is closely watched within VWR.

As a point of contact internally within VWR, please contact Shasta Dixon. Lewis McMillan will also be at the sales meeting but he would like you to contact him if you do need extra assistance. His schedule at the meeting is more flexible than mine should you need any more help.

Lewis McMillan  
Director, Business Development - State & Local Government Markets  
Mobile  
lewis\_mcmillan@vwr.com

Updates for items needed and shipping information for orders are below.

### Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

### Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6)                      Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML bottles in different Warehouses around the nation,  
we can supply more from the manufacturer  
(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse  
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

Best,

Nina

Captain,

Just an FYI- this does not apply to us. Per DTMB, we got our water from Wisconsin; this applies to water from Pennsylvania. DTMB is confirming, comparing our lot numbers with the ones listed.

On Niagara's website, they do not show Michigan as an impacted state.

**Sent:** Friday, January 22, 2016 4:44 PM  
**To:** MSP-EOC-MDTMB  
**Subject:** Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit [www.helpforflint.com](http://www.helpforflint.com) to learn how you can help.

For additional information and updates, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

Again, thank you for all your support.

Sincerely, Mike Zimmer  
Office of Good Government Director  
Dept. of Licensing and Regulatory Affairs Director

**Sent:** Friday, January 22, 2016 7:43 AM  
**To:** MSP-EOC-MDEQ  
**Subject:** RE: SEOC Request

Thank you!

For the record, there have been "angry" phone calls from citizens to our call center and we are aware of the "Anonymous" person on YouTube who has posted threats so we are just trying to be proactive.

I see there is a guard at the South entrance already this morning. Thank You! However, he seems to need a reminder that the point of having him there is so he checks ID badges. I walked in behind several people streaming in while somebody held the door open. I didn't even take my ID out of my purse and I walked through without any question.

Thanks again for all of your help!

Subject: SEOC Request

We have a request for additional security at the Con Hall building – Mary Kay Hawes from DEQ has expressed concern about the calls and visitors that they are receiving, after assessing the situation we would request 3 additional guards. How would you like this handled? I would expect they would like the funds to come from FEMA.

**Sent:** Friday, January 22, 2016 8:25 AM  
**To:** MSP-EOC-MDTMB; Doll, Jeanette (DTMB)  
**Subject:** FW: Expediting sample Bottle Shipment from Environmental Express (EE)

The expedited shipment occurred on Jan 18<sup>th</sup>. The State Director directed the expediting to have resources provided for distribution of water test kits. The DEQ had been working with the City for several months prior to the state declaration and had been offering free lead and copper testing to residents during this time. The two points of distribution at that time were the City Hall and Water Treatment Plant. The messaging at that time was conducted by the City and test kits were provided in lots at their request. Before the declaration the DEQ provided the city approximately 1000 bottles with the City submitting just over 600 samples during this time.

The declaration of a State of Emergency by the Governor and subsequent activation of the SEOC immediately increased the distribution of supplies exponentially. This caused an immediate demand for the water test kits. The DEQ contacted their vendors and ordered all test bottles the vendors had in stock and able to quickly produce. The test bottles are manually capped by the vendors causing expediting charges due to the increased man power by the vendor as well as expedited shipping costs.

Mitch,

I will make the change to expedite the shipping at your expense. I want to give you a heads up that I'm traveling to visit customers Tuesday-Thursday this week and will check e-mail as time allows. I will ask Jessica in customer service to send you tracking when they ship on 1/19 and 1/21. You can also call 800-343-5319 and reference Sales order# 10375466 and anyone in customer service can help you too.

Thank you for your patience.

Lisa

Hi Lisa

We agree to pay the extra charge for overnight shipping. Please proceed to ship the 100 cases 1/9 for deliver to Clio Rd on 1/20, and ship the 200 cases on 1/21 for delivery on 1/22. You can use your own UPS account. Please provide tracking info as soon as available.

I will call you about the additional 140 cases we need to order. Ship date of 1/28 or 29 is too long, I need to see if we can get sooner from elsewhere. Thanks!

**Cc:** MSP-EOC-MDEQ; Wolf, Jennifer (DNR)  
**Subject:** RE: Expediting sample Bottle Shipment from Environmental Express (EE)

Mitch,

The freight estimate for 100 individual cases would be \$6,000 to ship UPS overnight. They would ship 1/19 for delivery 1/20. The overnight freight estimate for the 200 cases would be \$12,000 to ship 1/21 and deliver 1/22. If you have a UPS account number that you prefer to use, we could use that instead? We would need to know soon (by 2PM ET) today if you prefer to ship UPS overnight versus LTL carrier for the 100 cases to get a large enough UPS truck in here.

ETA on another 10K or 138+ cases would be a ship date of 1/28 or 29. We already have 43,000 on order since this is one of our most common items.

Hi Lisa - You should have received a voicemail from one of my colleagues, Mitch Adelman, regarding the 400 cases of 32oz wide mouth bottles BPC1172 we ordered. See email below. I know you gave me an estimate on delivery for 100 shipping immediately, another 100 to ship on 01/21/16 and remaining 200 to be determined. Do you have any ideas on how we can get the remaining 300 cases shipped ASAP. Can you find out for me if there is a bottle manufacturing issue, bottle certification issue, or assembly issue (caps on bottles). We are working under a Federal Emergency. I am not in the office tomorrow, 01/18/16, but will be checking my emails.

Thank you,  
Kirby

Hi Kirby

We've been directed to expedite delivery of the remaining 300 cases of the outstanding order from EE. I left Lisa Riley a voice mail message this afternoon, not expecting her to be in today, but hoping she may be working tomorrow. If you have any ideas on how we may seek expedited delivery before we have our 1:00 pm call on Tuesday, please let us know.

Thanks

Mitch

**Subject:** Warehouse Security Concern

DTMB received information from our night security guard that 11 American Red Cross emergency response vehicles are being parked outside the warehouse, within the fence, with their keys left in them. There are also GPS devices in each vehicle. They were previously parked inside the secure warehouse.

The guard will keep an eye on the vehicles but wanted to pass the information on for situational awareness.

Subject: HDPE Bottle update

---

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

Subject: HDPE Bottle update

---

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and

the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

**Subject:** RE: HDPE Bottle update Tracking included

FYI- I did speak with Nina last night just before leaving and asked that she followed up with an email so Mitch could inform everyone. I see that did not occur until late last night so we are all getting the info this morning.

For George, at what point do we want to agree that we have a representative sample amount? Should we consider still offering testing for anyone who wants it but relieve the push of these to the extent we have been? We would need to develop appropriate messaging. At this point with the orders coming in through next week we will have distributed in excess of 70,000 water test kits.

Hello everyone,

I have left messages with some of you and I was able to talk with Jennifer Wolf at the Emergency Management center. We have had problem with the full shipment being overnight shipped to MI. We apologize for the confusion for the shipment not going out next day air. The overnight shipping costs for this shipment would have totaled into the thousands, closing in on \$10,000 for the total amount of cases shipped on Tuesday. Our supplier did not think that this was approved. However, we have worked to find a solution so this lot can be tested by Kirby tomorrow.

What have done to remedy the situation this afternoon is ship one case (of the same lot) overnight to Kirby Shane at the MDEQ lab. Five cases will be shipped overnight to the Flint location so they have them on hand. Kirby will get two cases of this lot, one tomorrow and one Friday due to this error.

I apologize for the shipping confusion and I hope that our solution to ship 6 cases tonight will be acceptable to everyone else. Thank you Jennifer for letting me know this works for you.

Jennifer and I have discussed the shipment for the remaining cases and we do not need to send any other cases overnight, they should be fine with stock as the Tuesday shipment will arrive soon after the 5 cases tomorrow.

Please let me know if anyone has questions. Thank you.

Best,

Nina

Alicia –

Attached are two pictures per room. We have three spare tables which are the same as the ones in the first two pictures these tables are roughly 3ft x 6ft. We are in the process of obtaining additional tables and chairs and will need to know what additional needs are required.

Hello Everyone,

Please see below for the tracking information for the shipments that will arrive tomorrow.

The 41 cases going to Flint, MI are being shipped UPS Freight, tracking # 319315780  
1 case going to Lansing, MI UPS Ground, tracking # 1Z91AE800371241770

Best,

Nina

Subject: HDPE Bottle update

---

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

**Subject:** RE: Companies offering to help with infrastructure

I just spoke with Capt. We need to separate the donations information from the business contracted services on any email account. I would suggest that DHHS would then monitor the donations account and the other account would be setup with an autoreply → we will review the information and contact them only if we have assessed the need for their services. We can then periodically review and retain this information in this account as a reference for possible contract use if needed.

Any feedback on this?

Hi Team,

Do you have a place you want us to forward companies offering their product to help with the flint situation. We have been getting an influx of offers on filter systems, construction companies.....

Or maybe we could add a tab at <http://www.helpforflint.com/> ?

Please advise:

**To:** Christensen, Chris (DTMB); McKee, Ryan (DTMB)  
**Cc:** MSP-EOC-MDTMB  
**Subject:** Morning Update

- DEQ has additional bottles arriving today for testing kits that ARC volunteers will assemble
- DHHS is reporting there are not any Brita filters available at this point, PUR only
- National Guard has 10 teams with 10 personnel water response teams today and will bring in an additional 8 teams on Thursday
- Red Cross has 8 water response teams today
- DTMB has 6 drivers with trucks assisting in distribution of supplies to distribution sites

DTMB resource requests currently assisting with:

- Warehouse space close by State Laboratory for DEQ to house testing kits that may be needed due to litigation
- FEMA work space within the Flint State Office Building

Jeanette

Hi Maureen –

This email is in response to the voicemail I left on your desk phone this morning.  
DEQ is requesting the following:

Temperature controlled warehouse space near 3350 N. MLK (State Lab)  
1500 square feet (estimate or slightly larger)  
Space will need to allow for double stacking of pallets  
Duration – at least a year, samples will need to be held due to litigation

Let me know if you need additional information.

Thanks for your help!

Jeanette

**Subject:** HDPE Bottle update

---

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

*If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.*

Please let me know if you have any questions.

Best,

Nina

Jeanette

Do you know if they are maintaining the same make/model for the water filters, replacement cartridges, and water testing kits? Yes

Should DEQ cancel pending orders for water testing materials? Do you need a briefing on pending orders for your FEMA contact? (Melissa and Tara can provide.) I forwarded an email from Tara Premoe, please review.

Thank you.

Rebecca

Rebecca –

I had a chance to sit down with the FEMA Logistics Chief and was able to obtain some information. Right now, FEMA is in the transition of taking over the purchasing of water, filters, cartridges and water testing kits. However, they stated this is just for the next few months and then it will transition back to the state. They will work with the state before walking away, but said to definitely maintain awareness of what product is available (water, filters, cartridges, bottles).

Great questions!

Jeanette

**Subject:** FEMA - Genesee County

Chris

I have a few questions about FEMA's involvement:

- Is there a time frame as to how long they are providing bottled water? If needed, should State be prepared to take back over in several months for example? Yes – although FEMA will provide contract information along with transferring contract over to the state
- Are you the contact providing FEMA usage estimates for bottled water? MSP, Red Cross, DHHS and FEMA are determining this
- Will FEMA be stepping in for other items like water filters and replacement cartridges? (If so, see above questions. Steve and Home Depot will have a few more.) Yes
- What about collection bottles for water testing? FEMA

Steve was going to reach out to Jeanette on some of this. Apologies for any duplication but Jeff Brownlee asked me to send you a note.

Please let me know if you have questions.

Thank you.

Team Transport Vehicle for 2-4 Team Members	10	10		1/25/16	8:00 am
Team Transport Vehicle Driver	10	10		1/25/16	8:00 am
iPads	10	10		1/25/16	8:00 am
Hand Warmers	40	40		1/25/16	8:00 am
Distribution Kit	1000	1000		1/25/16	8:00 am

## Execution:

### Key Locations

Team	Assembly Area	Hours of Operation
LEOC	Genesee County Administration Building 1101 Beach St, Flint	0830-1600

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

#### **Map Support**

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

#### **Sample Script for Team Members:**

*We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.*

#### **Execution Support:**

##### **Product Replenishment Process:**

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

#### **Warehouse**

##### **Tactics:**

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

#### **Lunch**

Lunches will be provided by the ARC.

#### **Reporting:**

##### **Tactics:**

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Symantec assigns a high, medium, or low degree of confidence to assessments within its DeepSight™ Intelligence Portal Managed Adversary and Threat Intelligence (MATI) products. Confidence levels are determined against a three-point spectrum of source validity: variety and non-conflictive disparity of original sources, quality of source reporting, and reliability of source reporting. Confidence levels may be increased based on independent corroboration of information. High confidence generally suggests a solid judgment can be made, though such a judgment carries the risk of being wrong. Low confidence generally suggests tenuous inferences can be made, though information used to do so may have been questionable, fragmented, or singular.

# ANONYMOUS LAUNCHES #OPFLINT AGAINST THE GOVERNMENT OF MICHIGAN AND CITY OF FLINT

*DeepSight™ Intelligence, Intelligence Summary, SYMC-300383, published 22 January 2016, V.1*

---

## KEY FINDINGS

---

- On 16 January 2016, Anonymous relaunched #OpFlint in response to the recent health crisis surrounding contaminated water in Flint, Michigan.
- The operation targets officials that the Anonymous group recognizes as having ignored the water crisis, such as Gov. Rick Snyder and Flint city personnel.
- The operation activities have included distributed denial-of-service (DDoS) attacks and doxing.

## EXECUTIVE SUMMARY

---

Members of the international Anonymous hacktivist collective have relaunched #OpFlint to target those entities that the operation perceives as responsible for the contaminated water crisis in Flint, Michigan. Originally organized in 2015, #OpFlint was relaunched on 16 January 2016 and is ongoing against city officials and the governor of Michigan, Rick Snyder. Several hacking groups are supporting the malicious activities, which include DDoS attacks and doxing. The first DDoS attacks on 16 January took the Michigan.gov and cityofflint.com websites temporarily offline. DeepSight Intelligence judges #OpFlint will not shut down the state or city's infrastructure; however, access to the Michigan government and city websites will likely be disrupted.

## DETAILS

The Anonymous collective's operation #OpFlint originally launched in 2015 but never gained momentum. #OpFlint was relaunched on 16 January 2016 to draw attention to the toxicity levels of the contaminated water supply in the city of Flint, Michigan.

Leaders of the current effort include the US-based New World Hacking group<sup>1</sup> and the Anonymous Intelligence Group (a.k.a. Anon Intel Group). The New World Hacking group launched the recent #OpFlint activity on 16 and 17 January 2016 with DDoS attacks that shut down the Michigan.gov and cityoffflint.com websites (see Figure 1). The operation has an official video on Youtube (<https://www.youtube.com/watch?v=zXQfsURnEOw>) and on several Anonymous-affiliated websites.

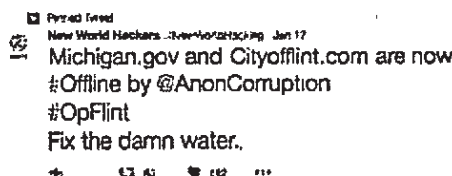

Figure 1. New World Hacking Twitter post publicizing the DDoS attacks against Michigan.gov and cityoffflint.com

On 20 January 2016, the Anon Intel Group's website contained a link to a "doxing" for Michigan Gov. Snyder (<https://ghostbin.com/paste/zn236>, see Figure 2). The dox did not include social security numbers, but rather revealed his mailing address, social media accounts, and phone numbers, and information for his family relatives that is easily obtained through several Google searches.

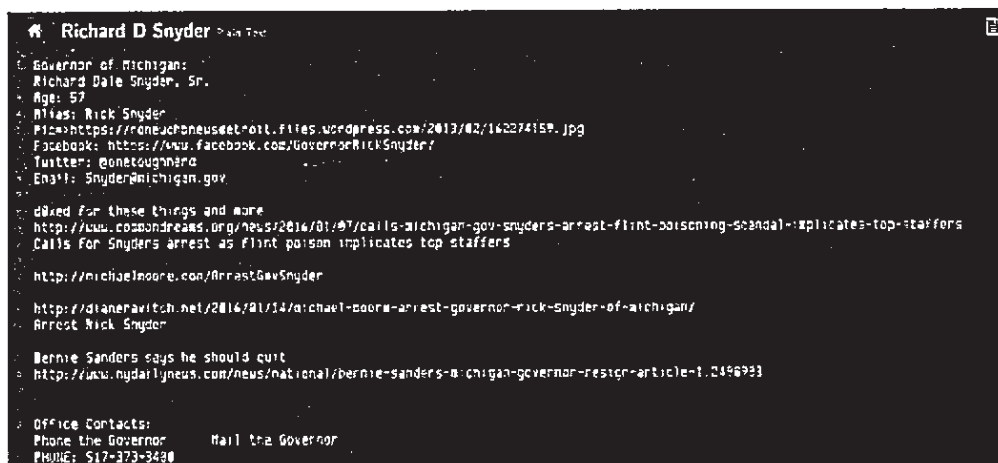

Figure 2. Dox posted on Anon Intel Group website on 20 January 2016

<sup>1</sup> See the DeepSight Intelligence report *Profile: New World Hacking (NWH)*, (SYMC – 300376), 9 June 2016. New World Hacking uses their own stressor service, BangStressor, to conduct DDoS attacks including an attack against the BBC in early 2016.

On 21 January 2016, Hurley Medical Center in Flint, Michigan, confirmed it was the victim of a “cyber attack” but patient information was not compromised. According to a Twitter post by Anon Intel Group on 22 January 2016, Anonymous denies responsibility for the attack against the hospital (see Figure 3).

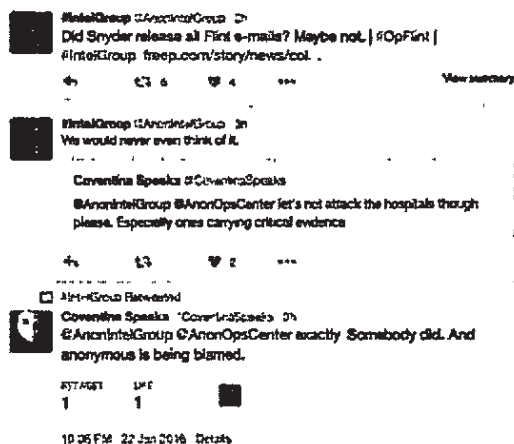

Figure 3. Twitter post discussions denying Anonymous activity against a hospital in Flint Michigan

## OUTLOOK

As of 22 January 2016, recent #OpFlint activity has involved posting news clips on social media accounts, such as Twitter and Facebook. The group has not mentioned further DDoS attacks, although DeepSight Intelligence expects some sites to be targeted on the first weekend of the relaunch (i.e., between 22 January and 24 January 2016). Although #OpFlint relaunched on 16 January 2016, DeepSight Intelligence expects the activity to quickly diminish if it does not gain greater media recognition—Anonymous is motivated by publicity. There are no indications the operation is well organized and the Youtube video announcing the operation only mentions targeting the Governor of Michigan and the city of Flint; there are no details on how the operation will be conducted. Although #OpFlint will not shut down the state or city’s infrastructure, access to government and city websites might occasionally be disrupted.

Delante,

Below is the statement I was given from our Legal Dept. Please let me know if it will suffice.

I have also attached a document we gave to customers that were affected immediately after the recall happened. That being said, Home Depot was not affected as you buy purified drinking water, not spring.

“Niagara bottled water being sold and distributed in Flint, MI and throughout the country is safe to drink. Niagara issued a voluntary recall of spring water produced at our two (2) Pennsylvania plants from **June 10-18th, 2015**. As of **September 7, 2015** Niagara found no contamination of any kind in their finished products or in the spring water that was delivered to their bottling

facility. For additional information, please visit <http://www.niagarawater.com/consumer-notice/> or contact Niagara's Consumer Affairs Department at (888) 943-4894."

Thank you,

Michael Wright | Sales Development Manager | Niagara Bottling | 2560 E. Philadelphia St | Ontario, CA 91761

Good afternoon,

We just found out about a recall by Niagara water in Sept. 2015. Is there a way we can check the Niagara water that we're giving out to ensure it's not from these lots: <http://www.niagarawater.com/consumer-notice/>

Thank you,

## NIAGARA WATER IS SAFE

### HERE'S WHY

Last week, we issued a voluntary recall of spring water produced at our two (2) Pennsylvania plants from June 10-18th, 2015 because the operator at one of our contracted springs failed to notify us that there was evidence of *E. coli* bacteria at his source.

Because there has been a great deal of misinformation reported and circulated over the last 24 hours, we felt it was necessary to issue this clarifying statement.

Niagara Bottling performs extensive testing on both incoming spring water as well as finished products. We have confirmed there have been no issues or *E. coli* contamination of any kind detected in our finished products or in the spring water that was delivered to our bottling facility.

Even if it had been present in the incoming spring water, we utilize quality systems and disinfection technology that would ensure that our product is free from contamination. Despite this, once we were informed of the potential presence of *E. coli* at the spring source, we immediately shut down our operations, disinfected our bottling lines and initiated a voluntary recall in an abundance of caution and in the interests of consumer safety.

This recall only relates to spring water produced in our Pennsylvania manufacturing facilities from June 10-18th, 2015. It does not relate to any purified water or any spring water produced outside of Pennsylvania or outside the June 10-18th, 2015 timeframe.

To determine whether your product is part of this recall, please visit [Niagarawater.com](http://Niagarawater.com) and click on "Consumer Notice" at the top of the home page. This will take you to the notice of the recall and a list of codes of the water produced during these 8 days. If you don't see your product on the list, it was completely unaffected by the recall and is completely safe to drink.

Niagara has been family-owned and family run for over 50 years. Nothing is more important to us than consumer safety, which is why we voluntarily issued this recall.

If you have any additional concerns, please contact our Consumer Affairs Department at (888) 943-4894.

Patrol Car	0	0		1/22/16	1525
iPads	40	10		1/22/16	1525
Hand Warmers	60	382		1/22/16	1525
Distribution Kit	7000	7000		1/22/16	1525

#### Execution:

#### Key Locations

Team	Assembly Area	Hours of Operation
OGCS/MSP	LEOC Genesee County Administration Building	0830-1600

	1101 Beach St, Flint	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

**Critical Task:** Assemble, coordinate, and monitor WRTs

**OGCS/MSP Process:**

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS\_MSP WRT Volunteer Assembly Information V2.0\_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

**Sample Script for Team Members:**

*We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.*

**Execution Support:**

**Product Replenishment Process:**

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	0 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	<ol style="list-style-type: none"> <li>1. Contact warehouse to request replenishment truck</li> <li>2. Coordinate replenishment location with warehouse</li> <li>3. Exchange replenishment truck with empty truck</li> </ol>
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

**Warehouse****Tactics:**

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

**Lunch**

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

**Reporting:****Tactics:**

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

**Subject:** DCDS Coding for Staff from Other Agencies

Hi Carol

I just spoke with LARA here in the SEOC, regarding the staff they're supplying to the lab and the coding they should use in DCDS. DLARA, MDARD, and future resources that fill in to help for this incident, can't charge DEQ Index, PCA, project and phase numbers. They'll use their own and their time will get accounted for otherwise.

Anastasia, if you disagree, let us all know ASAP. Thanks everyone.

**Subject:** FW: Spanish Water Testing form.  
**Attachments:** DW Flint Sampling form-Spanish.docx

Attached is the Spanish version of the DEQ Water Sample Request Form. DTMB has printed 20,000 copies to be delivered tomorrow.

We asked for the forms to be printed on PINK paper, but they printed them on Yellow paper, so I need to know how problematic that is to have both English and Spanish in the same color ASAP, as I may have to request a hold on shipping Spanish yellow forms and reprinting on pink, so LAB and LOCAL EOC, please advise. Thanks

Carol and Wendy-

I just spoke to Ryan and Jeanette with DTMB. They advised they can hire someone to translate this but that it needs to be approved/asked for by the Logistics Position.

Can you please approve this request so we can get it translated?

Thank you

**Cc:** Hawks, Trevor (MSP)  
**Subject:** RE: FAQ - Flint Water - Spanish

Hi Kevin,

I'm going to need your help with this one. I thought the state already translated this Lead Fact Sheet into Spanish. I know we translated the palm card the water response teams are using. From the email chain it sounds like the United Way translated this document.

If we (the state) did not do it previously, then we need to send this document to whoever translated our palm cards and ask them to verify this is accurate. The JIC was not directly involved in the translation process so I'm not sure if it was done by DTMB or LARA.

Please let me know what you find out.  
Thanks,  
Shanon

Team:

Over the weekend the local Latino community has come together to make sure un documented workers and non-English speaking individuals have the help they need. As part of their efforts they translated the water safety information themselves as the State of Michigan has failed to produce or make widely available this information in Spanish.

The attached is unofficial but at this time I have no other alternative to share. Please advise on how to get this officially reviewed and approved.

In addition it is important to note that 211 has a translation service that can accommodate more than 150 languages.

**To:** Cook, Rebecca (DTMB); MSP-EOC-MDCH  
**Cc:** Weiss, Kurt (DTMB); Brownlee, Jeff (DTMB)  
**Subject:** RE: Next Step

Jeanette,

After talking this over with Jeff Brownlee, there does not seem to be any legal reason why they couldn't add a button, as was requested below. There are a few things that need to be considered though.

- Expectations need to be set for the response to these inquiries. It would be best if the receiver of these submissions was located at the SEOC, so they could review with the appropriate agency leads and determine an appropriate response. If it is expected that DTMB Procurement serve as the contact, the response to vendors will be severely delayed and in some cases they may not be able to get a response back at all. This should be handled through procurement and not the SEOC – as regular submissions are handled now

- If it is determined that a submission is feasible, the SEOC should work with Procurement to make sure all proper procedures are followed. If/when a decision is made this will happen although SEOC may not be involved in the solution.
- Shannon Banner has provided some language to the SEOC for the button that should be utilized.

Feel free to contact me if you need any further help. I've been working at the JIC in Flint today and am available by cell at

Thanks,

Jeanette

---

**From:** MSP-SEOCPIO

**Importance:** High

Can you check with DTMB on this. Tori Sachs with the Gov's Office was considering adding a button on [www.helpforflint.com](http://www.helpforflint.com) to capture vendors who want to pitch their product/idea; however, last I talked with her, there were concerns about violating state procurement processes.

Maybe DTMB has an email account already established for people who want to do business with the state? This is what FEMA has on their website for disasters.

Seems to me this should be handed off to DTMB procurement for a solution.

**To:** JICManager; MSP-seodgc; Adelman, Mitch (DEQ)  
**Cc:** Kuzera, Michelle (MSP); Ducharme, Mark (DEQ)  
**Subject:** FW: Next Step

Can someone please address this. If there is going to be zero communication with 'vendors', then there needs to be a canned response indicating such. I spend an inordinate amount of time with these missives as they are coming into my work e-mail, calling the LEOC phones, and showing up at the LEOC doorstep pitching their solutions because nobody is communicating with them.

Can someone please address this. If there is going to be zero communication with 'vendors', then there needs to be a canned response indicating such. I spend an inordinate amount of time with these missives as they are coming into my work e-mail, calling the LEOC phones, and showing up at the LEOC doorstep pitching their solutions because nobody is communicating with them.

Chris-

We (many people in Silicon Valley) would like to help, and we keep trying to work with the people trying to solve the Flint water crisis. MSU Alumni Assoc in NorCal is now engaged. So is the Chairman of the Board of Cal Water, Peter Nelson, the #6 largest public utility in the USA.

We keep getting zero feedback, no guidance, so we are doing what we can: working with churches and with relatives in Flint.

Tomorrow, we will pull additional water samples from several places, and run those through an EPA certified lab. I expect that we'll have data that shows we can pull water directly from the Flint River, run it through our purifier, and have 100% of all pathogens destroyed, zero lead, zero arsenic, etc. Plus a few more tests from various Flint tap water sources. Of course, with 0.5 micron filtration and 72k mV/cm\*\*3/sec, no pathogen can survive. EPA certified lab tests from multiple states can document that. In addition, the science is well understood. But we'll do it – yet again – with a lab in Michigan, using Flint water sources – in order to try to increase the chances that the gov't people in charge of the fix will pay attention.

Can you or your designee get on a phone call, no recording, no press, just you, me and Peter Nelson, explain where your "fix" is really, and use the engineering resources of Cal Water to help out?

Wishing you continued good luck. What happened in 2014 and in 2015 can't be changed. Going forward, it's about stopping all additional lead contamination, and making the water 100% safe to drink/shower in/etc for the people in the Flint Muni water district.

**To:** MSP-EOC-MDTMB  
**Cc:** Riehle, Jenni (DTMB)  
**Subject:** Flint Response - Vendor Outreach needed.

Jeanette

Our vendor outreach coordinator, Jenni Riehle, is working with our PIO/Caleb and CPO/Jeff to coordinate a solution with Shannon and Tori.

I'm asking Jenni to be the lead on getting website changes or other information in place, based on a conversation Jeff and Caleb had this afternoon.

Sounds like they want inquiries to route into the SEOC. Items like the one below would need to be routed to DEQ technical staff for evaluation.

Jenni will be reaching out, please feel free to contact either of us directly.

Thank you.

**Cc:** Weiss, Kurt (DTMB); Brownlee, Jeff (DTMB)  
**Subject:** RE: Next Step

Jeanette,

After talking this over with Jeff Brownlee, there does not seem to be any legal reason why they couldn't add a button, as was requested below. *There are a few things that need to be considered though.*

- Expectations need to be set for the response to these inquiries. It would be best if the receiver of these submissions was located at the SEOC, so they could review with the appropriate agency leads and determine an appropriate response. If it is expected that DTMB Procurement serve as the contact, the response to vendors will be severely delayed and in some cases they may not be able to get a response back at all.
- If it is determined that a submission is feasible, the SEOC should work with Procurement to make sure all proper procedures are followed.
- Shannon Banner has provided some language to the SEOC for the button that should be utilized.

Feel free to contact me if you need any further help. I've been working at the JIC in Flint today and am available by cell at

Jeanette

---

**From:** MSP-SEOCPIO

**Importance:** High

Can you check with DTMB on this. Tori Sachs with the Gov's Office was considering adding a button on [www.helpforflint.com](http://www.helpforflint.com) to capture vendors who want to pitch their product/idea; however, last I talked with her, there were concerns about violating state procurement processes.

Maybe DTMB has an email account already established for people who want to do business with the state? This is what FEMA has on their website for disasters.

Seems to me this should be handed off to DTMB procurement for a solution.

**Subject:** RE: FAQ - Flint Water - Spanish

Hi Kevin,

I'm going to need your help with this one. I thought the state already translated this Lead Fact Sheet into Spanish. I know we translated the palm card the water response teams are using. From the email chain it sounds like the United Way translated this document.

If we (the state) did not do it previously, then we need to send this document to whoever translated our palm cards and ask them to verify this is accurate. The JIC was not directly involved in the translation process so I'm not sure if it was done by DTMB or LARA.

Please let me know what you find out.

Thanks,  
Shanon

**Subject:** FW: FAQ - Flint Water - Spanish

Team:

Over the weekend the local Latino community has come together to make sure un documented workers and non-English speaking individuals have the help they need. As part of their efforts they translated the water safety information themselves as the State of Michigan has failed to produce or make widely available this information in Spanish.

The attached is unofficial but at this time I have no other alternative to share. Please advise on how to get this officially reviewed and approved.

In addition it is important to note that 211 has a translation service that can accommodate more than 150 languages.

Can someone please address this. If there is going to be zero communication with 'vendors', then there needs to be a canned response indicating such. I spend an inordinate amount of time with these missives as they are coming into my work e-mail, calling the LEOC phones, and showing up at the LEOC doorstep pitching their solutions because nobody is communicating with them.

Chris-

We (many people in Silicon Valley) would like to help, and we keep trying to work with the people trying to solve the Flint water crisis. MSU Alumni Assoc in NorCal is now engaged. So is the Chairman of the Board of Cal Water, Peter Nelson, the #6 largest public utility in the USA.

We keep getting zero feedback, no guidance, so we are doing what we can: working with churches and with relatives in Flint.

Tomorrow, we will pull additional water samples from several places, and run those through an EPA certified lab. I expect that we'll have data that shows we can pull water directly from the Flint River, run it through our purifier, and have 100% of all pathogens destroyed, zero lead, zero arsenic, etc. Plus a few more tests from various Flint tap water sources. Of course, with 0.5 micron filtration and 72k mV/cm\*\*3/sec, no pathogen can survive. EPA certified lab tests from multiple states can document that. In addition, the science is well understood. But we'll do it – yet again – with a lab in Michigan, using Flint water sources – in order to try to increase the chances that the gov't people in charge of the fix will pay attention.

Can you or your designee get on a phone call, no recording, no press, just you, me and Peter Nelson, explain where your "fix" is really, and use the engineering resources of Cal Water to help out?

Wishing you continued good luck. What happened in 2014 and in 2015 can't be changed. Going forward, it's about stopping all additional lead contamination, and making the water 100% safe to drink/shower in/etc for the people in the Flint Muni water district.

Jeanette

As we previously discussed, you are my contact to triage and route external inquiries. Bluewater called me this morning, and I requested an email with more information.

It is unclear to me whether this unit meets the standards used for the faucet water filter sourcing. Can a resource be identified to check? If not, someone may want to consider reaching out to the two locations that received donated units.

Thanks for routing this into the correct hands.

Rebecca

Subject: Bluewater water purifiers help Flint

Hi Rebecca,

It was nice talking to you this morning, we will appreciate if you can read this email and forward to related team who in charge of procurement for Flint water crisis.

Bluewater is a Swedish company that has innovated a patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%.

Bluewater has been selling in the USA for the past 18 months, based out of Overland Park, Kansas, where we also have our warehouse that serves customers across the United States. We are a sister company to Blueair, which is one of the major air purifier companies in the United States, based out of Chicago.

Last week saw us donate and install two of our high performance water purifiers in Flint, Michigan, in response to their crisis as our water purifiers excel at removing lead and other toxic metals from residential drinking water. While we applaud people donating water bottles, it is only a short term solution, whereas as water purifiers are both a short-term and a long term solution.

One Bluewater Pro machine was installed at the Community Center at Catholic Charities of Shiawassee and Genesee Counties, where they serve 1,000 meals every day to local residents. The other unit was installed at Shelter of Flint, the largest shelter at Flint.

Both units were installed by Bluewater's Product Manager who traveled to Flint personally. FYI, many bottled water brands in the USA use reverse osmosis to purify their water. Using a Bluewater unit is a cheaper long-term option that also contributes to a better environment because they negate the need for plastic bottles as they deliver purifier water 'on demand'. (a side note, as you may already know, "Pepsi Admits That Its Aquafina Bottled Water is Just Tap Water, Coca-Cola's Dasani Is Next" see news of today <http://healthycures.org/pepsi-admits-that-its-aquafina-bottled-water-is-just-tap-water-coca-colas-dasani-is-next>

The Bluewater Pro400 reverse osmosis water purifiers we donated to Flint can produce 52 gallons of purified water per hour, which means we can supply 2,700 people a total of two liters of clean water free of lead and other toxic metals every day. This translates into saving 4,800 one-liter bottles being put into the environment every day!

The compact Pro is designed for professional use, in restaurants, hotels, schools, hospitals and laboratories. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water.

Bluewater harnesses our own patented second-generation reverse osmosis technology, which removes practically all toxic contamination from tap drinking water including lead. The other contaminants we remove include other heavy metals, pesticides, medical residues, and dioxins and petro chemicals.

What also makes our water purifiers unique is that our unique technology ALSO radically increases the efficiency of water treatment, which translates into a Bluewater unit using 82% less water to generate clean water than a traditional reverse osmosis unit.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank

As a business, we cannot afford to donate an endless number of units free to Flint, but due to the special nature of the situation (and the fact that most of us are parents of small children and have huge sympathy for those impacted by the crisis) we want to step up even more by offering Michigan State prices that are very substantially discounted. In fact, we want to offer you a one-off purchase opportunity that sees us offering you our products at the manufacturing price (i.e. we make no margin on the deal).

This would see the products we recommend you consider coming in at:

**Pro 400C-HF(high flow) ( this is the model we donated to Flint) \$1920 + shipping**  
(suitable for professional use, hospitals, labs, restaurant, coffee shop, office building)

- Superior Osmosis Technology
- Direct flow, no need of tank
- Capacity up to 52 gallon per hour
- Clean water delivery rate of 52 gallon per hour
- Cleaning brackish water, up to 7500 ppm
- water quality monitor
- Calibration of cleanliness
- Advanced leak protection system
- Clean water per kWh: 433L/kWh (114.3gallon/kWh)
- Clean water rate: 222L/hour (58.6 gallons/hour)
- Dimensions: 225 x 466 x 460mm (8.9 x 18.3 x 18.10 inch)
- Weight: 29kgs (64lb)
- Water recovery rate: 60-70%

The other two models we could consider as an alternative (the only difference is that the water flow is less powerful) are:

**Spirit 300-HF(high flow) \$1350 + shipping**

Compact design that fits into any contemporary kitchen

- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm( 5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

**Spirit 300Cp-HR(high rejection) \$1500 + shipping**

Compact design that fits into any contemporary kitchen, can connect to dish washer, coffee maker, ice machine/refrigerator

- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm( 5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Please do not hesitate to get back if there is anything additional information you need from us. Attached is our catalog and photo how it looks in the kitchen.

Here are two reference you can contact at Flint, they are using our donated water purifiers now for producing pure water

**To:** MSP-seoclgc; Galbreath, Wendy (MSP); Nobach, Tonya (MSP); MSP-EOC-MDTMB; MSP-EOC-MDCORTNS

**Subject:** American Logistics Aid Network  
**Importance:** High

I have been in touch with this organization to provide fork lifts for the warehouse and pallet jacks for the PODs (DONATED!!!!)

I did give them Bonnie's number to ensure they will be providing exactly what we need at the warehouse. They will get back with me on their delivery timeframe soon.

I would suggest we use this resource over renting – they depend on corporate donors for funding and are looking to support us in any way that has been identified.

*They also provide warehouse space and trucking ----(LET me know if you need these things and I can ask for the warehouse and trucks as well)*

**Subject:** RE: Next Step

I have been told this is being reviewed by DTMB. The concern/delay is that we need to be careful regarding the state procurement process. I do not believe this needs to be addressed by the JIC at this point.

Once a point of contact, or web page, or email box is established to capture this information, we (the JIC) can help in sharing it, but how they collect this information is being addressed by others.

Thanks.

Chris-

We (many people in Silicon Valley) would like to help, and we keep trying to work with the people trying to solve the Flint water crisis. MSU Alumni Assoc in NorCal is now engaged. So is the Chairman of the Board of Cal Water, Peter Nelson, the #6 largest public utility in the USA.

We keep getting zero feedback, no guidance, so we are doing what we can: working with churches and with relatives in Flint.

Tomorrow, we will pull additional water samples from several places, and run those through an EPA certified lab. I expect that we'll have data that shows we can pull water directly from the Flint River, run it through our purifier, and have 100% of all pathogens destroyed, zero lead, zero arsenic, etc. Plus a few more tests from various Flint tap water sources. Of course, with 0.5 micron filtration and 72k mV/cm\*\*3/sec, no pathogen can survive. EPA certified lab tests from multiple states can document that. In addition, the science is well understood. But we'll do it -- yet again -- with a lab in Michigan, using Flint water sources -- in order to try to increase the chances that the gov't people in charge of the fix will pay attention.

Can you or your designee get on a phone call, no recording, no press, just you, me and Peter Nelson, explain where your "fix" is really, and use the engineering resources of Cal Water to help out?

Wishing you continued good luck. What happened in 2014 and in 2015 can't be changed. Going forward, it's about stopping all additional lead contamination, and making the water 100% safe to drink/shower in/etc for the people in the Flint Muni water district.

I have been in touch with this organization to provide fork lifts for the warehouse and pallet jacks for the PODs (DONATED!!!!)

I did give them Bonnie's number to ensure they will be providing exactly what we need at the warehouse. They will get back with me on their delivery timeframe soon.

I would suggest we use this resource over renting – they depend on corporate donors for funding and are looking to support us in any way that has been identified.

They also provide warehouse space and trucking ----(LET me know if you need these things and I can ask for the warehouse and trucks as well)

Joshua,

I left three printed documents on your chair in the office you are using at the Collins Road Facility. These emergency documents are for the new SEOC. The documents I left in your office are as follows: Lansing Area DTMB (Department of Management & Budget) Emergency Preparedness Guide, DTMB Facilities-Emergency Information (this document will be printed in orange and posted throughout the facility) and How to respond to an Active Shooter.

I am currently working on getting electronic copies of these documents along with an electronic copy of the floor plan for the facility.

Please let me know if this is the information you needed, once you have had the opportunity to review them.

Thank you,

Jeanette

---

**From:** MSP-SEOCPIO

**Importance:** High

Can you check with DTMB on this. Tori Sachs with the Gov's Office was considering adding a button on [www.helpforflint.com](http://www.helpforflint.com) to capture vendors who want to pitch their product/idea; however, last I talked with her, there were concerns about violating state procurement processes.

Maybe DTMB has an email account already established for people who want to do business with the state? This is what FEMA has on their website for disasters.

Seems to me this should be handed off to DTMB procurement for a solution.

Jeanette

LeAnn and I already spoke while I waited for your email. She will help me coordinate any questions/conversations with Karen. I also have already given Jeff/CPO a preliminary briefing in case his support is needed at any point.

LeAnn has my cell and I will bump any meetings today to facilitate conversation/resolution for LARA's needs.

**Subject:** FW: Bluewater water purifiers help Flint  
**Attachments:** BLU\_CoroporateCatalog\_JT\_v15small.pdf

Could we have someone look into the water purifier (attached) to see if it meets NSF standards? The unit was already installed in a couple locations within Flint (below) and would like to make sure the unit will not need to be replaced.

Thank you –

Jeanette

**Subject:** FW: Bluewater water purifiers help Flint

Jeanette

As we previously discussed, you are my contact to triage and route external inquiries. Bluewater called me this morning, and I requested an email with more information.

It is unclear to me whether this unit meets the standards used for the faucet water filter sourcing. Can a resource be identified to check? If not, someone may want to consider reaching out to the two locations that received donated units.

Thanks for routing this into the correct hands.

Rebecca

**Subject:** Bluewater water purifiers help Flint

Hi Rebecca,

It was nice talking to you this morning, we will appreciate if you can read this email and forward to related team who in charge of procurement for Flint water crisis.

Bluewater is a Swedish company that has innovated a patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%.

Bluewater has been selling in the USA for the past 18 months, based out of Overland Park, Kansas, where we also have our warehouse that serves customers across the United States. We are a sister company to Blueair, which is one of the major air purifier companies in the United States, based out of Chicago.

Last week saw us donate and install two of our high performance water purifiers in Flint, Michigan, in response to their crisis as our water purifiers excel at removing lead and other toxic metals from residential drinking water. While we applaud people donating water bottles, it is only a short term solution, whereas as water purifiers are both a short-term and a long term solution.

One Bluewater Pro machine was installed at the Community Center at Catholic Charities of Shiawassee and Genesee Counties, where they serve 1,000 meals every day to local residents. The other unit was installed at Shelter of Flint, the largest shelter at Flint.

Both units were installed by Bluewater's Product Manager who traveled to Flint personally. FYI, many bottled water brands in the USA use reverse osmosis to purify their water. Using a Bluewater unit is a cheaper long-term option that also contributes to a better environment because they negate the need for plastic bottles as they deliver purifier water 'on demand'. (a side note, as you may already know, "Pepsi Admits That Its Aquafina Bottled Water is Just Tap Water, Coca-Cola's Dasani Is Next" see news of today <http://healthcures.org/pepsi-admits-that-its-aquafina-bottled-water-is-just-tap-water-coca-colas-dasani-is-next>)

The Bluewater Pro400 reverse osmosis water purifiers we donated to Flint can produce 52 gallons of purified water per hour, which means we can supply 2,700 people a total of two liters of clean water free of lead and other toxic metals every day. This translates into saving 4,800 one-liter bottles being put into the environment every day!

The compact Pro is designed for professional use, in restaurants, hotels, schools, hospitals and laboratories. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water.

Bluewater harnesses our own patented second-generation reverse osmosis technology, which removes practically all toxic contamination from tap drinking water including lead. The other contaminants we remove include other heavy metals, pesticides, medical residues, and dioxins and petro chemicals.

What also makes our water purifiers unique is that our unique technology ALSO radically increases the efficiency of water treatment, which translates into a Bluewater unit using 82% less water to generate clean water than a traditional reverse osmosis unit.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank

As a business, we cannot afford to donate an endless number of units free to Flint, but due to the special nature of the situation (and the fact that most of us are parents of small children and have huge sympathy for those impacted by the crisis) we want to step up even more by offering Michigan State prices that are very substantially discounted. In fact, we want to offer you a one-off purchase opportunity that sees us offering you our products at the manufacturing price (i.e. we make no margin on the deal).

This would see the products we recommend you consider coming in at:

**Pro 400C-HF(high flow) ( this is the model we donated to Flint) \$1920 + shipping**  
(suitable for professional use, hospitals, labs, restaurant, coffee shop, office building)

- Superior Osmosis Technology
- Direct flow, no need of tank
- Capacity up to 52 gallon per hour
- Clean water delivery rate of 52 gallon per hour
- Cleaning brackish water, up to 7500 ppm
- water quality monitor
- Calibration of cleanliness
- Advanced leak protection system
- Clean water per kWh: 433L/kWh (114.3gallon/kWh)
- Clean water rate: 222L/hour (58.6 gallons/hour)
- Dimensions: 225 x 466 x 460mm (8.9 x 18.3 x 18.10 inch)
- Weight: 29kgs (64lb)
- Water recovery rate: 60-70%

The other two models we could consider as an alternative (the only difference is that the water flow is less powerful) are:

**Spirit 300-HF(high flow) \$1350 + shipping**

Compact design that fits into any contemporary kitchen

- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per kWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm( 5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

**Spirit 300Cp-HR(high rejection) \$1500 + shipping**

Compact design that fits into any contemporary kitchen, can connect to dish washer, coffee maker, ice machine/refrigerator

- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per kWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm( 5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Please do not hesitate to get back if there is anything additional information you need from us. Attached is our catalog and photo how it looks in the kitchen.

Here are two reference you can contact at Flint, they are using our donated water purifiers now for producing pure water

**To:** MSP-SEOCPIO  
**Subject:** FW: Next Step  
**Importance:** High

Hi Kevin,

Can you check with DTMB on this. Tori Sachs with the Gov's Office was considering adding a button on [www.helpforflint.com](http://www.helpforflint.com) to capture vendors who want to pitch their product/idea; however, last I talked with her, there were concerns about violating state procurement processes.

Maybe DTMB has an email account already established for people who want to do business with the state? This is what FEMA has on their website for disasters.

Seems to me this should be handed off to DTMB procurement for a solution.

Thanks,  
Shanon

Can someone please address this. If there is going to be zero communication with 'vendors', then there needs to be a canned response indicating such. I spend an inordinate amount of time with these missives as they are coming into my work e-mail, calling the LEOC phones, and showing up at the LEOC doorstep pitching their solutions because nobody is communicating with them.

**Subject:** Next Step

Chris-

We (many people in Silicon Valley) would like to help, and we keep trying to work with the people trying to solve the Flint water crisis. MSU Alumni Assoc in NorCal is now engaged. So is the Chairman of the Board of Cal Water, Peter Nelson, the #6 largest public utility in the USA.

We keep getting zero feedback, no guidance, so we are doing what we can: working with churches and with relatives in Flint.

Tomorrow, we will pull additional water samples from several places, and run those through an EPA certified lab. I expect that we'll have data that shows we can pull water directly from the Flint River, run it through our purifier, and have 100% of all pathogens destroyed, zero lead, zero arsenic, etc. Plus a few more tests from various Flint tap water sources. Of course, with 0.5 micron filtration and 72k mV/cm\*\*3/sec, no pathogen can survive. EPA certified lab tests from multiple states can document that. In addition, the science is well understood. But we'll do it – yet again – with a lab in Michigan, using Flint water sources – in order to try to increase the chances that the gov't people in charge of the fix will pay attention.

Can you or your designee get on a phone call, no recording, no press, just you, me and Peter Nelson, explain where your "fix" is really, and use the engineering resources of Cal Water to help out?

Wishing you continued good luck. What happened in 2014 and in 2015 can't be changed. Going forward, it's about stopping all additional lead contamination, and making the water 100% safe to drink/shower in/etc for the people in the Flint Muni water district.

Chris,

The DHHS Procurement Professional that Natalie sits on a team with requested the information. Since the person is asking for PCard related information, it is something that I would provide as the Statewide Procurement Card Administrator.

I would appreciate it if you would please supply the information I requested in my original email.

Thank you.

Marsha

**Subject:** RE: Flint PCard Purchases

Marsha,

We should talk about this, why you are having to provide that information to them. I mean it's very nice of you, it's just more work for you. All of the information is in the MICIMS program and if they go through the SEOC finance Chief Penny Berger she could give them all of this information. I have attached an example of the one of the purchases from my p-card.

Additionally because the information is already there I have a difficult time duplicating the efforts that we are doing at the SEOC.

Please let me know your thoughts

Thanks,

Chris Christensen

**Cc:** Hawks, Trevor (MSP)  
**Subject:** RE: FAQ - Flint Water - Spanish

Hi Kevin,

I'm going to need your help with this one. I thought the state already translated this Lead Fact Sheet into Spanish. I know we translated the palm card the water response teams are using. From the email chain it sounds like the United Way translated this document.

If we (the state) did not do it previously, then we need to send this document to whoever translated our palm cards and ask them to verify this is accurate. The JIC was not directly involved in the translation process so I'm not sure if it was done by DTMB or LARA.

Please let me know what you find out.  
Thanks,  
Shanon

**Subject:** FW: FAQ - Flint Water - Spanish

Team:

Over the weekend the local Latino community has come together to make sure un documented workers and non-English speaking individuals have the help they need. As part of their efforts they translated the water safety information themselves as the State of Michigan has failed to produce or make widely available this information in Spanish.

The attached is unofficial but at this time I have no other alternative to share. Please advise on how to get this officially reviewed and approved.

In addition it is important to note that 211 has a translation service that can accommodate more than 150 languages.

**To:** MSP-SEOCGIS2  
**Subject:** RE: SEOC request for all addresses in the City of Flint

Hi Walter,

I have some unfortunate news. Our standardization software has been offline since yesterday. While our server staff are working to correct the issue they have not been able to as of yet.

I greatly apologize for this situation. I knew yesterday that there was a problem but expected that it would be resolved by now and since running a file of addresses doesn't take very long I thought I still had time to meet today's deadline.

The server team assures me that we should be operational again by Monday so I expect to be able to produce you an address shapefile by the end of the day Monday.

Sorry for the inconvenience

John S. Clark  
Enterprise GIS Solutions Architect

Hi Walter,

I just wanted to give you a status. We talked with our Address Standardization vendor who is onsite today and they said it is possible to export data out from their software and provided us with the how to instructions. I am working with staff this afternoon to try and get that export.

The downside of this is that because our vendor is onsite our staff that does the address processing has been tied up in meetings.

I expect that we should have a result for you before close of business tomorrow but I will keep you posted as we progress.

Feel free to contact me if you have any questions.

Hi Walter,

Our address cleansing staff said to provide the addresses as excel spreadsheets and they will make the necessary formatting to feed it into our address cleansing and standardizing software.

Also DTMB staff were instructed that all work regarding Flint must be approved by Chris Christensen (SEOC) before we undertake the effort. Can you confirm for me that Chris is aware and has approved or should I follow up with him directly?

Thanks

**Subject:** RE: SEOC request for all addresses in the City of Flint

Hi Walter,

Our address cleansing staff said to provide the addresses as excel spreadsheets and they will make the necessary formatting to feed it into our address cleansing and standardizing software.

Also DTMB staff were instructed that all work regarding Flint must be approved by Chris Christensen (SEOC) before we undertake the effort. Can you confirm for me that Chris is aware and has approved or should I follow up with him directly?

Thanks

**Subject:** Sentinel Site Dashboard

Brian and Peter,

The Sentinel Site Dashboard that we have on display in the SEOC has been at the same numbers for the past few days (10 lead service lines, 184 unknown service lines, 240 of 402 visited) and we are getting some questions about the accuracy of the display. Are these numbers still the most current data or are we using an out of date dashboard? The dashboard we are using is Sentinel Site Dashboard – multi pane.

Thanks,

Malyssa

**Subject:** Re: Couple of questions  
**To:** Michael Glasgow <[mglasgow@cityofflint.com](mailto:mglasgow@cityofflint.com)>

Attached is the list. Any bill that shows Genesee County Water & Waste as the customer name will get a bill from their respective municipality or GC. The accounts with an individual's name will get the original Flint bill.

The franchise list does not change much.

On Tue, Feb 16, 2016 at 9:34 AM, Michael Glasgow <[mglasgow@cityofflint.com](mailto:mglasgow@cityofflint.com)> wrote:  
Amanda,

Good morning, I hope all is well. I have a question and a request for you this morning, both stemming from the State EOC.

The question is, Do all franchise water customers receive a city water bill? They are under the impression that these people receiving Flint water may pay their bill to another entity (i.e. Flint Township).

The request is another current updated customer list.

Thanks,

## **VIDEO: How volunteers are helping Flint**

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

**Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.**

**Subject:** Governor's Access to ESRI and Collector APP

Walter,  
I wanted to give you advance notice of a request by Governor Snyder to have access to the GIS ESRI Data in relation to the Collector APP and Dashboard. This is the same access that was granted to Director Creagh yesterday. Tony Katarsky

provided me your contact information due to Trevor's absence. Lisa Dygert from DNR GIS is assisting the Governor's Office with the loading of the app and or programs.

Lisa can be contacted at [REDACTED] If you need to speak with her. Please respond reply all once this email is received and once the process is completed.

Fyi, additional individuals assisting with the Flint Water Event from DNR and the ECC Team were submitted last evening around 10 pm. If you could check the status of their access I would appreciate it.

I just looked into the parcel data for Assessing and I couldn't find any phone number contacts for the properties. It's possible it's there and I just don't have the privileges to it.

On Tue, Feb 9, 2016 at 9:48 AM, MSP-SEOCGIS2 <[MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)> wrote:

Hey Calix,

We noted that there is information about the property owner in the parcel layer.

There was a discussion yesterday about transitioning the canvassing approach to calls to home owners for any residences that we have not been able to reach.

If we provided you a list of addresses/parcels is it possible to append contact information to that?

**Subject:** Rough Draft of Schedule

Below is a draft schedule from the upcoming weeks.

As we discussed, there hasn't been a notice that the pace of operations is declining. In the contrary, staff have noted an increase in requests over the past week. I will keep everyone posted on any changes to operational tempo, and if we are notified to decrease staffing we will send an update to the below.

That said, we will maintain staffing from 8 to 8 daily with persons and the 8 to 5 personnel will make themselves available to support as needed.

A few special notes for CSS/TP:

1. If it is okay with CSS/TP personnel, I would like to have them report at noon for an 8 hour shift that would conclude at 8PM.
2. We are going to hone in the requirements for CSS/TP personnel to specifically work on daily recurring projects that have well defined procedures. (This is being done in an effort to streamline production through the night and create a more well defined expectation for CSS/TP staff reporting to the SEOC to allow them to hit the ground running).
3. I've collapsed all of the DTMB personnel into 1 line, considering the 3 personnel that support are in the same hierarchy I thought you might prefer to divvy out times to staff internally. I just ask that you let us know who you intend to send on what day for our final schedule. (If you'd prefer we keep scheduling, please let me know and I can whip something together.

	2/8/2016	2/9/2016	2/10/2016	2/11/2016	2/12/2016	2/13/2016	2/14/2016	2/15/2016
	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday	Monday
Nikkia	X	X	12	8	8	8	12

**Subject:** RE: Data needed

Zach,  
As discussed earlier, please note that these numbers are not perfect.

Can you please pull these numbers for the below inquires for the Governor's office by 6pm today?

- *Total residences in Flint (including apartment units)*  
*There are 38,876 parcels we have classified as "occupied"*  
*We have some apartment data, not complete. The list only says how many units each complex have, and that's only about half complete. This number of units so far is 2383.*  
*If you add these together, the final number is 40659.*
- *Total occupied (including apartment units)*  
*34,227 occupied.*
- *How many occupied have filters*  
*29,654*
- *Of the occupied ones without filters, how many have been contacted but no face-to-face contact (left card)*  
*1024*
- *Of the occupied ones without filters, how many have not been contacted (no one has knocked on door)*  
*558*

**Subject:** Lead Mapping Work Group Access

Hi MI SP GIS,

I've been FEMA's GIS support at the UCG in Flint for the Flint water contamination event and I've been making the EPA maps of the lead levels in residential parcels. My counterpart in Lansing, Scott Bailey, spoke with James today and James indicated that you have a more thoroughly validated version of the lead level data. James also said that we should be getting that data via the Flint AGOL, to avoid the duplication of effort while working off a common data set. Scott told me that the dataset is in the "Lead Mapping Work Group" and I currently don't have access to that group.

Can you please grant me access to that group?

Thanks,

Brett

Jeff,  
I'll do that next time. I've already started letting AGOL do the tile creation so I could work on other issues.

We have volunteers waiting to use this data in the field. Would it be quicker for me to build on my computer or use AGOL?

Hey Matt,

You are thinking the right way. You can create a tile package on the desktop and then lift it to the cloud. This save a TON of credits that would be charged for creating the tile package. The usage credits are minimal.

Here is the doc for creating the tile package - <http://desktop.arcgis.com/en/desktop/latest/map/working-with-arcmap/how-to-create-a-tile-package.htm>

Does that help?

Thanks,

-Jeff

Jon,  
I was trying to get the surrounding Genesee County parcel layer into the Flint ArcGIS Online. At first, I tried publishing the data as a Feature Service called "County\_Parcels". Unfortunately, I could not get labels to appear in the Collector App on the iPads that our field teams are using. I just loaded it as Tile Layer called "County\_Parcels\_Tiled" I'm concerned that this will burn through a ton of credits so I was wondering if you might be able to monitor or help with this.

Our field teams need to be able to view parcel data out in the field to view address information.

My new cell phone # is

Thanks  
Matt

Points I think it would be helpful to have on a map tomorrow:

Wards

Existing pods

Existing church distribution points (I am attaching the excel spreadsheet with that data as Matt didn't think we had it yet).

Other community distribution points (Food Bank/Catholic Charities). I'm working on obtaining this, but I don't think we have it yet.

So it may just be the first two and possibly the addition of the attached churches.

**Subject:** RE: zip codes

Here is what I found regarding these zip codes:

48501 – Post Office Box Zip Code Only (Boulevard Dr)

48531 – Post Office Box Zip Code Only (Pasadena Ave)

48550 – Buick City (Hamilton Ave)

48551 – GM Truck and Bus (Van Slyke Rd)

48552 – GM Engine, Chevrolet Pontiac (Bristol Rd, Van Slyke Rd)

48553 – GM Truck and Bus (Bristol Rd)

48554 – GM Service Parts Ops (Bristol Rd)

48555 – AC Rochester West, Fisher Guide CPC (Chevrolet Ave)

48556 – AC Rochester, AC Spark Plug, Delco Electronics (Dort Hwy, Davidson Rd)

48557 – GM Vehicle Development Ct, GM Technical Center (Saginaw St)

All the resources I checked were not able to draw these locations. My guess is that you would have to identify what the street address equivalent is for these PO Boxes to try and map them correctly.

Searched google maps and imagery to determine the following:

48501 = point in river, falls within 48502 & 48503

48531 = point that falls within 48504  
48550 = abandoned plant, falls within 48505  
48551 = GM facility, falls within 48507  
48552 = GM facility, falls within 48507  
48553 = GM facility, falls within 48507  
48554 = GM facility, falls within 48507  
48555 = abandoned plant, falls within 48504  
48556 = abandoned plant, falls within 48506  
48557 = Diplomat Specialty Pharmacy, falls within 48507

Hey Calix,

I wanted to pass on that we just created a group in AGOL called "Lead Mapping Working Group" and put an account for DNR to access it to support lead mapping. They are looking to provide up to 5 staff to round the corner in getting all the old service data into a digital format. We are about 50% complete now having used EMHSD staff. Hopefully, they can get everything updated in about a week.

Michelle,  
On the iPad, you can look at the "Vulnerable Populations Form"

The parcels that were in the vulnerable populations spreadsheet are shaded red. As you zoom in to the parcel layer, you'll be able to see the address. When you click on the red parcel, you'll be able to edit the record and update the Yes/No/<Null> values that were in the spreadsheet.

Is this what you wanted or did you need it more like the current iPad app that is used by the field teams which collect quantity and type?

Regards,

Matt

In the event you are contacted by township personnel from Mt. Morris Twp., Genesee Twp., or Flint Twp.-----

The local EOC was just made aware that the Red Cross ground teams for today had incorrectly re-drawn boundaries for their team maps this morning, the result of which carried them a short distance out of the City and into Mt. Morris Township (an area unaffected by this incident). They were contacted by the Township Supervisor on site, who corrected them, and advised the local EOC of the contact. In the interim, the supervisor had fielded phone calls from Township residents who then mistakenly believed the Township water system was now part of the affected Flint water supply.

We have contacted the local Red Cross ground team coordinator and made him aware that corrections for his teams need to be addressed in both Genesee and Flint Townships, in order to avoid further issues.

Sir,

I have all the iPad numbers listed by fire station/POD below. I do not know when we received each iPad by number, but, I have the bulk data of when we received 'chalks' of them. When we first arrived, each station has (1) iPad. On Sunday 22JAN16 each station received (2) more iPads. And then yesterday, Thursday 21JAN16 each station received (2) more. Let me know if you have questions or concerns:

Station #1: MSP34, MSP 87, MSP28, MSP89, MSP91 Station #3: MSP90, MSP53, MSP79, MSP29, MSP66 Station #5:  
MSP85, MSP82, MSP64, MSP65, MSP30 Station #6: MSP84, MSP62, MSP26, MSP49, MSP69  
Station #8: MSP27, MSP73, MSP27, MSP92, MSP80

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit [www.helpforflint.com](http://www.helpforflint.com) to learn how you can help.

For additional information and updates, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

Again, thank you for all your support.

Sincerely, Mike Zimmer  
Office of Good Government Director  
Dept. of Licensing and Regulatory Affairs Director

It looks like Sgt. Sparks had been sending them to the SEOC through 1/18/16, this is the current workweek, minus today which will still be active until we check them in from tonight.

**Subject:** Draft Schedule

Please review the below. I tried to get everyone a 2 day break per week.

Also note, that 8 hour shifts will be "on call" unless it is the weekend. Meaning, if you are on an 8 hour shift, you can work from your desk on your daily tasks knowing that you may be called to do SEOC work at any time. Josh/Joel, I didn't plug any 8 hour on calls in, so when you're not scheduled you are free of SEOC obligations.

Note, AWS's are currently not in effect until things wind down. So all 8 hour shifts are 8-5.

	1/19/2016	1/20/2016	1/21/2016	1/22/2016	1/23/2016	1/24/2016	1/25/2016	1/26/2016	1/27/2016

Thank you! I REALLY appreciate all of your help with this.

Two very quick things: Is it possible to center the "As of dates" at the top of each map? Also, will you please send me the map as a PDF and EPS file?

And that should be it—thanks again! --Tiff

Hi Jim,

Thanks for putting this together as an option. However, we would like to have the two maps side by side to show the "before and after" activity that shows where we started versus activity to date.

Also, I don't think the color scheme is stark enough to distinguish the difference. We can discuss further, but right now we are focused on getting the two maps side by side as showing the before and after.

Please let me know if you have any questions.

Hello Tiffany,

Attached is a draft of what was discussed. The "today" numbers are current as of 17:48 (5:48 PM).

I did some color changes. Explained below:

- Avoided red due to make it more ADA compliant
- Made vacant parcels green to give a cleaner visual that those areas are clear (noting that lead service lines may still exist to those houses)

Please let me know if the attached meets your intent.

Please review the below. I tried to get everyone a 2 day break per week.

Also note, that 8 hour shifts will be "on call" unless it is the weekend. Meaning, if you are on an 8 hour shift, you can work from your desk on your daily tasks knowing that you may be called to do SEOC work at any time. Josh/Joel, I didn't plug any 8 hour on calls in, so when you're not scheduled you are free of SEOC obligations.

Note, AWS's are currently not in effect until things wind down. So all 8 hour shifts are 8-5.

Zach,  
Here are bullet points for the sit rep regarding the GIS work on 1/14/2016:

Conducted iPad Collector App training in Flint and assisted with technology needs.

Completed map of active LHD license establishments/restaurants map for MDARD.

Completed a map of the water pipes with an overlay of points received from Brad Deacon for MDARD.

Continued to develop the iPad Collector process for use in Points of Distribution(PODS) in addition to Water Resource Teams.

Built Operational Dashboards for use with real time data feeds from the Ipad data collector.

Continued to work with ESRI Disaster Response Program consultant on technical GIS issues and improving GIS processes.

Brad,

AID is continuing to refine the list of commercial pet animal facilities and veterinary clinics. We have no additional contacts made to report.

The potential livestock facilities have been called again with no phones being answered. AID is assembling a map of the farms and is planning to have staff visit the farms in person.

Brad,

AID is continuing to refine the list of commercial pet animal facilities and veterinary clinics. We have no additional contacts made to report.

The potential livestock facilities have been called again with no phones being answered. AID is assembling a map of the farms and is planning to have staff visit the farms in person.

Thanks. I'll follow up with MDARD.

Most of these are probably restaurants. I can easily compare with what I see on Google street view to figure out the codes.

## Interagency Recovery Coordination Talking Points Michigan 2016

### *Topline Messages*

- On January 12, Governor Snyder requested FEMA support to help identify and coordinate relevant federal agency programs that may be available to assist with the ongoing crisis of the lead contamination of the water in Flint, Michigan. FEMA Regional Administrator Andrew Velasquez named a Federal Disaster Recovery Coordinator to provide this support.
- The Federal Disaster Recovery Coordinator's role will include:
  - Facilitating the identification of federal agencies with authorities and resources that could address recovery priorities;
  - Providing subject matter expertise to help the state identify their recovery leadership structure and state agency engagement; and
  - Assisting the state with incorporating recovery and mitigation considerations into decision making processes.
- As part of this effort and in conjunction with the Governor's Flint Water Interagency Coordinating Committee, state agencies may also be identified that have existing Federal or state programs or grants that could be re-prioritized to address the recovery priorities in the City of Flint. In addition, private

sector and non-governmental organizations, may have available programs and funding opportunities to help address the public health and infrastructure issues in Flint.

*If asked about FEMA funding/assistance*

- At this time, FEMA has not been asked to consider a disaster declaration to make FEMA financial assistance available, as the water distribution process and resources are being addressed by the state. The state is currently evaluating the need for additional Federal assistance. If at some point in the future the Governor believes the event is beyond the state's capacity to resolve and he makes a request for an emergency declaration, FEMA would evaluate that request within the guidelines of the Stafford Act. We encourage Flint residents with concerns or questions about the water supply to contact their local emergency management assistance line by dialing 211. For more information, please visit the state's website, [www.michigan.gov/FlintWater](http://www.michigan.gov/FlintWater).

*Additional Background:*

- In a non-Stafford Act event, FEMA's role is one of coordination and typically limited to technical assistance. However, other federal agencies may have existing authorities, programs and resources that could be requested to address recovery priorities.
- In the context of this event, which primarily involves public health impacts and infrastructure degradation, there are a number of federal agencies that may be appropriate for further analysis such as the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development and the Army Corps of Engineers that maintain programs, authorities and/or technical expertise that may be able to support the needs of the City of Flint.
- FEMA will work closely with the Flint Water Interagency Coordinating Committee to support the coordination between federal agencies, state agencies/departments, private sector and non-governmental organizations in the development and implementation of achievable courses of action to resolve the public health and infrastructure issues in Flint.

Do you know who has where the county has already delivered items to? The web application we are using is real time and will show us where we have made distribution since yesterday, but I don't think we have the first week's worth of data. If we can get that, we can have someone sit here and add to the application the teams are currently using and then we'll have a good picture that is live and will allow the teams to plan their distribution each morning.

**Cc:** Kish, Thomas (MSP); Pummill, Paul (MSP)  
**Subject:** Re: Wall Map

Thanks, our teams have been coordinating off a similar map with the same hot zone indicators.

Is it possible to get a version of this map, showing where we've (our teams) uploaded filter data to date? And if we can obtain the areas where the GCSO previously covered, can that be overlayed as well? We are coordinating daily start points, target end points, and preferred routes basically with paper and pen, however when we do a handoff on Friday (or dramatically expand our current distribution model) to the next ground teams, it would be more helpful if we had an electronic version to push out for transition efficiency and work from. Not sure what the tech capabilities are in house at the SEOC, but it's worth asking on our end.

We realize we may not hit everyone, and someone will complain they didn't get one -- but if we can do better than planning via pen to paper in tracking our work on the ground, we will take whatever product you might be able to produce electronically.

Sam/Earl,

I do not have confirmation of a CBS interview or even that CBS will be in Lansing, but just in case, here are the top line messages.

## Flint Water Issue Talking Points

January 2016

---

### *Topline Message:*

- FEMA, through our regional office in Chicago, Ill., has been closely monitoring the water issues in Flint. We've remained in close contact with state officials who, in support of officials in Flint, activated their Emergency Operation Center to coordinate state resources.
- At this time, there has not been a request for federal assistance. Should FEMA receive a request from the state, we would evaluate the circumstances within the guidelines of the Stafford Act. We encourage Flint residents with concerns or questions about the water supply to contact their local emergency management assistance line by dialing 211. For more information, please visit the state's website, [www.michigan.gov/FlintWater](http://www.michigan.gov/FlintWater)
- FEMA sent three FEMA staff to support the state and offer technical assistance as needed. They will also assist in reaching out to federal agencies that may have programs and funding to assist Flint as part of a non-Stafford Act recovery plan.

### *FEMA Actions*

- As a part of the agency's normal commodities management process, FEMA made available bottled water nearing the end of its shelf-life to eligible non-profits across the country. In December 2015, the

Food Bank of Eastern Michigan claimed 71,200 liters (approximately 5 truckloads). The water was provided without cost by FEMA, however food bank was responsible for transportation costs.

- At the request of Capt. Kelenske, on January 7, 2016, FEMA Region V Administrator Andrew Velasquez sent two FEMA liaisons to the state Emergency Operations Center to offer technical assistance to the state. Their role will draw upon their experience of bringing together and identifying other Federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of a non-Stafford Act recovery Plan.
- On January 9, 2016, FEMA Region V sent an additional staff member to the State of Michigan's Emergency Operations Center. The additional staff will provide planning assistance to the state.

Yeah they do. They aren't very heavy duty, but they do have a leather like protective case with a screen cover.

Calix,

Do the tablets have protective cases?

Also would you be able to purge the Flint Canvas Tracking form when you are done with training? Can you let me know when its done?

Thanks

Matt

No problem. I made some edits to the Canvas Tracking Sheet and called it "Flint Neighborhood Canvas Tracking Sheet - Changes for Field Use". I made a few changes that I thought could improve it for the users out in the field. Let me know your thoughts.

Changes I made are:

- changed the parcel layer to a tile layer that includes property number labels.
- removed pop ups from the Section feature service and Parcel feature service.

I found the pop ups from other layers can get in the way. Especially if you're not familiar with the app.

Updated.

### MSP/EMHSD GIS Section Update

#### Accomplished Today:

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- MI CIMS password resets
- Worked on map of franchise customers outside of Flint
- Produced maps for MDARD on food establishments and Local Health Departments
- Produced map of Church Filter Distribution map for DTMB.

#### Tasks for Tomorrow:

- Update Distribution Map with new information
- Update Filter Distribution map by Household
- Complete Franchise Customers outside of Flint by zipcode
- Discuss a time to meet with U of M
- Finalize plan for data distribution methods

**Subject:** GIS Activities Summary

Below is a listing of what we have accomplished today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled in person meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tomorrow we will:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

### MSP/EMHSD GIS Section Update

#### Accomplished Today:

- Produced Water Point of Distribution Map
- Produced Filter Point of Distribution Map
- Met with Genesee County Emergency Manager to discuss POD locations, times, is supposed to be sending us data on new facilities serving as POD's, as well as hours of operations
- Attempted to geocode list of properties that have receive a water filtration system. Geocoding is a problem
- MI CIMS password resets
- Attempted to get data on the zip codes
- Met with GIS from Flint to discuss data and methods.
- U of M contacted us to set up a meeting on best to proceed with digitizing water lines
- Received account from City of Flint for their ArcGIS online.

#### Tasks for Tomorrow:

- Finalize updated list on water filter distributions map
- Update Water and Filter POD's with updated information from Genesee County Emergency Manager.
- Discuss a time to meet with U of M
- Finalize water filter distributions map
- Finalize plan for data distribution methods

**Subject:** Information needed for Flint water regulatory assistance

Good morning Kay,

We previously discussed GIS mapping assistance for food service and food establishments within the City of Flint to assist our efforts. Could you contact the appropriate staff to provide this assistance? I'm attaching the list of establishments identified as licensed in the area. We would appreciate GIS mapping by:

- Establishment type (State License) such as 'FLP', 'FRE', Local health department license such as 'FSE'
- Address/Location
- Other pertinent information

Also, in the news it was reported that a requirement to install filters may be imposed. Could you determine for us if this means it applies to all food establishments, what specific location in the water system within the facility, what type of filter is appropriate for lead and do we know who's funding this.

Thank you Kay!

Alright, I finally resolved one of the issues. The spreadsheets for whatever reason do not like our GIS. So, I finished one of the maps (LHD Licenses), and I'm attaching it, and it's in MI CIMS. I will finish the other spreadsheet you gave us on Saturday.

### Updated.

#### MSP/EMHSD GIS Section Update

##### Accomplished Today:

- Produced Water Point of Distribution Map
- Produced Filter Point of Distribution Map
- Met with Genesee County Emergency Manager to discuss POD locations, times, is supposed to be sending us data on new facilities serving as POD's, as well as hours of operations
- Attempted to geocode list of properties that have receive a water filtration system. Geocoding is a problem
- MI CIMS password resets
- Attempted to get data on the zip codes
- Met with GIS from Flint to discuss data and methods.
- U of M contacted us to set up a meeting on best to proceed with digitizing water lines
- Received account from City of Flint for their ArcGIS online.

##### Tasks for Tomorrow:

- Finalize updated list on water filter distributions map
- Update Water and Filter POD's with updated information from Genesee County Emergency Manager.
- Discuss a time to meet with U of M
- Finalize water filter distributions map
- Finalize plan for data distribution methods

---

**From:** MSP-SEOCGIS  
**Sent:** Thursday, January 07, 2016 4:26 PM  
**To:** MSP-seocda1  
**Subject:** GIS Activities Summary

Below is a listing of what we have accomplished today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department

- Formatted databases to host content
- Researched service line database creation and scheduled in person meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tomorrow we will:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

**To:** Weber, Thomas (MSP); plangc  
**Subject:** project bulletpoints

-geocoded water filters by address (people who went and picked up a filter filled out an address sheet). Map is on front wall.

- We were sent another list that is slightly larger, we are trying to filter out sites already mapped, this process takes a while to process. Addresses need revision, and it takes a while, very time intensive.

-Water Points of Distribution. Started with 8 sites as listed by the emergency manager, this list will be expanded upon throughout the day, will update as information comes in. Information will be directly forwarded to us from the EM of Genesee Co.

-Filter Distribution Sites. Richard Thelan gave us a list with 5 filter distribution sites, will begin mapping this after I wrap up this email.

-Produced a map of the city water pipelines and colorcoded them by material (most of the city is Cast Iron). Also included the parcel data, coded by whether the parcel is vacant or contains a structure.

-We have a block group layer that contains census demographics, but haven't really used it in a map. But with this data set we can find block groups with the largest amount of children under 5, and other age, ethnicity, income groups. Just looking at it, there are 2 block groups that have the most children under 5, they are usually in apartment buildings and trailer parks (according to this data).

-We have the dataset from Dr. Mona Hanna-Attisha and Dr. Sadler (MSU) doing a blood level prediction.

-Water monitoring points from 11/25/2015 showing whether lead levels at test sites are above or below accepted levels.

A lot of the first day was trying to find data. Yesterday was trying to process the data. We are currently trying to process the updated water filter distribution, but it will take a while (I know I mentioned this, but it will take some time).

I will update you when we get information from Genesee County with new sites.

Nikkia Anderson

Dear GIS Gods,

Attached is the Excel file which denotes all addresses that have currently received a filter through some mechanism. The Word Doc is a list of the current water Points of Distribution Sites. I do not have the capacity for the PODS, should you deem this critical information let me know.

Dr. Mona Hanna-Attisha,

I am contacting you in hopes of obtaining more data about the Flint Water Supply Lead Contamination. The State Emergency Operations Center has been activated due to the Governor's declaration and the GIS unit is being tasked with producing maps about the disaster. We have little information to work with right now, we are attempting to gather information from multiple sources to create useful maps to show the extent of the crisis.

I was hoping that you would consider sharing any information you think would be useful to us.

I thank you for your help.

Pursuant to the Animal Industry Act, Public Act 466 of 1988, MCL 287.712, any establishment or facility located in the above noted area that processes or sells animal feed must place all such feed in protected buildings or under cover until further notice due to declaration of a General Emergency at the D.C. Cook Nuclear Power Plant. Doors and windows to buildings should be closed to the extent possible. Ventilation fans should be turned off to restrict the outside air intake. Feed may not be distributed or sold until the Michigan Department of Agriculture and Rural Development has inspected it. This Advisory remains in effect until changed or canceled by the Michigan Department of Agriculture and Rural Development. Further information can be obtained by contacting the Michigan Department of Agriculture and Rural Development at 800-292-3939

*Note: In the event of a change in emergency status, this advisory is superseded by the Governor's directive.*

**Subject:** RE: SEOC request for all addresses in the City of Flint

Hi Walter,

I have some unfortunate news. Our standardization software has been offline since yesterday. While our server staff are working to correct the issue they have not been able to as of yet.

I greatly apologize for this situation. I knew yesterday that there was a problem but expected that it would be resolved by now and since running a file of addresses doesn't take very long I thought I still had time to meet today's deadline.

The server team assures me that we should be operational again by Monday so I expect to be able to produce you an address shapefile by the end of the day Monday.

Sorry for the inconvenience

John S. Clark  
Enterprise GIS Solutions Architect

Hi Walter,

I just wanted to give you a status. We talked with our Address Standardization vendor who is onsite today and they said it is possible to export data out from their software and provided us with the how to instructions. I am working with staff this afternoon to try and get that export.

The downside of this is that because our vendor is onsite our staff that does the address processing has been tied up in meetings.

I expect that we should have a result for you before close of business tomorrow but I will keep you posted as we progress.

Feel free to contact me if you have any questions.

Here are the lists we have.

- Assessors files are from the City of Flint assessors office
- Active accts is from the city of flint water customers
- Franchise is customers that receive water from the City of Flint but are outside city boundaries

I will work with Jeannette on getting permission to run this work.

Regards,  
Walter

Hi Walter,

Our address cleansing staff said to provide the addresses as excel spreadsheets and they will make the necessary formatting to feed it into our address cleansing and standardizing software.

Also DTMB staff were instructed that all work regarding Flint must be approved by Chris Christensen (SEOC) before we undertake the effort. Can you confirm for me that Chris is aware and has approved or should I follow up with him directly?

Thanks

**To:** MSP-SEOCGIS2; Gamberg, Peter (DNR)  
**Cc:** Stephens, Jason (DNR)  
**Subject:** RE: Sentinel Site Dashboard

There is a new Dashboard for what we are Calling Sentinel B, which I just got put up in the AGOL. The dashboard you are looking at was just for the original project and will be removed.

Let me know if you have any questions.

Brian

**Subject:** Sentinel Site Dashboard

Brian and Peter,

The Sentinel Site Dashboard that we have on display in the SEOC has been at the same numbers for the past few days (10 lead service lines, 184 unknown service lines, 240 of 402 visited) and we are getting some questions about the accuracy of the display. Are these numbers still the most current data or are we using an out of date dashboard? The dashboard we are using is Sentinel Site Dashboard – multi pane.

Thanks,

Malysa

**Sent:** Thursday, February 18, 2016 1:23 PM  
**To:** MSP-SEOCGIS2  
**Subject:** RE: SEOC request for all addresses in the City of Flint

Hi Walter,

I just wanted to give you a status. We talked with our Address Standardization vendor who is onsite today and they said it is possible to export data out from their software and provided us with the how to instructions. I am working with staff this afternoon to try and get that export.

The downside of this is that because our vendor is onsite our staff that does the address processing has been tied up in meetings.

I expect that we should have a result for you before close of business tomorrow but I will keep you posted as we progress.

Feel free to contact me if you have any questions.

John S. Clark  
Enterprise GIS Solutions Architect

**Subject:** RE: SEOC request for all addresses in the City of Flint

John:

Here are the lists we have.

- Assessors files are from the City of Flint assessors office
- Active accts is from the city of flint water customers

- Franchise is customers that receive water from the City of Flint but are outside city boundaries

I will work with Jeannette on getting permission to run this work.

Regards,  
Walter

Subject: RE: SEOC request for all addresses in the City of Flint

Hi Walter,

Our address cleansing staff said to provide the addresses as excel spreadsheets and they will make the necessary formatting to feed it into our address cleansing and standardizing software.

Also DTMB staff were instructed that all work regarding Flint must be approved by Chris Christensen (SEOC) before we undertake the effort. Can you confirm for me that Chris is aware and has approved or should I follow up with him directly?

Thanks

Subject: Governor's Access to ESRI and Collector APP

Walter,

I wanted to give you advance notice of a request by Governor Snyder to have access to the GIS ESRI Data in relation to the Collector APP and Dashboard. This is the same access that was granted to Director Creagh yesterday. Tony Katarsky provided me your contact information due to Trevor's absence. Lisa Dygert from DNR GIS is assisting the Governor's Office with the loading of the app and or programs.

Lisa can be contacted at \_\_\_\_\_ if you need to speak with her. Please respond reply all once this email is received and once the process is completed.

Fyi, additional individuals assisting with the Flint Water Event from DNR and the ECC Team were submitted last evening around 10 pm. If you could check the status of their access I would appreciate it.

Gary Hagler  
Law Enforcement Chief  
Michigan Dept. of Natural Resources

All – Brianna has yet to get a response from everyone on this.

Please get back to her **ASAP** on this; action has to be taken today.

So far, no one has said they have knowledge of who may have been involved in testing the water.

Thank you

Ma'am,

We have received a FOIA request for "the name of the company and testing results for the testing done in Flint by an outside company (according to Governor Snyder an outside agency was used)." Can you please tell me if you or any other Department member have responsive documents? I will need a response by 2/12/16.

Thanks,

**Subject:** Access to online mapping for the governor

Gary:

Walter Chomentowski here. I have been working with Ben Geiger for several days on connecting Governor Snyder to the online mapping resources available, specifically the dashboards you mention below, as well as other map layers. I spoke with Ben a few minutes ago and he is reviewing the ArcGIS Online application we have authored for the governor. I expect Ben to contact me at 1:30pm today with feedback about the application then shortly after that provide access for the governor.

Regards,  
Walter Chomentowski

**To:** Chomentowski, Walter (MSP)  
**Cc:** MDEQ-ECC-IMT; MSP-EOC-MDEQ; Dygert, Lisa (DNR)  
**Subject:** Governor's Access to ESRI and Collector APP

Walter,

I wanted to give you advance notice of a request by Governor Snyder to have access to the GIS ESRI Data in relation to the Collector APP and Dashboard. This is the same access that was granted to Director Creagh yesterday. Tony Katarsky provided me your contact information due to Trevor's absence. Lisa Dygert from DNR GIS is assisting the Governor's Office with the loading of the app and or programs.

Lisa can be contacted at 517-303-6226 If you need to speak with her. Please respond reply all once this email is received and once the process is completed.

Fyi, additional individuals assisting with the Flint Water Event from DNR and the ECC Team were submitted last evening around 10 pm. If you could check the status of their access I would appreciate it.

**Sent:** Wednesday, February 10, 2016 7:12 PM  
**To:** plangc  
**Subject:** Updated Residential Parcel Statistics

AS OF **February 10, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED. ALSO, WE IDENTIFIED ADDITIONAL WATER SUBSCRIBERS IN RESIDENTIAL PARCELS WHICH RESULTED IN THE RED CHANGE BELOW.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38322 98.6%** of the parcels have been engaged as part of response efforts
- **29849 76.8%** of the parcels have been confirmed have some form of filter
- **12115 31.1%** of the parcels have volunteered for water testing

We are also tracking that there are **30188** active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27180** residential parcels that have the ability to use the Flint Water System. Of these

- **26985 99.3%** of the parcels have been engaged as part of response efforts
- **23927 88.0%** of the parcels have been confirmed have some form of filter
- **10761 39.6%** of the parcels have volunteered for water testing

Please let me know if you need anything else.

---

**From:** MSP-SEOCGIS2  
**Sent:** Tuesday, February 09, 2016 7:35 PM  
**To:** Kelenske, Chris (MSP)  
**Subject:** Water Sampling Maps Updated  
**Attachments:** 20160209\_Residents\_Sampled\_Results-Copper.pdf; 20160209  
\_Residents\_Sampled\_Results-Lead.pdf; 20160209\_ResParcels\_Filter\_LeadLevel.pdf

Capt. Kelenske,

Attached are updated versions of the Lead and Copper maps provided earlier today.

I have also attached a map that symbolizes the water test results by residential parcel and includes points where there is a filter present (20160209\_ResParcels\_Filter\_LeadLevel.pdf). Zoomed out, the data isn't the easiest to see but as the map is zoomed in on or if it was printed as a wall map, the points and shading of parcels becomes clear. If there are any changes you would like made to the map(s), please let us know!

**To:** Barcroft, Jaclyn (MSP)  
**Cc:** Suarez, Malyssa (MSP)  
**Subject:** Donation Management

Pam came over Sunday night and wanted 3 people to be added to "Donation Mgmt":

Kerry Chamberlain  
Susan Puls  
Ginna Homes

I called Jaclyn, for now I assigned them to MDHS ECC Donations. If wrong, or you have a better idea of where to put them, please fix.

That is all.

**Subject:** RE: Data needed

Zach,  
As discussed earlier, please note that these numbers are not perfect.

Can you please pull these numbers for the below inquires for the Governor's office by 6pm today?

- *Total residences in Flint (including apartment units)*  
*There are 38,876 parcels we have classified as "occupied"*  
*We have some apartment data, not complete. The list only says how many units each complex have, and that's only about half complete. This number of units so far is 2383.*  
*If you add these together, the final number is 40659.*
- *Total occupied (including apartment units)*  
*34,227 occupied.*
- *How many occupied have filters*  
*29,654*
- *Of the occupied ones without filters, how many have been contacted but no face-to-face contact (left card)*  
*1024*
- *Of the occupied ones without filters, how many have not been contacted (no one has knocked on door)*  
*558*

**Subject:** Today's Numbers

AS OF February 7, 2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38318 98.6%** of the parcels have been engaged as part of response efforts
- **29654 76.3%** of the parcels have been confirmed have some form of filter
- **11949 30.7%** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26812** residential parcels that have the ability to use the Flint Water System. Of these

- **26617 99.3%** of the parcels have been engaged as part of response efforts
- **23469 87.5%** of the parcels have been confirmed have some form of filter
- **10464 39.0%** of the parcels have volunteered for water testing

Please let me know if you need anything else.

**Subject:** Lead Mapping Work Group Access

Hi MI SP GIS,

I've been FEMA's GIS support at the UCG in Flint for the Flint water contamination event and I've been making the EPA maps of the lead levels in residential parcels. My counterpart in Lansing, Scott Bailey, spoke with James today and James indicated that you have a more thoroughly validated version of the lead level data. James also said that we should be getting that data via the Flint AGOL, to avoid the duplication of effort while working off a common data set. Scott told me that the dataset is in the "Lead Mapping Work Group" and I currently don't have access to that group.

Can you please grant me access to that group?

Thanks,

Brett

**To:** MSP-EOC-MDARD  
**Subject:** Map  
**Attachments:** BLL\_WaterSamples\_FoodEstablishments.pdf;  
BLLabove5ugmL\_WaterSamples\_FoodEstablishments.pdf

In response to your request:

*MDARD Food and Dairy Division Director would like a GIS data map that overlays the following data:*

- 1. Residential Water Sampling Results - Lead (most recent data)*
- 2. Licensed Food Establishments*
- 3. Identified areas of high and medium risk (I believe this is from blood test result research data)*

I have a map that includes all of the data, it is very busy. So if you would like me to break it up, or somehow symbolize it differently, please let me know.

I included two copies of the map, one with all blood lead levels shown, and one with only BLL above 5ug/mL. I used graduated symbols to show higher blood levels so that they stand out more, especially if there are several points nearby.

If there is anything you would like changed, please let us know. That was a lot of data on one map.

Jon,  
I was trying to get the surrounding Genesee County parcel layer into the Flint ArcGIS Online. At first, I tried publishing the data as a Feature Service called "County\_Parcels". Unfortunately, I could not get labels to appear in the Collector App on the iPads that our field teams are using. I just loaded it as Tile Layer called "County\_Parcels\_Tiled" I'm concerned that this will burn through a ton of credits so I was wondering if you might be able to monitor or help with this.

Our field teams need to be able to view parcel data out in the field to view address information.

My new cell phone # is

Thanks  
Matt

David,  
The City of Flint has a layer published here:

<http://flint.maps.arcgis.com/home/item.html?id=6ab0e082778e4b0c80981fa0f40b04a4>

It's called "Water\_Issue\_Schools\_and\_Zip\_Code"

Are you able to access this?

We are looking for GIS file of Flint school locations, can't find it on Flint AGO. Is it available? Or is there another way to see those locations.

**Cc:** MSP-SEOCGIS; MSP-SEOCGIS2  
**Subject:** Updated Residential Parcel Statistics

AS OF 2/1/2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking 38,831 residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- 37,692 (97.1%) of the parcels have been engaged as part of response efforts
- 28,167 (72.5%) of the parcels have been confirmed have some form of filter
- 13,118 (33.8%) of the parcels have volunteered for water testing
- 2203 (5.8%) of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are 26,673 residential parcels that have the ability to use the Flint Water System. Of these

- 26,405 (99.0%) of the parcels have been engaged as part of response efforts
- 22,400 (84.0%) of the parcels have been confirmed have some form of filter
- 11,532 (43.2%) of the parcels have volunteered for water testing
- 1610 (6.0%) of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

Walt,

Attached are two files.

Walt Res-2 is a street alpha listing of parcels with residential structures

Inc-units is a street alpha listing of parcel with a commercial or industrial identifier

Please review. I can refine if necessary.

Bill

WE ARE ACTIVELY WORKING TO REFINE DATA, PLEASE NOTE THAT **WATER FILTER NUMBERS WERE REVIEWED AND WE HAVE A MORE ACCURATE CALCULATION.** AS SUCH THE NUMBER.DROPPED SLIGHTLY. ADDITIONALLY, WE ARE **ACTIVELY WORKING WITH THE PARCEL DATA TO FURTHER REFINE THE TOTAL RESIDENTIAL PARCEL COUNT, AS SUCH THE NUMBER MAY FLUCTUATE SLIGHTLY TODAY AND TOMORROW.**

AS OF **1/28/2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38593** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **35785 (93%)** of the parcels have been engaged as part of response efforts
- **25221 (65%)** of the parcels have been confirmed have some form of filter
- **9670 (25%)** of the parcels have volunteered for water testing
- **4391 (11%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are **29994** active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26673** residential parcels that have the ability to use the Flint Water System. Of these

- **25693 (96%)** of of the parcels have been engaged as part of response efforts
- **20788 (78%)** of the parcels have been confirmed have some form of filter
- **8531 (32%)** of the parcels have volunteered for water testing
- **3319 (12%)** of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

**Sent:** Thursday, January 28, 2016 1:46 PM  
**To:** MSP-SEOCGIS2  
**Subject:** RE: zip codes

Here is what I found regarding these zip codes:

48501 – Post Office Box Zip Code Only (Boulevard Dr)

48531 – Post Office Box Zip Code Only (Pasadena Ave)

48550 – Buick City (Hamilton Ave)

48551 – GM Truck and Bus (Van Slyke Rd)

48552 – GM Engine, Chevrolet Pontiac (Bristol Rd, Van Slyke Rd)

48553 – GM Truck and Bus (Bristol Rd)

48554 – GM Service Parts Ops (Bristol Rd)

48555 – AC Rochester West, Fisher Guide CPC (Chevrolet Ave)

48556 – AC Rochester, AC Spark Plug, Delco Electronics (Dort Hwy, Davidson Rd)

48557 – GM Vehicle Development Ct, GM Technical Center (Saginaw St)

All the resources I checked were not able to draw these locations. My guess is that you would have to identify what the street address equivalent is for these PO Boxes to try and map them correctly.

48552 = GM facility, falls within 48507  
48553 = GM facility, falls within 48507  
48554 = GM facility, falls within 48507  
48555 = abandoned plant, falls within 48504  
48556 = abandoned plant, falls within 48506  
48557 = Diplomat Specialty Pharmacy, falls within 48507

## MSP-SEOCGIS2

---

**From:** MSP-SEOCGIS2  
**Sent:** Thursday, January 28, 2016 3:42 PM  
**To:** plangc  
**Subject:** Parcels in red zone contacted

Of the parcels in the red zone (approximately 4905) there were 2890 contacts made. Meaning, there are 2015 non-contacted parcels.

Note, this includes commercial and industrial properties and this area includes downtown.

If we were to only look at residential there would be 4553 total parcels in the red zone and 2782 contacted (1771 not contacted). Note, that the City of Flint has identified 1816 of the residential parcels in this area as vacant as of 2014. So, given that vacancy changes regularly for homes, it may be likely we've contacted the majority of residents in this area. It's also important to note that 318 of the parcel "contacts" were field teams reporting the properties in this area were vacant.

We are actively working to clean up vacancy numbers to provide better coverage estimates.

**From:** MSP-SEOCGIS2  
**Sent:** Thursday, January 28, 2016 3:30 PM  
**To:** plangc  
**Subject:** See below, question 5 coming shortly

### **What is the problem with apartment buildings and the data?**

The City of Flint does not maintain a record indicating unit counts for apartment buildings, nor the unit level information for people in each building. They do maintain this information for "Residential" parcels, but apartment buildings are classified as commercial by the assessor's office, and therefore unit count is not retained. Therefore, it is unknown when an apartment has been fully canvassed using our internal datasets as we do not have a total to compare to. Currently, it is thought that this data can only be retained by meeting with each individual landlord and compiling a list.

Additionally, our mapping efforts have been tied to addresses and we have been establishing what tenants of that address have through many visits based on the number of coincident points (individual team activities) at that address. That way we can tell how many times a residence has been visited and consolidate down information on all of the various items they received. Apartment units all show to be at the same address, and therefore this spatial method of identifying repeat locations does not work.

Even if The collection process incorporated information about apartment numbers, it does not address the above requirements.

Ideally, a database would exist of all apartment with their respective units and confirmation would be done within that database, or the landowner for the premise in conjunction with Flint Building and Safety would assist staff to canvas the facility in one visit to ensure filters were distributed and installed during the visit.

### **What is the data cleanup process? What is the cause and what is the fix?**

1. Data entry of paper records
2. Checking/correction of both data entry and field entry points
3. Consolidation of multiple versions of form questions.

#### *Causes:*

- Paper forms slow to process, difficult to read, often are incomplete
- Bad address information from paper forms or PODS data entry
- Addresses that exist physically but are not in parcel data
- Variety of formats
- Multiple versions of questionnaires: multiple types of paper forms, multiple types of spreadsheets, multiple ArcGIS forms
- Questions are phrased differently. Yes/No responses were changed to Quantity and Type. This means there are unknown quantities initially distributed, though some assumptions can be made.
- Technology that works on laptops but not iPads and vice versa
- Technical and environmental difficulties such as temporary unavailable networking, cold temperatures

#### *Fixes:*

- Use iPad/Collector for ArcGIS for all data collection
- Improved training for field teams and data entry teams

- Quality Assurance/Quality Control teams

**What are we doing regarding the mapping of water lines and the issue of lead lines to the curb?**

Flint contracted U of M Flint to map lead service lines within the city. This effort is underway. We have been coordinating with them to expedite timelines and ultimately were able to shift a completion date from the month of April to next week.

Additionally, EMHSD has been working with GIS analyst from the DNR to map these service lines by parcel in support of emergency operations. This method is hastier, but effective to quickly identify problem area.

Next week are going to cross validate our findings against U of M Flint to ensure the data created is accurate.

**Who are the non-subscribers with filters and why do they need filters? Could they be subscribers at any time?**

A “non-subscriber” is someone not paying for Flint Water. They may have stopped service for a variety of reasons (most likely of which being there is lead in the water). Our best hypothesis as to why they picked up a filter is that they may be considering turning their water back on or have an alternate water source they wish to filter (for example, a well).

*I would say they very likely could be subscribers in the future.*

Other possible explanations:

- People who picked up filters from PODS who just didn’t need them
- Bad address information provided by field
- Out of date billing and parcel data (last updated on 22 January 2016, and unlikely that financial records are too out of date)

**What is the # of potential non-contacted parcels in red zone?**

[number to be provided shortly]

See below

- Identified several unique zipcodes in the city that exist though do not have a prescribed geographic area that will need to be considered for mass mailings or identifications of addresses in lists
- Created team assignment maps
- Monitored real time data from field teams and PODS
- Coordinated with DTMB/CSS to meet with local GIS staff and review city GIS infrastructure and provide recommendations on future asset management
- Coordinated with DNR and DEQ to establish timelines for lead mapping and strategize around updates to lead statuses based on plumber activities
  - NOTE: DNR will be providing semi regular updates to GIS on newly identified lead areas and we will consolidate at the end of day for daily status maps
  - NOTE: Completion data for lead mapping projected to be Friday, 29 January 2016
- Requested updated zip code file be generated by DTMB CSS, update to be provided tomorrow on the status of the feature creation
- Researched applications of the DTMB master address repository to emergency operations
- Created map comparing todays planned activities to newly established priority areas
- Mapping test results from DEQ, final product should be ready by the morning

**Subject:** Plumber fields on App

Hey Jen,

Saw the resource request. We've been trying to track down who exactly is in charge of the plumbers to get an idea of what fields to enter into an app.

I spoke with the DNR mapping folks and they highlighted that they can help support this to. So, we may do a joint initiative that ensures the DEQ data collection long term will meet mission needs.

Hello Sir,

As we start to stabilize into our daily tasks I'm going through and revisiting items that weren't fully addressed in the past few weeks.

One high on my list is getting in touch with Google to see if they can provide some services for us.

In particular, we are having issues trying to find facilities information apartments, mobile homes, etc. I imagine Google could potentially provide us with a list of what they have and save the teams researching this a lot of time.

**Sent:** Monday, January 25, 2016 3:24 PM  
**To:** MSP-SEOCOPSC  
**Subject:** PODS vs Team Data

Hello Sir,

In reference to your question. We are able to segment PODS vs Team data in two ways.

1. PODS have to enter what station they are at into the app and that is saved into the database. The fact that this is entered uniquely identifies the records from those that are conducted by field teams. That said, there has been some PODS that have failed to enter this field. Therefore, when we archive the data we patch this field using the second method (Note, when we pull statistics from live data we use the below method).
2. The second method is to pull the "Creation ID" from the database that is uniquely tied to the iPad which created them. This is extremely accurate, but requires that the Local EOC provide a daily sign in roster indicating who has the ipads. At this time there are 15 iPads at the PODS which we are using to uniquely identify which records were not field team activity.

We have advised the local EOC, Planning, and the MSP representative in the SEOC that if iPads are moved from the PODS we need to be notified to ensure we can keep an accurate track on where resources are coming from.

**Cc:** Forstat, David (DNR); Dohm, Nicholas (DNR)  
**Subject:** RE: AGOL Account and Service Line Data

Please call any time:

-- 333 is my personal cell.

There should be a zip folder with all of the data we are using for it. It's about 700 MB. There is also a shapefile with the latest updates of points including recent FEMA edits.

In AGOL it would be easiest to navigate to GROUPS > Lead Mapping Work Group and find the two files there.

VR

**To:** MSP-SEOCGIS2  
**Cc:** Forstat, David (DNR); Dohm, Nicholas (DNR)  
**Subject:** RE: AGOL Account and Service Line Data

Would it be possible to talk through some questions we have? Are we supposed to be seeing any data in AGOL related to the Curb Box Maps? This seems to be what we are requested to be working on but without seeing the data, I'm not sure what direction we are headed, or what the DNR's role will be with this. The sooner the better that we can talk about this the quicker we can get you an estimate on what it will take and what resources we have available to put on this project.

Also, where are the CAD files that we are to be using to create this data?

Thanks,

Brian Maki

**Subject:** AGOL Account and Service Line Data

Hello David,

I have set you up with a publisher account for [flint.maps.arcgis.com](http://flint.maps.arcgis.com)

This is a clearinghouse for data that people want to exchange. It's also used for our live field operations and ongoing data collection efforts.

There are quite a few files we have local that have not made it into AGOL. So please touch base if you feel you are missing something.

There is an AGOL group called "Lead Mapping Work Group" where we will be pushing data for you. The MXD within for geo-referencing is likely going to need the paths to be fixed.

All initial files are pushed as a zip. The two major folders are:

- Basemap Files: Gathered from Genesee County and City of Flint GIS to act as a root for building maps. Contains basic water infrastructure, parcels, parks, and other common datasets.
- Curb Box Maps: The root for lead mapping. The "Curb Box Maps" actually show the lead service lines for houses. We have georeferenced most of the images in these files. The actual geodatabase with the features being manipulated from the curb box maps is in Basemap Files > Parcels > Parcels.gdb. The "Service\_Line\_Index\_Part\_1\_2" is the total points we worked prior to handing to FEMA. It is a domained point layer that shares its domain with the Parcels themselves so that the field matching is pretty seamless with the parcel layer found in the parcels.gdb using a spatial join.

Please give it a look and let us know if you have any questions.

Note, I've CC'd the FEMA GIS person who has been doing work on this for the past few days if you have questions on any of the newer entries that we will be loading to AGOL separately.

**To:** plangc  
**Subject:** Test Results from MDEQ Data

Good Evening,

We ran the counts and found the following based on a results of higher than/less or equal to 0.015 (mg/L)

Of 853 tests:

68 tests were greater than 0.015 mg/L – (matched to 40 parcels)

785 tests were less than or equal to 0.015 mg/L – (matched to 577 parcels)

It's important to note that parcels don't take into account multiple tenants (such as duplexes and apartment complexes); that count was a basic match from the address location to an individual parcel.

I can tell you that it looks like about 12 of the tests did have an address associated.

**Subject:** Numbers

38,144 parcels in Flint not considered "vacant". This does not mean all parcels have a tenant, there is a lot of houses that are empty.

- 26,673 water subscribers in Flint.
  - Water Subscribers with a Filter = 15,399 (57.7%)
  - Water Subscribers without a Filter = 11,274 (42.2%)
- 11,471 Non-Water Subscribers in Flint.
  - Non Water Subscribers with a Filter = 2,196 (19%)
  - Non Water Subscribers without a Filter = 9,275 (81%)

**To:** plangc  
**Subject:** bullets

- Cleansed version 3 of apps data
- Began repairing V2 and V1 data. 85% complete.
- Prepared map of vulnerable persons
- Hotspots of vulnerable persons for MDCH
- Map for MDARD of water mains
- Pulled data from app for recovery unit
- Provided total installed filters from V3 to planning
- Provide team assignment maps
- Provide JIC maps
- Coordinated with FEMA on lead mapping (ongoing)
- Coordinated with local GIS and confirmed they do not have unit counts for multi-tenant in databases
- Tying app data to parcels for running total by residence.

**Subject:** RE: Address

So, since there are two negatives in your sentence, this could also be stated,

"As far as my data shows, I do believe the *is* is attached to Flint water lines."

Is that correct – *is attached to Flint water lines?*

Please confirm.

Thanks,

Kay.

**From:** MSP-SEOCGIS2  
**Sent:** Monday, January 18, 2016 7:40 PM  
**To:** plangc  
**Subject:** Activities Summary 1/18

We:

- Continued producing maps of lead service lines (40% complete with primary effected area)
- Developed a map of comparative activity for the JIC from pre-response to post-response (established a recurring task to update this map)
- Established metrics to measure percent completion of resource distribution. The following two are from today:
  - Active Water Subscribers confirmed as Having a Filter: 13164 of 29994 total subscribers (44% coverage)
  - Total parcels confirmed as having a filter: 15364. Total parcels needing to be targeted is unknown as field teams are noting that the Flint parcel layer is not accurate for vacant homes. Need to work with assessor's office to update. Planned to be researched and established tomorrow.
  - Multi-tenant home status: Cannot be completed right now as we need to work with Flint's assessor's office to identify tenancy counts. Planned to be researched and established tomorrow.
- Fixed data from apps and paper copies of field team reports and PODS. There remains a significant amount of unplotted data due to issues with teams using paper forms.

Thank you! I REALLY appreciate all of your help with this.

Two very quick things: Is it possible to center the "As of dates" at the top of each map? Also, will you please send me the map as a PDF and EPS file?

And that should be it—thanks again! --Tiff

Hi Jim,

Thanks for putting this together as an option. However, we would like to have the two maps side by side to show the "before and after" activity that shows where we started versus activity to date.

Also, I don't think the color scheme is stark enough to distinguish the difference. We can discuss further, but right now we are focused on getting the two maps side by side as showing the before and after.

Please let me know if you have any questions.

Hello Tiffany,

Attached is a draft of what was discussed. The "today" numbers are current as of 17:48 (5:48 PM).

I did some color changes. Explained below:

- Avoided red due to make it more ADA compliant
- Made vacant parcels green to give a cleaner visual that those areas are clear (noting that lead service lines may still exist to those houses)

Please let me know if the attached meets your intent.

**Subject:** Draft Schedule

Please review the below. I tried to get everyone a 2 day break per week.

Also note, that **8 hour shifts will be "on call" unless it is the weekend**. Meaning, if you are on an 8 hour shift, you can work from your desk on your daily tasks knowing that you may be called to do SEOC work at any time. Josh/Joel, I didn't plug any 8 hour on calls in, so when you're not scheduled you are free of SEOC obligations.

Note, AWS's are currently not in effect until things wind down. So all 8 hour shifts are 8-5.

	1/19/2016	1/20/2016	1/21/2016	1/22/2016	1/23/2016	1/24/2016	1/25/2016	1/26/2016	1/27/2016

## MSP-SEOCGIS2

---

**From:** MSP-SEOCGIS2  
**Sent:** Sunday, January 17, 2016 5:15 PM  
**To:** plangc  
**Subject:** GIS Update 1/17/2016

The major effort for the day was determining metrics for success regarding filter distributions. A method has been developed to tie back resource distributions to active water customers. As a result of this effort it was determined that of the 29,994 active water subscribers on the Flint Water System, 12,002 have been confirmed as having received filters (4623 of which were a result of SEOC driven operations that we began tracking on the 13<sup>th</sup> of January). There are a significant number of paper copies of records and database entries that need to be cleaned that are not included in the above. Additionally, there are a significant number of persons who do not show in the records as having been a water subscriber that received a filter. We are actively working to synch up all of these datasets to get a more accurate picture of who does and does not have filters.

Another major focus was determining what map should be provided through the JIC to the media to update the public on the status of response efforts. It was determined that the point data from the dashboard is ideal to show progress. This has been established as a recurring task and the map will be produced daily by 1700.

Maps produced today:

- Flint Water Response Teams Planning Maps
- Team Activities Map for JIC
- City of Flint Infrastructure Map for FEMA

Additionally, provided tabular data from Flint Water Response Team Activities for the Recovery Unit.

No progress was made on the mapping of lead water service lines in the City of Flint.

**From:** MSP-SEOCGIS2  
**Sent:** Sunday, January 17, 2016 1:47 PM  
**To:** Hollaender, Henrik (MSP)  
**Subject:** Instructions for Dashboard

Please walk through the following steps to get the latest iteration of the dashboard as the SEOC is seeing it. The below assumes you are starting from no dashboard open. You can always close it out to walk through this.

1. From the start menu, search for "Operations Dashboard", and open the desktop application
2. If prompted for a URL, enter: <http://flint.maps.arcgis.com> and select "Continue"
3. If prompted for a login, enter username: LOCAL\_EOC and password: Flintse0
4. To ensure you have the correct dashboard go to FILE>OPEN and select "**PODS/TEAMS Dashboard**" (Note: File is in the upper left hand side of the map)
5. Wait until all of the widgets have completed their "initialization" before moving any items
6. Resize the frames as needed to fit into your display (they all boundaries for all widgets can be resized like any other windows application)

Please let me know if you are having any issues.

Zach,  
Here are bullet points for the sit rep regarding the GIS work on 1/14/2016: .

Conducted iPad Collector App training in Flint and assisted with technology needs.

Completed map of active LHD license establishments/restaurants map for MDARD.

Completed a map of the water pipes with an overlay of points received from Brad Deacon for MDARD.

Continued to develop the iPad Collector process for use in Points of Distribution(PODS) in addition to Water Resource Teams.

Built Operational Dashboards for use with real time data feeds from the Ipad data collector.

Continued to work with ESRI Disaster Response Program consultant on technical GIS issues and improving GIS processes.

**To:** Deacon, Brad (MDARD)  
**Subject:** RE: AID Flint Water Update for January 13, 2016  
**Attachments:** 20160114\_MDARD\_Flint\_Premises\_Streets.jpg; 20160114\_MDARD\_Flint\_Premises\_Streets.pdf; 20160114\_MDARD\_Flint\_Premises.jpg; 20160114\_MDARD\_Flint\_Premises.pdf

Brad,

Attached are two maps of Flint's main water lines with an overlay of the 6 Flint premises. The 20160114\_MDARD\_Flint\_Premises\_Streets (JPEG and PDF) map has street names labeled and 20160114\_MDARD\_Flint\_Premises (JPEG and PDF) map has just main roads/highways labeled. Please let me know if there are any changes you would like me to make to these maps.

Also, the PDF version of the active LHD license establishments map is having some trouble generating. We will get that to you once it is complete.

Flint has 56,254 parcels

We have processed 6,453 parcels (8.71%) of the total number. This will continue to go up.

So far :

169 of this total (2.6%) are either lead, lead and copper, lead and galvanized, lead and tubeloy, lead and zinc.

1,515 of these parcels (23.4%) have unknown service line types (they were not identified on papers we were given)

4,769 of these parcels (73.9%) are Copper, Tubeloy, Zinc, or Galvenized.

**Subject:** Re: App development with DTMB

I believe you mean Scott from ESRI. And I assume that these are ID's as in drivers licenses.

I think this is a great idea, but could be challenging to implement. I would wager you could be right that Scott has something prebuilt, but theres a chance this may fall well outside of collectors capabilities. May want to loop Pedder in for his opinion.

Only concern is if we truly need something custom that we don't pass it through AGOL. That's key to dashboards and info sharing.

Also, be sure to bring in a representative from the PODS themselves for viability of tool (guard, and whoever would use after guard is gone).

Most importantly, be sure it's something the city can use at their locations, and/or sustain longterm. Really should fit all parties needs.

James:

I just spoke with Ryan in the SEOC and DTMB would like to improve the collector app used at the PODS for resource distribution. They would like to include a scanned ID and couple it with their own data base that has information about how many resources each scanned ID can receive. I am thinking that John Oppmann may have written something like this already.

I know you are out most of next week but I would like to set up a meeting with John and DTMB to discuss possibilities. Do you think John would be available for such a meeting?

Walter

**Subject:** FW: Clarifications ON Addresses  
**Attachments:** accessfunctionalneeds\_20160218.pdf

This is the map that was created for ARC to begin visiting the AFN list. My understanding is that the points in BLUE are the only AFN addresses that need to be visited because they are on Flint Water. The points in RED do not have to be visited, because they are not listed on Flint Water.

I believe our AFN list is comprised of every Access and Functional Needs Individual in Genesee County. Can you by chance use that same address list to let us know which of the AFN addresses we do not need to visit because they are outside the city limits and not on the Franchise list?

Thank you!

Our team went to the apartment complex today and they were told about the water not on flint city water. In looking at the map, the two addresses fall just on the edge of the southwest corner, outside the boundary of the affected area.

Hello,

Here are a few Highlights/questions/updates that came to our attention today:

- Miller Road is not on City of Flint water. We will remove from our lists moving forward
- 800 Court Street – Are there apartment numbers?
- 801 Garden view – Apartment numbers?

I will update you on more specifics this evening. - Dan

**Importance:** High

This note is for Wednesday, February 19, 2016 \*\*\*Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that approval\*\*\* There were changes in the report so if the webmaster could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 17, 2016 (posted February 19, 2016)" or something equivalent.

**\*\*NOTE\*\*** No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 19 2016 Test Results Flint.xlsx

**Asset# 513925** – February 19 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 19 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 19 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

February 19 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

LEAD Data Summary for Current Date	Number	Percent		
Total number of samples:	11,143			
At or below 15 ppb:	10,400	93.3%	Above 15 ppb:	743
≤5 ppb:	9,420	84.5%		
6-15 ppb	980	8.8%		
16-30 ppb:	328	2.9%		
31-100 ppb:	283	2.5%		
101-150 ppb:	38	0.3%		
>150 ppb:	94	0.8%		

#### COPPER

COPPER Data Summary for Current Date	Number	Percent		
Total number of samples:	11,143			
At or below 1,300 ppb:	11,096	99.6%	Above 1,300 ppb:	47
≤50 ppb:	6,453	57.9%		
51-350 ppb:	4,319	38.8%		
351-1,000 ppb:	307	2.8%		

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 19 2016 Test Results Flint.xlsx

**Asset# 513925** – February 19 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 19 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 19 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

February 19 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

LEAD Data Summary for Current Date	Number	Percent		
Total number of samples:	11,143			
At or below 15 ppb:	10,400	93.3%	Above 15 ppb:	743
≤5 ppb:	9,420	84.5%		
6-15 ppb	980	8.8%		
16-30 ppb:	328	2.9%		
31-100 ppb:	283	2.5%		
101-150 ppb:	38	0.3%		
>150 ppb:	94	0.8%		

#### COPPER

COPPER Data Summary for Current Date	Number	Percent		
Total number of samples:	11,143			
At or below 1,300 ppb:	11,096	99.6%	Above 1,300 ppb:	47
≤50 ppb:	6,453	57.9%		
51-350 ppb:	4,319	38.8%		
351-1,000 ppb:	307	2.8%		

1,001-1,300 ppb:	17	0.2%
>1,300 ppb:	47	0.4%

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Susan**

We see the issue now and it is a problem with Firefox only, not recognizing our SSL certificate due to a recent update to the Firefox browser. We are resolving this issue as quickly as possible. If you have alternative browsers, we have confirmed that you can securely reach [www.getliquid.io](http://www.getliquid.io) via Chrome, Safari and/or Explorer.

Again, we are very sorry for the inconvenience and diligently working to resolve the certificate issue quickly.

I am happy to walk you through any further issues in accessing Liquid.

Thank you so much for your patience!

Jacob

Linda,

Thank you so much for reaching out. We continue to have discussions with some people we met in Flint regarding how Liquid could be of use with the water crisis. Would you have 10 minutes at some point next week to do a quick phone or Skype call? We truly think Liquid could be of significant help, but are still gathering information about how to best plug in.

Look forward to hearing from you and the GIS group.

Thanks again,

Jacob

**Cc:** Fulk, Deborah; Huffman, Dwayne; Ragsdale, Suzanne M; Session, Kendal; Hamrick, William  
**Subject:** Potential POD Location Map w/Vacant Parcels

Alicia,

Per your request, attached is a map of vacant parcels in Flint that have POD potential. Criteria I used: Vacant,  $\geq 45,000$  sq. ft. (# provided by Kendal), and within 500 ft. of a bus route.

I think this can be used as a starting point, but does not necessarily mean that each one of these locations is suitable for a POD. I attached a spreadsheet within additional info on these parcels.

Would it be useful to overlay this with the following information?

- Population Density
- Poverty Status (by block group)
- Median Household Income (by block group)
- Households w/out Vehicles (by block group)

**To:** MSP-SEOCGIS; MSP-SEOC5  
**Cc:** MSP-FOIAProject  
**Subject:** FW: Water crisis data

This sounds like an area we've missed. What are our next steps to ensure these citizens get what the need?

---

**From:** MSP-SEOC5  
**Sent:** Friday, February 19, 2016 3:48 PM  
**To:** Paula K. Zelenko  
**Cc:** MSP-SEOCOPSC  
**Subject:** RE: Water crisis data

Mayor Zelenko,

Thank you so much for this detailed information. I am forwarding this email to the Operations Chief here at the SEOC to ensure all of your concerns and questions are addressed.

Bridget Spencer  
Recovery Unit

---

**From:** Paula K. Zelenko [<mailto:p.zelenko@burtonmi.gov>]  
**Sent:** Friday, February 19, 2016 3:20 PM  
**To:** MSP-SEOC5  
**Cc:** Richard A. Hayman; Marvin A. Epperson  
**Subject:** Water crisis data

Dear Ms. Spencer;

I am in receipt of your email that was sent to City of Burton employee, Jackie Beutler. I am the Mayor of the City of Burton and I have been working through Lt. BJ Roach and County Commissioner Chairman Jamie Curtis in efforts to ensure the residents of Burton that are affected by this crisis are receiving water, test kits, and filters. The City of Burton stepped up to assist in these efforts in order to lessen the burden on the EOC and City of Flint operations by "taking care of our own" so more resources could concentrate on the City of Flint.

Having said that, to this day, the "official list" of Flint water customers posted on the City of Flint website has further complicated the issue because of the inaccurate addresses of our residents. When some of our residents show their identification at various distribution sites\*, they are turned away because their correct address on their ID does not match the incorrect address on the Flint website list. (\* some of these sites may not necessarily be operating in conjunction with the EOC, but are using the Flint website list as their "official list")

In the next few minutes, I will be forwarding you the data that has already been submitted in regards to your list referenced below. In addition, I will forward you the correspondence I have sent requesting more information from these remediation efforts. The Burton Fire Department delivers water, filter and test kits every Saturday. The Fire Department has the water, kits, and filters at Burton Fire Station #1 available for pick up on Saturdays, as well. The Burton DPW picks up water, test kits, and filters from the warehouse on Clio Rd every Monday and Thursday and delivers it to Burton Fire Station #1

We have never been given any door cards, 211 cards, or any other informational literature to hand out, although we have requested them. We have taken it upon ourselves to mail and or hand deliver our own letters to our residents explaining how to obtain water, filters, and test kits from us. I have yet to be informed, although we have requested the information, as to where to direct our residents for the many services that Flint residents seem to be receiving, such as but not limited to blood test monitoring, assistance with filter installations, nutrition/food/education services, and help on replacing lead service lines. In addition, it appears that any letters sent from the City of Flint keeping residents abreast of water crisis information are not being sent to the residents in Burton.

I am requesting information from you as to what assurances are being put in place so Burton residents affected by this crisis are getting notified of the health, food, education services, water bill payments, etc. that the media is reporting is available to Flint residents affected by the crisis. We are feeling left out of the loop and it is very frustrating.

Please feel free to contact my office directly should you have any questions or if I can assist you in any way to make certain the affected Burton residents and businesses are being included in all the available services. Richard Hayman, Chief of Staff, will be happy to assist you in the event I am not available. So far we have identified approximately 100 residents and businesses on the Flint water system that are located in the City of Burton.

Sincerely,

Mayor Paula Zelenko

(810) 743-1500 ext 1102

The specific data we are looking for includes:

- Full Address
- Date Visited
- Door Card Left? Yes or No
- Water (by the case) left? If so, how many?
- Test Kits left? Yes or No
- Water Filters left? Yes or No, if yes, what type? Brita or Pur.
- Replacement Cartridges left? Yes or No

Nat,

Per our meeting & conversation this afternoon, attached you'll find an updated spreadsheet. While there are still some gaps on here, we're continuing to work to resolve them by cross checking logs, printed forms, and tracking spreadsheets (information you'll see in the yellow columns). We still remain confident that the information is out there, hopefully you'll see that by this updated version having significantly more data populated.

More importantly going forward, this afternoon we began taking steps towards implementing a mobile data collector to ensure whenever we go to a home, regardless of purpose, we'll be collecting the information live.

I'm still working with the team to incorporate the specific fields you'd like to see populated (grey columns) in our mobile collector. I hope to share that with you and Ben tomorrow to get your input.

Good question, we are discussing this issue right now. My recommendation will be to have the test results come to us and we will push that data to the AGO on a schedule. We are meeting with the MDEQ-ECC-IMT team this afternoon to confirm how this process will work..

Also.. the "Sentinel B" dashboard should be refreshing correctly now...

Dave:

We are aware that the water test results for sentinel sites are not included in the daily water test spread sheet we receive from Nicole Colberg. We anticipate that at some point we will be asked to produce maps of sentinel site data. Who should we contact to get access to that data when we get a request?

Regards,  
Walter Chomentowski

Thanks, Dan. I have the sentinel B app open on my iPad. Very cool. Is there a plan to merge A and B on a different map, so we can see all of the sites and lead lines at the same time? Also, are sampling results being added to the sentinel A map? Copying SEOCGIS to help facilitate that.

Nat,

Thanks for your patience. I understand the urgency for wanting to have the information for the 7:30 AM briefing tomorrow, and I want to preface the attachment that this spreadsheet solely represents the converted paper forms (2 versions) conducted by DEQ for home visits, so you're going to see some blanks but I don't want it assumed that those houses have not been

visited. This spreadsheet is a quick and dirty version based on the paper forms alone.

What I'm learning is that there have been different teams, means and methods of collection since this effort has evolved over the last couple of weeks to provide home visits for lead results > 100 ppb within 7 days and > 150 ppb within 48 hours. I know that very early on some visits were done by the GCHD that reached out to the EPA for assistance as one example which was shared with the Mission Flint Team back on Feb 5th.

The team out of our ECC that provided this paper conversion was also alarmed by the amount of missing information and began cross referencing other email correspondence from the SEOC and other sources. Their quick analysis was that there were other sets of data, either in

spreadsheets or collector tools, for how these visits were being recorded, so we'll need a little bit of time to assemble those other puzzle pieces.

**RETAIN THIS IMAGE**  
RETAIN THIS IMAGE  
RETAIN THIS IMAGE

So my main message for this spreadsheet and your briefing tomorrow is that this is only a portion of the information, the paper portion, and I'm looking to have a better list for our 1PM meeting tomorrow with DHHS. Hopefully we're moving to one form, one collector tool and clearly defined roles and responsibilities for action based upon *high test results*. I've even heard of some fatigue from local residents about being visited by too many times by too many different organizations providing outreach. So I remain confident that people are being contacted, again we just need to streamline it and make it more efficient.

Walter & Becky,

Walter, I've copied Becky Dawson our MSAG Coordinator. When Becky returns to work Monday she and I will sit down and discuss how we can help and to what extent. We will communicate to you Monday how we can assist. We will do whatever we can to help.

**Director Dave Ackley**

**Subject:** Address List from 911 directory

Dave:

I am working at the GIS desk of the State Emergency Operations Center and we have been tasked with collecting a list of every address in the City of Flint. I spoke with Ken Koleda at Genesee County GIS and he referred me to you. Do you have a list of addresses from the MSAG data? If so how can the SEOC access that list. Thank you.

Best,  
Walter Chomentowski

**Subject:** Full list of Residential Results for February 18 2016

**This note is for Wednesday, February 18, 2016 \*\*\*Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that approval\*\*\* There were changes in the report so if the webmaster could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 17, 2016 (posted February 18, 2016)" or something equivalent.**

**\*\*NOTE\*\* No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 18 2016 Test Results Flint.xlsx

**Asset# 513925** – February 18 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 18 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 18 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

February 18 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

LEAD Data Summary for <i>Current Date</i>	Number	Percent		
Total number of samples:	10,944			
At or below 15 ppb:	10,207	93.3%	Above 15 ppb:	737
≤5 ppb:	9,230	84.3%		
6-15 ppb	977	8.9%		
16-30 ppb:	326	3.0%		
31-100 ppb:	280	2.6%		
101-150 ppb:	37	0.3%		
>150 ppb:	94	0.9%		

#### COPPER

COPPER Data Summary for <i>Current Date</i>	Number	Percent		
Total number of samples:	10,944			
At or below 1,300 ppb:	10,897	99.6%	Above 1,300 ppb:	47
≤50 ppb:	6,332	57.9%		

51-350 ppb:	4,244	38.8%
351-1,000 ppb:	304	2.8%
1,001-1,300 ppb:	17	0.2%
>1,300 ppb:	47	0.4%

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Susan**

## MSP-SEOCGIS

**From:** Coreav@michigan.gov  
**Sent:** Thursday, February 18, 2016 4:37 PM  
**To:** Vega, Dave (DTMB); cmartinez@cityofflint.com; NotificationRecipients  
**Subject:** Maximum Size Exceeded Notification

Dear Customer:

The email to "MSP-SEOCGIS@michigan.gov" sent from "cmartinez@cityofflint.com" with subject of "Fwd: Voter Registration List" has exceeded the maximum size limitation for emails entering the State of Michigan's enterprise email system.

Your email plus attachments together totaled 34200740 Bytes.  
Please remember that the limit on inbound emails is 25 MB.  
This translates to 26214400 Bytes, the limit.

As a consequence it has been deleted and a notice has been sent to your recipient.  
Please contact the recipient to inquire about other possible delivery options some of which are compressing the attachment to a size below the limit or distributing the attachments over multiple emails such that no single email exceeds the limit.  
Also remember that the size refers to the sum of all attachments on any single email.

Remember also that scanning a document into a PDF format will greatly increase the size of the file produced owing to the additional formatting characters the process adds.

Most scanning software will allow a selection of the filetype to produce, i.e. .bmp, tiff, .jpg, .pdf, etc.

It is best to scan documents into a .jpg format to minimize the size of the file created.

Alternatively you may also divide your pdf file into several files and send them individually such that no single email exceeds the limit.

We apologize for any inconvenience this has caused. You may contact me if you have any questions or concerns.

The SEOC GIS desk can provide exact date, but it was roughly 2 days after emergency declaration.

As for engineering firm, we were not part of the discussions about bringing them on board. My understanding is they are filling in the gaps in ours and U of M Flints work (there are a lot of unknown lines in the Flint documents that we built the maps from).

DEQ/DNR can speak to the engineering firm for an official response.

Hi Walter,

Our address cleansing staff said to provide the addresses as excel spreadsheets and they will make the necessary formatting to feed it into our address cleansing and standardizing software.

Also DTMB staff were instructed that all work regarding Flint must be approved by Chris Christensen (SEOC) before we undertake the effort. Can you confirm for me that Chris is aware and has approved or should I follow up with him directly?

Thanks

**Subject:** List of those on on the Flint Water System  
**Importance:** High

I need a list of all addresses of those on the Flint water system. Apartments need to be shown as such with the number of apartments. Also, all franchise customers need to be identified. Would like full address and names if possible.

Would like no later than Friday or sooner. Who can do this??

Thanks in advance.

Capt. Chris A. Kelenske

**Subject:** Full list of Residential Results for February 17 2016  
**Importance:** High

This note is for Wednesday, February 17, 2016 \*\*\*Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that approval\*\*\* There were changes in the report so if the webmaster could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 16, 2016 (posted February 17, 2016)" or something equivalent.

**\*\*NOTE\*\*** No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 17 2016 Test Results Flint.xlsx

**Asset# 513925** – February 17 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 17 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 17 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

February 17 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

LEAD Data Summary for Current Date	Number	Percent		
Total number of samples:	10,359			
At or below 15 ppb:	9,660	93%	Above 15 ppb:	699
<5 ppb:	8,460	82%		
5-15 ppb	1,200	12%		
>15-30 ppb:	309	3.0%		
>30-100 ppb:	263	2.5%		
>100-150 ppb:	36	0.3%		
>150 ppb:	91	0.9%		

#### COPPER

COPPER Data Summary for Current Date	Number	Percent		
Total number of samples:	10,359			
At or below 1,300 ppb:	10,315	99.6%	Above 1,300 ppb:	44
<50 ppb:	5,655	55%		
50-350 ppb:	4,352	42%		
>350-1,000 ppb:	291	2.8%		
>1,000-1,300 ppb:	17	0.2%		

>1,300 ppb:	44	0.4%
-------------	----	------

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Subject:** RE: CAD address data for City of Flint

Hi Walter,

I wanted to follow up from our phone conversation with an email.

*The 911 GIS Data Repository does not contain address point information from Genesee County. The road centerline data has not been updated since 2012.*

Ken Koleda is our contact Genesee County GIS. This is the same individual that you have been working with to get your data.

Let me know if you need a contact for the PSAP center if Ken cannot provide you with the information.

Please do not hesitate if you have additional questions.

**Subject:** RE: Environmental investigations

Thanks, Linda. The database looks great. I think it would be useful to schedule a meeting over at the SEOC sometime this week, so that we can discuss coordination between the departments and between the departments and GIS. Ultimately, I think the G is picturing a map with points linked to the data in the database that can be accessed by the folks covered by the DHHS declaration. So, GIS would be the repository of the data for both departments. I'll have our scheduler, Nick, reach out.

Nat,

The data dictionary that Jackie forwarded is for a database we have under construction to track EBL children and the services we offer/provide. The database construction is nearly completed, but we can add additional fields at your request and we can modify as needed for the homes with high water tests.

Linda

**Subject:** RE: More Info Needed

Captain,

Henrik and Lt. Roach went to each house tonight. Henrik just called and advised that each house appears to be vacant. One house is currently be fixed up, but is still vacant at this time ). The neighbors stated that no has lived in that house for at least four months. The other houses showed no sign of being in habited. No footprints in snow, no signs of furniture, electricity, etc. They are confident that these homes are all vacant.

Please advise if you require additional information.

Thank you.

All-

I spoke with our GIS folks and they were able to identify 5 houses that have not been confirmed to have had contact with the water response teams/volunteers (with in the area given to us by Mr. Clyde Edwards of Rep. Neely's office). Those five addresses are listed below and these houses will have a Rapid Response Team (RRT) stop by the houses tonight or tomorrow.

It should be noted that there were approximately 30 other houses in this area that have been deemed "vacant" houses by the city of Flint. The city records show no one living at these residences and no RRT's or other volunteers have gone to those addresses. We do not plan on sending volunteers to the houses that the city of Flint says no one is living in.

Have a good night

Kevin,

Below is the status of the 5 addresses you provided.

2530 Lawndale Ave-The Property was marked as abandoned on 1/16/16. . If the resident is claiming no contact, we will put them on the RRT list.

1313 W Dartmouth St- Parcel is marked as unvisited. We will put it on the RRT list

1305 W Dartmouth St-This is not listed within the City's Parcel Database. If the resident is claiming no contact, we will put them on the RRT list.

1813 W Genesee St- Parcel is marked as unvisited. We will put it on the RRT list

1618 W Genesee St- This parcel was marked as abandoned on 1/17/16. . If the resident is claiming no contact, we will put them on the RRT list.

Thank you so much for bringing this to our attention. We will move forward with these and hope to have them visited as soon as possible.

Thanks,

Alex

Alex-

As we discussed, based on the streets given to us in the below email chain, our GIS folks checked their records and found 5 residences that have not been confirmed to have been "touched" by any of our volunteers. The addresses they show needing contact are as follows:

Can you check to see what you have in your records? If in fact no one has been to these residences can you send a Rapid Response Team (RRT) to them?

Thanks  
Kevin S.

Subject: More Info Needed

Dan-

We were just looking for those four streets that were given to us on the Legislative Briefing Conference Call. The streets we wrote down were Mackin, Chevrolet, Balling and McClelland. We can only find two streets that match in the city, Chevrolet and Mackin. These streets are near the elementary school but not the high school (as mentioned on the call)

Can you put me in touch with the person that made the statements on the call reference these streets so I can track down more information to better help us identify the houses we need to get to?

Thank you

### VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

**Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.**

## LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. [Click here to listen to the call.](#)

**Cc:** MSP-SEOCGIS; plangc  
**Subject:** Apartment Info

During what we are calling the "3<sup>rd</sup> Round" of door to door distribution, we tasked the American Red Cross with visiting every apartment complex in Flint. The data we received back on paper tracking sheets was reported last night as well as the information from MSHDA on filters given to the residents of the complexes they oversee.

*Because the paper data was not completed by the volunteers the same way for every unit – we provided what we knew to be true. This does not mean that the apartments were not visited or do not have a filter, as the resident may not have been home, received a filter in one of the other canvassing "rounds" or picked one up at a POD. We only count confirmed "contacts" in our totals, not "visits" as we were more concerned about whether or not our teams were able to provide a resident with a filter. Not all tracking sheets noted if the resident was home or not. For example: in a 20 unit complex, only 7 people answered the door so the visit count was only 7 if the tracking sheet did not list the unit numbers for those who were not home. The 14 other units should have received a door hanger with contact and resource information related to the Flint Water Emergency.*

GIS was working on pulling any apartment info from the ArcGIS App and relating it to the complex addresses so we can take in to consideration the visits from the first 2 rounds of distributions.

Thank you,  
Recovery Branch

**Date:** Tue, Feb 16, 2016 at 12:41 PM  
**Subject:** Re: Couple of questions  
**To:** Michael Glasgow <mglasgow@cityofflint.com>

Attached is the list. Any bill that shows Genesee County Water & Waste as the customer name will get a bill from their respective municipality or GC. The accounts with an individual's name will get the original Flint bill.

The franchise list does not change much.

On Tue, Feb 16, 2016 at 9:34 AM, Michael Glasgow <mglasgow@cityofflint.com> wrote:  
Amanda,

Good morning, I hope all is well. I have a question and a request for you this morning, both stemming from the State EOC.

The question is, Do all franchise water customers receive a city water bill? They are under the impression that these people receiving Flint water may pay their bill to another entity (i.e. Flint Township).

The request is another current updated customer list.

Thanks,

**To:** Katarsky, Anthony (MSP)  
**Cc:** MSP-SEOCGIS; MSP-SEOCGIS2  
**Subject:** Number of residences needing filters

Good Afternoon,

This number is to be considered a best estimate based upon the data available. To obtain the number of residential units (actual houses) we queried from the 2016 parcel data. Note, there are 190 water customers outside of the city limits also which a small number of these may be duplicated in the apartment count. Of all of the residential units, there are 40,275 units indicated (this takes into account residential parcels where multiple units exist, such as duplexes). So this number includes total units, not total parcels. Please note that this number does not reflect vacant properties.

Additionally, there are 5,802 apartment units.. Note that this number also does not reflect vacant apartment units.

So for the breakdown:

40,275 residential units (this number includes a factor for parcels with single or multiple units but does not account for vacant properties)

5,802 Apartment units (this number does not account for vacant apartment units)

190 Customers outside of the city limits (may be duplicated in the apartment units figure)

Total of 46,267 units needing filters.

**Subject:** Questions from today's Flint MI GIS Coordination call

Can you shed some light on the GIS application that is being disseminated from Manolakoudis, Virginia? I was asked if this has anything to do with the project we are working on and if the data is the same. I have not had time to look at the application but thought I'd send a quick note to get your information first. It looks like the data that is being accessed is from the AGOL server as the application from the Apple App Store is ESRI's ArcGIS Explorer.

Thanks for shedding some light on this,

Rob

**Sent:** Tuesday, February 16, 2016 12:39 PM  
**To:** MSP-SEOCGIS  
**Subject:** Re: RI and RV

Looking at the Barth Street property I'm confident there is no structure there. We've done over 1,800 demolitions in the past 18 months and was on our demolition list. I think it's possible the field team may have gathered data on the wrong property.

On Tue, Feb 16, 2016 at 11:34 AM, MSP-SEOCGIS <[MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov)> wrote:

is an "RV". We have it as contacted and a filter is present in the home. Imagery shows it as having a structure present.

Around that address are several other examples of RV being classified for structure present.

That said, it does appear to be pretty accurate in most areas. Rough guess would say about 1 in 20 that are "RV" should probably be "RI".

If there is anything we can do to help patch things up please let us know. We could assign staff if needed.

Hey Calix,

We were doing a quick look at the RI and RV classes.

It appears that some of the RV actually have structures present. Moreover, we have records showing they were visited and even had filters put on filters for residents. Is there a way we could refine this?

Nicole:

According to the most recent data available from the MDEQ Sentinel Sites at ArcGIS Online (flint.maps.arcgis.com) there are 249 "visited" and 153 "unvisited" sentinel sites. We have not received any information indicating there are less than 402 Sentinel Sites. We suggest that you ask MDEQ about the status of Sentinel Sites. Thank you.

**Meeting Status:** Accepted  
  
**Organizer:** Shankman, Rob (OS/ASPR/OEM)

Please excuse the change in time. I have a commitment to another Public Health call for Flint MI at 11:00 and cannot move it. I hope this time works for everyone. Please use the following number (800) 662-1000 with the passcode 1234567890. This line is limited to 25 so please feel free to send me the names of any additional staff you feel we need to include in the coordination call. I have attached the current list of the invitees. Please update as needed and return it to me. Looking forward to making the sharing of the data as seamless as possible.

**Items to discuss:**

- Mapping products produced currently
- Mapping products needed
- Data produced
- Data needed
- Method for data exchange
- Method for product exchange
- Coordination with other agencies
- Other

Let me know if there are additional items to add to the agenda.

Rob Shankman

Response from GIS

Jackie:  
GIS has not received any data pertaining to skin rashes. There is no data available describing the number of occupants per household in the City of Flint and therefore only rough estimates based on US Census data can be made about how many people are on the water system.

Please have someone follow up on the below and provide me answers as soon as they can (hopefully prior to 7 pm).

- How many people have reported rashes and do we have the locations documented anywhere?
- What is the current number of residents (not parcels) of people on the Flint water system?
- Does DHHS or DEQ have concerns with the rashes that are occurring?
  - Do either know what is causing the rashes and if so, what is the fix?

Thanks

We have a lot of parcels from Burton. Many of these have yet to be visited.

Maybe the best thing we can do is call into the City of Burton to confirm. But, my inclination is that these customers are captured in our numbers.

**Importance:** High

This note is for Monday, February 15, 2016 \*\*\*Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that

approval\*\*\* There were changes in the report so if the webmaster could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 13, 2016 (posted February 15, 2016)" or something equivalent. ☺

**\*\*NOTE\*\*** No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 15 2016 Test Results Flint.xlsx

**Asset# 513925** – February 15 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 15 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 15 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

February 15 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

Data Summary for <i>Current Date</i>	Number	Percent		
Total number of samples:	9939			
At or below 15 ppb:	9271	93%	Above 15 ppb:	668
<5 ppb:	8123	82%		
5-15 ppb:	1148	12%		
>15-30 ppb:	300	3.0%		
>30-100 ppb:	247	2.5%		
>100-150 ppb:	33	0.3%		
>150 ppb:	88	0.9%		

#### COPPER

<b>Data Summary for Current Date</b>	<b>Number</b>	<b>Percent</b>		
Total number of samples:	9939			
At or below 50 ppb:	5451	54.8%	Above 50 ppb:	4156
<50 ppb:	5451	55%		
50-350 ppb:	3817	38%		
>350-900 ppb:	270	2.7%		
>950-1300 ppb:	20	0.2%		
>1300 ppb:	42	0.4%		

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Susan**

One more question

It was brought to our attention that some franchise customers are actually billed by Burton and not the city. Do we have those franchise customers too?

Response from GIS

Jackie:

GIS has not received any data pertaining to skin rashes.  
There is no data available describing the number of occupants per household in the City of Flint and therefore only rough estimates based on US Census data can be made about how many people are on the water system.

Please have someone follow up on the below and provide me answers as soon as they can (hopefully prior to 7 pm).

- How many people have reported rashes and do we have the locations documented anywhere?
- What is the current number of residents (not parcels) of people on the Flint water system?
- Does DHHS or DEQ have concerns with the rashes that are occurring?
  - Do either know what is causing the rashes and if so, what is the fix?

Thanks

**To:** MDEQ-ECC-IMT

**Subject:** Availability of GIS data on water

TO: MSP-SEOCGIS <[MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov)>

Question: Does MSP GIS have the City of Flint's (10) weekly and (15) quarterly water monitoring sites digitized? If so, are they available on the Flint Water AGOL site?

Priority: High

Thanks,

Jason Stephens

**Cc:** Katarsky, Anthony (MSP); Covey, Gabriel (MSP)  
**Subject:** RE: Daily Summary

I received clarification from Bryce Feighner and Liz Browne from DEQ and they have confirmed the level of participation for the sentinel monitoring program is set. With regard to the number of lead service lines needed, Mr. Feighner provided the following information:

“Based on their population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be “Tier 1” sites, and at least half of them must be lead service lines. We wanted all of the compliance sites to be lead service lines. We were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, we now know we will need to do some more searching to find even the minimum number of sites for compliance monitoring.”

**Subject:** RE: Daily Summary

Capt. Kelenske,

I just spoke to Mark Ducharme from MDEQ, the original information was from him at the local EOC. He said that 402 homes was the original number agreed upon to do outreach to for the Sentinel program. Of the 402 homes they have gone out to, 241 agreed to be part of the program, 17 declined, and 144 were not home. He is going to clarify the number of lead service homes that need to be part of the program and get us the information tomorrow.

**Cc:** Katarsky, Anthony (MSP); Covey, Gabriel (MSP)  
**Subject:** RE: Daily Summary  
**Importance:** High

Sorry but this came up on the call ...

- Sentinel outreach campaign statistics:
  - 402 homes were initially contacted for the program.
  - 241 households have agreed to be sentinel monitoring points for long-term water testing.
  - Identified 10 lead service lines.
  - 17 households declined to participate.

We need to get better info for the governor.

The above is confusing as we were told the 402 homes all agreed to be sights. The above indicates 241 agreed to be sample sights out of the 402. Is that correct?

Also, 17 of the 402 declined to participate initially?

Can we get more information and clearer information on the sentinel sights.

**Subject:** Daily Summary

Capt. Kelenske,

Below is summary event for the today. F/Lt. Covey asked me to pass this email along early for your 7:30 meeting. The Sit Rep is currently being finalized to send to Peter Manning. I will pass it along once has been published to MI CIMS.

**Update 2/14/16 – 41<sup>th</sup> Day (40<sup>th</sup> Full Day) After Governor's Declaration of an Emergency**

**Mission focus for the day:**

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

#### Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

#### Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

#### Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

#### Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
- JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

#### Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

#### Local EOC:

- Sentinel outreach campaign statistics:
  - 402 homes were initially contacted for the program.
  - 241 households have agreed to be sentinel monitoring points for long-term water testing.
  - Identified 10 lead service lines.

- 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

**Subject:** Schedule for SEOC

Hello All,

Below is the upcoming weeks schedule. Note that we will begin tapering back staffing starting next week.

Also, for DTMB staff supporting. We have been finding that the workload has dropped off pretty significantly. As such, we have removed this weekend's shifts. That said, we will still need assistance covering next weekend. But, with the current pace, we will only be requesting 2 – 8 hour shifts per week into the foreseeable future.

	2/15/2016	2/16/2016	2/17/2016	2/18/2016	2/19/2016	2/20/2016	2/21/2016	2/22/2016
	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday	Monday
Nikkia			12	8	8	12	8	
Walter	8	12	8	8	12			
Malysa	12	8	8	12	8			
Matt		8	12	8		8	12	
DTMB Staffing	Steven (12-8)	Josh (12-8)						
James	10	10	10	10			Interop	Interop

Please let me know if there are any issues.

**Subject:** Genesee County Parcel Data

Walter,

I checked on the AGOL and I don't see the full Genesee County parcel layer in my 3 groups: Flint Water Emergency, Lead Mapping Work Group, or the Published Water Emergency Maps.

If it's out there can you point me to it? Email would work too, or I could bring over a flash drive, if this data is shareable. Just let me know.

**Subject:** Full list of Residential Results for February 14 2016

This note is for Sunday, February 14, 2016 \*\*\*Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that approval\*\*\* There were changes in the report so if the webmaster could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 13, 2016 (posted February 14, 2016)" or something equivalent. ☺

**\*\*NOTE\*\*** No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 14 2016 Test Results Flint.xlsx

**Asset# 513925** – February 14 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 14 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 14 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

February 14 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

Data Summary for <i>Current Date</i>	Number	Percent		
Total number of samples:	9758			
At or below 15 ppb:	9105	93%	Above 15 ppb:	653
<5 ppb:	7980	82%		
5-15 ppb:	1,125	12%		
>15-30 ppb:	293	3.0%		
>30-100 ppb:	241	2.5%		
>100-150 ppb:	33	0.3%		
>150 ppb:	86	0.9%		

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Ronda**

AS OF **2/14/2016** AT 16:30 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

NOTE: There is a decrease in number of total residential parcels and total residential active water subscribers. There are 107 parcels that were originally classified as residential that were removed as they were identified as being right-of-way/easement that have been removed.

We are tracking **38,762** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38,349 (98.9%)** of the parcels have been engaged as part of response efforts
- **29,964 (77.3%)** (of the parcels have been confirmed have some form of filter
- **12,257 (31.6%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27,170** residential parcels that have the ability to use the Flint Water System. Of these

- **27,013 (99.4%)** of the parcels have been engaged as part of response efforts
- **24,016 (88.4%)** of the parcels have been confirmed have some form of filter
- **10,887 (40.1%)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

NOTE: There is a decrease in number of total residential parcels and total residential active water subscribers. There are 107 parcels that were originally classified as residential that were removed as they were identified as being right-of-way/easement that have been removed.

We are tracking **38,762** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38,349 (98.9%)** of the parcels have been engaged as part of response efforts
- **29,964 (77.3%)** (of the parcels have been confirmed have some form of filter
- **12,257 (31.6%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27,170** residential parcels that have the ability to use the Flint Water System. Of these

- **27,013 (99.4%)** of the parcels have been engaged as part of response efforts
- **24,016 (88.4%)** of the parcels have been confirmed have some form of filter

- 10,887 (40.1%) of the parcels have volunteered for water testing

Please let me know if you need anything else.

**Importance:** High

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

We identified a lot of right of ways that were included in the residential.

We used the EM Vacant field to flag them. We applied that to the definition query in the parcel pairing. Please implement anywhere parcels are used.

VR

James

**Subject:** Liquid Inc/State of Michigan GIS introduction

Hello Everyone,

I write to introduce Jacob Shidler and Doug White to the State of Michigan's GIS Group. The GIS Group is the entity which researches and vets new applications for possible use during disaster response and recovery.

GIS folks,

You'll find out more about Liquid through the link mentioned in the message below.

Doug and Jacob,

You now have the GIS Group's email address and can communicate with them directly.

Best regards,

Linda

SEOC Liaison, DR 806-16 Flint Water Crisis

Linda Dintenfass, PEM

**Date:** February 5, 2016 at 3:41:02 PM EST  
**To:** [loren.schanding@redcross.org](mailto:loren.schanding@redcross.org)  
**Cc:** Jacob Shidler <jacob@getliquid.io>  
**Subject:** Thank you so much for meeting with us (Doug and Jacob from Cincinnati)

Hi Loren. Thank you so much for taking some time to meet with us and explain what the Red Cross is doing in Flint. I hope your call with the airline was fruitful.

If it's OK with you, I (or someone in a decision making capacity from the church I mentioned) may follow up with you via email once I report back to them. Your insight and overview of what's going on in Flint was invaluable.

You had mentioned having a connection with researcher Linda Dintenfass as well as possibly having contacts at the Dept. of Environmental Quality, EPA or FEMA in Flint. Any names or email addresses you can pass along would be so greatly appreciated. We truly believe Liquid (<https://getliquid.io/>) would be a helpful resource.

Again, thanks for your time and help. Keep up the great, important work you are doing. It was a pleasure meeting you.

All the best,

Doug

**Sent:** Saturday, February 13, 2016 11:31 PM  
**To:** plangc; MSP-seocda1  
**Subject:** To do in the morning

GIS needs to provide the parcel information in the morning, this was not done yesterday. This needs to be sent to FEMA – reply all to the email that was sent last night with the daily summary information.

GIS needs to provide the lead and copper maps. Check with Capt or the State Dir. to see if he needs these in the morning. They were not provided in the daily summary email to Capt. because we did not have them.

**From:** MDEQ-TSGROUP  
**Sent:** Saturday, February 13, 2016 7:43 PM  
**To:** Colberg, Nicole (DNR)  
**Cc:** Krisztian, George (DEQ); Browne, Elizabeth (DEQ); MacKenzie-Taylor, Deb (DEQ); Page, Ronda (DEQ); Norton, Susan (DEQ)  
**Subject:** Full List of Residential Results for February 13, 2016

This note is for Friday, February 13, 2016 \*\*\*Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that approval\*\*\* There were changes in the report so if the webmaster could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 11, 2016 (posted February 13, 2016)" or something equivalent. ☺

**\*\*NOTE\*\*** No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is

separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 13 2016 Test Results Flint.xlsx

**Asset# 513925** – February 13 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 13 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 13 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

February 13 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

Data Summary for <i>Current Date</i>	Number	Percent		
Total number of samples:	9457			
At or below 15 ppb:	8823	93%	Above 15 ppb:	634
<5 ppb:	7722	82%		
5-15 ppb:	1101	12%		
>15-30 ppb:	285	3.0%		
>30-100 ppb:	234	2.5%		
>100-150 ppb:	31	0.3%		
>150 ppb:	84	0.9%		

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

Susan

## MSP-SEOCGIS

---

**From:** MSP-SEOC5  
**Sent:** Saturday, February 13, 2016 5:29 PM  
**To:** Diane Fodness  
**Cc:** plangc; MSP-SEOCGIS  
**Subject:** Water Team Plan for 2/14/16  
**Attachments:** 20160213\_Individual\_areas\_reduced.pdf; Active Water City of Flint with NO Contact Only.xlsx

Good Evening Diane,

I am attaching a listing of map and addresses that are City of Flint Residents, receiving City of Flint Water, and are listed as having NO Contact. There are currently 83 addresses in this list.

I have listed the addresses in order by Mapping Section and have attached updated maps just created a few hours ago.

You will only need to reference Maps: 4-9, 20, 22, 23, 25-29, 31, & 36.

*I will include this information in the Flint Water Response Plan for tomorrow.*

The best case scenario and absolute Preference is to use the iPads. It clears up the confusion of Directional Issues and ensure the EXACT address is entered into the GIS System, which will quickly clear up these continuous addresses of no contact. The pinpoint of location should be chosen on the iPad while the volunteer is on the actual parcel, not on the sidewalk, but on the actual parcel, best to be at the resident's door. It is also helpful to enter the address into the iPad in case there is any discrepancy to assist us in making determinations later. If the iPads are not used, it is very important that the EXACT Address is written on the Street Sheet and entered into the computer.

Very helpful. This list could remove over half of the addresses we have listed as being on Flint Water with NO Contact. Could you reach out to the other franchises (Flint Township, Mt. Morris, etc) that also pick up their cities filters/water?

*Good Morning Jay,*

Could you possibly get the addresses from Burton that they distribute these filters to? It may allow us to reduce the list we received from GIS.

Thanks,

Bridget Spencer

**To:** MSP\_SEOC5@michigan.gov; MSP-SEOCSDM; MSP-SEOCGIS  
**Cc:** Gardner-Gould, Seth  
**Subject:** "Non-Contacted" Flint Addresses

**Importance:** High

Good Afternoon,  
You'll find below the explanation I provided the Red Cross explaining why 186 addresses the Red Cross has visited are still showing up as "non-contacted."

The GIS group and Recovery branch did a superb job of explaining to me their data entry screens, data flow and processing.

Respectfully yours,  
Linda

**Subject:** Re: 180 list

Hi Everyone,  
1. Bridget Spencer will send the list of 193 addresses, which may be reduced to 186.

I met with GIS and Recovery (Bridget). They explained that an address will be removed from the list when the SEOC receives the complete address. If the team visited the parcel once or twice (or more) but didn't convey a complete address, it won't be removed from the list.

To ensure that the address they collect is complete, the WRT members should:

1. Walk on to the parcel. On the I-Pad, touch the parcel location, making sure the red dot location indicator is inside the parcel "box."
  2. Enter the complete address into the I-Pad (and other fields as appropriate).
- This 2 step process is the best way to deliver a complete address. If a team member is standing on the sidewalk when s/he touches the I-Pad, this may result in an incomplete address. If the team member only enters the address, it's easy to miss an element which will result in an incomplete or inaccurate address. The difference, for instance, between 123 Any Street; 123 S. Any Street; 123 N. Any Street, Flint; and 123 N. Any Street, Burton.

The master list the SEOC is working from is comprised of residential, active water customers. Accordingly, if there is doubt whether the residents are not home or the home is vacant, the teams should choose not home.

Team members' handwriting can be hard to read. This isn't an issue with the I-Pads.

The I-Pads may not function for long outside in extremely cold weather. In such conditions (today and tomorrow), the GIS team recommends keeping the I-Pads in the vehicles. A team member should touch and make sure the red dot location indicator appears inside the parcel "box" and not the sidewalk or street. Then, s/he should enter the other fields, including the complete address.

If the team can't walk onto the parcel, they should follow the process described above for very cold weather. They should add a remark in the comment section stating why they couldn't enter the parcel ("beware of dog" sign, for instance).

Seth, if this isn't as clear as it needs to be, please call me.

Thank you,  
Linda

Hey all –

Bridgit at the SEOC has also reached out directly to Diane in Ops. We have asked that this list of 193 be sent to Ops so that we can compare it to what we've done. Linda, can you connect with Bridgit?

We're confident that we have touched all the addresses that we've been sent via the state.

Cheryl – can you pass to Chris that we are working this with the state?

Thanks,  
Seth

**Subject:** 180 list

All,

Chris DeVriendt, Genesee Emergency Manager, is asking about a list of approximately 180 addresses that the "state" keeps telling him have not been touched. It is Chris' impression that list has been given to the Red Cross and we have been including them in our routes. His request is:

What is the status of these addresses?

How many times have we gone there?

Is it a vacant lot?

Does it visually appear vacant?

Is there a padlock on the door?

What happens to these notes if they are written on the street sheets?

Chris would like to get to the bottom of this list, as I'm sure we would, and define a way of removing addresses from the not touched list for whatever reason is deemed acceptable.

On a similar note, Chris would also like to get to clear up these same questions with the NCCC team list but has decided to take that up after the Southern Baptist Convention takes this over next week.

Thank you,

---

**From:** Kuzera, Michelle (MSP)  
**Sent:** Saturday, February 13, 2016 10:01 AM  
**To:** MSP-SEOCOPSC; MSP-SEOCSDM  
**Subject:** Communication Pathway Request

There was a request for a communication flow chart between all local, state, federal entities. This was entered into MI CIMS by Kathy Wahl and assigned to the UCG health liaison.

I don't believe that the UCG health liaison is the appropriate person to coordinate this request. This needs to be created (probably as a group coordinated with the UCG) in the SEOC. I know there have been some draft documents that kind of cover this and I assume this has been talked about in all the long term planning?

GCHD is probably just concerned with the health side but we need to make sure it fits in the overall picture of the entire event and all the facilities activated.

### Request/Task Assignment

**Sent:** Saturday, February 13, 2016 9:15 AM  
**To:** MSP-SEOCSDM  
**Cc:** MSP-SEOCGIS; MSP-SEOCGIS2  
**Subject:** Water Pressure Contour Map  
**Attachments:** MaxDayPressureContours.pdf; 20160204\_181119.jpg

Nat from the Governor's office requested this map. I was told Capt. Kelenske could forward it on from GIS.

This is the Water Pressure Contour Map that was requested. Please understand that it was digitized from a paper map and is therefore not perfect, but should provide a good idea of the pressure contours. Also the area where many lines converge is very messy on the map, and very hard to decipher. I have included the image that we had to work from for reference as well.

**Cc:** Browne, Elizabeth (DEQ); MacKenzie-Taylor, Deb (DEQ); Page, Ronda (DEQ)  
**Subject:** Full List of Residential Results for February 12, 2016

**This note is for Friday, February 12, 2016 \*\*\*Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that approval\*\*\* There were changes in the report so if the webmaster could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 11, 2016 (posted February 12, 2016)" or something equivalent. ☺**

**\*\*NOTE\*\* No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 12 2016 Test Results Flint.xlsx

**Asset# 513925** – February 12 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 12 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 12 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

February 12 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

Data Summary for Current Date	Number	Percent		
Total number of samples:	9264			
At or below 15 ppb:	8643	93%	Above 15 ppb:	621
<5 ppb:	7566	82%		
5-15 ppb:	1,077	12%		
>15-30 ppb:	277	3.0%		
>30-100 ppb:	229	2.5%		
>100-150 ppb:	31	0.3%		
>150 ppb:	84	0.9%		

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

Susan

Hi Jay,

See attached emails - they contain the electronic scans of the filter paperwork.

Regards,

Edward G Burger

Good Morning Ed,

Do you have a collection of addresses for the filters that have been distributed? If they're hard copy I can head over and pick them up, if they're electronic or can be scanned I can take them at this e-mail.

Thanks,  
Jay

Can someone follow up with Ed. He was tracking filters that he delivered. Not sure it matters now but we might as well collect what he has.

Yes we have about 30 done. A lot of people had already received one.  
We have the paperwork for those given out.

The truck never came. If the truck pallet jack has rubber wheels we can unload it to the transfer center really quick. If it doesn't the steel wheels will destroy the flooring at the transfer center. If you can find that out we will know whether we need volunteers to unload it.

Thanks

Ed

Ed,

Can I pick up these tracking sheets sometime?

We'd like to get these into our overall system.

Also, I was just informed that the truck broke down a few days ago and I don't believe you received the 10 pallets of water requested?

Hi Michelle,

I will have our East Flint Manager Dennis Maxheimer arrange for the pickup of the supplies today. Are the tracking sheets with the supplies?

Thanks,

Ed,

I have verified that all the supplies you need are set aside at GCCARD for you.

Can you please let me know when you plan on picking that up? It would be great if we could pick up the tracking sheets afterwards. We are compiling one large database of all the filters that have been delivered.

Hi Michelle,

Got it. Also confirming we will have two buses to assist at 8 am tomorrow.

Any questions don't hesitate to call.

Ed
